EPA in its October 8, 2004, letter identified a number of issues requiring follow-up and, as appropriate, further revision to the permit. The District is committed to addressing these issues through a cooperative effort with EPA. Among the most important issues are those identified in Attachment 1 to the October 8 letter. The District's first step in addressing the Attachment 1 issues will be a proposed determination to be transmitted to EPA on or before January 6, 2005.

Jack P. Broadbent
EXECUTIVE OFFICER/APCO

This letter also constitutes notice that the District intends to reopen your Title V permit to address certain issues identified by EPA in attachment 1 of its October 8, 2004, letter to the District, a copy of which has already been provided to you. The District may determine in the interim that certain of the issues identified by EPA are not relevant to your facility.

Enclosed are copies of the final permit, the final evaluation report/statement of basis, dated December 2004, and all responses to comments prepared to date. If you have any questions regarding this permit, please call Julian Elliot, Senior Air Quality Engineer, at (415) 749-4705.
