## ACKNOWLEDGEMENT

This report has been peer reviewed in draft form by individuals chosen for their diverse perspectives and technical expertise. The expert review and selection of reviewers followed the OMB's Information Quality Bulletin for Peer Review. The purpose of this independent review is to provide candid and critical comments that will assist the Climate Change Science Program in making this published report as sound as possible and to ensure that the report meets institutional standards. The peer review comments, draft manuscript, and response to the peer review comments are publicly available at: www.climatescience.gov/Library/sap/sap2-1/default.php.

We wish to thank the following individuals for their peer review of this report:
Joseph Aldy, Resources for the Future
Bill Chameides, James Wang, Environmental Defense
Russell Jones, American Petroleum Institute
David Rind, NASA Goddard Institute for Space Studies
Brent Sohngen, Ohio State University
Richard Tol, Hamburg, Vrije and Carnegie Mellon Universities
John Weyant, Stanford University

We would also like to thank the numerous individuals who provided their comments during the public comment period. The public review comments, draft manuscript, and response to the public comments are publicly available at: www.climatescience.gov/Library/sap/sap2-1/default.php.

The authors also wish to acknowledge the contributions of Geoffrey Blanford, Josh Lurz, Sergey Paltsev, Thomas Rutherford, and Marshall Wise in developing these scenarios.

## EDITORIAL TEAM

Editor.....Loel Kathmann
Technical Advisor .....David Dokken
Graphic Production .....DesignConcept
