

# F R E Excess

**If you are asking yourself  
“Why do I want excess  
property - it isn’t worth it, is  
it?” - Read on!**

## **Who wants Excess Property?**

Last year, State agencies associated with USDA’s REE agencies’ acquired over \$30 million of Federal excess property. They acquired traditional & systems furniture, vehicles, lab equipment & supplies, tools, etc. Excess property is a cost savings to your program, your Agency and to the American taxpayer. It is a valuable resource!

## **Who has excess property?**

Regulations require Federal/DOD agencies to report property they no longer need and make it available for transfer to other Feds & State agencies.

## **How much does Excess cost?**

There is no charge for Excess - except for shipping costs. And certain DOD property is shipped free.

## **Where can I find excess?**

Finding excess is easy! All you need is a computer and let your fingers do the walking. By using the Internet, you can view all available excess property nationwide while sitting at your desk.

[www.fss.gsa.gov/property](http://www.fss.gsa.gov/property) - GSA/FEDS: list of worldwide excess property reported to GSA from all Federal/DOD sources.

[www.nfc.usda.gov/propexces](http://www.nfc.usda.gov/propexces) - USDA Excess: list of excess property available within USDA nation wide.

In addition there are two warehouses in the Washington/Metropolitan area where you can personally visit to see available excess property:
