

Andrew Hickey

Andrew C. Hickey is a Ph.D. candidate in USU's graduate program in Emerging Infectious Diseases. Mr. Hickey earned his Bachelor of Science degree in 2001 in Environmental Health Science and Political Science, with a minor in microbiology, from Colorado State University. Following graduation, he worked as an intern and field technician monitoring mosquito breeding sites to detect mosquito-borne viral pathogens. He later worked with the U.S. Public Health Service while pursuing a Master of Public Health degree from Emory University. He entered USU in 2003 and is currently focusing his research efforts on investigation of the structure and function of the Henipavirus attachment glycoprotein.
