Subject: Minor Revision to Major Facility Review Permit

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for the following facility:

Application Numbers	Facility Number	Facility Name	Address, City	Type of Operation
11036	A2180	Gaylord Container Corporation	2301 Wilbur Ave. Antioch, CA 94509	Cogeneration Facility

The purpose of the revision is to correctly represent equipment in the permit, to add updated requirements from 40 CFR 60, Subpart GG, and to incorporate the requirements of the Airborne Toxic Control Measure (ATCM) for Stationary Compression Ignition Engines. In addition, the District has made a number of "Administrative" and "Minor" revisions to the permit to update requirements and standardize the permit.

The Minor Revision was proposed on July 27, 2005. There were no comments from the US EPA or California Air Resources Board. The District has decided to issue the permit.

A copy of the revised Major Facility Review Permit is enclosed for your information. If you have any questions on this matter, please call **Steve Hill, Air Quality Engineering Manager, at (415) 749-4673.**

Sincerely,

---
