

Project FIRST

For the mother of the baby in your household.

If you are not the mother of the baby in your household, please have her fill out this questionnaire.

Dear Project FIRST Panel Member:

I am so happy to have you in the Project FIRST Panel. As you may recall, Project FIRST is a study by the Food and Drug Administration (FDA) about mom's real-life experiences of caring for and feeding babies in their first year. Your continued participation during your baby's first year is the key to the study's success.

As you will notice, some of these questions were asked on earlier questionnaires. This is because it is important for the FDA to get information all through the baby's first year of life, whether the information changes or not.

Please complete the questionnaire as soon as possible and return it in the envelope provided. I look forward to your response so that I can send you a gift!

Cordially,

Marie Brighton
