Subject: Minor Revision to Major Facility Review Permit for Facility # A3464

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for the City of Santa Clara Landfill, Facility Number A3464, and is submitting the permit to EPA for review.

This proposed permit revision is primarily a change of permit conditions to facilitate a modification of the landfill gas collection system. The modification involves the replacement of gas collection wells and the removal of old, unproductive wells.

This revision is minor pursuant to BAAQMD Regulation 2-6-215 and will be effective immediately. The permit will be formally re-issued after EPA review. This revision is not subject to public comment and therefore, requires no public notice.

A copy of the proposed revisions to the Major Facility Review Permit and the statement of basis report are enclosed for your review. If you have any questions regarding this project, please call Dennis T. Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely,

Jack Broadbent
Executive Officer/Air Pollution Control Officer
