Jack P. Broadbent
EXECUTIVE
OFFICER/APCO

The District proposed a minor permit revision for this facility on February 14, 2006. The purpose of the revision is to raise the maximum heat input capacity for each of IC Engines S-4, S-5, S-6, S-7, S-9, S-10, S-11, S-12, S-13, and S-14 from 8.61 to 10.5 MMBTU/hr to correct systematic errors regarding fuel consumption that previously occurred during the permitting of the engines. There is no increase of emissions associated with this revision.

No comments were received from the EPA or the facility.

Enclosed is a copy of the final revised permit. If you have any questions regarding this project, please call Dennis T. Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely yours,

Jack P. Broadbent

Executive Officer/Air Pollution Control Officer

Jack F. Dioaubeii
