

A MESSAGE FROM THE CHIEF FINANCIAL OFFICER

As SSA's new Chief Financial Officer, I am pleased to report that the Social Security Administration (SSA) maintained its traditional high standards in financial management for fiscal year (FY) 2007. SSA received its 14th consecutive unqualified opinion on the consolidated financial statements from our independent auditors. The unqualified opinion attests to the fair presentation of SSA's financial statements, and demonstrates the discipline and accountability essential to our responsibilities as stewards of Social Security funds. We are also proud that SSA's FY 2006 Performance and Accountability Report received the Certificate of Excellence in Accountability Reporting from the Association of Government Accountants. This marks the 9th time SSA received the award, the only agency to do so every year since its inception.

I'm also pleased to report that SSA also received an unqualified opinion on its assertion on the effectiveness of internal control over financial reporting, with no material weaknesses or reportable conditions. We are pleased that our management assurance statement affirms, with reasonable assurance, that internal control over financial reporting was operating effectively as of year end. At SSA, we take our duty of sound fiscal vigilance very seriously and we are committed to upholding the public's trust in the integrity of our programs.

During FY 2007, SSA built upon the control assessment program that was developed to meet the requirements of Appendix A to OMB Circular A-123, *Management's Responsibility for Internal Controls*, by refining the key controls in the financial reporting process and enhancing the documentation supporting the process. One of the benefits of this program has been the attention that internal controls receive throughout all of SSA, which in turn is manifested in a smoother audit process.

In FY 2007, SSA maintained its "green" score for both status and progress on the President's Management Agenda Improved Financial Performance initiative. SSA continues to integrate new features into its financial accounting system, the Social Security Online Accounting and Reporting System (SSOARS), to enhance functionality. Throughout FY 2007, we integrated additional financial systems with SSOARS to provide real-time access to validate accounting information and fund availability. We are also engaged in implementing an improved cost accounting system which will provide more user-friendly access to information necessary to manage and account for resources.

SSA is committed to maintaining constant vigilance over financial reporting, and we are proud of our history of responsibly managing the programs entrusted to us. We will continue to uphold the highest standards of integrity in discharging our fiduciary responsibilities.

I want to acknowledge the efforts of the many SSA employees who contribute to our goal of providing timely and reliable information to Congress and the public. Their hard work and devotion make it possible to fulfill the SSA mission of advancing the economic security of our nation's people.

A handwritten signature in cursive script that reads "Mary Glenn-Croft".

Mary E. Glenn-Croft
Chief Financial Officer
November 7, 2007

FINANCIAL STATEMENTS AND ADDITIONAL INFORMATION

The Agency's financial statements and additional information for fiscal years (FY) 2007 and 2006 consist of the following:

- The **Consolidated Balance Sheets** present as of September 30, 2007 and 2006, amounts of economic benefits owned or managed by the Social Security Administration (SSA) (assets) exclusive of items subject to stewardship reporting, amounts owed by SSA (liabilities), and residual amounts retained by SSA, comprising the difference (net position). A Balance Sheet by Major Program is provided as additional information.
- The **Consolidated Statements of Net Cost** present the net cost of operations for the years ended September 30, 2007 and 2006. SSA's net cost of operations includes the gross costs incurred less any exchange revenue earned from activities presented by SSA's major programs. By disclosing the gross cost and net cost of the entity's programs, the Consolidated Statements of Net Cost provide information that can be related to the outputs and outcomes of programs and activities. A Schedule of Net Cost is provided to show the components of net cost activity as additional information.
- The **Consolidated Statements of Changes in Net Position** present the change in net position for the years ended September 30, 2007 and 2006. Net position is affected by changes to its two components: Cumulative Results of Operations and Unexpended Appropriations. The statement format is designed to display both components of net position separately to enable the user to better understand the nature of changes to net position as a whole. A Schedule of Changes in Net Position is provided to present the change in net position by major programs as additional information.
- The **Combined Statements of Budgetary Resources** present the budgetary resources available to SSA, the status of these resources, and the outlay of budgetary resources for the years ended September 30, 2007 and 2006. An additional Schedule of Budgetary Resources is provided as Required Supplementary Information to present budgetary resources by major programs.
- The **Statement of Social Insurance** presents the actuarial present value for the 75-year projection period of the Old-Age and Survivors Insurance (OASI) and Disability Insurance (DI) future income and cost expected to arise from the formulas specified in current law for current and future program participants. The difference between these values is presented, both including and excluding the value of the combined OASI and DI Trust Fund assets at the beginning of the period, in order to provide an indication of the program's financial status.
- The **Required Supplementary Information: Social Insurance** presents required long-range cashflow projections, the long-range projections of the ratio of contributors to beneficiaries (dependency ratio), and the sensitivity analysis illustrating the effect of the changes in the most significant assumptions on the actuarial projections and present values. The financial and actuarial disclosures are accompanied by a narrative describing the program, how it is financed, how benefits are calculated and an interpretive analysis of trends revealed by the data.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED SEPTEMBER 30, 2007 AND 2006

(Presented in Millions)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Social Security Administration (SSA), as an independent agency in the executive branch of the United States Government, is responsible for administering the nation's Old-Age and Survivors and Disability Insurance (OASDI) programs and the Supplemental Security Income (SSI) program. SSA is considered a separate reporting entity for financial reporting purposes, and its financial statements have been prepared to report the financial position, net cost, changes in net position, budgetary resources and the actuarial present value for the 75-year projection period for Social Insurance as required by the Office of Management and Budget (OMB) in OMB Circular A-136 *Financial Reporting Requirements*.

Prior to June 2007 the financial statements included a Statement of Financing, the reconciliation of net cost to budgetary resources. In conformance with new regulations effective June 2007, this reconciliation is included in the accompanying footnotes. Refer to Note 16, Reconciliation of Net Cost of Operations to Budget.

The financial statements have been prepared from the accounting records of SSA on an accrual basis, in conformity with generally accepted accounting principles (GAAP) of the United States of America and the form and content for entity financial statements specified by OMB in Circular A-136. GAAP for Federal entities are the standards prescribed by the Federal Accounting Standards Advisory Board (FASAB). The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The consolidated and combined financial statements include the accounts of all funds under SSA control, consisting primarily of the Old Age and Survivors Insurance (OASI) and Disability Insurance (DI) Trust Funds, SSA's Limitation on Administrative Expenses (LAE), three deposit funds and four general fund appropriations. LAE is a mechanism to allow SSA to fund its administrative operations and is considered a subset of the OASI and DI Trust Funds. The three deposit funds are the SSI Unnegotiated Checks, SSI Payments, and Payments for Information Furnished by SSA. The four general funds are the Office of the Inspector General (OIG), Payments to Social Security Trust Funds (PTF), SSI Program and Payments for Credits Against Social Security Contributions. SSA's financial statements also include OASI and DI investment activities performed by Treasury. SSA's financial activity has been classified and reported by the following program areas: OASI, DI, SSI, LAE and Other. Other consists primarily of PTF appropriations but also contains non-material activities.

FUND BALANCE WITH TREASURY

SSA's Fund Balance with Treasury, shown on the Consolidated Balance Sheets, is the aggregate amount of funds in SSA's accounts with the Department of the Treasury for which SSA is authorized to make expenditures and pay liabilities. Refer to Note 4, Fund Balance with Treasury.

INVESTMENTS

Daily deposits received by the OASI and DI Trust Funds which are not required to meet current expenditures are invested in interest-bearing obligations of the U.S. Government. The OASI and DI Trust Fund balances may be invested only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States as provided by Section 201(d) of the *Social Security Act*. These investments

consist of U.S. Treasury special issue bonds. Special issue bonds are special public debt obligations for purchase exclusively by the OASI and DI Trust Funds; therefore, they are non-marketable securities. Interest is computed semi-annually (June and December). They are purchased and redeemed at face value, which is the same as their carrying value on the Consolidated Balance Sheets.

PROPERTY, PLANT AND EQUIPMENT

SSA's property, plant and equipment (PP&E) are recorded in the LAE program, but represents the capital assets purchased by the OASI, DI, Health Insurance (HI) and Supplemental Medical Insurance (SMI) Trust Funds. HI/SMI's share of capital assets is considered Non-Entity Assets. User charges are allocated to all programs based on each program's use of capital assets during the period. All general fund activities reimburse the OASI and DI Trust Funds for their use of OASI and DI Trust Fund assets through the calculation of user charge credits. Statement of Federal Financial Accounting Standard (SFFAS) No. 10, Accounting for Internal Use Software requires the capitalization of internally-developed, contractor-developed and commercial off-the-shelf (COTS) software. The capitalization threshold for most PP&E categories is \$100 thousand. Automated Data Processing and Telecommunications Site Preparation, buildings and other structures are capitalized with no threshold.

The change in PP&E from one reporting period to the next is presented on the chart in Note 16, Reconciliation of Net Cost of Operations to Budget on the Resources that Finance the Acquisition of Assets line. This line item represents the capital assets purchased by the OASI, DI, and HI/SMI Trust Funds that effect budgetary obligations. However, HI/SMI's share of capital assets is considered Non-Entity Assets.

BENEFITS DUE AND PAYABLE

Liabilities are accrued for OASI and DI benefits due for the month of September which, by statute, are not paid until October. Also, liabilities are accrued on benefits for past periods that have not completed processing by the close of the fiscal year, such as benefit payments due but not paid pending receipt of a correct address, adjudicated and unadjudicated hearings and appeals and civil litigation cases. Refer to Note 8, Liabilities.

BENEFIT PAYMENTS

SSA recognizes the cost associated with payments in the period the beneficiary or recipient is entitled to receive the payment. OASI and DI benefit disbursements are generally made after the end of each month. SSI disbursements are generally made on the first day of each month. By law, if the monthly disbursement date falls on a weekend or a Federally recognized holiday, SSA is required to accelerate the entitlement date and the disbursement date to the preceding business day.

ADMINISTRATIVE EXPENSES AND OBLIGATIONS

SSA initially charges administrative expenses to the LAE appropriation. Section 201 (g) of the *Social Security Act* requires the Commissioner of Social Security to determine the proper share of costs incurred during the fiscal year to be charged to the appropriate fund. Accordingly, administrative expenses are subsequently distributed during each month to the appropriate OASI, DI, HI and SMI Trust Fund and general fund accounts. All such distributions are initially made on an estimated basis and adjusted to actual each year, as provided for in Section 1534 of Title 31, United States Code.

Obligations are incurred in the LAE accounts as activity is processed. Obligations are incurred in each of the financing sources (OASI, DI, SSI, and Other) once LAE's authority is recorded. Since LAE is reported with its financing sources (other than the HI/SMI Trust Funds) on the Combined Statements of Budgetary Resources, and this statement does not allow eliminations, LAE's obligations are recorded twice. This is in compliance with OMB's directive to have the Combined Statement of Budgetary Resources in agreement with the required Budget Execution Reports (SF-133).

RECOGNITION OF FINANCING SOURCES

Financing sources consist of funds transferred from the U.S. Treasury to the OASI and DI Trust Funds for employment taxes (Federal Insurance Contributions Act (FICA) and Self Employment Contributions Act (SECA)), drawdown of funds for benefit entitlement payments and administrative expenses, appropriations, gifts and other miscellaneous receipts. On an as-needed basis, funds are drawn from the OASI and DI Trust Funds to cover benefit payments. As governed by limitations determined annually by the U.S. Congress, funds are also drawn from the OASI and DI Trust Funds for SSA's operating expenses. To cover SSA's costs to administer a portion of the Medicare program, funds are drawn from the HI/SMI Trust Funds.

Appropriations Used includes payments and accruals for the SSI program and for the OIG and PTF appropriations, which are funded from Treasury's General Fund.

Employment tax revenues are made available daily based on a quarterly estimate of the amount of FICA taxes payable by employers and SECA taxes payable from the self-employed. Adjustments are made to the estimates for actual taxes payable and refunds made. Employment tax credits (the difference between the combined employee and employer rate and the self-employed rate) are also included in tax revenues. Refer to Note 13, Tax Revenues.

Exchange revenue from sales of goods and services primarily include payments of fees SSA receives from those States choosing to have SSA administer their State supplementation of Federal SSI benefits. Refer to Note 11, Exchange Revenues. Reimbursements are recognized as the services are performed. These financing sources may be used to pay for current operating expenses as well as for capital expenditures such as PP&E as specified by law.

Capitalized expenditures are recognized in the Combined Statements of Net Cost as they are consumed. In contrast, budget reporting recognizes these same financing sources in the year the obligation was established to purchase the asset.

EARMARKED FUNDS

SFFAS No. 27, *Identifying and Reporting Earmarked Funds* requires separate presentation and disclosure of earmarked funds balances in the financial statements. Earmarked funds are financed by specifically identified revenues, often supplemented by other financing sources, which remain available over time. Earmarked funds meet the following criteria:

- A statute committing the Federal Government to use specifically identified revenues and other financing sources only for designated activities, benefits or purposes;
- Explicit authority for the earmarked fund to retain revenues and other financing sources not used in the current period for future use to finance the designated activities, benefits, or purposes; and
- A requirement to account for and report on the receipt, use, and retention of the revenues and other financing sources that distinguishes the earmarked fund from the Government's general revenues.

SSA's earmarked funds are the OASI and DI Trust Funds, PTF and fees collected to cover a portion of SSA's administrative costs for SSI State Supplementation. Refer to Note 9, Earmarked Funds, for additional information.

2. CENTRALIZED FEDERAL FINANCING ACTIVITIES

SSA's financial activities interact with and are dependent on the financial activities of the centralized management functions of the Federal Government that are undertaken for the benefit of the whole Federal Government. These activities include public debt, employee retirement, life insurance and health benefit programs. However, SSA's financial statements do not contain the results of centralized financial decisions and activities performed for the benefit of the entire Government.

Financing for general fund appropriations reported on the Consolidated Statements of Changes in Net Position may be from tax revenue, public borrowing or both. The source of this funding, whether tax revenue or public borrowing, has not been allocated to SSA.

The General Services Administration (GSA), using monies provided from the OASI and DI Trust Funds, administers the construction or purchase of buildings on SSA's behalf. The acquisition costs of these buildings have been charged to the OASI and DI Trust Funds, capitalized and included in these statements. SSA also occupies buildings that have been leased by GSA or have been constructed using Public Building Funds. These statements reflect SSA's payments to GSA for lease, operations maintenance and depreciation expenses associated with these buildings.

SSA's employees participate in the contributory Civil Service Retirement System (CSRS) or the Federal Employees' Retirement System (FERS), to which SSA makes matching contributions. Pursuant to Public Law 99-335, FERS went into effect on January 1, 1987. Employees hired after December 31, 1983 are automatically covered by FERS while employees hired prior to that date could elect to either join FERS or remain in CSRS.

SSA contributions to CSRS were \$112 and \$115 million for the years ended September 30, 2007 and 2006. SSA contributions to the basic FERS plan were \$273 and \$247 million for the years ended September 30, 2007 and 2006. One of the primary differences between FERS and CSRS is that FERS offers a savings plan to which SSA is required to contribute 1 percent of pay and match employee contributions up to an additional 4 percent of basic pay. SSA contributions to the FERS savings plan were \$100 and \$89 million for the years ended September 30, 2007 and 2006. These statements do not reflect CSRS or FERS assets or accumulated plan benefits applicable to SSA employees since this data is only reported in total by the Office of Personnel Management.

3. NON-ENTITY ASSETS

Non-entity assets are those assets that are held by an entity, but are not available to the entity. SSA's Non-Entity Assets are \$6,423 and \$6,331 million as of September 30, 2007 and 2006. The Non-Entity Assets are composed of (1) SSI Federal and State benefit overpayments classified as SSI accounts receivable, (2) SSI overpayments collected, (3) General Fund's portion of fees collected to administer SSI State Supplementation, (4) General Fund's portion of fees collected to administer Title VIII State Supplementation, (5) SSI Attorney fees that are returned to the Department of the Treasury General Fund and (6) portions of SSA's PP&E that were purchased with HI/SMI funds.

The SSI receivable amounts included as a part of Accounts Receivable, Net on the Consolidated Balance Sheets are \$3,500 and \$3,285 million as of September 30, 2007 and 2006. The SSI accounts receivable, net has been reduced by \$1,623 and \$1,955 million for FY 2007 and 2006 respectively as intra-agency elimination. SSI Federal overpayment collections included as a part of the Fund Balance with Treasury on the Consolidated Balance Sheets are \$2,757 and \$2,905 million as of September 30, 2007 and 2006. FY 1991 Appropriations Act, Public Law 101-157, requires that collections from repayment of SSI Federal benefit overpayments be deposited in the Department of the Treasury General Fund. These funds, upon deposit, are assets of the Department of the Treasury General Fund and shall not be used by SSA as a SSI budgetary resource to pay SSI benefits or administrative costs. Accordingly, SSI accounts receivable and overpayment collections are recognized as non-entity assets. SSI State overpayment collections are used to offset reimbursements due from the States to SSA.

The Fund Balance with Treasury includes the General Fund's portion of fees collected to administer SSI State Supplementation in the amount of \$127 and \$137 million as of September 30, 2007 and 2006. The fee collection is classified as exchange revenue. Refer to Note 11, Exchange Revenues, for a description of the SSI State Administrative fees. In addition, the General Fund's cumulative portion of fees related to Title VIII State Supplementation and SSI Attorney fees totaled \$5 and \$4 million as of September 30, 2007 and 2006.

4. FUND BALANCE WITH TREASURY

The Fund Balance with Treasury (FBWT), shown on the Consolidated Balance Sheets, represents the total of all of SSA's undisbursed account balances with the Department of the Treasury. Chart 4a, Fund Balances, summarizes the fund balances by fund type and by SSA major program. Other Appropriated Funds includes PTF, deposit funds, and receipt accounts. Chart 4b, Status of Fund Balances, presents SSA's Fund Balance with Treasury through the status of budgetary resources. OASI, DI, and LAE Trust Fund budgetary accounts are not used in chart 4b since OASI and DI Trust Fund cash balances are held in investments until needed and will not match the Fund Balance with Treasury. This means that amounts in chart 4b will not match corresponding activity on the combined SBR.

Chart 4a - Fund Balances as of September 30: (\$ in millions)			Chart 4b - Status of Fund Balances as of September 30: (\$ in millions)		
	2007	2006		2007	2006
Trust Funds*			Unobligated Balance		
OASI	\$ (941)	\$ (795)	Available	\$ 2,481	\$ 1,226
DI	(361)	(348)	Unavailable	76	64
LAE	9	71			
General Funds			Obligated Balance Not Yet		
SSI	4,445	2,725	Disbursed	1,948	1,495
Other	60	60	OASI, DI and LAE	(1,293)	(1,072)
Other Funds			Non-Budgetary FBWT	2,934	3,065
SSI	174	155	Total	\$ 6,146	\$ 4,778
Other	2,760	2,910			
Total	\$ 6,146	\$ 4,778			

*The phrase "Trust Funds" is being used as the fund type as defined by OMB.

The negative fund balances reported for the OASI and DI Trust Funds as of September 30, 2007 and 2006 are the result of the policy to protect the OASI and DI Trust Fund investments by not liquidating the investments until the cash is needed. Transfers between the OASI and DI Trust Funds and Treasury are managed to favor the financial position of the OASI and DI Trust Funds. Therefore, investments held by the OASI and DI Trust Funds are liquidated only as needed by Treasury to cover benefit and administrative payments. To maintain consistency with the amounts reported by Treasury for OASI and DI, the negative balances were not reclassified as liabilities on the Consolidated Balance Sheets.

5. INVESTMENTS

The cash receipts collected from the public for the OASI and DI Trust Funds are invested in interest bearing securities backed by the full faith and credit of the Federal government, generally U.S. par-value Treasury special securities. Treasury special securities are issued directly by the Treasury Secretary to the OASI and DI Trust Funds and are non-negotiable and non-transferable in the secondary market. Par-value Treasury special securities are issued with a stated rate of interest applied to its par amount and are purchased and redeemed at par plus accrued interest at or before maturity. The interest rates on these investments range from 3 1/2 percent to 7 1/4 percent and are payable on June 30, December 31, and at maturity or redemption. Investments held for the OASI and DI Trust

Funds mature at various dates ranging from the present to the year 2022. SSA's investments in Special Issue U.S. Treasury Securities are \$2,182,091 and \$1,995,307 million as of September 30, 2007 and 2006 respectively.

Treasury special securities are an asset to the OASI and DI Trust Funds and a liability to the U.S. Treasury. Because the OASI and DI Trust Funds and the U.S. Treasury are both part of the Government, these assets and liabilities offset each other for consolidation purposes in the U.S. Government-wide financial statements. For this reason, they do not represent a net asset or a net liability in the U.S. Government-wide financial statements.

The U.S. Treasury does not set aside financial assets to cover its liabilities associated with the OASI and DI Trust Funds. The cash received from the OASI and DI Trust Funds for investment in these securities is used by the U.S. Treasury for general Government purposes. Treasury special securities provide the OASI and DI Trust Funds with authority to draw upon the U.S. Treasury to make future benefit payments or other expenditures. When the OASI and DI Trust Funds require redemption of these securities to make expenditures, the Government finances those expenditures out of accumulated cash balances, by raising taxes or other receipts, by borrowing from the public or repaying less debt, or by curtailing other expenditures. This is the same way that the Government finances all other expenditures.

6. INTEREST AND ACCOUNTS RECEIVABLE

INTEREST RECEIVABLE

Intragovernmental Interest Receivable, Net reported on the Consolidated Balance Sheets consists of accrued interest receivable on the OASI and DI Trust Fund investments with the U.S. Treasury. Interest receivable amounts are \$27,727 and \$25,631 million as of September 30, 2007 and 2006.

ACCOUNTS RECEIVABLE

Intragovernmental

Intragovernmental Accounts Receivable, Net reported on the Consolidated Balance Sheets in the amounts of \$451 and \$536 million as of September 30, 2007 and 2006 primarily represent amounts to be paid from the HI/SMI Trust Funds to the LAE Appropriation. The LAE gross accounts receivable has been reduced by \$1,844 and \$1,538 million as of September 30, 2007 and 2006 as an intra-agency elimination. This elimination is to offset SSA's LAE receivable to be paid from the appropriate fund with corresponding payables set up for anticipated LAE disbursements.

An allowance for doubtful accounts was not applied to determine the net value of Intragovernmental Accounts Receivable. According to SFFAS No. 1, an allowance for estimated uncollectible amounts should be recognized to reduce the gross amount of receivables to its net realizable value; however, no potential losses have been assessed on intragovernmental receivables based on individual account and group analysis.

With the Public

Accounts Receivable, Net reported on the Consolidated Balance Sheets is shown by SSA major program in Chart 6. Amounts in the OASI and DI programs consist mainly of monies due to SSA from individuals who received benefits in excess of their entitlement. The amount of SSI Accounts Receivable represents overpaid Federal and State SSI payments to be recovered from SSI recipients who are no longer eligible to receive supplemental income or receive benefits in excess of their eligibility. Refer to Note 3, Non-Entity Assets, for a discussion of the SSI Federal and State overpayments.

Chart 6 - Accounts Receivable with the Public by Major Program as of September 30:
(\$ in millions)

	2007			2006		
	Gross Receivable	Allowance for Doubtful Accounts	Net Receivable	Gross Receivable	Allowance for Doubtful Accounts	Net Receivable
OASI	\$ 2,498	\$ (166)	\$ 2,332	\$ 2,238	\$ (126)	\$ 2,112
DI	4,735	(1,955)	2,780	4,378	(1,492)	2,886
SSI*	7,005	(1,781)	5,224	7,032	(1,722)	5,310
LAE	14	0	14	15	0	15
Subtotal	14,252	(3,902)	10,350	13,663	(3,340)	10,323
Less:						
Eliminations**	(2,333)	0	(2,333)	(2,669)	0	(2,669)
Total	\$ 11,919	\$ (3,902)	\$ 8,017	\$ 10,994	\$ (3,340)	\$ 7,654

*See Discussion in Note 3, Non-Entity Assets ** Intra-Agency Eliminations

Chart 6 shows that in FY 2007 and 2006, gross accounts receivable was reduced by \$2,333 and \$2,669 million as an intra-agency elimination. This intra-agency activity results primarily from Special Disability Workloads (SDW) cases. In a prior period, SSA determined that a group of SSI recipients who were eligible to receive DI benefits were paid either SSI or OASI benefits. At that time, the agency recognized and established receivables from both the OASI and SSI programs with an offsetting payable in the DI program.

SSA continues to identify and settle SDW cases and current estimates indicate that there are about 78,000 SDW cases remaining for which SSA expects to incur a net accrued liability for the combined OASI and DI Trust Funds and an offsetting SSI receivable. OASI SDW receivables are \$710 and \$714 million as of September 30, 2007 and 2006. DI SDW receivables are less than \$1 million as of September 30, 2007 and 2006. SSI SDW net receivables are \$1,218 and \$1,688 million as of September 30, 2007 and 2006.

A ratio of the estimated allowance for doubtful accounts is recalculated annually using a moving 5-year average of write-offs divided by clearances comprised of write-offs, waivers, and collections. The ratio is then applied to outstanding receivables to compute the amount of allowances for doubtful accounts.

7. PROPERTY, PLANT AND EQUIPMENT

Property, Plant and Equipment, Net as reported on the Consolidated Balance Sheets is reflected by major class in chart 7.

Chart 7 - Property, Plant and Equipment as of September 30:
(\$ in millions)

Major Classes:	2007			2006		
	Cost	Accumulated Depreciation	Net Book Value	Cost	Accumulated Depreciation	Net Book Value
Land	\$ 4	\$ 0	\$ 4	\$ 4	\$ 0	\$ 4

Total	\$ 3,569	\$ (1,677)	\$ 1,892	\$ 2,965	\$ (1,324)	\$ 1,641

Major Classes:	Estimated Useful Life	Method of Depreciation
Land	N/A	N/A
Buildings	50 years	Straight Line
Equipment (incl. ADP Hardware)	3-10 years	Straight Line
Internal Use Software	10 years	Straight Line
Leasehold Improvements	6 years	Straight Line

8. LIABILITIES

Liabilities of Federal agencies are classified as liabilities Covered or Not Covered by budgetary resources and are recognized when they are incurred. Chart 8a discloses SSA's liabilities Covered by budgetary resources and Not Covered by budgetary resources.

Chart 8a - Liabilities as of September 30:
(\$ in millions)

	2007			2006		
	Covered	Not Covered	Total	Covered	Not Covered	Total
Intragovernmental:						
Accrued RRI	\$ 3,802	\$ 0	\$ 3,802	\$ 3,754	\$ 0	\$ 3,754
Accounts Payable	38	7,750	7,788	1	8,032	8,033
Other	40	55	95	39	54	93
Total Intragovernmental	3,880	7,805	11,685	3,794	8,086	11,880
Benefits Due and Payable	66,924	3,014	69,938	63,475	2,629	66,104
Accounts Payable	16	356	372	(62)	326	264
Other	644	619	1,263	278	595	873
Total	\$ 71,464	\$ 11,794	\$ 83,258	\$ 67,485	\$ 11,636	\$ 79,121

ACCRUED RAILROAD RETIREMENT INTERCHANGE

The Accrued Railroad Retirement Interchange (RRI) represents an accrued liability due the Railroad Retirement Board (RRB) for the annual interchange from the OASI and DI Trust Funds. This annual interchange is required to place the OASI and DI Trust Funds in the same position they would have been if railroad employment had been covered by SSA. The law requires the transfer, including interest accrued from the end of the preceding fiscal year, to be made in June.

INTRAGOVERNMENTAL ACCOUNTS PAYABLE

Included in the Intragovernmental Accounts Payable Not Covered by budgetary resources are amounts due to the Department of the Treasury General Fund. A payable is recorded equal to the SSI Federal benefit overpayments receivable when overpayments are identified and for the SSI Federal benefit overpayment collections as they are received. Refer to Note 3, Non-Entity Assets for a description of the SSI receivables established for the repayment of SSI benefit overpayments. Also included in the Not Covered Intragovernmental Accounts Payable amount are \$127 and \$137 million as of September 30, 2007 and 2006 for SSI State Fees payable to the Department of the Treasury General Fund. Refer to Note 3, Non-Entity Assets and Note 11, Exchange Revenues, for a discussion of the SSI State Administrative Fees.

INTRAGOVERNMENTAL OTHER LIABILITIES

Intragovernmental Other Liabilities Covered by budgetary resources includes amounts for employer contributions and payroll taxes and amounts advanced by Federal agencies for goods and services to be furnished. It also includes amounts for the Federal Employees' Compensation Act (FECA), administered by DOL. FECA provides income and medical cost protection to covered Federal civilian employees injured on the job, employees who have incurred a work-related injury or occupational disease and beneficiaries of employees whose death is attributable to a job-related injury or occupational disease. For payment purposes, claims incurred for benefits for SSA employees under FECA are divided into current and non-current portions. The current portion represents SSA's accrued liability due to DOL's FECA Special Benefits Fund for payments made on SSA's behalf. The funding for the liability will be made from a future appropriation. SSA's current portion of FECA liability is \$55 and \$54 million as of September 30, 2007 and 2006.

BENEFITS DUE AND PAYABLE

Benefits Due and Payable are amounts owed to program recipients that have not yet been paid as of the balance sheet date. Chart 8b shows the amounts for SSA's major programs as of September 30, 2007 and 2006. These amounts include an estimate for unadjudicated cases that will be payable in the future. Except for the SSI program, the unadjudicated cases are covered by budgetary resources.

Chart 8b - Benefits Due and Payable as of September 30: (\$ in millions)		
	2007	2006
OASI	\$ 44,030	\$ 41,677
DI	24,017	23,611
SSI	4,224	3,485
Subtotal	72,271	68,773
Less: Intra-agency eliminations	(2,333)	(2,669)
Total	\$ 69,938	\$ 66,104

The amounts of Benefits Due and Payable for OASI and DI presented in Chart 8b also includes estimated payables related to SDW. Refer to Note 6, Interest and Accounts Receivable. OASI payables are \$325 and \$329 million as of September 30, 2007 and 2006. DI payables are \$2,869 and \$3,500 million as of September 30, 2007 and 2006. In FY 2007, the OASI and DI net payables have decreased by the excess of discharged liabilities for adjudicated cases over continued benefit accrual for previously identified cases not yet adjudicated.

Chart 8b also shows that as of FY 2007 and 2006, gross Benefits Due and Payable was reduced by \$2,333 and \$2,669 million as an intra-agency elimination. This intra-agency activity results primarily from SDW cases. Refer to Note 6, Interest and Accounts Receivable. Since retroactive payment of the OASI and DI benefits results in an overpayment of SSI benefits, the OASI and DI payables are offset by the SSI overpayment related to SDW. Therefore, these offsets are presented as intra-agency elimination.

Chart 8c shows the estimated net SDW liability due to the public as of September 30, 2007 and 2006.

Chart 8c - Net SDW Liability as of September 30: (\$ in millions)		
	2007	2006
Net DI Liability	\$ 2,869	\$ 3,500
Net OASI Receivable	(384)	(385)
Net SSI Receivable	(1,218)	(1,688)
Net Liability Due to the Public	\$ 1,267	\$ 1,427

ACCOUNTS PAYABLE

Accounts Payable Not Covered by budgetary resources consists of SSI overpayments due to States and the SSI windfall amounts. States are entitled to any overpayment that SSA expects to collect since they make the actual payments to the beneficiaries. SSI windfall amounts are generated when a SSI recipient is found to be eligible for OASI or DI benefits. Any overlapping payments to the beneficiary made by OASI or DI are paid back to the SSI program, creating the windfall amount. This windfall amount, like the state overpayment is set up as an accounts payable until payment is made to the states.

OTHER LIABILITIES

SSA's Other Liabilities Covered by budgetary resources is comprised of accrued payroll, lease liability for purchase contract buildings and unapplied deposit funds. Other Liabilities Not Covered by budgetary resources includes the non-current portion of FECA, which is an actuarial liability. The non-current portion of \$272 and \$275 million as of September 30, 2007 and 2006 represents the expected liability from FECA claims for the next 23 year period. This actuarial liability was calculated using historical payment data to project future costs. The remaining portion of Other Liabilities Not Covered by budgetary resources is leave earned but not taken.

CONTINGENT LIABILITIES

We have been apprised by the Internal Revenue Service (IRS) that twelve employment tax refund cases are pending in Federal courts throughout the country. The cases concern whether medical residents should continue to be subject to FICA taxation. FICA taxes are collected by the U.S. Treasury and then transferred to the OASI and DI Trust Funds. The cases concern two different IRS regulations, have led to disparate outcomes for the Government in the various courts on the question of medical resident taxation, and are being actively litigated and appealed. The Government is contesting the cases vigorously. The Department of Justice (Tax Division) is handling the litigation and SSA is not a named party. SSA is not able to make an estimate of the possible liability, if any, at this time.

9. EARMARKED FUNDS

The OASI and DI Trust Funds, PTF and SSI State Administrative Fees are classified as earmarked funds. These funds obtain revenues primarily through earmarked receipts, such as Social Security payroll taxes, and, to a lesser extent, offsetting collections.

OASI AND DI TRUST FUNDS

The OASI Trust Fund provides assistance and protection against loss of earnings due to retirement or death and the DI Trust Fund provides assistance and protection against the loss of earnings due to a wage earner's disability in the form of monetary payments.

The OASI and DI Trust Funds are primarily funded by payroll and self-employment taxes. Additional income is provided to these funds from interest earnings on Treasury securities, Federal agencies' payments for the Social Security benefits earned by military and Federal civilian employees, and Treasury payments for a portion of income taxes paid on Social Security. The law establishing the OASI and DI Trust Funds is set forth in 42 U.S.C. § 401. Refer to Note 13, Tax Revenues for a discussion on employment taxes credited to the OASI and DI Trust Funds and Note 6, Interest and Accounts Receivable for a discussion on interest.

Funds not withdrawn for current expenses (benefits, the financial interchange with the Railroad Retirement program, and administrative expenses) are invested in interest-bearing Federal securities, as required by law. See Note 5, Investments for a discussion on Treasury securities.

PTF

PTF consist of transfers authorized by law between the Department of Treasury General Fund and the OASI and DI Trust Funds. PTF activity includes Income tax on Social Security Benefits, Reimbursable Union Activity, Coal Industry Retiree Health Benefits, Pension Reform, Special Age 72 Benefits, Income Tax Credit Reimbursement and Unnegotiated Check Reimbursement. PTF funds are warranted from the general fund and transferred to the OASI and DI Trust Funds via an intragovernmental transfer. These transfers are to be reserved for specific purposes in the future. Because of this, PTF is considered earmarked from the point that it is transferred into SSA and reported as Appropriations Received on the Statement of Changes in Net Position.

SSI STATE ADMINISTRATIVE FEES

Administrative Fees collected from state SSI are also classified as earmarked funds. Section 1616.42 U.S.C authorizes the Commissioner of Social Security to assess each state an administrative fee in an amount equal to the number of Supplemental payments made by SSA on behalf of the state for any month in a fiscal year, multiplied by the applicable rate for the fiscal year. See Note 11, Exchange Revenues, for a discussion of SSI State Administrative Fees.

See Charts 9a for balances of earmarked funds as reported in the Consolidated Financial Statements for the years ended September 30, 2007 and 2006.

Chart 9a includes eliminations between SSA's earmarked funds which primarily represent eliminations for SDW activity between the OASI and DI Trust Funds; however, \$2,785 million of liabilities in the earmarked funds for the year ended September 30, 2007 need to be eliminated against LAE and SSI, which are not earmarked. Therefore, due to the separate presentation of earmarked funds only in this note, those eliminations have not been included in chart 9a.

Near the close of FY 2005, SSA determined that the DI Trust Fund had not been reimbursed for certain expenses initially paid from the DI Trust Fund on behalf of the OASI Trust Fund. SSA's General Counsel and Counsel from the U.S. Department of the Treasury determined that current law supports the transfer of the principal balance of \$3,253 million and the interest balance of \$2,362 million from the OASI Trust Fund to the DI Trust Fund as of September 17, 2007. SSA's Net Position remains unchanged as a result of this immaterial transfer. After consulting

with OMB and Treasury on this matter, SSA reported \$573 million of the transfer as current year activity while the remainder, \$5,042 million, has been reported as an adjustment to the beginning balances within the current period.

10. OPERATING EXPENSES

CLASSIFICATION OF OPERATING EXPENSES BY MAJOR PROGRAM

Chart 10a displays SSA's operating expenses for each major program. The HI/SMI Trust Funds' shares of SSA's operating expenses, which include the Medicare Prescription Drug Program, are recorded in Other. In addition to LAE operating expenses, SSA programs incur other operating expenses that are reported on the Statements of Net Cost. OASI and DI Trust Fund Operations include expenses of the Department of the Treasury to assist in managing the OASI and DI Trust Funds. Vocational Rehabilitation includes expenditures of State agencies for vocational rehabilitation of DI and SSI beneficiaries.

Chart 10a - SSA's Operating Expenses by Major Program as of September 30: (\$ in millions)						
2007						
	LAE SSA	OIG	OASI and DI Trust Fund Operations	Vocational Rehabilitation	Total	
OASI	\$ 2,474	\$ 36	\$ 589	\$ 0	\$ 3,099	
DI	2,347	34	106	73	2,560

Other	1,730	23	0	0	1,753	
	\$ 9,550	\$ 92	\$ 804	\$ 111	\$ 10,557	

CLASSIFICATION OF OPERATING EXPENSES BY STRATEGIC GOAL

SSA's Annual Performance Plan (APP) is characterized by broad-based strategic goals that are supported by the entire Agency. The four goals are:

- Service -- To deliver high-quality, citizen-centered service;
- Stewardship -- To ensure superior stewardship of Social Security programs and resources;
- Solvency -- To achieve sustainable solvency and ensure Social Security programs meet the needs of current and future generations; and
- Staff -- To strategically manage and align staff to support SSA's mission.

Charts 10b and 10c exhibit distribution of FY 2007 and 2006 SSA and OIG LAE operating expenses to the four APP Strategic goals which agree to the Agency's LAE budget appropriation. OASI and DI Trust Fund Operations and Vocational Rehabilitation expenses (see chart 10a) are not included in LAE by strategic goal as these amounts are disbursed from the OASI and DI Trust Funds and are not directly linked to the budget authority.

11. EXCHANGE REVENUES

Revenue from exchange transactions is recognized when goods and services are provided. The goods and services provided are priced so that charges do not exceed the Agency’s cost. Total exchange revenues are \$284 and \$296 million for the years ended September 30, 2007 and 2006. SSA exchange revenue primarily consists of fees collected to administer SSI State Supplementation. SSA has agreements with 23 States and the District of Columbia to administer some or all of the States' supplement to Federal SSI benefits. Additional administrative fees are collected for administering Title VIII State Supplementation and handling SSI attorney fees. SSA earned administrative fee revenue in the amount of \$250 and \$253 million for the years ended September 30, 2007 and 2006.

A portion of the administrative fees earned by SSA are non-entity assets, which are included within Fund Balance with Treasury in the amount of \$131 and \$140 million for the years ended September 30, 2007 and 2006. The portion of these non-entity asset fees collected to administer SSI State Supplementation total \$127 and \$137 million as of September 30, 2007 and 2006. The fees are deposited directly to the Department of the Treasury General Fund and reported as a part of Fund Balance with Treasury on the Consolidated Balance Sheets. A corresponding accounts payable to the Department of the Treasury General Fund is presented so that net position is not affected by this activity. The remainder of the administrative fees, which meet the criteria of an earmarked fund, in the amount of \$119 and \$117 million for the years ended September 30, 2007 and 2006 are maintained to defray expenses in carrying out the SSI program.

In addition, SSA earned \$34 and \$43 million for the years ended September 30, 2007 and 2006 in other exchange revenue.

12. COSTS AND EXCHANGE REVENUE CLASSIFICATIONS

Chart 12 displays costs and exchange revenue by Intragovernmental and Public classifications. Intragovernmental costs are related to activity with Federal entities, which include: payments for processing benefit and administrative checks, employee benefits and imputed financing costs. Refer to Note 14, Imputed Financing for additional information. Public costs are related to activity with non-Federal entities, which include: OASI and DI benefit payments, SSI payments, and payroll and other administrative costs. Intragovernmental exchange revenue is collections received from Federal entities for services provided which includes reimbursements from the United States Department of Agriculture for the Food Stamp Program. Public exchange revenue is collections received from non-Federal entities for services provided which includes fees for administering the states portion of SSI payments. The Other program primarily reports the costs and revenues that SSA incurs in administering a portion of the Medicare program.

Chart 12- Costs and Exchange Revenue Classifications as of September 30: (\$ in millions)						
	2007			2006		
	Gross Cost	Less Earned Revenue	Net Cost	Gross Cost	Less Earned Revenue	Net Cost

Public	1,222	(2)	1,220	1,309	(9)	1,300
Other Subtotal	1,697	(6)	1,691	1,768	(11)	1,757
Total	\$ 623,051	\$ (284)	\$ 622,767	\$ 588,269	\$ (296)	\$ 587,973

13. TAX REVENUES

Employment tax revenues are estimated monthly by the Department of the Treasury based on SSA's quarterly estimate of taxable earnings. These estimates are used by the Department of the Treasury to credit the Social Security OASI and DI Trust Funds with tax receipts received during the month. Treasury makes adjustments to the amounts previously credited to the OASI and DI Trust Funds based on actual wage data certified quarterly by SSA.

As required by current law, the Social Security OASI and DI Trust Funds are due the total amount of employment taxes payable regardless of whether they have been collected. These estimated amounts are subject to adjustments for wages that were previously unreported, employers misunderstanding the wage reporting instructions, businesses terminating operations during the year, or errors made and corrected with either the Internal Revenue Service (IRS) or SSA. Revenues to the OASI and DI Trust Funds are reduced for excess employment taxes, which are refunded by offset against income taxes. The Consolidated Statements of Changes in Net Position recognizes tax revenues of \$647,387 and \$620,007 million for the years ended September 30, 2007 and 2006.

14. IMPUTED FINANCING

The Consolidated Statements of Net Cost recognizes post-employment benefit expenses of \$939 and \$937 million for the years ended September 30, 2007 and 2006 as a portion of operating expenses. The expense represents SSA's share of the current and estimated future outlays for employee pensions, life and health insurance. The Consolidated Statements of Changes in Net Position recognizes an imputed financing source of \$541 and \$537 million for the years ended September 30, 2007 and 2006 that represents annual service cost not paid by SSA.

15. BUDGETARY RESOURCES

APPROPRIATIONS RECEIVED

The Combined Statements of Budgetary Resources discloses Appropriations Received of \$832,560 and \$796,683 million for the years ended September 30, 2007 and 2006. Appropriations Received on the Consolidated Statements of Changes in Net Position are \$59,669 and \$56,832 million for the same years. The primary differences of \$772,891 and \$739,851 million represent appropriated OASI and DI Trust Fund receipts. The Consolidated Statements of Changes in Net Position reflects new appropriations received during the year; however, those amounts do not include dedicated and earmarked receipts in the OASI and DI Trust Funds.

Appropriations Received for PTF are recorded based on warrants received from the general fund and presented as Other in the financial statements. These amounts are transferred to the Bureau of Public Debt where they are also recorded as Appropriations Received in the OASI and DI Trust Funds. Since OASI and DI Trust Fund activity is combined with Other on SSA's Combined Statements of Budgetary Resources, Appropriations Received for PTF are duplicated. This is in compliance with OMB's directive to have the Combined Statements of Budgetary Resources in agreement with the required Budget Execution Reports (SF-133). These amounts are also included on the Consolidated Statements of Changes in Net Position for Other in Appropriations Received.

APPORTIONMENT CATEGORIES OF OBLIGATIONS INCURRED

OMB usually distributes budgetary resources in an account or fund. Apportionments by fiscal quarters are classified as Category A. Other apportionments such as activities, projects, objects or a combination of these categories are classified as Category B. Chart 15a reflects the amounts of direct and reimbursable obligations incurred against amounts apportioned under Category B, and Exempt from Apportionment. The variance between FY 2007 and FY 2006 concerning Category B and Exempt from Apportionment is due to a reclassification of certain activities.

During FY 2006, it was determined that certain activities, consisting primarily of the OASI and DI Trust Fund transfer accounts and the Taxation of Social Security Benefits, should be classified as Exempt from Apportionment since these activities do not receive an apportionment from OMB.

Chart 15a - Apportionment Categories of Obligations Incurred as of September 30: (\$ in millions)						
	2007			2006		
	Direct	Reimbursable	Total	Direct	Reimbursable	Total
Category B	\$ 50,450	\$ 3,991	\$ 54,441	\$ 50,227	\$ 4,181	\$ 54,408
Exempt	607,374	0	607,374	574,724	5	574,729
Total	\$ 657,824	\$ 3,991	\$ 661,815	\$ 624,951	\$ 4,186	\$ 629,137

PERMANENT INDEFINITE APPROPRIATION

SSA has three Permanent Indefinite Appropriations: OASI and DI Trust Funds and Title VIII. The OASI Trust Fund provides monetary assistance and protection against the loss of earnings due to retirement or death. The DI Trust Fund provides monetary assistance and protection against the loss of earnings due to a wage earner's disability. The authority remains available as long as there are qualified beneficiaries.

The Title VIII Program was established as part of Public Law 106-169, *Foster Care Independence Act of 1999*. It provides special benefits to World War II Philippine veterans receiving SSI, who wanted to spend their remaining years outside the United States. Prior to the passage of PL 106-169, their SSI benefits would terminate the month after the veterans leave the U.S. Under the new law, these veterans will receive 75 percent of their benefits. The authority remains available as long as there are qualified recipients.

LEGAL ARRANGEMENTS AFFECTING USE OF UNOBLIGATED BALANCES

All OASI and DI Trust Fund receipts collected in the FY are reported as new budget authority on the Combined Statements of Budgetary Resources. As beneficiaries pass the various entitlement tests prescribed by the *Social Security Act*, benefit payments and other outlays are obligated in the OASI and DI Trust Funds. The portion of OASI and DI Trust Fund receipts collected in the FY that exceeds the amount needed to pay benefits and other valid obligations in that FY is precluded by law from being available for obligation. At the end of the FY, this excess of receipts over obligations is reported as Temporarily Not Available Pursuant to Public Law in the SBR; therefore, it is not classified as budgetary resources in the FY collected. However, all such excess receipts are assets of the OASI and DI Trust Funds and currently become available for obligation as needed; therefore, they are not considered non-entity assets. Chart 15b displays OASI and DI Trust Fund activities and balances. The OASI and DI Trust Fund Balances, Ending totals are included in Investments on the Consolidated Balance Sheets.

Chart 15b - OASI and DI Trust Fund Activities as of September 30: (\$ in millions)		
	2007	2006
Beginning Balance	\$ 1,924,920	\$ 1,743,299
Receipts	773,198	739,961
Less Obligations	589,328	558,340
Excess of Receipts Over Obligations	183,870	181,621
Ending Balance	\$ 2,108,790	\$ 1,924,920

UNDELIVERED ORDERS AT THE END OF THE PERIOD

Undelivered orders consist of unpaid orders of goods and/or services, which have not been actually or constructively received by SSA. SSA's total undelivered orders are \$1,481 and \$1,373 million for the years ended September 30, 2007 and 2006.

EXPLANATION OF MATERIAL DIFFERENCES BETWEEN THE STATEMENT OF BUDGETARY RESOURCES AND THE BUDGET OF THE UNITED STATES GOVERNMENT

A reconciliation of budgetary resources, obligations incurred and outlays as presented in the Combined Statement of Budgetary Resources, to amounts included in the Budget of the United States Government for the year ended September 30, 2006 has been conducted. There are no material differences between the Combined Statement of Budgetary Resources and the Budget of the United States Government.

A reconciliation has not been presented for the year ended September 30, 2007 since this report is published in November 2007 but the actual budget data for FY 2007 will not be available until December 2007 by the Department of Treasury.

16. RECONCILIATION OF NET COST OF OPERATIONS TO BUDGET

Reconciliation of Net Cost of Operations to Budget for the Years Ended September 30, 2007 and September 30, 2006 (Dollars in Millions)

	2007	2006
Resources Used to Finance Activities:		
Budgetary Resources Obligated		
Obligations Incurred	\$ 661,815	\$ 629,137
Less: Offsetting Collections and Recoveries	(14,190)	(13,952)
Obligations Net of Offsetting Collections and Recoveries	647,625	615,185
Less: Offsetting Receipts	(22,400)	(25,809)

Total Components of Net Cost of Operations that Will Not Require or Generate Resources	326	(92)
Total Components of Net Cost of Operations that Will Not Require or Generate Resources in the Current Period	712	272
Net Cost of Operations	\$ 622,767	\$ 587,973

Chart 16, presents a reconciliation between proprietary and budgetary information. In previous years this reconciliation was accomplished by presenting the Statement of Financing as a Basic Financial Statement.

Effective for FY 2007, per OMB's authority under SFFAS #7, this information is presented as a schedule to the notes.

17. SOCIAL INSURANCE DISCLOSURES

The Statement of Social Insurance discloses the actuarial present value for the 75-year projection period of the estimated future income (excluding interest), estimated future cost, and the excess of income over cost for the "open group" of participants. The open group of participants includes all current and future participants (including those born during the projection period) who are now or who are expected to eventually participate in the OASI and or DI Social Insurance programs.

Actuarial present values are computed on the basis of the intermediate economic and demographic assumptions specified in the 2007 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Disability Insurance Trust Funds (the Trustees Report) and over the 75-year projection period beginning January 1, 2007. Similar estimates are shown in the Statement of Social Insurance based on the prior four Trustees Reports reflecting actuarial present values at January 1 of the applicable year.

Estimated future income (excluding interest) consists of payroll taxes from employers, employees, and self-employed persons; revenue from Federal income-taxation of scheduled OASDI benefits; and miscellaneous reimbursements from the General Fund of the Treasury. The estimated future cost includes benefit amounts scheduled under current law, administrative expenses, net transfers with the Railroad Retirement program, and vocational rehabilitation expenses for disabled beneficiaries.

In addition to the actuarial present value of estimated future excess of income over cost, shown in the basic financial statements, for the open group of participants, it is possible to make a similar calculation for the "closed group" of participants. The closed group of participants consists of those who, in the starting year of the projection period, have attained age 15. The closed group is further divided into those who have attained retirement eligibility age in the starting year of the projection period and those who attained age 15 through 61 in the starting year of the projection period. In order to calculate the actuarial present value of estimated future excess of income over cost for the closed group, one would subtract the actuarial present value of estimated future cost for or on behalf of the specified group of current participants from the actuarial present value of estimated future income (excluding interest) for that group of participants.

Also included on the face of the Statement of Social Insurance as "additional information" for the open group are (1) the actuarial present value of the excess of estimated future income over the estimated future cost, (2) the combined OASI and DI Trust Fund assets at the start the period, and (3) the sum of (1) and (2). While this additional information is not required by the applicable accounting standards, SSA believes their inclusion enhances evaluation of the financial status of the program.

Combined OASI and DI Trust Fund assets represent the accumulated excess of all past income, including interest on prior combined OASI and DI Trust Fund assets, over all past expenditures for the social insurance program. The combined OASI and DI Trust Fund assets as of January 1, 2007 totaled \$2,048 billion and were comprised almost entirely of investment securities which are backed by the full faith and credit of the Federal government.

The actuarial present value, for a 75-year projection period, of estimated future excess of income over cost, and combined OASI and DI Trust Fund assets at the start of the period, is shown as a negative value which represents the magnitude of what is commonly referred to as the "open group unfunded obligation" of the program over the 75-year projection period. This value is included in the applicable Trustees Report and is also shown in the Report as a percentage of taxable payroll and gross domestic product over the period.

ASSUMPTIONS USED FOR THE STATEMENT OF SOCIAL INSURANCE

The estimates used in this presentation for the current year (2007) are based on the assumption that the income and cost of the programs will continue at the levels scheduled under current law. They are also based on various economic and demographic assumptions, including those in the following table:

Table 1: Significant Assumptions and Summary Measures Used for the Statement of Social Insurance 2007

	Total Fertility Rate ¹	Age-Sex-Adjusted Death Rate ² (per 100,000)	Period Life Expectancy At Birth ³		Net Annual Immigration (persons per year) ⁴	Real-Wage Differential ⁵ (percentage points)	Annual Percentage Change In:				Average Annual Interest Rate ¹⁰
			Male	Female			Average Annual Wage in Covered Employment ⁶	CPI ⁷	Total Employment ⁸	Real GDP ⁹	
2007	2.04	839.8	75.1	79.7	1,075,000	2.7	4.6	1.9	1.0	2.6	4.6%
2010	2.03	825.3	75.5	79.9	1,000,000	1.4	4.2	2.8	0.8	2.6	5.7%
2020	2.02	764.5	76.7	80.7	950,000	1.0	3.8	2.8	0.4	2.1	5.7%
2030	2.00	705.4	77.7	81.6	900,000	1.1	3.9	2.8	0.3	2.0	5.7%
2040	2.00	652.8	78.6	82.4	900,000	1.1	3.9	2.8	0.4	2.0	5.7%
2050	2.00	606.6	79.5	83.1	900,000	1.1	3.9	2.8	0.3	2.0	5.7%
2060	2.00	565.7	80.3	83.8	900,000	1.1	3.9	2.8	0.3	1.9	5.7%
2070	2.00	529.3	81.1	84.5	900,000	1.1	3.9	2.8	0.3	1.9	5.7%
2080	2.00	496.8	81.9	85.1	900,000	1.1	3.9	2.8	0.3	1.9	5.7%

1. The total fertility rate for a year is the average number of children who would be born to a woman in her lifetime if she were to experience the birth rates by age assumed for the selected year, and if she were to survive the entire childbearing period.
2. The age-sex-adjusted death rate is the crude rate that would occur in the enumerated total population as of April 1, 2000, if that population were to experience the death rates by age and sex assumed for the selected year. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived.
3. The period life expectancy for a group of persons born in the selected year is the average that would be attained by such persons if the group were to experience in succeeding years the death rates by age assumed for the given year. It is a summary measure and not a basic assumption; it summarizes the effects of the basic assumptions from which it is derived.
4. Net annual immigration is the number of persons who enter during the year (both legally and otherwise) minus the number of persons who leave during the year.
5. The real-wage differential is the difference between the percentage increases in the average annual wage in covered employment and the average annual Consumer Price Index (CPI).
6. The average annual wage in covered employment is the total amount of wages and salaries for all employment covered by the OASDI program in a year, divided by the number of employees with any such earnings during the year. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived.
7. The CPI is the annual average value for the calendar year of the CPI for Urban Wage Earners and Clerical Workers (CPI-W).
8. Total employment represents total of civilian and military employment in the U.S. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived.
9. The real Gross Domestic Product (GDP) is the value of total output of goods and services in the U.S. economy, expressed in 2000 dollars. It is a summary measure and not a basic assumption; it summarizes the effects of the basic assumptions from which it is derived.
10. The average annual interest rate is the average of the nominal interest rates, which are compounded semiannually, for special public-debt obligations issuable to the OASI and DI Trust Funds in each of the 12 months of the year. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived.

The estimates used in the Statement of Social Insurance for the current year and in corresponding Statements in prior years are based on various economic and demographic assumptions. The values for each of these assumptions move from recently experienced levels or trends toward long-range ultimate values within 2 to 25 years from the start of the projection period. These ultimate values are summarized in Table 2. Detailed information, similar to that denoted within Table 1, for the prior years is publicly available on the SSA website at: <http://www.ssa.gov/finance/>.

Table 2: Significant Ultimate Assumptions and Summary Measures Used for the Statement of Social Insurance for Current and Prior Years

Year of Statement	Total Fertility Rate ¹	Average Annual Percentage Reduction in the Age-Sex Adjusted Death Rates ²	Net Annual Immigration (persons per year) ³	Real-Wage Differential ⁴ (percentage points)	Average Annual Percentage Change In:			Average Annual Real Interest Rate ⁸
					Average Annual Wage in Covered Employment ⁵	CPI ⁶	Total Employment ⁷	
FY 2007	2.0	0.71	900,000	1.1	3.9	2.8	0.4	2.9
FY 2006	2.0	0.72	900,000	1.1	3.9	2.8	0.4	2.9
FY 2005 unaudited	1.95	0.72	900,000	1.1	3.9	2.8	0.3	3.0
FY 2004 unaudited	1.95	0.72	900,000	1.1	3.9	2.8	0.4	3.0
FY 2003 unaudited	1.95	0.76	900,000	1.1	4.1	3.0	0.4	3.0

1. The total fertility rate for a year is the average number of children who would be born to a woman in her lifetime if she were to experience the birth rates by age assumed for the selected year, and if she were to survive the entire childbearing period. The ultimate total fertility rate is assumed to be reached in the 25th year of the projection period. For the 2006 estimates, the ultimate total fertility rate was increased from 1.95 to 2.0.
2. The age-sex-adjusted death rate is computed as the crude rate that would occur in the enumerated total population as of a standard date if that population were to experience the death rates by age and sex for the selected year. For the FY 2003 statement, the standard date was April 1, 1990. For the 2004-2007 statements, the standard date was April 1, 2000. The more recent standard date places greater weight on higher ages where reduction in death rates is assumed to be slower. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived. The value presented is the average annual percentage reduction during each measurement period. The annual rate of reduction declines gradually during the period, so no ultimate rate is achieved. For the 2007 Statement, the average annual rate of reduction is computed based on death-rate levels, as shown in Table 1.
3. Net annual immigration is the number of persons who enter during the year (both legally and otherwise) minus the number of persons who leave during the year. The ultimate assumption is reached by the 20th year of the projection period.
4. The real-wage differential is the difference between the percentage increases in the average annual wage in covered employment, and the average annual Consumer Price Index (CPI). Except for minor fluctuations, the ultimate assumption is reached within the first 10 years of the projection period.
5. The average annual wage in covered employment is the total amount of wages and salaries for all employment covered by the OASDI program in a year divided by the number of employees with any such earnings during the year. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived. The annual rate of change stabilizes after the first 10 years of the projection period except for minor fluctuations.
6. The CPI is the annual average value for the calendar year of the CPI for Urban Wage Earners and Clerical Workers (CPI-W). The ultimate assumption is reached within the first 10 years of the projection period. For the 2004 estimates, the assumption was decreased from 3.0 to 2.8 percent.
7. Total employment represents total of civilian and military employment in the U.S. It is a summary measure and not a basic assumption; it summarizes the basic assumptions from which it is derived. The average annual percentage change in total employment is for the entire 75-year projection period. The annual rate of increase tends to decline through the period reflecting the slowing growth rate of the working-age population. Thus, no ultimate rate of change is achieved. For the 2007 Statement, the average annual rate of change is consistent with the annual percentages as shown in Table 1.
8. The average annual real interest rate reflects the expected annual real yield for each year on securities issuable in the prior year. The ultimate rate is assumed to be reached within the first 10 years of the projection period. For the 2006 Statement, the assumption was decreased from 3.0 to 2.9 percent. For the 2007 Statement, the average annual real interest rate is consistent with the nominal interest rates shown in Table 1.

These assumptions and the other values on which Table 2 is based reflect the intermediate assumptions of the 2007-2003 Trustees Reports. Estimates made in prior years differ substantially because of revisions to the assumptions based on changes in conditions or experience, and to changes in actuarial methodology. It is reasonable to expect more changes for similar reasons in future reports.

Additional information on Social Insurance is contained in the *Required Supplementary Information: Social Insurance* of this report.

18. RECOVERY OF MEDICARE PREMIUMS

SSA identified a systemic and recurring error in the process for recovering certain transfers to the Centers for Medicare and Medicaid Services (CMS) of Medicare Part B premiums. Beneficiaries of OASDI may elect to have SSA withhold their monthly Medicare premium. In these cases, SSA acts as an intermediary by collecting Medicare premiums through withholdings from social security payments. The premiums are then transferred to CMS. If notification of a beneficiary's death is not received timely, payments may be disbursed after a beneficiary's death and Medicare premiums transfers made to CMS. SSA has procedures in place to recover overpayments made to beneficiaries, but prior to December 2002, SSA generally did not have procedures to recover Medicare premiums transferred to CMS. As a result, SSA estimates that approximately \$800 million of premiums were transferred to CMS since the inception of the Medicare program through November 2002. SSA and Health and Human Services are currently conducting research to determine the most appropriate legal resolution to this issue.
