

August 25, 2006

Ms. Deborah Jordan
Director, Air Management Division
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Subject: Final Major Facility Review Permit for Facility # A9013

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for the BFI – The Recyclery and International Disposal Corporation of CA. (Newby Island Landfill), facility number A9013.

The District proposed the minor revision to the permit for this facility on April 25, 2006. The purpose of the permit revision is to incorporate routine physical modifications to the landfill gas collection and control system and the installation of an additional landfill gas flare. There is no change in the permitted capacity of the landfill.

No comments were received from EPA or the facility on the proposed revisions.

A copy of the final Major Facility Review Permit is enclosed. If you have any questions on this matter, please call Dennis Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely,

Jack Broadbent
Executive Officer/Air Pollution Control Officer
