**EXECUTIVE
OFFICER/APCO**

The District proposed a minor permit revision for this facility on February 28, 2005.

The purpose of this revision is to modify permit conditions for the landfill and flares to delete obsolete references to equipment that has been removed from the site and to reflect equipment upgrades and permit condition revisions for the gasoline dispensing facility. The District is also making several administrative amendments to the permit by correcting applicable requirements, incorporating SIP changes, and updating regulatory amendment dates.

No comments on this proposed minor revision were received from EPA or the facility.

The following additional administrative amendment was made to the permit: the SIP address at the end of the permit was updated.

Enclosed is a copy of the final revised permit. If you have any questions regarding this project, please call Steve A Hill, Air Quality Engineering Manager, at (415) 749-4673.

Sincerely yours,

Jack P. Broadbent
Executive Officer/Air Pollution Control Officer
