

Corporation for National and Community Service
Board of Directors

Resolution

The Board accepts President Bush's challenge as the Corporation to be the lead volunteer agency as we believe as a Board that we have prepared for this moment in history.

We accept with excitement and sense of responsibility the opportunity the Corporation has in all its streams of service to be responsive to Hurricane Katrina.

Further, the Board directs the CEO and staff to give a high priority to Katrina relief, but in a way that builds a sustainable local capacity and transforms, if possible, a larger view of the Corporation with respect to its role in the service, and directs that the Corporation discharges its responsibilities in a way that gives attention to the importance of existing programs and the accountability procedures necessary to make sure that we dispense any new money correctly.
