November 9, 2004

Ms. Deborah Jordan Acting Director, Air Management Division **United States Environmental Protection Agency** 75 Hawthorne Street San Francisco, CA 94105

Dear Ms. Jordan:

The requirement for EPA review of the following proposed renewal of a Major Facility Review and Acid Rain permit has been completed:

Facility #	Facility Name	Applications
A0024	PG&E Hunters Point Power Plant	6583, 7172

No comments were received from EPA. The requirement for public notice and comment was completed before the District sent the permit to EPA for review on September 21, 2004. The District has decided to issue the permit.

In response to a comment from staff, Regulation 11, Rule 1, Lead, was added to Table IV-B for S1 and S2, Turbines. The requirement is in the corresponding table in Section VII and was omitted in error from Table IV-B.

The issued permit has the following additional formatting changes:

- A revision history section has been added.
- The Title IV permit has been moved to the end of the permit.

These are administrative amendments as defined by BAAQMD Regulation 2-6-201.

A summary of changes have been listed in the new Revision History, Section X of the permit.

Enclosed is a copy of the final permit. If you have any questions regarding this project, please call Steve A. Hill, Air Quality Engineering Manager, at (415) 749-4673.

Sincerely yours,

Tim Smith Pamela Torliatt
