FAC 2005-10 SUMMARY of ITEMS

Federal Acquisition Circular (FAC) 2005-10 amends the Federal Acquisition Regulation (FAR) as specified below:

Item I—Central Contractor Registration-Taxpayer Identification Number (TIN) Validation (FAR Case 2005-007)

The rule adds the process of the government validating a Central Contractor Registration (CCR) registrant's taxpayer identification number (TIN) with the Internal Revenue Service (IRS) to improve the quality of data in the CCR and the federal procurement system. Additionally, the rule removes outdated language requiring modifications of contracts prior to December 31, 2003, regarding CCR.

Replacement pages: 2.1-11 and 2.1-12; 4.11-1 and 4.11-2; and 52.2-9 thru 52.2-12.

Item II—Procedures Related to Procurement Center Representatives (FAR Case 2006-003)

This final rule amends the Federal Acquisition Regulation (FAR) to provide internal procedures to cover situations when the FAR requires interaction with a procurement center representative and one has not been assigned to the procuring activity or contract administration office. It primarily impacts contracting officers and procurement center representatives.

Replacement pages: 10.0-1 and 10.0-2; 19.2-1 thru 19.2-4; 19.4-1 and 19.4-2; 19.5-1 thru 19.5-4; 19.7-3 thru 19.7-6; 19.13-1 and 19.13-2; and 19.14-1 and 19.14-2.

Item III—Submission of Cost or Pricing Data on Noncommercial Modifications of Commercial Items (FAR Case 2004-035)

This final rule amends the interim rule issued in FAC 2005-004 and implements an amendment to 10 U.S.C. 2306a. The policy requires that the exception from the requirement to obtain certified cost or pricing data for a commercial item does not apply to noncommercial modifications of a commercial item that are expected to cost, in the aggregate, more than \$500,000 or 5 percent of the total price of the contract, whichever is greater. Section 818 of Public Law 108-375, the Ronald W. Reagan National Defense Authorization Act of Fiscal Year 2005 applies to offers submitted, and to modifications of contracts or subcontracts made, on or after June 1, 2005. This new policy results from a statute which changed 10 U.S.C. 2306a and applies only to contracts or task or delivery orders funded by

DoD, NASA, and the Coast Guard. The new policy does, however, also apply to contracts awarded or task or delivery orders placed on behalf of DoD, NASA, or the Coast Guard by an official of the United States outside of those agencies, because the statutory requirement of Section 818 applies to the funds provided by DoD, NASA, or the Coast Guard.

The change to the interim rule clarifies the policy to ensure it is applied properly. The threshold in the rule applies to an instant contract action, not to the total value of all contract actions and, as applicable to subcontractors, the threshold applies to the value of the subcontract, not the value of the prime contract.

Replacement pages: 15.4-1 and 15.4-2.

**Item IV—Implementation of Wage Determinations OnLine (WDOL)
(Interim) (FAR Case 2005-033)**

This interim rule implements the Department of Labor (DOL) Wage Determinations OnLine (WDOL) internet website as the source for Federal contracting agencies to obtain wage determinations issued by the DOL for service contracts subject to the McNamara-O'Hara Service Contract Act (SCA) and for construction contracts subject to the Davis-Bacon Act (DBA). The rule amends the FAR to direct Federal contracting agencies to obtain DBA and SCA wage determinations from the WDOL website.

The Contracting Officer (CO) will be able to check the WDOL website (<http://www.wdol.gov>) to find the applicable wage determination for a contract action subject to the SCA or DBA. If the WDOL database does not contain the applicable wage determination for a SCA contract action, the CO must use the e98 process to request a wage determination from DOL. The e98 means a DOL approved electronic application, (available at <http://www.wdol.gov>), whereby a contacting officer submits pertinent information to the DOL and requests a wage determination directly from the Wage and Hour Division. With regard to DBA requirements, if the WDOL database does not contain the applicable wage determination for a DBA contract action, the CO must request a wage determination by submitting SF-308 to DOL.

The WDOL and e98 processes replace the paper Standard Forms 98 and 98a. In addition, Standard Forms 99, 98, and 98a are deleted from FAR Part 53. This interim rule also incorporates new geographical jurisdictions for DOL's Wage and Hour Regional Offices and eliminates FAR references to the Government

Printing Office (GPO) publication of general wage determinations.

Item V—Free Trade Agreements - El Salvador, Honduras, and Nicaragua (Interim) (FAR Case 2006-006)

This interim rule allows contracting officers to purchase the goods and services of El Salvador, Honduras, and Nicaragua without application of the Buy American Act, if the acquisition is subject to the Free Trade Agreements. The U.S. Trade Representative negotiated the Dominican Republic-Central America-United States Free Trade Agreement with Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and the Dominican Republic. However, the agreements will not all take effect at the same time. This agreement with El Salvador, Honduras, and Nicaragua joins the North American Free Trade Agreement (NAFTA) and the Australia, Chile, Morocco, and Singapore Free Trade Agreements which are already in the FAR. The threshold for applicability of the Dominican Republic-Central America-United States Free Trade Agreement is \$64,786 for supplies and services (the same as other Free Trade Agreements to date except Morocco and Canada) and \$7,407,000 for construction (the same as all other Free Trade Agreements to date except NAFTA).

Replacement pages: 25.1-1 thru 25.1-4; 25.4-1 thru 25.4-4; 52.2-29 thru 52.2-34; 52.2-37 and 52.2-38; 52.2-139 thru 52.2-142 (52.2-142.1 and 52.2-142.2 added); and 52.2-149 and 52.2-150.

Item VI—Buy-Back of Assets (FAR Case 2004-014)

This final rule amends the Federal Acquisition Regulation (FAR) contract cost principle for depreciation costs. The final rule adds language which addresses the allowability of depreciation costs of reacquired assets involved in a sale and leaseback arrangement.

Replacement pages: 31.2-11 and 31.2-12; and 31.2-13 thru 31.2-14.2.

Item VII—Technical Amendments

Editorial changes are made at FAR 8.714, 33.102, and 52.225-11 in order to update references.

Replacement pages: 8.7-3 and 8.7-4; 33.1-1 and 33.1-2; 52.2-15 and 52.2-16; 52.2-29 and 52.2-30; 52.2-33 and 52.2-34; and 52.2-147 and 52.2-148.

(2) The quantity required cannot be produced or provided economically by the JWOD participating nonprofit agencies.

(c) The central nonprofit agency granting the exception shall specify the quantity and delivery or performance period covered by the exception.

(d) When a purchase exception is granted, the contracting officer shall—

(1) Initiate purchase action within 15 days following the date of the exception or any extension granted by the central nonprofit agency; and

(2) Provide a copy of the solicitation to the central nonprofit agency when it is issued.

(e) The Committee may also grant a purchase exception, under any circumstances it considers appropriate.

8.707 Prices.

(a) The prices of items on the Procurement List are fair market prices established by the Committee. All prices for supplies ordered under this subpart are f.o.b. origin.

(b) Prices for supplies are normally adjusted semiannually. Prices for services are normally adjusted annually.

(c) The Committee may request the agency responsible for acquiring the supplies or service to assist it in establishing or revising the fair market price. The Committee has the authority to establish prices without prior coordination with the responsible contracting office.

(d) Price changes shall normally apply to all orders received by the JWOD participating nonprofit agency on or after the effective date of the change. In special cases, after considering the views of the ordering office, the Committee may make price changes applicable to orders received by the JWOD participating nonprofit agency prior to the effective date of the change.

(e) If an ordering office desires packing, packaging, or marking of supplies other than the standard pack as provided on the Procurement List, any difference in costs shall be included as a separate item on the nonprofit agency's invoice. The ordering office shall reimburse the nonprofit agency for these costs.

(f) Ordering offices may make recommendations to the Committee at any time for price revisions for supplies and services on the Procurement List.

(b) Shipment is normally under Government bills of lading. However, for small orders, ordering offices may specify other shipment methods.

(c) When shipments are under Government bills of lading, the bills of lading may accompany orders or be otherwise furnished promptly. Failure of an ordering office to furnish bills of lading or to designate a method of transportation may result in an excusable delay in delivery.

(d) JWOD participating nonprofit agencies shall include transportation costs for small shipments paid by the nonprofit agencies as an item on the invoice. The ordering office shall reimburse the nonprofit agencies for these costs.

8.709 Payments.

The ordering office shall make payments for supplies or services on the Procurement List within 30 days after shipment or after receipt of a proper invoice or voucher.

8.710 Quality of merchandise.

(d) When, in order to meet its emergency needs, a contracting activity is unable to give the 90-day notification required in paragraphs (b) and (c) of this section, the contracting activity shall, at the time it places the order or change notice, inform the JWOD participating nonprofit agency and the central nonprofit agency in writing of the reasons that it cannot meet the 90-day notification requirement.

8.715 Replacement commodities.

When a commodity on the Procurement List is replaced by another commodity which has not been previously acquired, and a qualified JWOD participating nonprofit agency can furnish the replacement commodity in accordance with the Government's quality standards and delivery schedules and at a fair market price, the replacement commodity is automatically on the Procurement List and shall be acquired from the JWOD participating nonprofit agency designated by the Committee. The commodity being replaced shall continue to be included on the Procurement List until there is no longer a requirement for that commodity.

8.716 Change-of-name and successor in interest procedures.

When the Committee recognizes a name change or a successor in interest for a JWOD participating nonprofit agency providing supplies or services on the Procurement List—

(a) The Committee will provide a notice of a change to the Procurement List to the cognizant contracting officers; and

(2) Distribute the SF 30, including a copy to the Committee.

be required or for which any preaward or postaward cost determinations will be subject to Part 31.

(h) *Facilities Capital Cost of Money*. The contracting officer shall insert the provision at 52.215-16, Facilities Capital Cost of Money, in solicitations expected to result in contracts that are subject to the cost principles for contracts with commercial organizations (see Subpart 31.2).

(i) *Waiver of Facilities Capital Cost of Money*. If the prospective contractor does not propose facilities capital cost of money in its offer, the contracting officer shall insert the clause at 52.215-17, Waiver of Facilities Capital Cost of Money, in the resulting contract.

(j) *Reversion or Adjustment of Plans for Postretirement Benefits (PRB) Other Than Pensions*. The contracting officer shall insert the clause at 52.215-18, Reversion or Adjustment of Plans for Postretirement Benefits (PRB) Other Than Pensions, in solicitations and contracts for which it is anticipated that cost or pricing data will be required or for which any preaward or postaward cost determinations will be subject to Part 31.

(k) *Notification of Ownership Changes*. The contracting officer shall insert the clause at 52.215-19, Notification of Ownership Changes, in solicitations and contracts for which it is contemplated that cost or pricing data will be required or for which any preaward or postaward cost determination will be subject to Subpart 31.2.

(l) *Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data*. Considering the hierarchy at 15.402, the contracting officer may insert the provision at 52.215-20, Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data, in solicitations if it is reasonably certain that cost or pricing data or information other than cost or pricing data will be required. This provision

also provides instructions to offerors on how to request an exception. The contracting officer shall—

(1) Use the provision with its Alternate I to specify a format for cost or pricing data other than the format required by Table 15-2 of this section;

(2) Use the provision with its Alternate II if copies of the proposal are to be sent to the ACO and contract auditor;

(3) Use the provision with its Alternate III if submission via electronic media is required; and

(4) Replace the basic provision with its Alternate IV if cost or pricing data are not expected to be required because an exception may apply, but information other than cost or pricing data is required as described in 15.403-3.

(m) *Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data—Modifications*. Considering the hierarchy at 15.402, the contracting officer may insert the clause at 52.215-21, Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data—Modifications, in solicitations and contracts if it is reasonably certain that cost or pricing data or information other than cost or pricing data will be required for modifications. This clause also provides instructions to contractors on how to request an exception. The contracting officer shall—

(1) Use the clause with its Alternate I to specify a format for cost or pricing data other than the format required by Table 15-2 of this section;

(2) Use the clause with its Alternate II if copies of the proposal are to be sent to the ACO and contract auditor;

(3) Use the clause with its Alternate III if submission via electronic media is required; and

(4) Replace the basic clause with its Alternate IV if cost or pricing data are not expected to be required because an exception may apply, but information other than cost or pricing data is required as described in 15.403-3.

TABLE 15-2—INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

This document provides instructions for preparing a contract pricing proposal when cost or pricing data are required.

NOTE 1. There is a clear distinction between submitting cost or pricing data and merely making available books, records, and other documents without identification. The requirement for submission of cost or pricing data is met when all accurate cost or pricing data reasonably available to the offeror have been submitted, either actually or by specific identification, to the Contracting Officer or an authorized representative. As later information comes into your possession, it should be submitted promptly to the Contracting Officer in a manner that clearly shows how the information relates to the offeror's price proposal. The requirement for submission of cost or pricing data continues up to the time of agreement on price, or an earlier date agreed upon between the parties if applicable.

NOTE 2. By submitting your proposal, you grant the Contracting Officer or an authorized representative the right to examine records that formed the basis for the pricing proposal. That examination can take place at any time before award. It may include those books, records, documents, and other types of factual information (regardless of form or whether the information is specifically referenced or included in the proposal as the basis for pricing) that will permit an adequate evaluation of the proposed price.

I. General Instructions

- A. You must provide the following information on the first page of your pricing proposal:
- (1) Solicitation, contract, and/or modification number;
 - (2) Name and address of offeror;
 - (3) Name and telephone number of point of contact;
 - (4) Name of contract administration office (if available);
 - (5) Type of contract action (that is, new contract, change order, price revision/redetermination, letter contract, unpressed order, or other);
 - (6) Proposed cost; profit or fee; and total;
 - (7) Whether you will require the use of Government property in the performance of the contract, and, if so, what property;
 - (8) Whether your organization is subject to cost accounting standards; whether your organization has submitted a CASB Disclosure Statement, and if it has been determined adequate; whether you have been notified that you are or may be in noncompliance with your Disclosure Statement or CAS (other than a noncompliance that the cognizant Federal agency official has determined to have an immaterial cost impact), and, if yes, an explanation; whether any aspect of this proposal is inconsistent with your disclosed practices or applicable CAS, and, if so, an explanation; and whether the proposal is consistent with your established estimating and accounting principles and procedures and FAR Part 31, Cost Principles, and, if not, an explanation;
 - (9) The following statement:
This proposal reflects our estimates and/or actual costs as of this date and conforms with the instructions in FAR 15.403-5(b)(1) and Table 15-2. By submitting this proposal, we grant the Contracting Officer and authorized representative(s) the right to examine, at any time before award, those records, which include books, documents, accounting procedures and practices, and other data, regardless of type and form or whether such supporting information is specifically referenced or included in the proposal as the basis for pricing, that will permit an adequate evaluation of the proposed price.
 - (10) Date of submission; and
 - (11) Name, title, and signature of authorized representative.
- B. In submitting your proposal, you must include an index, appropriately referenced, of all the cost or pricing data and information accompanying or identified in the proposal. In addition, you must annotate any future additions and/or revisions, up to the date of agreement on price, or an earlier date agreed upon by the parties, on a supplemental index.
- C. As part of the specific information required, you must submit, with your proposal, cost or pricing data (that is, data that are verifiable and factual and otherwise as defined at FAR 2.101). You must clearly identify on your cover sheet that cost or pricing data are included as part of the proposal. In addition, you must submit with your proposal any information reasonably required to explain your estimating process, including—
- (1) The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and
 - (2) The nature and amount of any contingencies included in the proposed price.
- D. You must show the relationship between contract line item prices and the total contract price. You must attach cost-element breakdowns for each proposed line item, using the appropriate format prescribed in the "Formats for Submission of Line Item Summaries" section of this table. You must furnish supporting breakdowns for each cost element, consistent with your cost accounting system.
- E. When more than one contract line item is proposed, you must also provide summary total amounts covering all line items for each element of cost.
- F. Whenever you have incurred costs for work performed before submission of a proposal, you must identify those costs in your cost/price proposal.
- G. If you have reached an agreement with Government representatives on use of forward pricing rates/factors, identify the agreement, include a copy, and describe its nature.
- H. As soon as practicable after final agreement on price or an earlier date agreed to by the parties, but before the award resulting from the proposal, you must, under the conditions stated in FAR 15.406-2, submit a Certificate of Current Cost or Pricing Data.

22.000 Scope of part.

This part—

- (a) Deals with general policies regarding contractor labor relations as they pertain to the acquisition process;
- (b) Prescribes contracting policy and procedures for implementing pertinent labor laws; and
- (c) Prescribes contract clauses with respect to each pertinent labor law.

22.001 Definitions.

“Administrator” or “Administrator, Wage and Hour Division,” as used in this part, means the—

Administrator
 Wage and Hour Division
 Employment Standards Administration
 U.S. Department of Labor
 Washington, DC 20210

or an authorized representative.

“e98” means the Department of Labor’s approved electronic application (<http://www.wdol.gov>), whereby a contracting officer submits pertinent information to the Department of Labor and requests a Service Contract Act wage determination directly from the Wage and Hour Division.

“Wage Determinations OnLine (WDOL)” means the Government Internet website for both Davis-Bacon Act and Service Contract Act wage determinations available at <http://www.wdol.gov>.

Subpart 22.1—Basic Labor Policies

22.101 Labor relations.

22.101-1 General.

(a) Agencies shall maintain sound relations with industry and labor to ensure (1) prompt receipt of information involving labor relations that may adversely affect the Government acquisition process and (2) that the Government obtains needed supplies and services without delay. All matters regarding labor relations shall be handled in accordance with agency procedures.

(b)(1) Agencies shall remain impartial concerning any dispute between labor and contractor management and not undertake the conciliation, mediation, or arbitration of a labor dispute. To the extent practicable, agencies should ensure that the parties to the dispute use all available methods for resolving the dispute, including the services of the National Labor Relations Board, Federal Mediation and Conciliation Service, the National Mediation Board and other appropriate Federal, State, local, or private agencies.

(2) For use of project labor agreements, see 36.202(d).

(c) Agencies should, when practicable, exchange information concerning labor matters with other affected agencies to ensure a uniform Government approach concerning a particular plant or labor-management dispute.

(d) Agencies should take other actions concerning labor relations problems to the extent consistent with their acquisition responsibilities. For example, agencies should—

(1) Notify the agency responsible for conciliation, mediation, arbitration, or other related action of the existence of any labor dispute affecting or threatening to affect agency acquisition programs;

(2) Furnish to the parties to a dispute factual information pertinent to the dispute’s potential or actual adverse impact on these programs, to the extent consistent with security regulations; and

(3) Seek a voluntary agreement between management and labor, notwithstanding the continuance of the dispute, to permit uninterrupted acquisition of supplies and services. This shall only be done, however, if the attempt to obtain voluntary agreement does not involve the agency in the merits of the dispute and only after consultation with the agency responsible for conciliation, mediation, arbitration, or other related action.

(e) The head of the contracting activity may designate programs or requirements for which it is necessary that contractors be required to notify the Government of actual or potential labor disputes that are delaying or threaten to delay the timely contract performance (see 22.103-5(a)).

22.101-2 Contract pricing and administration.

(a) Contractor labor policies and compensation practices, whether or not included in labor-management agreements, are not acceptable bases for allowing costs in cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts if they result in unreasonable costs to the Government. For a discussion of allowable costs resulting from labor-management agreements, see 31.205-6(b).

(b) Labor disputes may cause work stoppages that delay the performance of Government contracts. Contracting officers shall impress upon contractors that each contractor shall be held accountable for reasonably avoidable delays. Standard contract clauses dealing with default, excusable delays, etc., do not relieve contractors or subcontractors from the responsibility for delays that are within the contractors’ or their subcontractors’ control. A delay caused by a strike that the contractor or subcontractor could not reasonably prevent can be excused; however, it cannot be excused beyond the point at which a reasonably diligent contractor or subcontractor could have acted to end the strike by actions such as—

(1) Filing a charge with the National Labor Relations Board to permit the Board to seek injunctive relief in court;

(2) Using other available Government procedures; and

(3) Using private boards or organizations to settle disputes.

(c) Strikes normally result in changing patterns of cost incurrence and therefore may have an impact on the allowability of costs for cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts. Certain costs may increase because of strikes; *e.g.*, guard services and attorney's fees. Other costs incurred during a strike may not fluctuate (*e.g.*, "fixed costs" such as rent and depreciation), but because of reduced production, their proportion of the unit cost of items produced increases. All costs incurred during strikes shall be carefully examined to ensure recognition of only those costs necessary for performing the contract in accordance with the Government's essential interest.

(d) If, during a labor dispute, the inspectors' safety is not endangered, the normal functions of inspection at the plant of a Government contractor shall be continued without regard to the existence of a labor dispute, strike, or picket line.

22.101-3 Reporting labor disputes.

The office administering the contract shall report, in accordance with agency procedures, any potential or actual labor disputes that may interfere with performing any contracts under its cognizance. If a contract contains the clause at 52.222-1, Notice to the Government of Labor Disputes, the contractor also must report any actual or potential dispute that may delay contract performance.

22.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a) Items shall be removed from contractors' facilities affected by work stoppages in accordance with agency procedures. Agency procedures should allow for the following:

(1) Determine whether removal of items is in the Government's interest. Normally the determining factor is the critical needs of an agency program.

(2) Attempt to arrange with the contractor and the union representative involved their approval of the shipment of urgently required items.

(3) Obtain appropriate approvals from within the agency.

(4) Determine who will remove the items from the plant(s) involved.

(b) Avoid the use or appearance of force and prevent incidents that might detrimentally affect labor-management relations.

(c) When two or more agencies' requirements are or may become involved in the removal of items, the contract administration office shall ensure that the necessary coordination is accomplished.

22.102 Federal and State labor requirements.

22.102-1 Policy.

Agencies shall cooperate, and encourage contractors to cooperate with Federal and State agencies responsible for enforcing labor requirements such as—

- (a) Safety;
- (b) Health and sanitation;
- (c) Maximum hours and minimum wages;
- (d) Equal employment opportunity;
- (e) Child and convict labor;
- (f) Age discrimination;
- (g) Disabled and Vietnam veteran employment; and
- (h) Employment of the handicapped.

22.102-2 Administration.

(a) Agencies shall cooperate with, and encourage contractors to use to the fullest extent practicable, the United States Employment Service (USES) and its affiliated local State Employment Service offices in meeting contractors' labor requirements. These requirements may be to staff new or expanding plant facilities, including requirements for workers in all occupations and skills from local labor market areas or through the Federal-State employment clearance system.

(b) Local State employment offices are operated throughout the United States, Puerto Rico, Guam, and the U.S. Virgin Islands. In addition to providing recruitment assistance to contractors, cooperation with the local State Employment Service offices will further the national program of maintaining continuous assessment of manpower requirements and resources on a national and local basis.

(c) The U.S. Department of Labor is responsible for the administration and enforcement of the Occupational Safety and Health Act. The Department of Labor's Wage and Hour Division is responsible for administration and enforcement of numerous wage and hour statutes including Davis-Bacon and Related Acts, McNamara-O'Hara Service Contract Act, Walsh-Healey Public Contracts Act, Copeland Act, and Contract Work Hours and Safety Standards Act. Contracting officers should contact the Wage and Hour Division's regional offices when required by the subparts relating to these statutes unless otherwise specified. Addresses for these offices may be found at 29 CFR 1, Appendix B.

22.103 Overtime.

22.103-1 Definition.

"Normal workweek," as used in this subpart, means, generally, a workweek of 40 hours. Outside the United States and its outlying areas, a workweek longer than 40 hours is considered normal if—

(1) The workweek does not exceed the norm for the area, as determined by local custom, tradition, or law; and

(2) The hours worked in excess of 40 in the workweek are not compensated at a premium rate of pay.

22.103-2 Policy.

Contractors shall perform all contracts, so far as practicable, without using overtime, particularly as a regular employment practice, except when lower overall costs to the Government will result or when it is necessary to meet urgent program needs. Any approved overtime, extra-pay shifts, and multishifts should be scheduled to achieve these objectives.

22.103-3 Procedures.

(a) Solicitations normally shall not specify delivery or performance schedules that may require overtime at Government expense.

(b) In negotiating contracts, contracting officers should, consistent with the Government's needs, attempt to—

(1) Ascertain the extent that offers are based on the payment of overtime and shift premiums; and

(2) Negotiate contract prices or estimated costs without these premiums or obtain the requirement from other sources.

(c) When it becomes apparent during negotiations of applicable contracts (see 22.103-5(b)) that overtime will be required in contract performance, the contracting officer shall secure from the contractor a request for all overtime to be used during the life of the contract, to the extent that the overtime can be estimated with reasonable certainty. The contractor's request shall contain the information required by paragraph (b) of the clause at 52.222-2, Payment for Overtime Premiums.

22.103-4 Approvals.

(a) The contracting officer shall review the contractor's request for overtime. Approval of the use of overtime may be granted by an agency approving official after determining in writing that overtime is necessary to—

(1) Meet essential delivery or performance schedules;

(2) Make up for delays beyond the control and without the fault or negligence of the contractor; or

(3) Eliminate foreseeable extended production bottlenecks that cannot be eliminated in any other way.

(b) Approval by the designated official of use and total dollar amount of overtime is required before inclusion of an amount in paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums. This clause is to be inserted in cost-reimbursement contracts over \$100,000, except for those exempted under 22.103-5(b).

(c) Contracting officer approval of payment of overtime premiums is required for time-and-materials and labor-hour

contracts (see paragraph (a)(3) of the clause at 52.232-7, Payments Under Time-and-Materials and Labor-Hour Contracts).

(d) No approvals are required for paying overtime premiums under other types of contracts.

(e) Approvals by the agency approving official (see 22.103-4(a)) may be for an individual contract, project, program, plant, division, or company, as practical.

(f) During contract performance, contractor requests for overtime exceeding the amount authorized by paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums, shall be submitted as stated in paragraph (b) of the clause to the office administering the contract. That office will review the request and if it approves, send the request to the contracting officer. If the contracting officer determines that the requested overtime should be approved in whole or in part, the contracting officer shall request the approval of the agency's designated approving official and modify paragraph (a) of the clause to reflect any approval.

(g) Overtime premiums at Government expense should not be approved when the contractor is already obligated, without the right to additional compensation, to meet the required delivery date.

(h) When the use of overtime is authorized under a contract, the office administering the contract and the auditor should periodically review the use of overtime to ensure that it is allowable in accordance with the criteria in Part 31. Only overtime premiums for work in those departments, sections, etc., of the contractor's plant that have been individually evaluated and the necessity for overtime confirmed shall be considered for approval.

(i) Approvals for using overtime shall ordinarily be prospective, but, if justified by emergency circumstances, approvals may be retroactive.

22.103-5 Contract clauses.

(a) The contracting officer shall insert the clause at 52.222-1, Notice to the Government of Labor Disputes, in solicitations and contracts that involve programs or requirements that have been designated under 22.101-1(e).

(b) The contracting officer shall include the clause at 52.222-2, Payment for Overtime Premiums, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract amount is expected to be over \$100,000; unless—

(1) A cost-reimbursement contract for operation of vessels is contemplated; or

(2) A cost-plus- incentive-fee contract that will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated.

This page intentionally left blank.

(ii) The contract contains specific requirements for a substantial amount of construction work exceeding the monetary threshold for application of the Davis-Bacon Act (the word “substantial” relates to the type and quantity of construction work to be performed and not merely to the total value of construction work as compared to the total value of the contract); and

(iii) The construction work is physically or functionally separate from, and is capable of being performed on a segregated basis from, the other work required by the contract.

(2) The requirements of this subpart do not apply if—

(i) The construction work is incidental to the furnishing of supplies, equipment, or services (for example, the requirements do not apply to simple installation or alteration at a public building or public work that is incidental to furnishing supplies or equipment under a supply contract; however, if a substantial and segregable amount of construction, alteration, or repair is required, such as for installation of heavy generators or large refrigerator systems or for plant modification or rearrangement, the requirements of this subpart apply); or

(ii) The construction work is so merged with non-construction work or so fragmented in terms of the locations or time spans in which it is to be performed, that it is not capable of being segregated as a separate contractual requirement.

22.403 Statutory and regulatory requirements.

22.403-1 Davis-Bacon Act.

The Davis-Bacon Act (40 U.S.C. 3141 *et seq.*) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works within the United States, shall contain a clause (see 52.222-6) that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor.

22.403-2 Copeland Act.

The Copeland (Anti-Kickback) Act (18 U.S.C. 874 and 40 U.S.C. 3145) makes it unlawful to induce, by force, intimidation, threat of procuring dismissal from employment, or otherwise, any person employed in the construction or repair of public buildings or public works, financed in whole or in part by the United States, to give up any part of the compensation to which that person is entitled under a contract of employment. The Copeland Act also requires each contractor and subcontractor to furnish weekly a statement of compliance with respect to the wages paid each employee during the preceding week. Contracts subject to the Copeland Act shall

contain a clause (see 52.222-10) requiring contractors and subcontractors to comply with the regulations issued by the Secretary of Labor under the Copeland Act.

22.403-3 Contract Work Hours and Safety Standards Act.

The Contract Work Hours and Safety Standards Act (40 U.S.C. 3701 *et seq.*) requires that certain contracts (see 22.305) contain a clause (see 52.222-4) specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 40 hours in any workweek unless paid for all additional hours at not less than 1 1/2 times the basic rate of pay (see 22.301).

22.403-4 Department of Labor regulations.

(a) Under the statutes referred to in this 22.403 and Reorganization Plan No. 14 of 1950 (3 CFR 1949-53 Comp, p. 1007), the Secretary of Labor has issued regulations in Title 29, Subtitle A, *Code of Federal Regulations*, prescribing standards and procedures to be observed by the Department of Labor and the Federal contracting agencies. Those standards and procedures applicable to contracts involving construction are implemented in this subpart.

(b) The Department of Labor regulations include—

(1) Part 1, relating to Davis-Bacon Act minimum wage rates;

(2) Part 3, relating to the Copeland (Anti-Kickback) Act and requirements for submission of weekly statements of compliance and the preservation and inspection of weekly payroll records;

(3) Part 5, relating to enforcement of the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, and Copeland (Anti-Kickback) Act;

(4) Part 6, relating to rules of practice for appealing the findings of the Administrator, Wage and Hour Division, in enforcement cases under the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, Copeland (Anti-Kickback) Act, and Service Contract Act, and by which Administrative Law Judge hearings are held; and

(5) Part 7, relating to rules of practice by which contractors and other interested parties may appeal to the Department of Labor Administrative Review Board, decisions issued by the Administrator, Wage and Hour Division, or administrative law judges under the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, or Copeland (Anti-Kickback) Act.

(c) Refer all questions relating to the application and interpretation of wage determinations (including the classifications therein) and the interpretation of the Department of Labor regulations in this subsection to the Administrator, Wage and Hour Division.

22.404 Davis-Bacon Act wage determinations.

The Department of Labor is responsible for issuing wage determinations reflecting prevailing wages, including fringe benefits. The wage determinations apply only to those laborers and mechanics employed by a contractor upon the site of the work including drivers who transport to or from the site materials and equipment used in the course of contract operations. Determinations are issued for different types of construction, such as building, heavy, highway, and residential (referred to as rate schedules), and apply only to the types of construction designated in the determination.

22.404-1 Types of wage determinations.

(a) *General wage determinations.* (1) A general wage determination contains prevailing wage rates for the types of construction designated in the determination, and is used in contracts performed within a specified geographical area. General wage determinations contain no expiration date and remain valid until modified, superseded, or canceled by the Department of Labor. Once incorporated in a contract, a general wage determination normally remains effective for the life of the contract, unless the contracting officer exercises an option to extend the term of the contract (see 22.404-12). These determinations shall be used whenever possible. They are issued at the discretion of the Department of Labor either upon receipt of an agency request or on the Department of Labor's own initiative.

(2) General wage determinations are published on the WDOL website. General wage determinations are effective on the publication date of the wage determination or upon receipt of the wage determination by the contracting agency, whichever occurs first. "Publication" within the meaning of this section shall occur on the first date the wage determination is published on the WDOL. Archived Davis-Bacon Act general wage determinations that are no longer current may be accessed in the "Archived DB WD" database on WDOL for information purposes only. Contracting officers may not use an archived wage determination in a contract action without obtaining prior approval of the Department of Labor. To obtain prior approval, contact the Department of Labor, Wage and Hour Division, using <http://www.dol.gov/esa>, or contact the procurement agency labor advisor listed on <http://www.wdol.gov>.

(b) *Project wage determinations.* A project wage determination is issued at the specific request of a contracting agency. It is used only when no general wage determination applies, and is effective for 180 calendar days from the date of the determination. However, if a determination expires before contract award, it may be possible to obtain an extension to the 180-day life of the determination (see 22.404-5(b)(2)). Once incorporated in a contract, a project wage determination normally remains effective for the life of the contract, unless the

contracting officer exercises an option to extend the term of the contract (see 22.404-12).

22.404-2 General requirements.

(a) The contracting officer must incorporate only the appropriate wage determinations in solicitations and contracts and must designate the work to which each determination or part thereof applies. The contracting officer must not include project wage determinations in contracts or options other than those for which they are issued. When exercising an option to extend the term of a contract, the contracting officer must select the most current wage determination(s) from the same schedule(s) as the wage determination(s) incorporated into the contract.

(b) If the wage determination is a general wage determination or a project wage determination containing more than one rate schedule, the contracting officer shall either include only the rate schedules that apply to the particular types of construction (building, heavy, highway, etc.) or include the entire wage determination and clearly indicate the parts of the work to which each rate schedule shall be applied. Inclusion by reference is not permitted.

(c) The Wage and Hour Division has issued the following general guidelines for use in selecting the proper schedule(s) of wage rates:

(1) *Building* construction is generally the construction of sheltered enclosures with walk-in access, for housing persons, machinery, equipment, or supplies. It typically includes all construction of such structures, installation of utilities and equipment (both above and below grade level), as well as incidental grading, utilities and paving, unless there is an established area practice to the contrary.

(2) *Residential* construction is generally the construction, alteration, or repair of single family houses or apartment buildings of no more than four (4) stories in height, and typically includes incidental items such as site work, parking areas, utilities, streets and sidewalks, unless there is an established area practice to the contrary.

(3) *Highway* construction is generally the construction, alteration, or repair of roads, streets, highways, runways, taxiways, alleys, parking areas, and other similar projects that are not incidental to "building," "residential," or "heavy" construction.

(4) *Heavy* construction includes those projects that are not properly classified as either "building," "residential," or "highway," and is of a catch-all nature. Such heavy projects may sometimes be distinguished on the basis of their individual characteristics, and separate schedules issued (e.g., "dredging," "water and sewer line," "dams," "flood control," etc.).

(5) When the nature of a project is not clear, it is necessary to look at additional factors, with primary consideration given to locally established area practices. If there is any

doubt as to the proper application of wage rate schedules to the type or types of construction involved, guidance shall be sought before the opening of bids, or receipt of best and final offers, from the Administrator, Wage and Hour Division. Further examples are contained in Department of Labor All Agency Memoranda Numbers 130 and 131.

22.404-3 Procedures for requesting wage determinations.

(a) *General wage determinations.* If there is a general wage determination on the WDOL website applicable to the project, the agency may use it without notifying the Department of Labor. When necessary, a request for a general wage determination may be made by submitting Standard Form (SF) 308, Request for Determination and Response to Request (see 53.301-308), to the Administrator, Wage and Hour Division, Attention: Branch of Construction Contract Wage Determinations, 200 Constitution Avenue, NW, Washington, DC 20210.

(b) *Project wage determinations.* If a general wage determination is not available on WDOL, a contracting agency shall submit requests for project wage determinations on SF 308 to the Department of Labor. The requests shall include the following information:

(1) The location, including the county (or other civil subdivision) and State in which the proposed project is located.

(2) The name of the project and a sufficiently detailed description of the work to indicate the types of construction involved (*e.g.*, building, heavy, highway, residential, or other type).

(3) Any available pertinent wage payment information, unless wage patterns in the area are clearly established.

(4) The estimated cost of each project.

(5) All the classifications of laborers and mechanics likely to be employed.

(c) *Time for submission of requests.* (1) The time required by the Department of Labor for processing requests for project wage determinations varies according to the facts and circumstances in each case. An agency should expect the processing to take at least 30 days. Accordingly, agencies should submit requests for project wage determinations for the primary site of the work to the Department of Labor at least 45 days (60 days if possible) before issuing the solicitation or exercising an option to extend the term of a contract.

(2) Agencies should promptly submit to the Department of Labor an offeror's request for a project wage determination for a secondary site of the work.

(d) *Review of wage determinations.* Immediately upon receipt, the contracting agency shall examine the wage determination and inform the Department of Labor of any changes necessary or appropriate to correct errors. Private parties requesting changes should be advised to submit their requests to the Department of Labor.

22.404-4 Solicitations issued without wage determinations for the primary site of the work.

(a) If a solicitation is issued before the wage determination for the primary site of the work is obtained, a notice shall be included in the solicitation that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the solicitation.

(b) In sealed bidding, bids may not be opened until a reasonable time after the wage determination for the primary site of the work has been furnished to all bidders.

(c) In negotiated acquisitions, the contracting officer may open proposals and conduct negotiations before obtaining the wage determination for the primary site of the work. However, the contracting officer shall incorporate the wage determination for the primary site of the work into the solicitation before submission of best and final offers.

22.404-5 Expiration of project wage determinations.

(a) The contracting officer shall make every effort to ensure that contract award is made before expiration of the project wage determination included in the solicitation.

(b) The following procedure applies when contracting by sealed bidding:

(1) If a project wage determination for the primary site of the work expires before bid opening, or if it appears before bid opening that a project wage determination may expire before award, the contracting officer shall request a new determination early enough to ensure its receipt before bid opening. If necessary, the contracting officer shall postpone the bid opening date to allow a reasonable time to obtain the determination, amend the solicitation to incorporate the new determination, and permit bidders to amend their bids. If the new determination does not change the wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the new determination.

(2) If a project wage determination for the primary site of the work expires after bid opening but before award, the contracting officer shall request an extension of the project wage determination expiration date from the Administrator, Wage and Hour Division. The request for extension shall be supported by a written finding, which shall include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice or undue hardship or to avoid serious impairment of the conduct of Government business. If necessary, the contracting officer shall delay award to permit either receipt of the extension or receipt and processing of a new determination. If the request is granted, the contracting officer shall award the contract and modify it to apply the extended expiration date to the already incorporated project wage determination. (See 43.103(b)(1).) If the request is denied, the Administrator will proceed to issue a new project wage determination. Upon receipt, the

contracting officer shall process the new determination as follows:

(i) If the new determination for the primary site of the work changes any wage rates for classifications to be used in the contract, the contracting officer may cancel the solicitation only in accordance with 14.404-1. Otherwise the contracting officer shall award the contract and incorporate the new determination to be effective on the date of contract award. The contracting officer shall equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates.

(ii) If the new determination for the primary site of the work does not change any wage rates, the contracting officer shall award the contract and modify it to include the number and date of the new determination. (See 43.103(b)(1).)

(c) The following procedure applies when contracting by negotiation:

(1) If a project wage determination will or does expire before contract award, the contracting officer shall request a new wage determination from the Department of Labor. If necessary, the contracting officer shall delay award while the new determination is obtained and processed.

(2) The contracting officer need not delay opening and reviewing proposals or discussing them with the offerors while a new determination for the primary site of the work is being obtained. The contracting officer shall request offerors to extend the period for acceptance of any proposal if that period expires or may expire before receipt and full processing of the new determination.

(3) If the new determination for the primary site of the work changes any wage rates, the contracting officer shall amend the solicitation to incorporate the new determination, and furnish the wage rate information to all prospective offerors that were sent a solicitation if the closing date for receipt of proposals has not yet occurred, or to all offerors that submitted proposals if the closing date has passed. All offerors to whom wage rate information has been furnished shall be given reasonable opportunity to amend their proposals.

(4) If the new determination for the primary site of the work does not change any wage rates, the contracting officer shall amend the solicitation to include the number and date of the new determination and award the contract.

22.404-6 Modifications of wage determinations.

(a) *General.* (1) The Department of Labor may modify a wage determination to make it current by specifying only the items being changed or by reissuing the entire determination with changes incorporated.

(2) All project wage determination modifications expire on the same day as the original determination. The need to include a modification of a project wage determination for the primary site of the work in a solicitation is determined by the

time of receipt of the modification by the contracting agency. Therefore, the contracting agency must annotate the modification of the project wage determination with the date and time immediately upon receipt.

(3) The need for inclusion of the modification of a general wage determination for the primary site of the work in a solicitation is determined by the date the modified wage determination is published on the WDOL, or by the date the agency receives actual written notice of the modification from the Department of Labor, whichever occurs first. (Note the distinction between receipt by the agency (modification is effective) and receipt by the contracting officer, which may occur later.) During the course of the solicitation, the contracting officer shall monitor the WDOL website to determine whether the applicable wage determination has been revised. Revisions published on the WDOL website or otherwise communicated to the contracting officer within the timeframes prescribed at 22.404-6(b) and (c) are applicable and must be included in the resulting contract. Monitoring can be accomplished by use of the WDOL website's "Alert Service".

(b) The following applies when contracting by sealed bidding:

(1) A written action modifying a wage determination shall be effective if:

(i) It is received by the contracting agency, or is published on the WDOL, 10 or more calendar days before the date of bid opening; or

(ii) It is received by the contracting agency, or is published on the WDOL, less than 10 calendar days before the date of bid opening, unless the contracting officer finds that there is not reasonable time available before bid opening to notify the prospective bidders. (If the contracting officer finds that there is not reasonable time to notify bidders, a written report of the finding shall be placed in the contract file and shall be made available to the Department of Labor upon request.)

(2) All written actions modifying wage determinations received by the contracting agency after bid opening, or modifications to general wage determinations published on the WDOL after bid opening, shall not be effective and shall not be included in the solicitation (but see paragraph (b)(6) of this subsection).

(3) If an effective modification of the wage determination for the primary site of the work is received by the contracting officer before bid opening, the contracting officer shall postpone the bid opening, if necessary, to allow a reasonable time to amend the solicitation to incorporate the modification and permit bidders to amend their bids. If the modification does not change the wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the modification.

(4) If an effective modification of the wage determination for the primary site of the work is received by the contracting officer after bid opening, but before award, the contracting officer shall follow the procedures in 22.404-5(b)(2)(i) or (ii).

(5) If an effective modification is received by the contracting officer after award, the contracting officer shall modify the contract to incorporate the wage modification retroactive to the date of award and equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates. If the modification does not change any wage rates and would not warrant contract price adjustment, the contracting officer shall modify the contract to include the number and date of the modification.

(6) If an award is not made within 90 days after bid opening, any modification to a general wage determination which is published on the WDOL before award, shall be effective for any resultant contract unless an extension of the 90-day period is obtained from the Administrator, Wage and Hour Division. An agency head may request such an extension from the Administrator. The request must be supported by a written finding, which shall include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice, undue hardship, or to avoid serious impairment in the conduct of Government business. The contracting officer shall follow the procedures in 22.404-5(b)(2).

(c) The following applies when contracting by negotiation:

(1) All written actions modifying wage determinations received by the contracting agency before contract award, or modifications to general wage determinations published on the WDOL before award, shall be effective.

(2) If an effective wage modification is received by the contracting officer before award, the contracting officer shall follow the procedures in 22.404-5(c)(3) or (4).

(3) If an effective wage modification is received by the contracting officer after award, the contracting officer shall follow the procedures in 22.404-6(b)(5).

(d) The following applies when modifying a contract to exercise an option to extend the term of a contract:

(1) A modified wage determination is effective if—

(i) The contracting agency receives a written action from the Department of Labor prior to exercise of the option, or within 45 days after submission of a wage determination request (22.404-3(c)), whichever is later; or

(ii) The Department of Labor publishes the modification to a general wage determination on the WDOL before exercise of the option.

(2) If the contracting officer receives an effective modified wage determination either before or after execution of the contract modification to exercise the option, the contracting officer must modify the contract to incorporate the modi-

fied wage determination, and any changed wage rates, effective as of the date that the option to extend was effective.

22.404-7 Correction of wage determinations containing clerical errors.

Upon the Department of Labor's own initiative or at the request of the contracting agency, the Administrator, Wage and Hour Division, may correct any wage determination found to contain clerical errors. Such corrections will be effective immediately, and will apply to any solicitation or active contract. Before contract award, the contracting officer must follow the procedures in 22.404-5(b)(1) or (2)(i) or (ii) in sealed bidding, and the procedures in 22.404-5(c)(3) or (4) in negotiations. After contract award, the contracting officer must follow the procedures at 22.404-6(b)(5), except that for contract modifications to exercise an option to extend the term of the contract, the contracting officer must follow the procedures at 22.404-6(d)(2).

22.404-8 Notification of improper wage determination before award.

(a) The following written notifications by the Department of Labor shall be effective immediately without regard to 22.404-6 if received by the contracting officer prior to award:

(1) A solicitation includes the wrong wage determination or the wrong rate schedule; or

(2) A wage determination is withdrawn by the Administrative Review Board.

(b) In sealed bidding, the contracting officer shall proceed in accordance with the following:

(1) If the notification of an improper wage determination for the primary site of the work reaches the contracting officer before bid opening, the contracting officer shall postpone the bid opening date, if necessary, to allow a reasonable time to—

(i) Obtain the appropriate determination if a new wage determination is required;

(ii) Amend the solicitation to incorporate the determination (or rate schedule); and

(iii) Permit bidders to amend their bids. If the appropriate wage determination does not change any wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the new determination.

(2) If the notification of an improper wage determination for the primary site of the work reaches the contracting officer after bid opening but before award, the contracting officer shall delay awarding the contract, if necessary, and if required, obtain the appropriate wage determination. The appropriate wage determination shall be processed in accordance with 22.404-5(b)(2)(i) or (ii).

(c) In negotiated acquisitions, the contracting officer shall delay award, if necessary, and process the notification of an

improper wage determination for the primary site of the work in the manner prescribed for a new wage determination at 22.404-5(c)(3).

22.404-9 Award of contract without required wage determination.

(a) If a contract is awarded without the required wage determination (*i.e.*, incorporating no determination, containing a clearly inapplicable general wage determination, or containing a project determination which is inapplicable because of an inaccurate description of the project or its location), the contracting officer shall initiate action to incorporate the required determination in the contract immediately upon discovery of the error. If a required wage determination (valid determination in effect on the date of award) is not available, the contracting officer shall expeditiously request a wage determination from the Department of Labor, including a statement explaining the circumstances and giving the date of the contract award.

(b) The contracting officer shall—

(1) Modify the contract to incorporate the required wage determination (retroactive to the date of award) and equitably adjust the contract price if appropriate; or

(2) Terminate the contract.

22.404-10 Posting wage determinations and notice.

The contractor must keep a copy of the applicable wage determination (and any approved additional classifications) posted at the site of the work in a prominent place where the workers can easily see it. The contracting officer shall furnish to the contractor, Department of Labor Form WH-1321, Notice to Employees Working on Federal and Federally Financed Construction Projects, for posting with the wage rates. The name, address, and telephone number of the Government officer responsible for the administration of the contract shall be indicated in the poster to inform workers to

whom they may submit complaints or raise questions concerning labor standards.

22.404-11 Wage determination appeals.

The Secretary of Labor has established an Administrative Review Board which decides appeals of final decisions made by the Department of Labor concerning Davis-Bacon Act wage determinations. A contracting agency or other interested party may file a petition for review under the procedures in 29 CFR Part 7 if reconsideration by the Administrator has been sought pursuant to 29 CFR 1.8 and denied.

22.404-12 Labor standards for contracts containing construction requirements and option provisions that extend the term of the contract.

(a) Each time the contracting officer exercises an option to extend the term of a contract for construction, or a contract that includes substantial and segregable construction work, the contracting officer must modify the contract to incorporate the most current wage determination.

(b) If a contract with an option to extend the term of the contract has indefinite-delivery or indefinite-quantity construction requirements, the contracting officer must incorporate the wage determination incorporated into the contract at the exercise of the option into task orders issued during that option period. The wage determination will be effective for the complete period of performance of those task orders without further revision.

(c) The contracting officer must include in fixed-price contracts a clause that specifies one of the following methods, suitable to the interest of the Government, to provide an allowance for any increases or decreases in labor costs that result from the inclusion of the current wage determination at the exercise of an option to extend the term of the contract:

(1) The contracting officer may provide the offerors the opportunity to bid or propose separate prices for each option

Subpart 22.10—Service Contract Act of 1965, as Amended

22.1000 Scope of subpart.

This subpart prescribes policies and procedures implementing the provisions of the Service Contract Act of 1965, as amended (41 U.S.C. 351, *et seq.*), the applicable provisions of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201, *et seq.*), and related Secretary of Labor regulations and instructions (29 CFR Parts 4, 6, 8, and 1925).

22.1001 Definitions.

As used in this subpart—

“Act” or “Service Contract Act” means the Service Contract Act of 1965.

“Agency labor advisor” means an individual responsible for advising contracting agency officials on Federal contract labor matters.

“Contractor” includes a subcontractor at any tier whose subcontract is subject to the provisions of the Act.

“Multiple year contracts” means contracts having a term of more than 1 year regardless of fiscal year funding. The term includes multiyear contracts (see 17.103).

“Service contract” means any Government contract, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted under section 7 of the Act (41 U.S.C. 356; see 22.1003-3 and 22.1003-4), or any subcontract at any tier thereunder. See 22.1003-5 and 29 CFR 4.130 for a partial list of services covered by the Act.

“Service employee” means any person engaged in the performance of a service contract other than any person employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR Part 541. The term “service employee” includes all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

“United States” means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and Outer Continental Shelf lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, *et seq.*), but does not include any other place subject to U.S. jurisdiction or any U.S. base or possession in a foreign country (29 CFR 4.112).

“Wage and Hour Division” means the unit in the Employment Standards Administration of the Department of Labor to which is assigned functions of the Secretary of Labor under the Act.

“Wage determination” means a determination of minimum wages or fringe benefits made under sections 2(a) or 4(c) of

the Act (41 U.S.C. 351(a) or 353(c)) applicable to the employment in a given locality of one or more classes of service employees.

22.1002 Statutory requirements.

22.1002-1 General.

Service contracts over \$2,500 shall contain mandatory provisions regarding minimum wages and fringe benefits, safe and sanitary working conditions, notification to employees of the minimum allowable compensation, and equivalent Federal employee classifications and wage rates. Under 41 U.S.C. 353(d), service contracts may not exceed 5 years.

22.1002-2 Wage determinations based on prevailing rates.

Contractors performing on service contracts in excess of \$2,500 to which no predecessor contractor’s collective bargaining agreement applies shall pay their employees at least the wages and fringe benefits found by the Department of Labor to prevail in the locality or, in the absence of a wage determination, the minimum wage set forth in the Fair Labor Standards Act.

22.1002-3 Wage determinations based on collective bargaining agreements.

(a) Successor contractors performing on contracts in excess of \$2,500 for substantially the same services performed in the same locality must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) at least equal to those contained in any bona fide collective bargaining agreement entered into under the predecessor contract. This requirement is self-executing and is not contingent upon incorporating a wage determination or the wage and fringe benefit terms of the predecessor contractor’s collective bargaining agreement in the successor contract. This requirement will not apply if the Secretary of Labor determines—

(1) After a hearing, that the wages and fringe benefits are substantially at variance with those which prevail for services of a similar character in the locality; or

(2) That the wages and fringe benefits are not the result of arm’s length negotiations.

(b) Paragraphs in this Subpart 22.10 which deal with this statutory requirement and the Department of Labor’s implementing regulations are 22.1010, concerning notification to contractors and bargaining representatives of procurement dates; 22.1012-2, explaining when a collective bargaining agreement will not apply due to late receipt by the contracting officer; and 22.1013 and 22.1021, explaining when the application of a collective bargaining agreement can be challenged due to a variance with prevailing rates or lack of arm’s length bargaining.

22.1002-4 Application of the Fair Labor Standards Act minimum wage.

No contractor or subcontractor holding a service contract for any dollar amount shall pay any of its employees working on the contract less than the minimum wage specified in section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206).

22.1003 Applicability.**22.1003-1 General.**

This Subpart 22.10 applies to all Government contracts, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted in 22.1003-3 and 22.1003-4 of this section, or any subcontract at any tier thereunder. This subpart does not apply to individual contract requirements for services in contracts not having as their principal purpose the furnishing of services. The nomenclature, type, or particular form of contract used by contracting agencies is not determinative of coverage.

22.1003-2 Geographical coverage of the Act.

The Act applies to service contracts performed in the United States (see 22.1001). The Act does not apply to contracts performed outside the United States.

22.1003-3 Statutory exemptions.

The Act does not apply to—

(a) Any contract for construction, alteration, or repair of public buildings or public works, including painting and decorating;

(b) Any work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act (41 U.S.C. 35-45);

(c) Any contract for transporting freight or personnel by vessel, aircraft, bus, truck, express, railroad, or oil or gas pipeline where published tariff rates are in effect;

(d) Any contract for furnishing services by radio, telephone, telegraph, or cable companies subject to the Communications Act of 1934;

(e) Any contract for public utility services;

(f) Any employment contract providing for direct services to a Federal agency by an individual or individuals; or

(g) Any contract for operating postal contract stations for the U.S. Postal Service.

22.1003-4 Administrative limitations, variations, tolerances, and exemptions.

(a) The Secretary of Labor may provide reasonable limitations and may make rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions of the Act other than section 10 (41 U.S.C. 358).

These will be made only in special circumstances where it has been determined that the limitation, variation, tolerance, or exemption is necessary and proper in the public interest or to avoid the serious impairment of Government business, and is in accord with the remedial purpose of the Act to protect prevailing labor standards (41 U.S.C. 353(b)). See 29 CFR 4.123 for a listing of administrative exemptions, tolerances, and variations. Requests for limitations, variances, tolerances, and exemptions from the Act shall be submitted in writing through contracting channels and the agency labor advisor to the Wage and Hour Administrator.

(b) In addition to the statutory exemptions cited in 22.1003-3 of this subsection, the Secretary of Labor has exempted the following types of contracts from all provisions of the Act:

(1) Contracts entered into by the United States with common carriers for the carriage of mail by rail, air (except air star routes), bus, and ocean vessel, where such carriage is performed on regularly scheduled runs of the trains, airplanes, buses, and vessels over regularly established routes and accounts for an insubstantial portion of the revenue therefrom.

(2) Any contract entered into by the U.S. Postal Service with an individual owner-operator for mail service if it is not contemplated at the time the contract is made that the owner-operator will hire any service employee to perform the services under the contract except for short periods of vacation time or for unexpected contingencies or emergency situations such as illness, or accident.

(3) Contracts for the carriage of freight or personnel if such carriage is subject to rates covered by section 10721 of the Interstate Commerce Act.

(4) Contracts as follows:

(i) Contracts principally for the maintenance, calibration, or repair of the following types of equipment are exempt, subject to the restrictions in subdivisions (b)(4)(ii), (b)(4)(iii), and (b)(4)(iv) of this subsection.

(A) Automated data processing equipment and office information/word processing systems.

(B) Scientific equipment and medical apparatus or equipment if the application of micro-electronic circuitry or other technology of at least similar sophistication is an essential element (for example, Federal Supply Classification (FSC) Group 65, Class 6515, "Medical Diagnostic Equipment;" Class 6525, "X-Ray Equipment;" FSC Group 66, Class 6630, "Chemical Analysis Instruments;" and Class 6665, "Geographical and Astronomical Instruments," are largely composed of the types of equipment exempted hereunder).

(C) Office/business machines not otherwise exempt pursuant to subdivision (b)(4)(i)(A) of this subsection, if such services are performed by the manufacturer or supplier of the equipment.

(ii) The exemption set forth in this subparagraph (b)(4) of this subsection shall apply only under the following circumstances:

(A) The items of equipment are commercial items which are used regularly for other than Government purposes and are sold or traded by the contractor in substantial quantities to the general public in the course of normal business operations.

(B) The contract services are furnished at prices which are, or are based on, established catalog or market prices (see 29 CFR 4.123(e)(1)(ii)(B)) for the maintenance, calibration, or repair of such commercial items.

(C) The contractor utilizes the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the contractor uses for equivalent employees servicing the same equipment of commercial customers.

(D) The contractor certifies in the contract to the provisions in subdivision (b)(4)(ii) of this subsection. (See 22.1006(d).)

(iii)(A) Determinations of the applicability of this exemption shall be made in the first instance by the contracting officer before contract award. In determining that the exemption applies, the contracting officer shall consider all factors and make an affirmative determination that all of the above conditions have been met.

(B) If any potential offerors would not qualify for the exemption, the contracting officer shall incorporate in the solicitation the Service Contract Act clause (see 22.1006(a)) and, if the contract will exceed \$2,500, the appropriate Department of Labor wage determination (see 22.1007).

(iv) If the Department of Labor determines after contract award that any of the requirements for exemption in subparagraph (b)(4) of this subsection have not been met, the exemption will be deemed inapplicable, and the contract shall become subject to the Service Contract Act, effective as of the date of the Department of Labor determination.

22.1003-5 Some examples of contracts covered.

The following examples, while not definitive or exclusive, illustrate some of the types of services that have been found to be covered by the Act (see 29 CFR 4.130 for additional examples):

(a) Motor pool operation, parking, taxicab, and ambulance services.

(b) Packing, crating, and storage.

(c) Custodial, janitorial, housekeeping, and guard services.

(d) Food service and lodging.

(e) Laundry, dry-cleaning, linen-supply, and clothing alteration and repair services.

(f) Snow, trash, and garbage removal.

(g) Aerial spraying and aerial reconnaissance for fire detection.

(h) Some support services at installations, including grounds maintenance and landscaping.

(i) Certain specialized services requiring specific skills, such as drafting, illustrating, graphic arts, stenographic reporting, or mortuary services.

(j) Electronic equipment maintenance and operation and engineering support services.

(k) Maintenance and repair of all types of equipment, for example, aircraft, engines, electrical motors, vehicles, and electronic, office and related business and construction equipment. (But see 22.1003-4(b)(4).)

(l) Operation, maintenance, or logistics support of a Federal facility.

(m) Data collection, processing and analysis services.

22.1003-6 Repair distinguished from remanufacturing of equipment.

(a) Contracts principally for remanufacturing of equipment which is so extensive as to be equivalent to manufacturing are subject to the Walsh-Healey Public Contracts Act, rather than to the Service Contract Act. Remanufacturing shall be deemed to be manufacturing when the criteria in either subparagraphs (a)(1) or (a)(2) of this subsection are met.

(1) Major overhaul of an item, piece of equipment, or material which is degraded or inoperable, and under which all of the following conditions exist:

(i) The item or equipment is required to be completely or substantially torn down into individual component parts.

(ii) Substantially all of the parts are reworked, rehabilitated, altered and/or replaced.

(iii) The parts are reassembled so as to furnish a totally rebuilt item or piece of equipment.

(iv) Manufacturing processes similar to those which were used in the manufacturing of the item or piece of equipment are utilized.

(v) The disassembled components, if usable (except for situations where the number of items or pieces of equipment involved are too few to make it practicable) are commingled with existing inventory and, as such, lose their identification with respect to a particular piece of equipment.

(vi) The items or equipment overhauled are restored to original life expectancy, or nearly so.

(vii) Such work is performed in a facility owned or operated by the contractor.

(2) Major modification of an item, piece of equipment, or material which is wholly or partially obsolete, and under which all of the following conditions exist:

(i) The item or equipment is required to be completely or substantially torn down.

(ii) Outmoded parts are replaced.

(iii) The item or equipment is rebuilt or reassembled.

(iv) The contract work results in the furnishing of a substantially modified item in a usable and serviceable condition.

(v) The work is performed in a facility owned or operated by the contractor.

(b) Remanufacturing does not include the repair of damaged or broken equipment which does not require a complete teardown, overhaul, and rebuild as described in subparagraphs (a)(1) and (a)(2) of this subsection, or the periodic and routine maintenance, preservation, care, adjustment, upkeep, or servicing of equipment to keep it in usable, serviceable, working order. Such contracts typically are billed on an hourly rate (labor plus materials and parts) basis. Any contract principally for this type of work is subject to the Service Contract Act. Examples of such work include the following:

(1) Repair of an automobile, truck, or other vehicle, construction equipment, tractor, crane, aerospace, air conditioning and refrigeration equipment, electric motors, and ground powered industrial or vehicular equipment.

(2) Repair of typewriters and other office equipment (but see 22.1003-4(b)(4)).

(3) Repair of appliances, radios, television sets, calculators, and other electronic equipment.

(4) Inspecting, testing, calibration, painting, packaging, lubrication, tune-up, or replacement of internal parts of equipment listed in subparagraphs (b)(1), (b)(2), and (b)(3) of this subsection.

(5) Reupholstering, reconditioning, repair, and refinishing of furniture.

22.1003-7 Questions concerning applicability of the Act.

If the contracting officer questions the applicability of the Act to an acquisition, the contracting officer shall request the advice of the agency labor advisor. Unresolved questions shall be submitted in a timely manner to the Administrator, Wage and Hour Division, for determination.

22.1004 Department of Labor responsibilities and regulations.

Under the Act, the Secretary of Labor is authorized and directed to enforce the provisions of the Act, make rules and regulations, issue orders, hold hearings, make decisions, and take other appropriate action. The Department of Labor has issued implementing regulations on such matters as—

(a) Service contract labor standards provisions and procedures (29 CFR Part 4, Subpart A);

(b) Wage determination procedures (29 CFR part 4, subparts A and B);

(c) Application of the Act (rulings and interpretations) (29 CFR Part 4, Subpart C);

(d) Compensation standards (29 CFR Part 4, Subpart D);

(e) Enforcement (29 CFR Part 4, Subpart E);

(f) Safe and sanitary working conditions (29 CFR Part 1925);

(g) Rules of practice for administrative proceedings enforcing service contract labor standards (29 CFR Part 6); and

(h) Practice before the Board of Service Contract Appeals (29 CFR Part 8).

22.1005 [Reserved]

22.1006 Contract clauses.

(a) The contracting officer shall insert the clause at 52.222-41, Service Contract Act of 1965, as amended, in solicitations and contracts if the contract is subject to the Act and is—

(1) For over \$2,500; or

(2) For an indefinite dollar amount and the contracting officer does not know in advance that the contract amount will be \$2,500 or less.

(b) The contracting officer shall insert the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, in solicitations and contracts if the contract amount is expected to be over \$2,500 and the Act is applicable. (See 22.1016.)

(c)(1) The contracting officer shall insert the clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), or another clause which accomplishes the same purpose, in solicitations and contracts if the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, as amended, and is a multiple year contract or is a contract with options to renew which exceeds the simplified acquisition threshold. The clause may be used in contracts that do not exceed the simplified acquisition threshold. The clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), applies to both contracts subject to area prevailing wage determinations and contracts subject to the incumbent contractor's collective bargaining agreement in effect during this contract's preceding contract period (see 22.1002-2 and 22.1002-3). Contracting officers shall ensure that contract prices or contract unit price labor rates are adjusted only to the extent that a contractor's increases or decreases in applicable wages and fringe benefits are made to comply with the requirements set forth in the clauses at 52.222-43 (subparagraphs (c)(1), (2) and (3)), or 52.222-44 (subparagraphs (b)(1) and (2)). (For example, the prior year wage determination required a minimum wage rate of \$4.00 per hour. The contractor actually paid \$4.10. The new wage determination increases the minimum rate to \$4.50. The contractor increases the rate actually paid to \$4.75 per hour. The allowable price adjustment is \$.40 per hour.)

(2) The contracting officer shall insert the clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, in solicitations and contracts if the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, as amended, exceeds the simplified acquisition threshold, and is not a multiple year contract or is not a contract with options to renew. The clause may be used in contracts that do not exceed the simplified acquisition threshold. The clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, applies to both contracts subject to area prevailing wage determinations and contracts subject to contractor collective bargaining agreements (see 22.1002-2 and 22.1002-3).

(3) The clauses prescribed in paragraph 22.1006(c)(1) cover situations in which revised minimum wage rates are applied to contracts by operation of law, or by revision of a wage determination in connection with (i) exercise of a contract option or (ii) extension of a multiple year contract into a new program year. If a clause prescribed in 16.203-4(d) is used, it must not conflict with, or duplicate payment under, the clauses prescribed in this paragraph 22.1006(c).

(d) [Reserved]

(e)(1) The contracting officer shall insert the clause at 52.222-48, Exemption from Application of Service Contract Act Provisions—Contractor Certification, in any solicitation and resulting contract calling for the maintenance, calibration, and/or repair of information technology, scientific and medical, and office and business equipment if the contracting officer determines that the resultant contract may be exempt from Service Contract Act coverage as described at 22.1003-4(b)(4).

(2) If the successful offeror does not certify that the exemption applies, the contracting officer shall not insert the clause at 52.222-48 and instead shall insert in the contract—

(i) The applicable Service Contract Act clause(s); and

(ii) The appropriate Department of Labor wage determination if the contract exceeds \$2,500.

(f) The contracting officer shall insert the clause at 52.222-49, Service Contract Act—Place of Performance Unknown, if using the procedures prescribed in 22.1009-4.

22.1007 Requirement to obtain wage determinations.

The contracting officer shall obtain wage determinations for the following service contracts:

(a) Each new solicitation and contract in excess of \$2,500.

(b) Each contract modification which brings the contract above \$2,500 and—

(1) Extends the existing contract pursuant to an option clause or otherwise; or

(2) Changes the scope of the contract whereby labor requirements are affected significantly.

(c) Each multiple year contract in excess of \$2,500 upon—

(1) Annual anniversary date if the contract is subject to annual appropriations; or

(2) Biennial anniversary date if the contract is not subject to annual appropriations and its proposed term exceeds 2 years—unless otherwise advised by the Wage and Hour Division.

22.1008 Procedures for obtaining wage determinations.

22.1008-1 Obtaining wage determinations.

(a) Contracting officers may obtain most prevailing wage determinations using the WDOL website. Contracting officers may also use the Department of Labor’s e98 electronic process, located on the WDOL website, to request a wage determination directly from the Department of Labor. If the WDOL database does not contain the applicable prevailing wage determination for a contract action, the contracting officer must use the e98 process to request a wage determination from the Department of Labor.

(b) In using the e98 process to obtain prevailing wage determinations, contracting officers shall provide as complete and accurate information on the e98 as possible. Contracting officers shall ensure that the email address submitted on an e98 request is accurate.

(c) The contracting officer must anticipate the amount of time required to gather the information necessary to obtain a wage determination, including sufficient time, if necessary, to contact the Department of Labor to request wage determinations that are not available through use of the WDOL.

(d) Although the WDOL website provides assistance to the contracting agency to select the correct wage determination, the contracting agency remains responsible for the wage determination selected. If the contracting agency has used the e98 process, the Department of Labor will respond to the contracting agency based on the information provided on the e98. The contracting agency may rely upon the Department of Labor response as the correct wage determination for the contract.

(e) To obtain the applicable wage determination for each contract action, the contracting officer shall determine the following information concerning the service employees expected to be employed by the contractor and any subcontractors in performing the contract:

(1) Determine the classes of service employees to be utilized in performance of the contract using the Wage and Hour Division’s *Service Contract Act Directory of Occupations* (Directory). The Directory can be found on WDOL’s Library Page, and is for sale by the Superintendent of Documents, U.S. Government Printing Office.

(2) Determine the locality where the services will be performed (see 22.1009).

(3) Determine whether Section 4(c) of the Act applies (see 22.1008-2, 22.1010 and 22.1012-2).

(4) Determine the wage rate that would be paid each class if employed by the agency and subject to the wage provisions of 5 U.S.C. 5341 and/or 5332 (see 22.1016).

(f) If the contracting officer has questions regarding the procedures for obtaining a wage determination, or questions regarding the selection of a wage determination, the contracting officer should request assistance from the agency labor advisor.

22.1008-2 Section 4(c) successorship with incumbent contractor collective bargaining agreement.

(a) Early in the acquisition cycle, the contracting officer shall determine whether section 4(c) of the Act affects the new acquisition. The contracting officer shall determine whether there is a predecessor contract covered by the Act and, if so, whether the incumbent prime contractor or its subcontractors and any of their employees have a collective bargaining agreement.

(b) Section 4(c) of the Act provides that a successor contractor must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) to service employees at least equal to those agreed upon by a predecessor contractor under the following conditions:

(1) The services to be furnished under the proposed contract will be substantially the same as services being furnished by an incumbent contractor whose contract the proposed contract will succeed.

(2) The services will be performed in the same locality.

(3) The incumbent prime contractor or subcontractor is furnishing such services through the use of service employees whose wages and fringe benefits are the subject of one or more collective bargaining agreements.

(c) The application of section 4(c) of the Act is subject to the following limitations:

(1) Section 4(c) of the Act will not apply if the incumbent contractor enters into a collective bargaining agreement for the first time and the agreement does not become effective until after the expiration of the incumbent's contract.

(2) If the incumbent contractor enters into a new or revised collective bargaining agreement during the period of the incumbent's performance on the current contract, the terms of the new or revised agreement shall not be effective for the purposes of section 4(c) of the Act under the following conditions:

(i)(A) In sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement less than 10 days before bid opening and finds that there is not reasonable time still available to notify bidders (see 22.1012-2(a)); or

(B) For contractual actions other than sealed bidding, the contracting agency receives notice of the terms of the

collective bargaining agreement after award, provided that the start of performance is within 30 days of award (see 22.1012-2(b)); and

(ii) The contracting officer has given both the incumbent contractor and its employees' collective bargaining agent timely written notification of the applicable acquisition dates (see 22.1010).

(d)(1) If section 4(c) of the Act applies, the contracting officer shall obtain a copy of any collective bargaining agreement between an incumbent contractor or subcontractor and its employees. Obtaining a copy of an incumbent contractor's collective bargaining agreement may involve coordination with the administrative contracting officer responsible for administering the predecessor contract. (Paragraph (m) of the clause at 52.222-41, Service Contract Act of 1965, as amended, requires the incumbent prime contractor to furnish the contracting officer a copy of each collective bargaining agreement.)

(2) If the contracting officer has timely received the collective bargaining agreement, the contracting officer may use the WDOL website to prepare a wage determination referencing the agreement and incorporate that wage determination, attached to a complete copy of the collective bargaining agreement, into the successor contract action. In using the WDOL process, it is not necessary to submit a copy of the collective bargaining agreement to the Department of Labor unless requested to do so.

(3) The contracting officer may also use the e98 process on WDOL to request that the Department of Labor prepare the cover wage determination. The Department of Labor's response to the e98 may include a request for the contracting officer to submit a complete copy of the collective bargaining agreement. Any questions regarding the applicability of the Act to a collective bargaining agreement should be directed to the agency labor advisor.

(e)(1) Section 4(c) of the Act will not apply if the Secretary of Labor determines (i) after a hearing, that the wages and fringe benefits in the predecessor contractor's collective bargaining agreement are substantially at variance with those which prevail for services of a similar character in the locality, or (ii) that the wages and fringe benefits in the predecessor contractor's collective bargaining agreement are not the result of arm's length negotiations (see 22.1013 and 22.1021). The Department of Labor (DOL) has concluded that contingent collective bargaining agreement provisions that attempt to limit a contractor's obligations by means such as requiring issuance of a wage determination by the DOL, requiring inclusion of the wage determination in the contract, or requiring the Government to adequately reimburse the contractor, generally reflect a lack of arm's length negotiations.

(2) If the contracting officer's review (see 22.1013) indicates that monetary provisions of the collective bargaining agreement may be substantially at variance or may not

have been reached as a result of arm's length bargaining, the contracting officer shall immediately contact the agency labor advisor to consider if further action is warranted.

(f) If the services are being furnished at more than one location and the collectively bargained wage rates and fringe benefits are different at different locations or do not apply to one or more locations, the contracting officer shall identify the locations to which the agreements apply.

(g) If the collective bargaining agreement does not apply to all service employees under the contract, the contracting officer shall access WDOL to obtain the prevailing wage determination for those service employee classifications that are not covered by the collective bargaining agreement. The contracting officer shall separately list in the solicitation and contract the service employee classifications—

- (1) Subject to the collective bargaining agreement; and
- (2) Not subject to any collective bargaining agreement.

22.1009 Place of performance unknown.

22.1009-1 General.

If the place of performance is unknown, the contracting officer may use the procedures in this section. The contracting officer should first attempt to identify the specific places or geographical areas where the services might be performed (see 22.1009-2) and then may follow the procedures either in 22.1009-3 or in 22.1009-4.

22.1009-2 Attempt to identify possible places of performance.

The contracting officer should attempt to identify the specific places or geographical areas where the services might be performed. The following may indicate possible places of performance:

- (a) Locations of previous contractors and their competitors.
- (b) Databases available via the Internet for lists of prospective offerors and contractors.
- (c) Responses to a presolicitation notice (see 5.204).

22.1009-3 All possible places of performance identified.

(a) If the contracting officer can identify all the possible places or areas of performance (even though the actual place of performance will not be known until the successful offeror is chosen), the contracting officer shall obtain a wage determination for each locality where services may be performed (see 22.1008).

(b) If the contracting officer subsequently learns of any potential offerors in previously unidentified places before the closing date for submission of offers, the contracting officer shall—

- (1) Obtain wage determinations for the additional places of performance and amend the solicitation to include all wage determinations. If necessary, the contracting officer shall extend the time for submission of final offers; and
- (2) Follow the procedures in 22.1009-4.

22.1009-4 All possible places of performance not identified.

If the contracting officer believes that there may be offerors interested in performing in unidentified places or areas, the contracting officer may use the following procedures:

(a) Include the following information in the synopsis and solicitation:

- (1) That the place of performance is unknown.
- (2) The possible places or areas of performance that the contracting officer has already identified.
- (3) That the contracting officer will obtain wage determinations for additional possible places of performance if asked to do so in writing.
- (4) The time and date by which offerors must notify the contracting officer of additional places of performance.

(b) Include the information required by paragraphs (a)(2) and (a)(4) of this section in the clause at 52.222-49, Service Contract Act—Place of Performance Unknown (see 22.1006(f)). The closing date for receipt of offerors' requests for wage determinations for additional possible places of performance should allow reasonable time for potential offerors to review the solicitation and determine their interest in competing. Generally, 10 to 15 days from the date of issuance of the solicitation may be considered a reasonable period of time.

(c) The procedures in 14.304 shall apply to late receipt of offerors' requests for wage determinations for additional places of performance. However, late receipt of an offeror's request for a wage determination for additional places of performance does not preclude the offeror's competing for the proposed acquisition.

(d) If the contracting officer receives any timely requests for wage determinations for additional places of performance the contracting officer shall—

- (1) Obtain wage determinations for the additional places of performance; and
- (2) Amend the solicitation to include all wage determinations and, if necessary, extend the time for submission of final offers.

(e) If the successful offeror did not make a timely request for a wage determination and will perform in a place of performance for which the contracting officer therefore did not request a wage determination, the contracting officer shall—

- (1) Award the contract;
- (2) Obtain a wage determination; and
- (3) Incorporate the wage determination in the contract, retroactive to the date of contract award and with no adjust-

ment in contract price, pursuant to the clause at 52.222-49, Service Contract–Place of Performance Unknown.

22.1010 Notification to interested parties under collective bargaining agreements.

(a) The contracting officer should determine whether the incumbent prime contractor's or its subcontractors' service employees performing on the current contract are represented by a collective bargaining agent. If there is a collective bargaining agent, the contracting officer shall give both the incumbent contractor and its employees' collective bargaining agent written notification of—

(1) The forthcoming successor contract and the applicable acquisition dates (issuance of solicitation, opening of bids, commencement of negotiations, award of contract, or start of performance, as the case may be); or

(2) The forthcoming contract modification and applicable acquisition dates (exercise of option, extension of contract, change in scope, or start of performance, as the case may be); or

(3) The forthcoming multiple year contract anniversary date (annual anniversary date or biennial date, as the case may be).

(b) This written notification must be given at least 30 days in advance of the earliest applicable acquisition date or the applicable annual or biennial anniversary date in order for the time-of-receipt limitations in paragraphs 22.1012-2(a) and (b) to apply. The contracting officer shall retain a copy of the notification in the contract file.

22.1011 [Reserved]

22.1012 Applicability of revisions to wage determinations.

22.1012-1 Prevailing wage determinations.

(a)(1) The Wage and Hour Administrator may issue revisions to prevailing wage determinations periodically. The need for inclusion of a revised prevailing wage determination in a solicitation, contract or contract modification (see 22.1007) is determined by the date of receipt of the revised prevailing wage determination by the contracting agency. (Note the distinction between receipt by the agency and receipt by the contracting officer which may occur later.)

(i) For purposes of using WDOL, the time of receipt by the contracting agency shall be the first day of publication of the revised prevailing wage determination on the website.

(ii) For purposes of using the e98 process, the time of receipt by the contracting agency shall be the date the agency receives actual notice of a new or revised prevailing wage determination from the Department of Labor as an e98 response.

(2) In selecting a prevailing wage determination from the WDOL website for use in a solicitation or other contract action, the contracting officer shall monitor the WDOL website to determine whether the applicable wage determination has been revised. Revisions published on the WDOL website or otherwise communicated to the contracting officer within the timeframes prescribed at 22.1012-1(b) and (c) are effective and must be included in the resulting contract. Monitoring can be accomplished by use of the WDOL website's "Alert Service".

(b) The following shall apply when contracting by sealed bidding: a revised prevailing wage determination shall not be effective if it is received by the contracting agency less than 10 days before the opening of bids, and the contracting officer finds that there is not reasonable time to incorporate the revision in the solicitation.

(c) For contractual actions other than sealed bidding, a revised prevailing wage determination received by the contracting agency after award of a new contract or a modification as specified in 22.1007(b) shall not be effective provided that the start of performance is within 30 days of the award or the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award or the specified modification, and if contract performance does not commence within 30 days of the award or the specified modification, any revision received by the contracting agency not less than 10 days before commencement of the work shall be effective.

(d) If the contracting officer has submitted an e98 to the Department of Labor requesting a prevailing wage determination and has not received a response within 10 days, the contracting officer shall contact the Wage and Hour Division by telephone to determine when the wage determination can be expected. (The telephone number is provided on the e98 website.)

22.1012-2 Wage determinations based on collective bargaining agreements.

(a) In sealed bidding, a new or changed collective bargaining agreement shall not be effective under section 4(c) of the Act if the contracting agency has received notice of the terms of the new or changed collective bargaining agreement less than 10 days before bid opening and the contracting officer determines that there is not reasonable time to incorporate the new or changed terms of the collective bargaining agreement in the solicitation.

(b) For contractual actions other than sealed bidding, a new or changed collective bargaining agreement shall not be effective under section 4(c) of the Act if notice of the terms of the new or changed collective bargaining agreement is received by the contracting agency after award of a successor contract or a modification as specified in 22.1007(b), provided that the contract start of performance is within 30 days of the award

of the contract or of the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award of the contract or of the specified modification, or if contract performance does not commence within 30 days of the award of the contract or of the specified modification, any notice of the terms of a new or changed collective bargaining agreement received by the agency not less than 10 days before commencement of the work shall be effective for purposes of the successor contract under section 4(c) of the Act.

(c) The limitations in paragraphs (a) and (b) of this subsection shall apply only if timely notification required in 22.1010 has been given.

(d) If the contracting officer has submitted an e98 to Department of Labor requesting a wage determination based on a collective bargaining agreement and has not received a response from the Department of Labor within 10 days, the contracting officer shall contact the Wage and Hour Division by telephone to determine when the wage determination can be expected. (The telephone number is provided on the e98 website.) If the Department of Labor is unable to provide the wage determination by the latest date needed to maintain the acquisition schedule, the contracting officer shall incorporate the collective bargaining agreement itself in a solicitation or other contract action (*e.g.*, exercise of option) and include a wage determination referencing that collective bargaining agreement created by use of the WDOL website (see 22.1008-2(d)(2)).

22.1013 Review of wage determination.

(a) *Based on incumbent collective bargaining agreement.*

(1) If wages, fringe benefits, or periodic increases provided for in a collective bargaining agreement vary substantially from those prevailing for similar services in the locality, the contracting officer shall immediately contact the agency labor advisor to consider instituting the procedures in 22.1021.

(1) If the contracting officer believes that an incumbent or predecessor contractor's agreement was not the result of arm's length negotiations, the contracting officer shall contact the agency labor advisor to determine appropriate action.

(b) *Based on other than incumbent collective bargaining agreement.* Upon receiving a wage determination not predicated upon a collective bargaining agreement, the contracting officer shall ascertain—

(1) If the wage determination does not conform with wages and fringe benefits prevailing for similar services in the locality; or

(2) If the wage determination contains significant errors or omissions. If either subparagraph (b)(1) or (b)(2) of this section is evident, the contracting officer shall contact the agency labor advisor to determine appropriate action.

22.1014 Delay over 60 days in bid opening or commencement of work.

If a wage determination was obtained through the e98 process, and bid opening, or commencement of work under a negotiated contract has been delayed, for whatever reason, more than 60 days from the date indicated on the previously submitted e98, the contracting officer shall submit a new e98. Any revision of a wage determination received by the contracting agency as a result of that communication shall supersede the earlier response as the wage determination applicable to the particular acquisition subject to the time frames in 22.1012-1(b) and (c).

22.1015 Discovery of errors by the Department of Labor.

If the Department of Labor discovers and determines, whether before or after a contract award, that a contracting officer made an erroneous determination that the Service Contract Act did not apply to a particular acquisition or failed to include an appropriate wage determination in a covered contract, the contracting officer, within 30 days of notification by the Department of Labor, shall include in the contract the clause at 52.222-41 and any applicable wage determination issued by the Administrator. If the contract is subject to section 10 of the Act (41 U.S.C. 358), the Administrator may require retroactive application of that wage determination. The contracting officer shall equitably adjust the contract price to reflect any changed cost of performance resulting from incorporating a wage determination or revision.

22.1016 Statement of equivalent rates for Federal hires.

(a) The statement required under the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, (see 22.1006(b)) shall set forth those wage rates and fringe benefits that would be paid by the contracting activity to the various classes of service employees expected to be utilized under the contract if 5 U.S.C. 5332 (General Schedule—white collar) and/or 5 U.S.C. 5341 (Wage Board—blue collar) were applicable.

(b) Procedures for computation of these rates are as follows:

(1) Wages paid blue collar employees shall be the basic hourly rate for each class. The rate shall be Wage Board pay schedule step two for nonsupervisory service employees and step three for supervisory service employees.

(2) Wages paid white collar employees shall be an hourly rate for each class. The rate shall be obtained by dividing the general pay schedule step one biweekly rate by 80.

(3) Local civilian personnel offices can assist in determining and providing grade and salary data.

22.1017 [Reserved]

22.1018 Notification to contractors and employees.

The contracting officer shall take the following steps to ensure that service employees are notified of minimum wages and fringe benefits.

(a) As soon as possible after contract award, inform the contractor of the labor standards requirements of the contract relating to the Act and of the contractor's responsibilities under these requirements, unless it is clear that the contractor is fully informed.

(b) At the time of award, furnish the contractor Department of Labor Publication WH-1313, Notice to Employees Working on Government Contracts, for posting at a prominent and accessible place at the worksite before contract performance begins. The publication advises employees of the compensation (wages and fringe benefits) required to be paid or furnished under the Act and satisfies the notice requirements in paragraph (g) of the clause at 52.222-41, Service Contract Act of 1965, as amended.

(c) Attach any applicable wage determination to Publication WH-1313.

22.1019 Additional classes of service employees.

(a) If the contracting officer is aware that contract performance involves classes of service employees not included in the wage determination, the contracting officer shall require the contractor to classify the unlisted classes so as to provide a reasonable relationship (*i.e.*, appropriate level of skill comparison) between the unlisted classifications and the classifications listed in the determination (see paragraph (c) of the clause at 52.222-41, Service Contract Act of 1965, as amended). The contractor shall initiate the conforming procedure before unlisted classes of employees perform contract work. The contractor shall submit Standard Form (SF) 1444, Request For Authorization of Additional Classification and Rate. The contracting officer shall review the proposed classification and rate and promptly submit the completed SF 1444 (which must include information regarding the agreement or disagreement of the employees' representative or the employees themselves together with the agency recommendation) and all other pertinent information to the Wage and Hour Division. Within 30 days of receipt of the request, the Wage and Hour Division will (1) approve, modify, or disapprove the request when the parties are in agreement or (2) render a final determination in the event of disagreement among the parties. If the Wage and Hour Division will require more than 30 days to take action, it will notify the contracting officer within 30 days of receipt of the request that additional time is necessary.

(b) Some wage determinations will list a series of classes within a job classification family, for example, Computer Operators, level I, II, and III, or Electronic Technicians, level I, II, and III, or Clerk Typist, level I and II. Generally, level I is the lowest level. It is the entry level, and establishment of

a lower level through conformance is not permissible. Further, trainee classifications may not be conformed. Helpers in skilled maintenance trades (for example, electricians, machinists, and automobile mechanics) whose duties constitute, in fact, separate and distinct jobs may also be used if listed on the wage determination, but may not be conformed. Conformance may not be used to artificially split or subdivide classifications listed in the wage determination. However, conforming procedures may be used if the work which an employee performs under the contract is not within the scope of any classification listed on the wage determination, regardless of job title. (See 29 CFR 4.152.)

(c) Subminimum rates for apprentices, student learners, and handicapped workers are permissible in accordance with paragraph (q) of the clause at 52.222-41, Service Contract Act of 1965, as amended.

22.1020 Seniority lists.

If a contract is performed at a Federal facility where employees may be hired/retained by a succeeding contractor, the incumbent prime contractor is required to furnish a certified list of all service employees on the contractor's or subcontractor's payroll during the last month of the contract, together with anniversary dates of employment, to the contracting officer no later than 10 days before contract completion. (See paragraph (n) of the clause at 52.222-41, Service Contract Act of 1965, as amended.) At the commencement of the succeeding contract, the contracting officer shall provide a copy of the list to the successor contractor for determining employee eligibility for vacation or other fringe benefits which are based upon length of service, including service with predecessor contractors if such benefit is required by an applicable wage determination.

22.1021 Request for hearing.

(a) A contracting agency or other interested party may request a hearing on an issue presented in 22.1013(a). To obtain a hearing for the contracting agency, the contracting officer shall submit a written request through appropriate channels (ordinarily the agency labor advisor) to—

Administrator, Wage and Hour Division
Employment Standards Administration
U.S. Department of Labor
Washington, DC 20210

(b) A request for a substantial variance hearing shall include sufficient data to show that the rates at issue vary substantially from those prevailing for similar services in the locality. The request shall also include—

- (1) The number of the wage determinations at issue;
- (2) The name of the contracting agency whose contract is involved;

(3) A brief description of the services to be performed under the contract;

(4) The status of the procurement and any estimated procurement dates, such as bid opening, contract award, and commencement date of the contract or its follow-up option period;

(5) A statement of the applicant's case, setting forth in detail the reasons why the applicant believes that a substantial variance exists with respect to some or all of the wages and/or fringe benefits;

(6) Names and addresses (to the extent known) of interested parties; and

(7) Any other data required by the Administrator.

(c) A request for an arm's length hearing shall include—

(1) A statement of the applicant's case, setting forth in detail the reasons why the applicant believes that the wages and fringe benefits contained in the collective bargaining agreement were not reached as a result of arm's length negotiations;

(2) A statement regarding the status of the procurement and any estimated procurement dates, such as bid opening, contract award, and commencement date of the contract or its follow-up option period; and

(3) Names and addresses (to the extent known) of interested parties.

(d) Unless the Administrator determines that extraordinary circumstances exist, the Administrator will not consider requests for a hearing unless received as follows:

(1) For sealed bid contracts, more than 10 days before the award of the contract; or

(2) For negotiated contracts and for contracts with provisions exceeding the initial term by option, before the commencement date of the contract or the follow-up option period.

22.1022 Withholding of contract payments.

Any violations of the clause at 52.222-41, Service Contract Act of 1965, as amended, renders the responsible contractor liable for the amount of any deductions, rebates, refunds, or underpayments (which includes nonpayment) of compensation due employees performing the contract. The contracting officer may withhold—or, upon written request of the Department of Labor from a level no lower than that of Assistant Regional Administrator, Wage and Hour Division, Employment Standards Administration, Department of Labor, shall withhold—the amount needed to pay such underpaid employees from accrued payments due the contractor on the contract, or on any other prime contract (whether subject to the Service

Contract Act or not) with the contractor. The agency shall place the amount withheld in a deposit fund. Such withheld funds shall be transferred to the Department of Labor for disbursement to the underpaid employees on order of the Secretary (or authorized representatives), and Administrative Law Judge, or the Board of Service Contract Appeals. In addition, the Department of Labor has given blanket approval to forward withheld funds pending completion of an investigation or other administrative proceeding when disposition of withheld funds remains the final action necessary to close out a contract.

22.1023 Termination for default.

As provided by the Act, any contractor failure to comply with the requirements of the contract clauses related to the Act may be grounds for termination for default (see paragraph (k) of the clause at 52.222-41, Service Contract Act of 1965, as amended).

22.1024 Cooperation with the Department of Labor.

The contracting officer shall cooperate with Department of Labor representatives in the examination of records, interviews with service employees, and all other aspects of investigations undertaken by the Department. When asked, agencies shall furnish the Wage and Hour Administrator or a designee, any available information on contractors, subcontractors, their contracts, and the nature of the contract services. The contracting officer shall promptly refer, in writing to the appropriate regional office of the Department, apparent violations and complaints received. Employee complaints shall not be disclosed to the employer.

22.1025 Ineligibility of violators.

A list of persons or firms found to be in violation of the Act is contained in the Excluded Parties List System (see 9.404). No Government contract may be awarded to any violator so listed because of a violation of the Act, or to any firm, corporation, partnership, or association in which the violator has a substantial interest, without the approval of the Secretary of Labor. This prohibition against award to an ineligible contractor applies to both prime and subcontracts.

22.1026 Disputes concerning labor standards.

Disputes concerning labor standards requirements of the contract are handled under paragraph (t) of the contract clause at 52.222-41, Service Contract Act of 1965, as amended, and not under the clause at 52.233-1, Disputes.

25.000 Scope of part.

This part provides policies and procedures for acquiring foreign supplies, services, and construction materials. It implements the Buy American Act, trade agreements, and other laws and regulations.

25.001 General.

(a) The Buy American Act—

(1) Restricts the purchase of supplies, that are not domestic end products, for use within the United States. A foreign end product may be purchased if the contracting officer determines that the price of the lowest domestic offer is unreasonable or if another exception applies (see Subpart 25.1); and

(2) Requires, with some exceptions, the use of only domestic construction materials in contracts for construction in the United States (see Subpart 25.2).

(b) The restrictions in the Buy American Act are not applicable in acquisitions subject to certain trade agreements (see Subpart 25.4). In these acquisitions, end products and construction materials from certain countries receive nondiscriminatory treatment in evaluation with domestic offers. Generally, the dollar value of the acquisition determines

which of the trade agreements applies. Exceptions to the applicability of the trade agreements are described in Subpart 25.4.

(c) The test to determine the country of origin for an end product under the trade agreements is different from the test to determine the country of origin for an end product under the Buy American Act (see the various country “end product” definitions in 25.003). The Buy American Act uses a two-part test to define a “domestic end product” (manufacture in the United States and a formula based on cost of domestic components). Under the trade agreements, the test to determine country of origin is “substantial transformation” (*i.e.*, transforming an article into a new and different article of commerce, with a name, character, or use distinct from the original article).

25.002 Applicability of subparts.

The following table shows the applicability of the subparts. Subpart 25.5 provides comprehensive procedures for offer evaluation and examples.

transformed in Canada into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services)

incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

“Caribbean Basin country” means any of the following countries: Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, British Virgin Islands, Costa Rica, Dominica, Dominican Republic, Grenada, Guatemala, Guyana, Haiti, Jamaica, Montserrat, Netherlands Antilles, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, or Trinidad and Tobago.

“Caribbean Basin country end product”—

(1) Means an article that—

(i)(A) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(B) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed; and

(ii) Is not excluded from duty-free treatment for Caribbean countries under 19 U.S.C. 2703(b).

(A) For this reason, the following articles are not Caribbean Basin country end products:

(1) Tuna, prepared or preserved in any manner in airtight containers.

(2) Petroleum, or any product derived from petroleum.

(3) Watches and watch parts (including cases, bracelets, and straps) of whatever type including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the Harmonized Tariff Schedule of the United States (HTSUS) column 2 rates of duty apply (*i.e.*, Afghanistan, Cuba, Laos, North Korea, and Vietnam).

(4) Certain of the following: textiles and apparel articles; footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel; or handloomed, handmade, and folklore articles.

(B) Access to the HTSUS to determine duty-free status of articles of the types listed in paragraph (1)(ii)(A)(4) of this definition is available via the Internet at <http://www.customs.ustras.gov/impoexpo/impoexpo.htm>. In particular, see the following:

“Component” means an article, material, or supply incorporated directly into an end product or construction material.

“Construction material” means an article, material, or supply brought to the construction site by a contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product or construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

Subpart 25.1—Buy American Act—Supplies

25.100 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10a - 10d) and Executive Order 10582, December 17, 1954. It applies to supplies acquired for use in the United States, including supplies acquired under contracts set aside for small business concerns, if—

(a) The supply contract exceeds the micro-purchase threshold; or

(b) The supply portion of a contract for services that involves the furnishing of supplies (*e.g.*, lease) exceeds the micro-purchase threshold.

25.101 General.

(a) The Buy American Act restricts the purchase of supplies that are not domestic end products. For manufactured end products, the Buy American Act uses a two-part test to define a domestic end product.

(1) The article must be manufactured in the United States; and

(2) The cost of domestic components must exceed 50 percent of the cost of all the components.

(b) The Buy American Act applies to small business set-asides. A manufactured product of a small business concern is a U.S.-made end product, but is not a domestic end product unless it meets the component test in paragraph (a)(2) of this section.

(c) Exceptions that allow the purchase of a foreign end product are listed at 25.103. The unreasonable cost exception is implemented through the use of an evaluation factor applied to low foreign offers that are not eligible offers. The evaluation factor is not used to provide a preference for one foreign offer over another. Evaluation procedures and examples are provided in Subpart 25.5.

25.102 Policy.

Except as provided in 25.103, acquire only domestic end products for public use inside the United States.

25.103 Exceptions.

When one of the following exceptions applies, the contracting officer may acquire a foreign end product without regard to the restrictions of the Buy American Act:

(a) *Public interest.* The head of the agency may make a determination that domestic preference would be inconsistent with the public interest. This exception applies when an

25.401 Exceptions.

(a) This subpart does not apply to—

(1) Acquisitions set aside for small businesses;

(2) Acquisitions of arms, ammunition, or war materials, or purchases indispensable for national security or for national defense purposes;

(3) Acquisitions of end products for resale;

(4) Acquisitions from Federal Prison Industries, Inc., under Subpart 8.6, and acquisitions under Subpart 8.7, Acquisition from Nonprofit Agencies Employing People Who Are Blind or Severely Disabled; and

(5) Other acquisitions not using full and open competition, if authorized by Subpart 6.2 or 6.3, when the limitation of competition would preclude use of the procedures of this subpart; or sole source acquisitions justified in accordance with 13.501(a).

(b) In the World Trade Organization Government Procurement Agreement (WTO GPA) and each FTA, there is a U.S. schedule that lists services that are excluded from that agreement in acquisitions by the United States. Acquisitions of the following services are excluded from coverage by the U.S. schedule of the WTO GPA or an FTA as indicated in this table:

| | THE SERVICE (FEDERAL SERVICE CODES FROM THE FEDERAL PROCUREMENT DATA SYSTEM PRODUCT/ SERVICE CODE MANUAL ARE INDICATED IN PARENTHESES FOR SOME SERVICES.) | WTO GPA | NAFTA, CAFTA-DR, AND CHILE FTA | SINGAPORE FTA | AUSTRALIA AND MOROCCO FTA |

* Note 1. Acquisitions of the services listed at (2)(iii) of this table are a subset of the excluded services at (2)(i) and (ii), and are therefore not covered under the WTO GPA.

25.402 General.

(a)(1) The Trade Agreements Act (19 U.S.C. 2501, *et seq.*)

provides the authority for the President to waive the Buy American Act and other discriminatory provisions for eligible

products from countries that have signed an international trade agreement with the United States, or that meet certain other criteria, such as being a least developed country. The President has delegated this waiver authority to the U.S. Trade Representative. In acquisitions covered by the WTO GPA, Free Trade Agreements, or the Israeli Trade Act, the USTR has waived the Buy American Act and other discriminatory provisions for eligible products. Offers of eligible products receive equal consideration with domestic offers.

(2) The contracting officer shall determine the origin of services by the country in which the firm providing the services is established. See Subpart 25.5 for evaluation procedures for supply contracts covered by trade agreements.

(b) The value of the acquisition is a determining factor in the applicability of trade agreements. Most of these dollar thresholds are subject to revision by the U.S. Trade Representative approximately every 2 years. The various thresholds are summarized as follows:

| Trade Agreement | Supply Contract (equal to or exceeding) | Service Contract (equal to or exceeding) | Construction Contract (equal to or exceeding) |
|---|---|--|---|
| WTO GPA | \$193,000 | \$193,000 | \$7,407,000 |
| FTAs | | | |
| Australia FTA | 64,786 | 64,786 | 7,407,000 |
| CAFTA-DR (El Salvador, Honduras, and Nicaragua) | 64,786 | 64,786 | 7,407,000 |
| Chile FTA | 64,786 | 64,786 | 7,407,000 |

25.403 World Trade Organization Government Procurement Agreement and Free Trade Agreements.

(a) Eligible products from WTO GPA and FTA countries are entitled to the nondiscriminatory treatment specified in 25.402(a)(1). The WTO GPA and FTAs specify procurement procedures designed to ensure fairness (see 25.408).

(b) *Thresholds.* (1) To determine whether the acquisition of products by lease, rental, or lease-purchase contract (including lease-to-ownership, or lease-with-option-to purchase) is covered by the WTO GPA or an FTA, calculate the estimated acquisition value as follows:

(i) If a fixed-term contract of 12 months or less is contemplated, use the total estimated value of the acquisition.

(ii) If a fixed-term contract of more than 12 months is contemplated, use the total estimated value of the acquisition plus the estimated residual value of the leased equipment at the conclusion of the contemplated term of the contract.

(iii) If an indefinite-term contract is contemplated, use the estimated monthly payment multiplied by the total number of months that ordering would be possible under the proposed contract, *i.e.*, the initial ordering period plus any optional ordering periods.

(iv) If there is any doubt as to the contemplated term of the contract, use the estimated monthly payment multiplied by 48.

(2) The estimated value includes the value of all options.

(3) If, in any 12-month period, recurring or multiple awards for the same type of product or products are anticipated, use the total estimated value of these projected awards to determine whether the WTO GPA or an FTA applies. Do not divide any acquisition with the intent of reducing the estimated value of the acquisition below the dollar threshold of the WTO GPA or an FTA.

(c) *Purchase restriction.* (1) Under the Trade Agreements Act (19 U.S.C. 2512), in acquisitions covered by the WTO GPA, acquire only U.S.-made or designated country end products or U.S. or designated country services, unless offers for such end products or services are either not received or are insufficient to fulfill the requirements. This purchase restriction does not apply below the WTO GPA threshold for supplies and services, even if the acquisition is covered by an FTA.

(2) This restriction does not apply to purchases of supplies by the Department of Defense from a country with which it has entered into a reciprocal agreement, as provided in departmental regulations.

25.404 Least developed countries.

For acquisitions covered by the WTO GPA, least developed country end products, construction material, and services must be treated as eligible products.

25.405 Caribbean Basin Trade Initiative.

Under the Caribbean Basin Trade Initiative, the United States Trade Representative has determined that, for acquisitions covered by the WTO GPA, Caribbean Basin country end products, construction material, and services must be treated as eligible products. In accordance with Section 201 (a)(3) of the Dominican Republic-Central America-United States Free Trade Implementation Act (Pub. L. 109-53), when the CAFTA-DR agreement enters into force with respect to a country, that country is no longer designated as a beneficiary country for purposes of the Caribbean Basin Economic Recovery Act, and is therefore no longer included in the def-

inition of “Caribbean Basin country” for purposes of the Caribbean Basin Trade Initiative.

25.406 Israeli Trade Act.

Acquisitions of supplies by most agencies are covered by the Israeli Trade Act, if the estimated value of the acquisition is \$50,000 or more but does not exceed the WTO GPA threshold for supplies (see 25.402(b)). Agencies other than the Department of Defense, the Department of Energy, the Department of Transportation, the Bureau of Reclamation of the Department of the Interior, the Federal Housing Finance Board, and the Office of Thrift Supervision must evaluate offers of Israeli end products without regard to the restrictions of the Buy American Act. The Israeli Trade Act does not prohibit the purchase of other foreign end products.

25.407 Agreement on Trade in Civil Aircraft.

Under the authority of Section 303 of the Trade Agreements Act, the U.S. Trade Representative has waived the Buy American Act for civil aircraft and related articles, that meet the substantial transformation test of the Trade Agreements Act, from countries that are parties to the Agreement on Trade in Civil Aircraft. Those countries are Austria, Belgium, Bulgaria, Canada, Denmark, Egypt, Finland, France, Germany,

Greece, Ireland, Italy, Japan, Luxembourg, Macao, the Netherlands, Norway, Portugal, Romania, Spain, Sweden, Switzerland, and the United Kingdom.

25.408 Procedures.

(a) If the WTO GPA or an FTA applies (see 25.401), the contracting officer must—

(1) Comply with the requirements of 5.203, Publicizing and response time;

(2) Comply with the requirements of 5.207, Preparation and Transmittal of Synopses, including the appropriate “Numbered Note”;

(3) Not include technical requirements in solicitations solely to preclude the acquisition of eligible products;

(4) Specify in solicitations that offerors must submit offers in the English language and in U.S. dollars (see 52.214-34, Submission of Offers in the English Language, and 52.214-35, Submission of Offers in U.S. Currency, or paragraph (c)(5) of 52.215-1, Instruction to Offerors—Competitive Acquisitions); and

(5) Provide unsuccessful offerors from WTO GPA or FTA countries notice in accordance with 14.409-1 or 15.503.

(b) See Subpart 25.5 for evaluation procedures and examples.

33.000 Scope of part.

This part prescribes policies and procedures for filing protests and for processing contract disputes and appeals.

Subpart 33.1—Protests**33.101 Definitions.**

As used in this subpart—

“Day” means a calendar day, unless otherwise specified. In the computation of any period—

(1) The day of the act, event, or default from which the designated period of time begins to run is not included; and

(2) The last day after the act, event, or default is included unless—

(i) The last day is a Saturday, Sunday, or Federal holiday; or

(ii) In the case of a filing of a paper at any appropriate administrative forum, the last day is a day on which weather or other conditions cause the closing of the forum for all or part of the day, in which event the next day on which the appropriate administrative forum is open is included.

“Filed” means the complete receipt of any document by an agency before its close of business. Documents received after close of business are considered filed as of the next day. Unless otherwise stated, the agency close of business is presumed to be 4:30 p.m., local time.

“Interested party for the purpose of filing a protest” means an actual or prospective offeror whose direct economic interest would be affected by the award of a contract or by the failure to award a contract.

“Protest” means a written objection by an interested party to any of the following:

(1) A solicitation or other request by an agency for offers for a contract for the procurement of property or services.

(2) The cancellation of the solicitation or other request.

(3) An award or proposed award of the contract.

(4) A termination or cancellation of an award of the contract, if the written objection contains an allegation that the termination or cancellation is based in whole or in part on improprieties concerning the award of the contract.

33.102 General.

(a) Contracting officers shall consider all protests and seek legal advice, whether protests are submitted before or after award and whether filed directly with the agency or the General Accounting Office (GAO). (See 19.302 for protests of small business status, 19.305 for protests of disadvantaged business status, and 19.307 for protests of service-disabled veteran-owned small business status.)

(b) If, in connection with a protest, the head of an agency determines that a solicitation, proposed award, or award does

not comply with the requirements of law or regulation, the head of the agency may—

(1) Take any action that could have been recommended by the Comptroller General had the protest been filed with the General Accounting Office;

(2) Pay appropriate costs as stated in 33.104(h); and

(3) Require the awardee to reimburse the Government’s costs, as provided in this paragraph, where a postaward protest is sustained as the result of an awardee’s intentional or negligent misstatement, misrepresentation, or miscertification. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the awardee under any contract between the awardee and the Government.

(i) When a protest is sustained by GAO under circumstances that may allow the Government to seek reimbursement for protest costs, the contracting officer will determine whether the protest was sustained based on the awardee’s negligent or intentional misrepresentation. If the protest was sustained on several issues, protest costs shall be apportioned according to the costs attributable to the awardee’s actions.

(ii) The contracting officer shall review the amount of the debt, degree of the awardee’s fault, and costs of collection, to determine whether a demand for reimbursement ought to be made. If it is in the best interests of the Government to seek reimbursement, the contracting officer shall notify the contractor in writing of the nature and amount of the debt, and the intention to collect by offset if necessary. Prior to issuing a final decision, the contracting officer shall afford the contractor an opportunity to inspect and copy agency records pertaining to the debt to the extent permitted by statute and regulation, and to request review of the matter by the head of the contracting activity.

(iii) When appropriate, the contracting officer shall also refer the matter to the agency debarment official for consideration under Subpart 9.4.

(c) In accordance with 31 U.S.C. 1558, with respect to any protest filed with the GAO, if the funds available to the agency for a contract at the time a protest is filed in connection with a solicitation for, proposed award of, or award of such a contract would otherwise expire, such funds shall remain available for obligation for 100 days after the date on which the final ruling is made on the protest. A ruling is considered final on the date on which the time allowed for filing an appeal or request for reconsideration has expired, or the date on which a decision is rendered on such appeal or request, whichever is later.

(d) *Protest likely after award.* The contracting officer may stay performance of a contract within the time period contained in paragraph 33.104(c)(1) if the contracting officer makes a written determination that—

- (1) A protest is likely to be filed; and
 - (2) Delay of performance is, under the circumstances, in the best interests of the United States.
- (e) An interested party wishing to protest is encouraged to seek resolution within the agency (see 33.103) before filing a protest with the GAO, but may protest to the GAO in accordance with GAO regulations (4 CFR Part 21).
- (f) No person may file a protest at GAO for a procurement integrity violation unless that person reported to the contracting officer the information constituting evidence of the violation within 14 days after the person first discovered the possible violation (41 U.S.C. 423(g)).

33.103 Protests to the agency.

(a) *Reference.* Executive Order 12979, Agency Procurement Protests, establishes policy on agency procurement protests.

(b) Prior to submission of an agency protest, all parties shall use their best efforts to resolve concerns raised by an interested party at the contracting officer level through open and frank discussions.

(c) The agency should provide for inexpensive, informal, procedurally simple, and expeditious resolution of protests. Where appropriate, the use of alternative dispute resolution techniques, third party neutrals, and another agency's personnel are acceptable protest resolution methods.

(d) The following procedures are established to resolve agency protests effectively, to build confidence in the Government's acquisition system, and to reduce protests outside of the agency:

(1) Protests shall be concise and logically presented to facilitate review by the agency. Failure to substantially comply with any of the requirements of paragraph (d)(2) of this section may be grounds for dismissal of the protest.

(2) Protests shall include the following information:

- (i) Name, address, and fax and telephone numbers of the protester.
- (ii) Solicitation or contract number.
- (iii) Detailed statement of the legal and factual grounds for the protest, to include a description of resulting prejudice to the protester.
- (iv) Copies of relevant documents.
- (v) Request for a ruling by the agency.
- (vi) Statement as to the form of relief requested.
- (vii) All information establishing that the protester is an interested party for the purpose of filing a protest.
- (viii) All information establishing the timeliness of the protest.

(3) All protests filed directly with the agency will be addressed to the contracting officer or other official designated to receive protests.

(4) In accordance with agency procedures, interested parties may request an independent review of their protest at

a level above the contracting officer; solicitations should advise potential bidders and offerors that this review is available. Agency procedures and/or solicitations shall notify potential bidders and offerors whether this independent review is available as an alternative to consideration by the contracting officer of a protest or is available as an appeal of a contracting officer decision on a protest. Agencies shall designate the official(s) who are to conduct this independent review, but the official(s) need not be within the contracting officer's supervisory chain. When practicable, officials designated to conduct the independent review should not have had previous personal involvement in the procurement. If there is an agency appellate review of the contracting officer's decision on the protest, it will not extend GAO's timeliness requirements. Therefore, any subsequent protest to the GAO must be filed within 10 days of knowledge of initial adverse agency action (4 CFR 21.2(a)(3)).

(e) Protests based on alleged apparent improprieties in a solicitation shall be filed before bid opening or the closing date for receipt of proposals. In all other cases, protests shall be filed no later than 10 days after the basis of protest is known or should have been known, whichever is earlier. The agency, for good cause shown, or where it determines that a protest raises issues significant to the agency's acquisition system, may consider the merits of any protest which is not timely filed.

(f) *Action upon receipt of protest.* (1) Upon receipt of a protest before award, a contract may not be awarded, pending agency resolution of the protest, unless contract award is justified, in writing, for urgent and compelling reasons or is determined, in writing, to be in the best interest of the Government. Such justification or determination shall be approved at a level above the contracting officer, or by another official pursuant to agency procedures.

(2) If award is withheld pending agency resolution of the protest, the contracting officer will inform the offerors whose offers might become eligible for award of the contract. If appropriate, the offerors should be requested, before expiration of the time for acceptance of their offers, to extend the time for acceptance to avoid the need for resolicitation. In the event of failure to obtain such extension of offers, consideration should be given to proceeding with award pursuant to paragraph (f)(1) of this section.

(3) Upon receipt of a protest within 10 days after contract award or within 5 days after a debriefing date offered to the protester under a timely debriefing request in accordance with 15.505 or 15.506, whichever is later, the contracting officer shall immediately suspend performance, pending resolution of the protest within the agency, including any review by an independent higher level official, unless continued performance is justified, in writing, for urgent and compelling reasons or is determined, in writing, to be in the best interest of the Government. Such justification or determination shall

Subpart 47.2—Contracts for Transportation or for Transportation-Related Services

47.200 Scope of subpart.

(a) This subpart prescribes procedures for the acquisition by sealed bid or negotiated contracts of—

(1) Freight transportation (including local drayage) from rail, motor (including bus), domestic water (including inland, coastwise, and intercoastal) carriers, and from freight forwarders; and

(2) Transportation-related services including but not limited to stevedoring, storage, packing, marking, and ocean freight forwarding.

(b) Except as provided in paragraph (c) of this section, this subpart does not apply to—

(1) The acquisition of freight transportation from—

(i) Domestic or international air carriers; and

(ii) International ocean carriers (see Subparts 47.4 and 47.5);

(2) Freight transportation acquired by bills of lading;

(3) Household goods for which rates are negotiated under 49 U.S.C. 10721 and 13712. (These statutes do not apply in intrastate moves); or

(4) Contracts at or below the simplified acquisition threshold.

(c) With appropriate modifications, the procedures in this subpart may be applied to the acquisition of freight transportation from the carriers listed in paragraph (b)(1) of this section and passenger transportation from any carrier or mode.

(d) The procedures in this subpart are applicable to the transportation of household goods of persons being relocated at Government expense except when acquired—

(1) Under the commuted rate schedules as required in the Federal Travel Regulation (41 CFR Chapter 302);

(2) By DoD under the DoD 4500.9-R, Defense Transportation Regulation; or

(3) Under 49 U.S.C. 10721 and 13712 rates. (These statutes do not apply in intrastate moves.)

(e) Additional guidance for DoD acquisition of freight and passenger transportation is in the Defense Transportation Regulation.

47.201 Definitions.

As used in this subpart—

“General freight” means supplies, goods, and transportable property not encompassed in the definitions of “household goods” or “office furniture.”

“Office furniture” means furniture, equipment, fixtures, records, and other equipment and materials used in Government offices, hospitals, and similar establishments.

47.202 Presolicitation planning.

Contracting officers shall inform activities that plan to acquire transportation or transportation-related services of the applicable lead-time requirements, that is—

(a) The Service Contract Act of 1965 (SCA) requirement to obtain a wage determination by accessing the Wage Determination OnLine website (<http://www.wdol.gov>) using the WDOL process or by submitting a request directly to the Department of Labor on this website using the e98 process before the issuance of an invitation for bid, request for proposal, or commencement of negotiations for any contract exceeding \$2,500 that may be subject to the SCA (see Subpart 22.10);

(b) The possible requirement to provide, during the solicitation period, time for prospective offerors or contractors to inspect origin and destination locations; or

(c) The possible requirement for inspection by agency personnel of prospective contractor facilities and equipment.

47.203 [Reserved]

47.204 Single-movement contracts.

Single-movement contracts may be awarded for unique transportation services that are not otherwise available under carrier tariffs or covered by DoD or GSA contracts; e.g., special requirements at origin and/or destination.

47.205 Availability of term contracts and basic ordering agreements for transportation or for transportation-related services.

(a) All Government agencies may contract for transportation or for transportation-related services and execute basic ordering agreements (BOA's) (see Subpart 16.7) unless agency regulations prescribe otherwise. However, it is generally more economical and efficient for most agencies to make use of term contracts and basic ordering agreements that have been executed by agencies that employ personnel experienced in contracting for transportation or for transportation-related services. The Department of Defense (DoD) and the General Services Administration (GSA) contract for transportation or for transportation-related services on behalf of other activities and agencies. For instance, GSA awards term contracts for services such as local drayage, office moves, and ocean-freight forwarding (see 47.105 for assistance).

(b) Agencies may obtain transportation or transportation-related services for which the cost does not exceed the simplified acquisition threshold if term contracts or basic ordering agreements are not available.

47.206 Preparation of solicitations and contracts.

(a) Contracting officers shall prepare solicitations and contracts for transportation or for transportation-related services as prescribed elsewhere in the FAR for fixed-price service

contracts to the extent that those requirements are applicable and not inconsistent with the requirements in Subpart 47.2.

(b) In addition, the contracting officer shall include in solicitations and contracts for transportation or for transportation-related services provisions, clauses, and instructions as prescribed in section 47.207.

47.207 Solicitation provisions, contract clauses, and special requirements.

The contracting officer shall include provisions, clauses, and special requirements in solicitations and contracts for transportation or for transportation-related services as prescribed in 47.207-1 through 47.207-9.

47.207-1 Qualifications of offerors.

(a) *Operating authorities.* The contracting officer shall insert the clause at 52.247-2, Permits, Authorities, or Franchises, when regulated transportation is involved. The clause need not be used when a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirement for holding or obtaining State authority to operate within the State.

(b) *Performance capability for Federal office moving contracts.* (1) The contracting officer shall insert the clause at 52.247-3, Capability to Perform a Contract for the Relocation of a Federal Office, when a Federal office is relocated, to ensure that offerors are capable to perform interstate or intrastate moving contracts involving the relocation of Federal offices.

(2) If a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirements for holding or obtaining State authority to operate within the State, and to maintain a facility within the State or commercial zone, the contracting officer shall use the clause with its Alternate I.

(c) *Inspection of shipping and receiving facilities.* The contracting officer shall insert the provision at 52.247-4, Inspection of Shipping and Receiving Facilities, when it is desired for offerors to inspect the shipping, receiving, or other sites to ensure realistic bids.

(d) *Familiarization with conditions.* The contracting officer shall insert the clause at 52.247-5, Familiarization with Conditions, to ensure that offerors become familiar with conditions under which and where the services will be performed.

(e) *Financial statement.* The contracting officer shall insert the provision at 52.247-6, Financial Statement, to ensure that offerors are prepared to furnish financial statements.

47.207-2 Duration of contract and time of performance.

The contracting officer shall—

(a) Establish a specific expiration date (month, day, and year) for the contract or state the length of time that the con-

tract will remain in effect; *e.g.*, 6 months commencing from the date of award; and

(b) Include the following items as appropriate:

(1) A statement of the time period during which the service is required when the service is a one-time job; *e.g.*, a routine office relocation.

(2) A time schedule for the performance of segments of a major job; *e.g.*, an office relocation for which the work phases must be coordinated to meet other needs of the agency.

(3) Statements of performance times for particular services; *e.g.*, pickup and delivery services. Specify—

(i) On which days of the week and during which hours of the day pickup and delivery services may be required;

(ii) The maximum time allowable to the contractor for accomplishing delivery under regular or priority service; and

(iii) How much advance notice the contractor will be given for regular pickup services and, if applicable, priority pickup services.

47.207-3 Description of shipment, origin, and destination.

(a) *Origin of shipments.* The contracting officer shall include in solicitations full details regarding the location from which the freight is to be shipped. For example, if a single location is shown, furnish the shipper's name, street address, city, State, and ZIP code. If several or indefinite locations are involved, as in the case of multiple shippers or drayage contracts, describe the area of origin including boundaries and ZIP codes.

(b) *Destination of shipments.* The contracting officer shall include full details regarding delivery points. For example, if a single delivery point is shown, furnish the consignee's name, street address, city, State, and ZIP code. If several or indefinite delivery points are involved, describe the delivery area, including boundaries and ZIP codes.

(c) *Description of the freight.* The contracting officer shall include in solicitations—

(1) An inventory if the freight consists of nonbulk items; and

(2) The freight classification description, which should be obtained from the transportation office. If a freight classification description is not available, use a clear nontechnical description. Include additional details necessary to ensure that the prospective offerors have complete information about the freight; *e.g.*, size, weight, hazardous material, whether packed for export, or unusual value.

(d) *Exclusion of freight.* The contracting officer shall—

(1) Clearly identify any freight or types of shipments that are subject to exclusion; *e.g.*, bulk freight, hazardous commodities, or shipments under or over specified weights; and

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. (End of clause)

52.222-44 Fair Labor Standards Act and Service Contract Act—Price Adjustment.

FAIR LABOR STANDARDS ACT AND SERVICE CONTRACT ACT—PRICE ADJUSTMENT (FEB 2002)

(a) This clause applies to both contracts subject to area prevailing wage determinations and contracts subject to Contractor collective bargaining agreements.

(b) The Contractor warrants that the prices in this contract do not include any allowance for any contingency to cover increased costs for which adjustment is provided under this clause.

(c) The contract price or contract unit price labor rates will be adjusted to reflect increases or decreases by the Contractor in wages and fringe benefits to the extent that these increases or decreases are made to comply with—

(1) An increased or decreased wage determination applied to this contract by operation of law; or

(2) An amendment to the Fair Labor Standards Act of 1938 that is enacted subsequent to award of this contract, affects the minimum wage, and becomes applicable to this contract under law.

(d) Any such adjustment will be limited to increases or decreases in wages and fringe benefits as described in paragraph (c) of this clause, and to the accompanying increases or decreases in social security and unemployment taxes and workers' compensation insurance; it shall not otherwise include any amount for general and administrative costs, overhead, or profit.

(e) The Contractor shall notify the Contracting Officer of any increase claimed under this clause within 30 days after the effective date of the wage change, unless this period is extended by the Contracting Officer in writing. The Contractor shall promptly notify the Contracting Officer of any

decrease under this clause, but nothing in the clause shall preclude the Government from asserting a claim within the period permitted by law. The notice shall contain a statement of the amount claimed and any relevant supporting data that the Contracting Officer may reasonably require. Upon agreement of the parties, the contract price or contract unit price labor rates shall be modified in writing. The Contractor shall continue performance pending agreement on or determination of any such adjustment and its effective date.

(End of clause)

52.222-45 [Reserved]

52.222-46 Evaluation of Compensation for Professional Employees.

As prescribed in 22.1103, insert the following provision:

EVALUATION OF COMPENSATION FOR PROFESSIONAL EMPLOYEES (FEB 1993)

(a) Recompetition of service contracts may in some cases result in lowering the compensation (salaries and fringe benefits) paid or furnished professional employees. This lowering can be detrimental in obtaining the quality of professional services needed for adequate contract performance. It is therefore in the Government's best interest that professional employees, as defined in 29 CFR 541, be properly and fairly compensated. As part of their proposals, offerors will submit a total compensation plan setting forth salaries and fringe benefits proposed for the professional employees who will work under the contract. The Government will evaluate the plan to assure that it reflects a sound management approach and understanding of the contract requirements. This evaluation will include an assessment of the offeror's ability to provide uninterrupted high-quality work. The professional compensation proposed will be considered in terms of its impact upon recruiting and retention, its realism, and its consistency with a total plan for compensation. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure.

(b) The compensation levels proposed should reflect a clear understanding of work to be performed and should indicate the capability of the proposed compensation structure to obtain and keep suitably qualified personnel to meet mission objectives. The salary rates or ranges must take into account differences in skills, the complexity of various disciplines, and professional job difficulty. Additionally, proposals envi-

sioning compensation levels lower than those of predecessor contractors for the same work will be evaluated on the basis of maintaining program continuity, uninterrupted high-quality work, and availability of required competent professional service employees. Offerors are cautioned that lowered compensation for essentially the same professional work may indicate lack of sound management judgment and lack of understanding of the requirement.

(c) The Government is concerned with the quality and stability of the work force to be employed on this contract. Professional compensation that is unrealistically low or not in reasonable relationship to the various job categories, since it may impair the Contractor's ability to attract and retain competent professional service employees, may be viewed as evidence of failure to comprehend the complexity of the contract requirements.

(d) Failure to comply with these provisions may constitute sufficient cause to justify rejection of a proposal.

(End of provision)

52.222-47 [Reserved]

52.222-48 Exemption from Application of Service Contract Act Provisions—Contractor Certification.

As prescribed in 22.1006(e)(1), insert the following clause:

EXEMPTION FROM APPLICATION OF SERVICE CONTRACT ACT PROVISIONS—CONTRACTOR CERTIFICATION (JUNE 2006)

(a) The following certification shall be checked:

CERTIFICATION

The offeror certifies does not certify that—

(1) The items of equipment to be serviced under this contract are commercial items which are used regularly for other than Government purposes, and are sold or traded by the Contractor in substantial quantities to the general public in the course of normal business operations;

(2) The contract services are furnished at prices which are, or are based on, established catalog or market prices for the maintenance, calibration, and/or repair of certain information technology, scientific and medical and/or office and business equipment. An "established catalog price" is a price (including discount price) recorded in a catalog, price list, schedule, or other verifiable and established record that is regularly maintained by the manufacturer or the Contractor and is either published or otherwise available for inspection by customers. An "established market price" is a current price, established in the course of ordinary and usual trade between buyers and sellers free to bargain, which can be substantiated by data from sources independent of the manufacturer or Contractor; and

(3) The Contractor utilizes the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the Contractor uses for equivalent

employees servicing the same equipment of commercial customers.

(b) If a negative certification is made and a Service Contract Act wage determination is not attached to the solicitation, the Contractor shall notify the Contracting Officer as soon as possible.

(c) Failure to execute the certification in paragraph (a) of this clause or to contact the Contracting Officer as required in paragraph (b) of this clause may render the bid or offer nonresponsive.

(End of clause)

52.222-49 Service Contract Act—Place of Performance Unknown.

As prescribed in 22.1006(f), insert the following clause:

SERVICE CONTRACT ACT—PLACE OF PERFORMANCE UNKNOWN (MAY 1989)

(a) This contract is subject to the Service Contract Act, and the place of performance was unknown when the solicitation was issued. In addition to places or areas identified in wage determinations, if any, attached to the solicitation, wage determinations have also been requested for the following: _____ [*insert places or areas*]. The Contracting Officer will request wage determinations for additional places or areas of performance if asked to do so in writing by _____ [*insert time and date*].

(b) Offerors who intend to perform in a place or area of performance for which a wage determination has not been attached or requested may nevertheless submit bids or proposals. However, a wage determination shall be requested and incorporated in the resultant contract retroactive to the date of contract award, and there shall be no adjustment in the contract price.

(2) Any actions taken against employees pursuant to this clause.

(e) *Remedies.* In addition to other remedies available to the Government, the Contractor's failure to comply with the requirements of paragraphs (c) or (d) of this clause may render the Contractor subject to—

(b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American Act shall submit the request with its offer, including the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9.

52.225-11 Buy American Act—Construction Materials under Trade Agreements.

As prescribed in 25.1102(c), insert the following clause:

BUY AMERICAN ACT—CONSTRUCTION MATERIALS UNDER TRADE AGREEMENTS (JUNE 2006)

(a) *Definitions.* As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Component” means an article, material, or supply incorporated directly into a construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Designated country” means any of the following countries:

(1) A World Trade Organization Government Procurement Agreement country (Aruba, Austria, Belgium, Canada,

Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, or United Kingdom);

(2) Free Trade Agreement country (Australia, Canada, Chile, El Salvador, Honduras, Mexico, Morocco, Nicaragua, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Cape Verde, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, East Timor, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Madagascar, Malawi, Maldives, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, Tanzania, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, British Virgin Islands, Costa Rica, Dominica, Dominican Republic, Grenada, Guatemala, Guyana, Haiti, Jamaica, Montserrat, Netherlands Antilles, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, an FTA country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) An unmanufactured construction material mined or produced in the United States; or

(2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

“Foreign construction material” means a construction material other than a domestic construction material.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement (FTA) country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a FTA country into a new and different construction material distinct from the materials from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) *Construction materials.* (1) This clause implements the Buy American Act (41 U.S.C. 10a-10d) by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements (FTAs) apply to this acquisition. Therefore, the Buy American Act restrictions are waived for designated country construction materials.

(2) The Contractor shall use only domestic or designated country construction material in performing this contract, except as provided in paragraphs (b)(3) and (b)(4) of this clause.

(3) The requirement in paragraph (b)(2) of this clause does not apply to the construction materials or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”]

(4) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(3) of this clause if the Government determines that—

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the restrictions of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) *Request for determination of inapplicability of the Buy American Act.* (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(4) of

this clause shall include adequate information for Government evaluation of the request, including—

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier;

and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(4)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) *Data.* To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

FOREIGN AND DOMESTIC CONSTRUCTION MATERIALS PRICE COMPARISON

| Construction Material Description | Unit of Measure | Quantity | Price (Dollars)* |
|-----------------------------------|-----------------|----------|------------------|
| <i>Item 1:</i> | | | |
| Foreign construction material | _____ | _____ | _____ |
| Domestic construction material | _____ | _____ | _____ |

Item 2:

| | | | |
|--------------------------------|-------|-------|-------|
| Foreign construction material | _____ | _____ | _____ |
| Domestic construction material | _____ | _____ | _____ |

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

[* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]

(End of clause)

Alternate I (June 2006). As prescribed in 25.1102(c)(3), add the following definition of “Mexican construction material” to paragraph (a) of the basic clause, and substitute the following paragraphs (b)(1) and (b)(2) for paragraphs (b)(1) and (b)(2) of the basic clause:

“Mexican construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of Mexico; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in Mexico into a new and different construction material distinct from the materials from which it was transformed.

(b) *Construction materials.* (1) This clause implements the Buy American Act (41 U.S.C. 10a - 10d) by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and all the Free Trade Agreements except NAFTA apply to this acquisition. Therefore, the Buy American Act restrictions are waived for designated country construction materials other than Mexican construction materials.

(2) The Contractor shall use only domestic or designated country construction material other than Mexican construction material in performing this contract, except as provided in paragraphs (b)(3) and (b)(4) of this clause.

52.225-12 Notice of Buy American Act Requirement—Construction Materials under Trade Agreements.

As prescribed in 25.1102(d)(1), insert the following provision:

NOTICE OF BUY AMERICAN ACT REQUIREMENT—
CONSTRUCTION MATERIALS UNDER TRADE AGREEMENTS
(JAN 2005)

(a) *Definitions.* “Construction material,” “designated country construction material,” “domestic construction material,” and “foreign construction material,” as used in this provision, are defined in the clause of this solicitation entitled “Buy American Act—Construction Materials Under Trade

Agreements” (Federal Acquisition Regulation (FAR) clause 52.225-11).

(b) *Requests for determination of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American Act should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of FAR clause 52.225-11 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American Act before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) *Evaluation of offers.* (1) The Government will evaluate an offer requesting exception to the requirements of the Buy American Act, based on claimed unreasonable cost of domestic construction materials, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(4)(i) of FAR clause 52.225-11.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) *Alternate offers.* (1) When an offer includes foreign construction material, other than designated country construction material, that is not listed by the Government in this solicitation in paragraph (b)(3) of FAR clause 52.225-11, the offeror also may submit an alternate offer based on use of equivalent domestic or designated country construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of FAR clause 52.225-11 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of FAR clause 52.225-11 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic or designated country construction material, and the offeror shall be required to furnish such domestic or designated country construction material. An offer based on use of the foreign construction material for which an exception was requested—

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

(End of provision)

Alternate I (May 2002). As prescribed in 25.1102(d)(2), substitute the following paragraph (b) for paragraph (b) of the basic provision:

(b) *Requests for determination of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American Act shall submit the request with its offer, including the information and applicable supporting data required by paragraphs (c) and (d) of FAR clause 52.225-11.

Alternate II (June 2006). As prescribed in 25.1102(d)(3), add the definition of “Mexican construction material” to paragraph (a) and substitute the following paragraph (d) for paragraph (d) of the basic provision:

(d) *Alternate offers.* (1) When an offer includes foreign construction material, except foreign construction material from a designated country other than Mexico, that is not listed by the Government in this solicitation in paragraph (b)(3) of FAR clause 52.225-11, the offeror also may submit an alternate offer based on use of equivalent domestic or designated country construction material other than Mexican construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of FAR clause 52.225-11 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of FAR clause 52.225-11 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic or designated country construction material other than Mexican construction material. An offer based on use of the foreign construction material for which an exception was requested—

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

52.225-13 Restrictions on Certain Foreign Purchases.

As prescribed in 25.1103(a), insert the following clause:

RESTRICTIONS ON CERTAIN FOREIGN PURCHASES (FEB 2006)

(a) Except as authorized by the Office of Foreign Assets Control (OFAC) in the Department of the Treasury, the Contractor shall not acquire, for use in the performance of this contract, any supplies or services if any proclamation, Executive order, or statute administered by OFAC, or if OFAC’s implementing regulations at 31 CFR Chapter V, would pro-

hibit such a transaction by a person subject to the jurisdiction of the United States.

(b) Except as authorized by OFAC, most transactions involving Cuba, Iran, and Sudan are prohibited, as are most imports from North Korea, into the United States or its outlying areas. Lists of entities and individuals subject to economic sanctions are included in OFAC’s List of Specially Designated Nationals and Blocked Persons at <http://www.treas.gov/offices/enforcement/ofac/sdn>. More information about these restrictions, as well as updates, is available in the OFAC’s regulations at 31 CFR Chapter V and/or on OFAC’s website at <http://www.treas.gov/offices/enforcement/ofac>.

(c) The Contractor shall insert this clause, including this paragraph (c), in all subcontracts.

(End of clause)

52.225-14 Inconsistency between English Version and Translation of Contract.

As prescribed at 25.1103(b), insert the following clause:

INCONSISTENCY BETWEEN ENGLISH VERSION AND TRANSLATION OF CONTRACT (FEB 2000)

In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(End of clause)

52.225-15 [Reserved]

52.225-16 [Reserved]

52.225-17 Evaluation of Foreign Currency Offers.

As prescribed in 25.1103(d), insert the following provision:

EVALUATION OF FOREIGN CURRENCY OFFERS (FEB 2000)

If the Government receives offers in more than one currency, the Government will evaluate offers by converting the foreign currency to United States currency using [*Contracting Officer to insert source of rate*] in effect as follows:

(a) For acquisitions conducted using sealed bidding procedures, on the date of bid opening.

(b) For acquisitions conducted using negotiation procedures—

“Senior procurement executive” means the individual appointed pursuant to section 16(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3)) who is responsible for management direction of the acquisition system of the executive agency, including implementation of the unique acquisition policies, regulations, and standards of the executive agency.

“Service-disabled veteran-owned small business concern”—

(1) Means a small business concern—

Subpart 4.11—Central Contractor Registration

4.1100 Scope.

This subpart prescribes policies and procedures for requiring contractor registration in the Central Contractor Registration (CCR) database, a part of the Business Partner Network (BPN) to—

- (a) Increase visibility of vendor sources (including their geographical locations) for specific supplies and services; and
- (b) Establish a common source of vendor data for the Government.

4.1101 Definition.

As used in this subpart—

“Agreement” means basic agreement, basic ordering agreement, or blanket purchase agreement.

4.1102 Policy.

(a) Prospective contractors shall be registered in the CCR database prior to award of a contract or agreement, except for—

(1) Purchases that use a Governmentwide commercial purchase card as both the purchasing and payment mechanism, as opposed to using the purchase card only as a payment method;

(2) Classified contracts (see 2.101) when registration in the CCR database, or use of CCR data, could compromise the safeguarding of classified information or national security;

(3) Contracts awarded by—

(i) Deployed contracting officers in the course of military operations, including, but not limited to, contingency operations as defined in 10 U.S.C. 101(a)(13) or humanitarian or peacekeeping operations as defined in 10 U.S.C. 2302(7); or

(ii) Contracting officers in the conduct of emergency operations, such as responses to natural or environmental disasters or national or civil emergencies, *e.g.*, Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121);

(4) Contracts to support unusual or compelling needs (see 6.302-2);

(5) Awards made to foreign vendors for work performed outside the United States, if it is impractical to obtain CCR registration; and

(6) Micro-purchases that do not use the electronic funds transfer (EFT) method for payment and are not required to be reported (see Subpart 4.6).

(b) If practical, the contracting officer shall modify the contract or agreement awarded under paragraph (a)(3) or (a)(4) of this section to require CCR registration.

(c) (1) (i) If a contractor has legally changed its business name, “doing business as” name, or division name (whichever

is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the contractor shall provide the responsible contracting officer a minimum of one business day’s written notification of its intention to change the name in the CCR database; comply with the requirements of Subpart 42.12; and agree in writing to the timeline and procedures specified by the responsible contracting officer. The contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the contractor fails to comply with the requirements of paragraph (g)(1)(i) of the clause at 52.204-7, Central Contractor Registration, or fails to perform the agreement at 52.204-7(g)(1)(i)(C), and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the contractor to be other than the contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the EFT clause of the contract.

(2) The contractor shall not change the name or address for electronic funds transfer payments (EFT) or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims).

(3) Assignees shall be separately registered in the CCR database. Information provided to the contractor’s CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that contractor will be considered to be incorrect information within the meaning of the “Suspension of payment” paragraph of the EFT clause of the contract.

4.1103 Procedures.

(a) Unless the acquisition is exempt under 4.1102, the contracting officer—

(1) Shall verify that the prospective contractor is registered in the CCR database (see paragraph (b) of this section) before awarding a contract or agreement. Contracting officers are encouraged to check the CCR early in the acquisition process, after the competitive range has been established, and then communicate to the unregistered offerors that they must register;

(2) Should use the DUNS number or, if applicable, the DUNS+4 number, to verify registration—

(i) Via the Internet at <http://www.ccr.gov>;

(ii) By calling toll-free: 1-888-227-2423, commercial: (269) 961-5757, or Defense Switched Network (DSN) (used at certain Department of Defense locations): 932-5757; or

(iii) As otherwise provided by agency procedures; and

(3) Need not verify registration before placing an order or call if the contract or agreement includes the clause at 52.204-7, or 52.212-4(t), or a similar agency clause.

(b) If the contracting officer, when awarding a contract or agreement, determines that a prospective contractor is not registered in the CCR database and an exception to the registration requirements for the award does not apply (see 4.1102), the contracting officer shall—

(1) If the needs of the requiring activity allow for a delay, make award after the apparently successful offeror has registered in the CCR database. The contracting officer shall advise the offeror of the number of days it will be allowed to become registered. If the offeror does not become registered by the required date, the contracting officer shall award to the next otherwise successful registered offeror following the same procedures (*i.e.*, if the next apparently successful offeror is not registered, the contracting officer shall advise the off-

eror of the number of days it will be allowed to become registered, etc.); or

(2) If the needs of the requiring activity do not allow for a delay, proceed to award to the next otherwise successful registered offeror, provided that written approval is obtained at one level above the contracting officer.

(c) Agencies shall protect against improper disclosure of contractor CCR information.

(d) The contracting officer shall, on contractual documents transmitted to the payment office, provide the DUNS number, or, if applicable, the DUNS+4, in accordance with agency procedures.

4.1104 Solicitation provision and contract clauses.

Except as provided in 4.1102(a), use the clause at 52.204-7, Central Contractor Registration, in solicitations and contracts.

10.000 Scope of part.

This part prescribes policies and procedures for conducting market research to arrive at the most suitable approach to acquiring, distributing, and supporting supplies and services. This part implements requirements of 41 U.S.C. 253a(a)(1), 41 U.S.C. 264b, and 10 U.S.C. 2377.

10.001 Policy.

(a) Agencies must—

(1) Ensure that legitimate needs are identified and trade-offs evaluated to acquire items that meet those needs;

(2) Conduct market research appropriate to the circumstances—

(i) Before developing new requirements documents for an acquisition by that agency;

(ii) Before soliciting offers for acquisitions with an estimated value in excess of the simplified acquisition threshold;

(iii) Before soliciting offers for acquisitions with an estimated value less than the simplified acquisition threshold when adequate information is not available and the circumstances justify its cost;

(iv) Before soliciting offers for acquisitions that could lead to a bundled contract (15 U.S.C. 644(e)(2)(A)); and

(v) Agencies shall conduct market research on an ongoing basis, and take advantage to the maximum extent practicable of commercially available market research methods, to identify effectively the capabilities, including the capabilities of small businesses and new entrants into Federal contracting, that are available in the marketplace for meeting the requirements of the agency in furtherance of a contingency operation or defense against or recovery from nuclear, biological, chemical, or radiological attack; and

(3) Use the results of market research to—

(i) Determine if sources capable of satisfying the agency's requirements exist;

(ii) Determine if commercial items or, to the extent commercial items suitable to meet the agency's needs are not available, nondevelopmental items are available that—

(A) Meet the agency's requirements;

(B) Could be modified to meet the agency's requirements; or

(C) Could meet the agency's requirements if those requirements were modified to a reasonable extent;

(iii) Determine the extent to which commercial items or nondevelopmental items could be incorporated at the component level;

(iv) Determine the practices of firms engaged in producing, distributing, and supporting commercial items, such as terms for warranties, buyer financing, maintenance and packaging, and marking;

(v) Ensure maximum practicable use of recovered materials (see Subpart 23.4) and promote energy conservation and efficiency; and

(vi) Determine whether bundling is necessary and justified (see 7.107) (15 U.S.C. 644(e)(2)(A)).

(vii) Assess the availability of electronic and information technology that meets all or part of the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR Part 1194 (see Subpart 39.2).

(b) When conducting market research, agencies should not request potential sources to submit more than the minimum information necessary.

(c) If an agency contemplates awarding a bundled contract, the agency—

(1) When performing market research, should consult with the local Small Business Administration procurement center representative (PCR). If a PCR is not assigned, see 19.402(a); and

(2) At least 30 days before release of the solicitation or 30 days prior to placing an order without a solicitation—

(i) Must notify any affected incumbent small business concerns of the Government's intention to bundle the requirement; and

(ii) Should notify any affected incumbent small business concerns of how the concerns may contact the appropriate Small Business Administration representative.

10.002 Procedures.

(a) Acquisitions begin with a description of the Government's needs stated in terms sufficient to allow conduct of market research.

(b) Market research is then conducted to determine if commercial items or nondevelopmental items are available to meet the Government's needs or could be modified to meet the Government's needs.

(1) The extent of market research will vary, depending on such factors as urgency, estimated dollar value, complexity, and past experience. Market research involves obtaining information specific to the item being acquired and should include—

(i) Whether the Government's needs can be met by—

(A) Items of a type customarily available in the commercial marketplace;

(B) Items of a type customarily available in the commercial marketplace with modifications; or

(C) Items used exclusively for governmental purposes;

(ii) Customary practices regarding customizing, modifying or tailoring of items to meet customer needs and associated costs;

(iii) Customary practices, including warranty, buyer financing, discounts, etc., under which commercial sales of the products are made;

(iv) The requirements of any laws and regulations unique to the item being acquired;

(v) The availability of items that contain recovered materials and items that are energy efficient;

(vi) The distribution and support capabilities of potential suppliers, including alternative arrangements and cost estimates; and

(vii) Size and status of potential sources (see Part 19).

(2) Techniques for conducting market research may include any or all of the following:

(i) Contacting knowledgeable individuals in Government and industry regarding market capabilities to meet requirements.

(ii) Reviewing the results of recent market research undertaken to meet similar or identical requirements.

(iii) Publishing formal requests for information in appropriate technical or scientific journals or business publications.

(iv) Querying the Governmentwide database of contracts and other procurement instruments intended for use by multiple agencies available at *www.contractdirectory.gov* and other Government and commercial databases that provide information relevant to agency acquisitions.

(v) Participating in interactive, on-line communication among industry, acquisition personnel, and customers.

(vi) Obtaining source lists of similar items from other contracting activities or agencies, trade associations or other sources.

(vii) Reviewing catalogs and other generally available product literature published by manufacturers, distributors, and dealers or available on-line.

(viii) Conducting interchange meetings or holding presolicitation conferences to involve potential offerors early in the acquisition process.

(c) If market research indicates commercial or nondevelopmental items might not be available to satisfy agency needs, agencies shall reevaluate the need in accordance with 10.001(a)(3)(ii) and determine whether the need can be restated to permit commercial or nondevelopmental items to satisfy the agency's needs.

(d)(1) If market research establishes that the Government's need may be met by a type of item or service customarily available in the commercial marketplace that would meet the definition of a commercial item at Subpart 2.1, the contracting officer shall solicit and award any resultant contract using the policies and procedures in Part 12.

(2) If market research establishes that the Government's need cannot be met by a type of item or service customarily available in the marketplace, Part 12 shall not be used. When publication of the notice at 5.201 is required, the contracting officer shall include a notice to prospective offerors that the Government does not intend to use Part 12 for the acquisition (see 5.207(e)).

(e) Agencies should document the results of market research in a manner appropriate to the size and complexity of the acquisition.

Subpart 15.4—Contract Pricing

15.400 Scope of subpart.

This subpart prescribes the cost and price negotiation policies and procedures for pricing negotiated prime contracts (including subcontracts) and contract modifications, including modifications to contracts awarded by sealed bidding.

15.401 Definitions.

As used in this subpart—

“Price” means cost plus any fee or profit applicable to the contract type.

“Subcontract” (except as used in 15.407-2) also includes a transfer of commercial items between divisions, subsidiaries, or affiliates of a contractor or a subcontractor (10 U.S.C. 2306a(h)(2) and 41 U.S.C. 254b(h)(2)).

15.402 Pricing policy.

Contracting officers must—

(a) Purchase supplies and services from responsible sources at fair and reasonable prices. In establishing the reasonableness of the offered prices, the contracting officer must not obtain more information than is necessary. To the extent that cost or pricing data are not required by 15.403-4, the contracting officer must generally use the following order of preference in determining the type of information required:

(1) No additional information from the offeror, if the price is based on adequate price competition, except as provided by 15.403-3(b).

(2) Information other than cost or pricing data:

(i) Information related to prices (*e.g.*, established catalog or market prices or previous contract prices), relying first on information available within the Government; second, on information obtained from sources other than the offeror; and, if necessary, on information obtained from the offeror. When obtaining information from the offeror is necessary, unless an exception under 15.403-1(b)(1) or (2) applies, such information submitted by the offeror shall include, at a minimum, appropriate information on the prices at which the same or similar items have been sold previously, adequate for evaluating the reasonableness of the price.

(ii) Cost information, that does not meet the definition of cost or pricing data at 2.101.

(3) *Cost or pricing data.* The contracting officer should use every means available to ascertain whether a fair and reasonable price can be determined before requesting cost or pricing data. Contracting officers must not require unnecessarily the submission of cost or pricing data, because it leads to increased proposal preparation costs, generally extends acquisition lead time, and consumes additional contractor and Government resources.

(b) Price each contract separately and independently and not—

(1) Use proposed price reductions under other contracts as an evaluation factor; or

(2) Consider losses or profits realized or anticipated under other contracts.

(c) Not include in a contract price any amount for a specified contingency to the extent that the contract provides for a price adjustment based upon the occurrence of that contingency.

15.403 Obtaining cost or pricing data.

15.403-1 Prohibition on obtaining cost or pricing data (10 U.S.C. 2306a and 41 U.S.C. 254b).

(a) Cost or pricing data shall not be obtained for acquisitions at or below the simplified acquisition threshold.

(b) *Exceptions to cost or pricing data requirements.* The contracting officer shall not require submission of cost or pricing data to support any action (contracts, subcontracts, or modifications) (but may require information other than cost or pricing data to support a determination of price reasonableness or cost realism)—

(1) When the contracting officer determines that prices agreed upon are based on adequate price competition (see standards in paragraph (c)(1) of this subsection);

(2) When the contracting officer determines that prices agreed upon are based on prices set by law or regulation (see standards in paragraph (c)(2) of this subsection);

(3) When a commercial item is being acquired (see standards in paragraph (c)(3) of this subsection);

(4) When a waiver has been granted (see standards in paragraph (c)(4) of this subsection); or

(5) When modifying a contract or subcontract for commercial items (see standards in paragraph (c)(3) of this subsection).

(c) *Standards for exceptions from cost or pricing data requirements—* (1) *Adequate price competition.* A price is based on adequate price competition if— (i) Two or more responsible offerors, competing independently, submit priced offers that satisfy the Government’s expressed requirement and if—

(A) Award will be made to the offeror whose proposal represents the best value (see 2.101) where price is a substantial factor in source selection; and

(B) There is no finding that the price of the otherwise successful offeror is unreasonable. Any finding that the price is unreasonable must be supported by a statement of the facts and approved at a level above the contracting officer;

(ii) There was a reasonable expectation, based on market research or other assessment, that two or more responsible offerors, competing independently, would submit priced offers in response to the solicitation’s expressed requirement, even though only one offer is received from a responsible offeror and if—

(A) Based on the offer received, the contracting officer can reasonably conclude that the offer was submitted with the expectation of competition, *e.g.*, circumstances indicate that—

(1) The offeror believed that at least one other offeror was capable of submitting a meaningful offer; and

(2) The offeror had no reason to believe that other potential offerors did not intend to submit an offer; and

(B) The determination that the proposed price is based on adequate price competition, is reasonable, and is approved at a level above the contracting officer; or

(iii) Price analysis clearly demonstrates that the proposed price is reasonable in comparison with current or recent prices for the same or similar items, adjusted to reflect changes in market conditions, economic conditions, quantities, or terms and conditions under contracts that resulted from adequate price competition.

(2) *Prices set by law or regulation.* Pronouncements in the form of periodic rulings, reviews, or similar actions of a governmental body, or embodied in the laws, are sufficient to set a price.

(3) *Commercial items.* (i) Any acquisition of an item that meets the commercial item definition in 2.101, or any modification, as defined in paragraph (3)(i) of that definition, that does not change the item from a commercial item to a noncommercial item, is exempt from the requirement for cost or pricing data. If the contracting officer determines that an item claimed to be commercial is, in fact, not commercial and that no other exception or waiver applies, the contracting officer must require submission of cost or pricing data.

(ii) The following requirements apply to minor modifications defined in paragraph (3)(ii) of the definition of a commercial item at 2.101 that do not change the item from a commercial item to a noncommercial item:

(A) For acquisitions funded by any agency other than DoD, NASA, or Coast Guard, such modifications of a commercial item are exempt from the requirement for submission of cost or pricing data.

(B) For acquisitions funded by DoD, NASA, or Coast Guard, such modifications of a commercial item are exempt from the requirement for submission of cost or pricing data provided the total price of all such modifications under a particular contract action does not exceed the greater of \$500,000 or 5 percent of the total price of the contract.

(C) For acquisitions funded by DoD, NASA, or Coast Guard such modifications of a commercial item are not exempt from the requirement for submission of cost or pricing data on the basis of the exemption provided for at FAR 15.403-1(c)(3) if the total price of all such modifications under a particular contract action exceeds the greater of \$500,000 or 5 percent of the total price of the contract.

(iii) Any acquisition for noncommercial supplies or services treated as commercial items at 12.102(f)(1), except

sole source contracts greater than \$15,000,000, is exempt from the requirements for cost or pricing data (41 U.S.C. 428a).

(4) *Waivers.* The head of the contracting activity (HCA) may, without power of delegation, waive the requirement for submission of cost or pricing data in exceptional cases. The authorization for the waiver and the supporting rationale shall be in writing. The HCA may consider waiving the requirement if the price can be determined to be fair and reasonable without submission of cost or pricing data. For example, if cost or pricing data were furnished on previous production buys and the contracting officer determines such data are sufficient, when combined with updated information, a waiver may be granted. If the HCA has waived the requirement for submission of cost or pricing data, the contractor or higher-tier subcontractor to whom the waiver relates shall be considered as having been required to provide cost or pricing data. Consequently, award of any lower-tier subcontract expected to exceed the cost or pricing data threshold requires the submission of cost or pricing data unless—

(i) An exception otherwise applies to the subcontract; or

(ii) The waiver specifically includes the subcontract and the rationale supporting the waiver for that subcontract.

15.403-2 Other circumstances where cost or pricing data are not required.

(a) The exercise of an option at the price established at contract award or initial negotiation does not require submission of cost or pricing data.

(b) Cost or pricing data are not required for proposals used solely for overrun funding or interim billing price adjustments.

15.403-3 Requiring information other than cost or pricing data.

(a) *General.* (1) The contracting officer is responsible for obtaining information that is adequate for evaluating the reasonableness of the price or determining cost realism, but the contracting officer should not obtain more information than is necessary (see 15.402(a)). If the contracting officer cannot obtain adequate information from sources other than the offeror, the contracting officer must require submission of information other than cost or pricing data from the offeror that is adequate to determine a fair and reasonable price (10 U.S.C. 2306a(d)(1) and 41 U.S.C. 254b(d)(1)). Unless an exception under 15.403-1(b)(1) or (2) applies, the contracting officer must require that the information submitted by the offeror include, at a minimum, appropriate information on the prices at which the same item or similar items have previously been sold, adequate for determining the reasonableness of the price. To determine the information an offeror should be required to submit, the contracting officer should consider the

Subpart 19.2—Policies

19.201 General policy.

(a) It is the policy of the Government to provide maximum practicable opportunities in its acquisitions to small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns. Such concerns must also have the maximum practicable opportunity to participate as subcontractors in the contracts awarded by any executive agency, consistent with efficient contract performance. The Small Business Administration (SBA) counsels and assists small business concerns and assists contracting personnel to ensure that a fair proportion of contracts for supplies and services is placed with small business.

(b) The Department of Commerce will determine on an annual basis, by North American Industry Classification System (NAICS) Industry Subsector, and region, if any, the authorized small disadvantaged business (SDB) procurement mechanisms and applicable factors (percentages). The Department of Commerce determination shall only affect solicitations that are issued on or after the effective date of the determination. The effective date of the Department of Commerce determination shall be no less than 60 days after its publication date. The Department of Commerce determination shall not affect ongoing acquisitions. The SDB procurement mechanisms are a price evaluation adjustment for SDB concerns (see Subpart 19.11), an evaluation factor or subfactor for participation of SDB concerns (see 19.1202), and monetary subcontracting incentive clauses for SDB concerns (see 19.1203). The Department of Commerce determination shall also include the applicable factors, by NAICS Industry Subsector, to be used in the price evaluation adjustment for SDB concerns (see 19.1104). The General Services Administration shall post the Department of Commerce determination at <http://www.arnet.gov/References/sdbadjustments.htm>. The authorized procurement mechanisms shall be applied consistently with the policies and procedures in this subpart. The agencies shall apply the procurement mechanisms determined by the Department of Commerce. The Department of Commerce, in making its determination, is not limited to the SDB procurement mechanisms identified in this section where the Department of Commerce has found substantial and persuasive evidence of—

(1) A persistent and significant underutilization of minority firms in a particular industry, attributable to past or present discrimination; and

(2) A demonstrated incapacity to alleviate the problem by using those mechanisms.

(c) Heads of contracting activities are responsible for effectively implementing the small business programs within their activities, including achieving program goals. They are to

ensure that contracting and technical personnel maintain knowledge of small business program requirements and take all reasonable action to increase participation in their activities' contracting processes by these businesses.

(d) The Small Business Act requires each agency with contracting authority to establish an Office of Small and Disadvantaged Business Utilization (see section (k) of the Small Business Act). Management of the office shall be the responsibility of an officer or employee of the agency who shall, in carrying out the purposes of the Act—

(1) Be known as the Director of Small and Disadvantaged Business Utilization;

(2) Be appointed by the agency head;

(3) Be responsible to and report directly to the agency head or the deputy to the agency head;

(4) Be responsible for the agency carrying out the functions and duties in sections 8, 15, and 31 of the Small Business Act.

(5) Work with the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) to—

(i) Identify proposed solicitations that involve bundling;

(ii) Facilitate small business participation as contractors including small business contract teams, where appropriate; and

(iii) Facilitate small business participation as subcontractors and suppliers where participation by small business concerns as contractors is unlikely;

(6) Assist small business concerns in obtaining payments under their contracts, late payment, interest penalties, or information on contractual payment provisions;

(7) Have supervisory authority over agency personnel to the extent that their functions and duties relate to sections 8, 15, and 31 of the Small Business Act.

(8) Assign a small business technical advisor to each contracting activity within the agency to which the SBA has assigned a representative (see 19.402)—

(i) Who shall be a full-time employee of the contracting activity, well qualified, technically trained, and familiar with the supplies or services contracted for by the activity; and

(ii) Whose principal duty is to assist the SBA's assigned representative in performing functions and duties relating to sections 8, 15, and 31 of the Small Business Act;

(9) Cooperate and consult on a regular basis with the SBA in carrying out the agency's functions and duties in sections 8, 15, and 31 of the Small Business Act;

(10) Make recommendations in accordance with agency procedures as to whether a particular acquisition should be awarded under Subpart 19.5 as a small business set-aside, under Subpart 19.8 as a Section 8(a) award, under Subpart 19.13 as a HUBZone set-aside, or under

Subpart 19.14 as a service-disabled veteran-owned small business set-aside;

(11) Conduct annual reviews to assess the—

(i) Extent to which small businesses are receiving a fair share of Federal procurements, including contract opportunities under the programs administered under the Small Business Act;

(ii) Adequacy of contract bundling documentation and justifications; and

(iii) Actions taken to mitigate the effects of necessary and justified contract bundling on small businesses.

(12) Provide a copy of the assessment made under paragraph (d)(11) of this section to the Agency Head and SBA Administrator.

(e) Small Business Specialists must be appointed and act in accordance with agency regulations.

(f)(1) Each agency shall designate, at levels it determines appropriate, personnel responsible for determining whether, in order to achieve the contracting agency's goal for SDB concerns, the use of the SDB mechanism in Subpart 19.11 has resulted in an undue burden on non-SDB firms in one of the Industry Subsectors and regions identified by Department of Commerce following paragraph (b) of this section, or is otherwise inappropriate. Determinations under this subpart are for the purpose of determining future acquisitions and shall not affect ongoing acquisitions. Requests for a determination, including supporting rationale, may be submitted to the agency designee. If the agency designee makes an affirmative determination that the SDB mechanism has an undue burden or is otherwise inappropriate, the determination shall be forwarded through agency channels to the OFPP, which shall review the determination in consultation with the Department of Commerce and the Small Business Administration. At a minimum, the following information should be included in any submittal:

(i) A determination of undue burden or other inappropriate effect, including proposed corrective action.

(ii) The Industry Subsector affected.

(iii) Supporting information to justify the determination, including, but not limited to, dollars and percentages of contracts awarded by the contracting activity under the affected Industry Subsector for the previous two fiscal years and current fiscal year to date for—

(A) Total awards;

(B) Total awards to SDB concerns;

(C) Awards to SDB concerns awarded contracts under the SDB price evaluation adjustment where the SDB concerns would not otherwise have been the successful offeror;

(D) Number of successful and unsuccessful SDB offerors; and

(E) Number of successful and unsuccessful non-SDB offerors.

(iv) A discussion of the pertinent findings, including any peculiarities related to the industry, regions or demographics.

(v) A discussion of other efforts the agency has undertaken to ensure equal opportunity for SDBs in contracting with the agency.

(2) After consultation with OFPP, or if the agency does not receive a response from OFPP within 90 days after notice is provided to OFPP, the contracting agency may limit the use of the SDB mechanism in Subpart 19.11 until the Department of Commerce determines the updated price evaluation adjustment, as required by this section. This limitation shall not apply to solicitations that already have been synopsisized.

19.202 Specific policies.

In order to further the policy in 19.201(a), contracting officers shall comply with the specific policies listed in this section and shall consider recommendations of the agency Director of Small and Disadvantaged Business Utilization, or the Director's designee, as to whether a particular acquisition should be awarded under Subpart 19.5, 19.8, or 19.13. Agencies shall establish procedures including dollar thresholds for review of acquisitions by the Director or the Director's designee for the purpose of making these recommendations. The contracting officer shall document the contract file whenever the Director's recommendations are not accepted.

19.202-1 Encouraging small business participation in acquisitions.

Small business concerns shall be afforded an equitable opportunity to compete for all contracts that they can perform to the extent consistent with the Government's interest. When applicable, the contracting officer shall take the following actions:

(a) Divide proposed acquisitions of supplies and services (except construction) into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement.

(b) Plan acquisitions such that, if practicable, more than one small business concern may perform the work, if the work exceeds the amount for which a surety may be guaranteed by SBA against loss under 15 U.S.C. 694b.

(c) Ensure that delivery schedules are established on a realistic basis that will encourage small business participation to the extent consistent with the actual requirements of the Government.

(d) Encourage prime contractors to subcontract with small business concerns (see Subpart 19.7).

(e)(1) Provide a copy of the proposed acquisition package to the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) at least 30 days prior to the issuance of the solicitation if—

(i) The proposed acquisition is for supplies or services currently being provided by a small business and the proposed acquisition is of a quantity or estimated dollar value, the magnitude of which makes it unlikely that small businesses can compete for the prime contract;

(ii) The proposed acquisition is for construction and seeks to package or consolidate discrete construction projects and the magnitude of this consolidation makes it unlikely that small businesses can compete for the prime contract; or

(iii) The proposed acquisition is for a bundled requirement. (See 10.001(c)(2)(i) for mandatory 30-day notice requirement to incumbent small business concerns.) The contracting officer shall provide all information relative to the justification of contract bundling, including the acquisition plan or strategy, and if the acquisition involves substantial bundling, the information identified in 7.107(e). When the acquisition involves substantial bundling, the contracting officer shall also provide the same information to the agency Office of Small and Disadvantaged Business Utilization.

(2) The contracting officer also must provide a statement explaining why the—

(i) Proposed acquisition cannot be divided into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement;

(ii) Delivery schedules cannot be established on a realistic basis that will encourage small business participation to the extent consistent with the actual requirements of the Government;

(iii) Proposed acquisition cannot be structured so as to make it likely that small businesses can compete for the prime contract;

(iv) Consolidated construction project cannot be acquired as separate discrete projects; or

(v) Bundling is necessary and justified.

(3) The 30-day notification process shall occur concurrently with other processing steps required prior to the issuance of the solicitation.

(4) If the contracting officer rejects the SBA representative's recommendation made in accordance with 19.402(c)(2), the contracting officer shall document the basis for the rejection and notify the SBA representative in accordance with 19.505.

19.202-2 Locating small business sources.

The contracting officer must, to the extent practicable, encourage maximum participation by small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in acquisitions by taking the following actions:

(a) Before issuing solicitations, make every reasonable effort to find additional small business concerns, unless lists

are already excessively long and only some of the concerns on the list will be solicited. This effort should include contacting the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)).

(b) Publicize solicitations and contract awards through the Governmentwide point of entry (see Subparts 5.2 and 5.3).

19.202-3 Equal low bids.

In the event of equal low bids (see 14.408-6), awards shall be made first to small business concerns which are also labor surplus area concerns, and second to small business concerns which are not also labor surplus area concerns.

19.202-4 Solicitation.

The contracting officer must encourage maximum response to solicitations by small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by taking the following actions:

(a) Allow the maximum amount of time practicable for the submission of offers.

(b) Furnish specifications, plans, and drawings with solicitations, or furnish information as to where they may be obtained or examined.

(c) Provide to any small business concern, upon its request, a copy of bid sets and specifications with respect to any contract to be let, the name and telephone number of an agency contact to answer questions related to such prospective contract and adequate citations to each major Federal law or agency rule with which such business concern must comply in performing such contract other than laws or agency rules with which the small business must comply when doing business with other than the Government.

19.202-5 Data collection and reporting requirements.

Agencies must measure the extent of small business participation in their acquisition programs by taking the following actions:

(a) Require each prospective contractor to represent whether it is a small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, or women-owned small business concern (see the provision at 52.219-1, Small Business Program Representations).

(b) Accurately measure the extent of participation by small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in Government acquisitions in terms of the total value of contracts placed during each fiscal year, and report data to the SBA at the end of each fiscal year (see Subpart 4.6).

19.202-6 Determination of fair market price.

(a) The fair market price shall be the price achieved in accordance with the reasonable price guidelines in 15.404-1(b) for—

(1) Total and partial small business set-asides (see Subpart 19.5);

(2) HUBZone set-asides (see Subpart 19.13);

(3) Contracts utilizing the price evaluation adjustment for small disadvantaged business concerns (see Subpart 19.11);

(4) Contracts utilizing the price evaluation preference for HUBZone small business concerns (see Subpart 19.13); and

(5) Service-disabled veteran-owned small business set-asides (see Subpart 19.14).

(b) For 8(a) contracts, both with respect to meeting the requirement at 19.806(b) and in order to accurately estimate the current fair market price, contracting officers shall follow the procedures at 19.807.

Subpart 19.4—Cooperation with the Small Business Administration

19.401 General.

(a) The Small Business Act is the authority under which the Small Business Administration (SBA) and agencies consult and cooperate with each other in formulating policies to ensure that small business interests will be recognized and protected.

(b) The Director of Small and Disadvantaged Business Utilization serves as the agency focal point for interfacing with SBA.

19.402 Small Business Administration procurement center representatives.

(a)(1) The SBA may assign one or more procurement center representatives to any contracting activity or contract administration office to carry out SBA policies and programs. Assigned SBA procurement center representatives are required to comply with the contracting agency's directives governing the conduct of contracting personnel and the release of contract information. The SBA must obtain for its procurement center representatives security clearances required by the contracting agency.

(2) If a SBA procurement center representative is not assigned to the procuring activity or contract administration office, contact the SBA Office of Government Contracting Area Office serving the area in which the procuring activity is located for assistance in carrying out SBA policies and programs. See <http://www.sba.gov/GC/pcr.html> for the location of the SBA office servicing the activity.

(b) Upon their request and subject to applicable acquisition and security regulations, contracting officers shall give SBA procurement center representatives (or, if a procurement center representative is not assigned, see paragraph (a) of this section) access to all reasonably obtainable contract information that is directly pertinent to their official duties.

(c) The duties assigned by SBA to its procurement center representatives include the following:

(1) Reviewing proposed acquisitions to recommend—

(i) The setting aside of selected acquisitions not unilaterally set aside by the contracting officer,

(ii) New qualified small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged, and women-owned small business sources, and

(iii) Breakout of components for competitive acquisitions.

(2) Reviewing proposed acquisition packages provided in accordance with 19.202-1(e). If the SBA procurement center representative (or, if a procurement center representative is not assigned, see paragraph (a) of this section) believes that the acquisition, as proposed, makes it unlikely that small busi-

nesses can compete for the prime contract, the representative shall recommend any alternate contracting method that the representative reasonably believes will increase small business prime contracting opportunities. The recommendation shall be made to the contracting officer within 15 days after receipt of the package.

(3) Recommending concerns for inclusion on a list of concerns to be solicited in a specific acquisition.

(4) Appealing to the chief of the contracting office any contracting officer's determination not to solicit a concern recommended by the SBA for a particular acquisition, when not doing so results in no small business being solicited.

(5) Conducting periodic reviews of the contracting activity to which assigned to ascertain whether it is complying with the small business policies in this regulation.

(6) Sponsoring and participating in conferences and training designed to increase small business participation in the contracting activities of the office.

19.403 Small Business Administration breakout procurement center representative.

(a) The SBA is required by section 403 of Pub. L. 98-577 to assign a breakout procurement center representative to each major procurement center. A major procurement center means a procurement center that, in the opinion of the administrator, purchases substantial dollar amounts of other than commercial items, and which has the potential to incur significant savings as a result of the placement of a breakout procurement representative. The SBA breakout procurement center representative is an advocate for (1) the appropriate use of full and open competition, and (2) the breakout of items, when appropriate and while maintaining the integrity of the system in which such items are used. The SBA breakout procurement center representative is in addition to the SBA procurement center representative (see 19.402). When an SBA breakout procurement center representative is assigned, the SBA is required to assign at least two collocated small business technical advisors. Assigned SBA breakout procurement center representatives and technical advisors are required to comply with the contracting agency's directives governing the conduct of contracting personnel and the release of contract information. The SBA must obtain for its breakout procurement center representatives and technical advisors security clearances required by the contracting agency.

(b) Contracting officers shall comply with 19.402(b) in their relationships with SBA breakout procurement center representatives and SBA small business technical advisors.

(c) The SBA breakout procurement center representative is authorized to—

(1) Attend any provisioning conference or similar evaluation session during which determinations are made as to whether requirements are to be acquired using other than full and open competition and make recommendations with

respect to such requirements to the members of such conference or session;

(2) Review, at any time, restrictions on competition previously imposed on items through acquisition method coding or similar procedures and recommend to personnel of the appropriate activity the prompt reevaluation of such limitations;

(3) Review restrictions on competition arising out of restrictions on the rights of the United States in technical data and, when appropriate, recommend that personnel of the appropriate activity initiate a review of the validity of such an asserted restriction;

(4) Obtain from any governmental source, and make available to personnel of the appropriate center, technical data necessary for the preparation of a competitive solicitation package for any item of supply or service previously acquired noncompetitively due to the unavailability of such technical data;

(5) Have access to procurement records and other data of the procurement center commensurate with the level of such representative's approved security clearance classification;

(6) Receive unsolicited engineering proposals and, when appropriate—

(i) Conduct a value analysis of such proposal to determine whether it, if adopted, will result in lower costs to the United States without substantially impeding legitimate acquisition objectives and forward to personnel of the appropriate center recommendations with respect to such proposal; or

(ii) Forward such proposals without analysis to personnel of the center responsible for reviewing them who shall furnish the breakout procurement center representative with information regarding the proposal's disposition;

(7) Review the systems that account for the acquisition and management of technical data within the procurement center to ensure that such systems provide the maximum availability and access to data needed for the preparation of offers to sell to the United States those supplies to which such data pertain which potential offerors are entitled to receive;

(8) Appeal the failure by the procurement center to act favorably on any recommendation made pursuant to paragraphs (c)(1) through (7) of this section. Such appeal must be in writing and shall be filed and processed in accordance with the appeal procedures set out at 19.505;

(9) Conduct familiarization sessions for contracting officers and other appropriate personnel of the procurement center to which assigned. Such sessions shall acquaint the participants with the duties and objectives of the representative and shall instruct them in the methods designed to further the breakout of items for procurement through full and open competition; and

(10) Prepare and personally deliver an annual briefing and report to the head of the procurement center to which assigned. Such briefing and report shall detail the past and planned activities of the representative and shall contain recommendations for improvement in the operation of the center as may be appropriate. The head of such center shall personally receive the briefing and report and shall, within 60 calendar days after receipt, respond, in writing, to each recommendation made by the representative.

(d) The duties of the SBA small business technical advisors are to assist the SBA breakout procurement center representative in carrying out the activities described in paragraphs (c)(1) through (7) of this section to assist the SBA procurement center representatives (see FAR 19.402).

Subpart 19.5—Set-Asides for Small Business

19.501 General.

(a) The purpose of small business set-asides is to award certain acquisitions exclusively to small business concerns. A “set-aside for small business” is the reserving of an acquisition exclusively for participation by small business concerns. A small business set-aside may be open to all small businesses. A small business set-aside of a single acquisition or a class of acquisitions may be total or partial.

(b) The determination to make a small business set-aside may be unilateral or joint. A unilateral determination is one that is made by the contracting officer. A joint determination is one that is recommended by the Small Business Administration (SBA) procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) and concurred in by the contracting officer.

(c) For acquisitions exceeding the simplified acquisition threshold, the requirement to set aside an acquisition for HUBZone small business concerns (see 19.1305) takes priority over the requirement to set aside the acquisition for small business concerns.

(d) The small business reservation and set-asides requirements at 19.502-2 do not preclude award of a contract to a service-disabled veteran-owned small business concern under Subpart 19.14.

(e) The contracting officer shall review acquisitions to determine if they can be set aside for small business, giving consideration to the recommendations of agency personnel having cognizance of the agency’s small business programs. The contracting officer shall document why a small business set-aside is inappropriate when an acquisition is not set aside for small business, unless a HUBZone or service-disabled veteran-owned small business set-aside or HUBZone or service-disabled veteran-owned small business sole source award is anticipated. If the acquisition is set aside for small business based on this review, it is a unilateral set-aside by the contracting officer. Agencies may establish threshold levels for this review depending upon their needs.

(f) At the request of an SBA procurement center representative, (or, if a procurement center representative is not assigned, see 19.402(a)) the contracting officer shall make available for review at the contracting office (to the extent of the SBA representative’s security clearance) all proposed acquisitions in excess of the micro-purchase threshold that have not been unilaterally set aside for small business.

(g) To the extent practicable, unilateral determinations initiated by a contracting officer shall be used as the basis for small business set-asides rather than joint determinations by an SBA procurement center representative and a contracting officer.

(h) All solicitations involving set-asides must specify the applicable small business size standard and NAICS code (see 19.303).

(i) Except as authorized by law, a contract may not be awarded as a result of a small business set-aside if the cost to the awarding agency exceeds the fair market price.

19.502 Setting aside acquisitions.

19.502-1 Requirements for setting aside acquisitions.

(a) The contracting officer shall set aside an individual acquisition or class of acquisitions for competition among small businesses when—

(1) It is determined to be in the interest of maintaining or mobilizing the Nation’s full productive capacity, war or national defense programs; or

(2) Assuring that a fair proportion of Government contracts in each industry category is placed with small business concerns; and the circumstances described in 19.502-2 or 19.502-3(a) exist.

(b) This requirement does not apply to purchases of \$2,500 or less (\$15,000 or less for acquisitions as described in 13.201(g)(1)), or purchases from required sources of supply under Part 8 (*e.g.*, Committee for Purchase From People Who are Blind or Severely Disabled, and Federal Supply Schedule contracts).

19.502-2 Total small business set-asides.

(a) Each acquisition of supplies or services that has an anticipated dollar value exceeding \$2,500 (\$15,000 for acquisitions as described in 13.201(g)(1)), but not over \$100,000 (\$250,000 for acquisitions described in paragraph (1) of the Simplified Acquisition Threshold definition at 2.101), is automatically reserved exclusively for small business concerns and shall be set aside for small business unless the contracting officer determines there is not a reasonable expectation of obtaining offers from two or more responsible small business concerns that are competitive in terms of market prices, quality, and delivery. If the contracting officer does not proceed with the small business set-aside and purchases on an unrestricted basis, the contracting officer shall include in the contract file the reason for this unrestricted purchase. If the contracting officer receives only one acceptable offer from a responsible small business concern in response to a set-aside, the contracting officer should make an award to that firm. If the contracting officer receives no acceptable offers from responsible small business concerns, the set-aside shall be withdrawn and the requirement, if still valid, shall be resolicited on an unrestricted basis. The small business reservation does not preclude the award of a contract with a value not greater than \$100,000 under Subpart 19.8, Contracting with the Small Business Administration, under 19.1007(c), Solic-

itations equal to or less than the ESB reserve amount, or under 19.1305, HUBZone set-aside procedures.

(b) The contracting officer shall set aside any acquisition over \$100,000 for small business participation when there is a reasonable expectation that (1) offers will be obtained from at least two responsible small business concerns offering the products of different small business concerns (but see paragraph (c) of this subsection); and (2) award will be made at fair market prices. Total small business set-asides shall not be made unless such a reasonable expectation exists (but see 19.502-3 as to partial set-asides). Although past acquisition history of an item or similar items is always important, it is not the only factor to be considered in determining whether a reasonable expectation exists. In making R&D small business set-asides, there must also be a reasonable expectation of obtaining from small businesses the best scientific and technological sources consistent with the demands of the proposed acquisition for the best mix of cost, performances, and schedules.

(c) For small business set-asides other than for construction or services, any concern proposing to furnish a product that it did not itself manufacture must furnish the product of a small business manufacturer unless the SBA has granted either a waiver or exception to the nonmanufacturer rule (see 19.102(f)). In industries where the SBA finds that there are no small business manufacturers, it may issue a waiver to the nonmanufacturer rule (see 19.102(f)(4) and (5)). In addition, SBA has excepted procurements processed under simplified acquisition procedures (see Part 13), where the anticipated cost of the procurement will not exceed \$25,000, from the nonmanufacturer rule. Waivers permit small businesses to provide any firm's product. The exception permits small businesses to provide any domestic firm's product. In both of these cases, the contracting officer's determination in paragraph (b)(1) of this subsection or the decision not to set aside a procurement reserved for small business under paragraph (a) of this subsection will be based on the expectation of receiving offers from at least two responsible small businesses, including nonmanufacturers, offering the products of different concerns.

(d) The requirements of this subsection do not apply to acquisitions over \$25,000 during the period when small business set-asides cannot be considered for the designated industry groups (see 19.1007(b)).

19.502-3 Partial set-asides.

(a) The contracting officer shall set aside a portion of an acquisition, except for construction, for exclusive small business participation when—

(1) A total set-aside is not appropriate (see 19.502-2);

(2) The requirement is severable into two or more economic production runs or reasonable lots;

(3) One or more small business concerns are expected to have the technical competence and productive capacity to satisfy the set-aside portion of the requirement at a fair market price;

(4) The acquisition is not subject to simplified acquisition procedures; and

(5) A partial set-aside shall not be made if there is a reasonable expectation that only two concerns (one large and one small) with capability will respond with offers unless authorized by the head of a contracting activity on a case-by-case basis. Similarly, a class of acquisitions, not including construction, may be partially set aside. Under certain specified conditions, partial set-asides may be used in conjunction with multiyear contracting procedures.

(b) When the contracting officer determines that a portion of an acquisition is to be set aside, the requirement shall be divided into a set-aside portion and a non-set-aside portion, each of which shall (1) be an economic production run or reasonable lot and (2) have terms and a delivery schedule comparable to the other. When practicable, the set-aside portion should make maximum use of small business capacity.

(c)(1) The contracting officer shall award the non-set-aside portion using normal contracting procedures.

(2)(i) After all awards have been made on the non-set-aside portion, the contracting officer shall negotiate with eligible concerns on the set-aside portion, as provided in the solicitation, and make award. Negotiations shall be conducted only with those offerors who have submitted responsive offers on the non-set-aside portion. Negotiations shall be conducted with small business concerns in the order of priority as indicated in the solicitation (but see paragraph (c)(2)(ii) of this section). The set-aside portion shall be awarded as provided in the solicitation. An offeror entitled to receive the award for quantities of an item under the non-set-aside portion and who accepts the award of additional quantities under the set-aside portion shall not be requested to accept a lower price because of the increased quantities of the award, nor shall negotiation be conducted with a view to obtaining such a lower price based solely upon receipt of award of both portions of the acquisition. This does not prevent acceptance by the contracting officer of voluntary reductions in the price from the low eligible offeror before award, acceptance of voluntary refunds, or the change of prices after award by negotiation of a contract modification.

(ii) If equal low offers are received on the non-set-aside portion from concerns eligible for the set-aside portion, the concern that is awarded the non-set-aside part of the acquisition shall have first priority with respect to negotiations for the set-aside.

19.502-4 Methods of conducting set-asides.

(a) Total small business set-asides may be conducted by using simplified acquisition procedures (see Part 13), sealed

bids (see Part 14), or competitive proposals (see Part 15). Partial small business set-asides may be conducted using sealed bids (see Part 14), or competitive proposals (see Part 15).

(b) Except for offers on the non-set-aside portion of partial set-asides, offers received from concerns that do not qualify as small business concerns shall be considered nonresponsive and shall be rejected. However, before rejecting an offer otherwise eligible for award because of questions concerning the size representation, an SBA determination must be obtained (see Subpart 19.3).

19.502-5 Insufficient causes for not setting aside an acquisition.

None of the following is, in itself, sufficient cause for not setting aside an acquisition:

(a) A large percentage of previous contracts for the required item(s) has been placed with small business concerns.

(b) The item is on an established planning list under the Industrial Readiness Planning Program. However, a total small business set-aside shall not be made when the list contains a large business Planned Emergency Producer of the item(s) who has conveyed a desire to supply some or all of the required items.

(c) The item is on a Qualified Products List. However, a total small business set-aside shall not be made if the list contains the products of large businesses unless none of the large businesses desire to participate in the acquisition.

(d) A period of less than 30 days is available for receipt of offers.

(e) The acquisition is classified.

(f) Small business concerns are already receiving a fair proportion of the agency's contracts for supplies and services.

(g) A class small business set-aside of the item or service has been made by another contracting activity.

(h) A "brand name or equal" product description will be used in the solicitation.

19.503 Setting aside a class of acquisitions for small business.

(a) A class of acquisitions of selected products or services, or a portion of the acquisitions, may be set aside for exclusive participation by small business concerns if individual acquisitions in the class will meet the criteria in 19.502-1, 19.502-2, or 19.502-3(a). The determination to make a class small business set-aside shall not depend on the existence of a current acquisition if future acquisitions can be clearly foreseen.

(b) The determination to set aside a class of acquisitions for small business may be either unilateral or joint.

(c) Each class small business set-aside determination shall be in writing and must—

(1) Specifically identify the product(s) and service(s) it covers;

(2) Provide that the set-aside does not apply to any acquisition automatically reserved for small business concerns under 19.502-2(a).

(3) Provide that the set-aside applies only to the (named) contracting office(s) making the determination; and

(4) Provide that the set-aside does not apply to any individual acquisition if the requirement is not severable into two or more economic production runs or reasonable lots, in the case of a partial class set-aside.

(d) The contracting officer shall review each individual acquisition arising under a class small business set-aside to identify any changes in the magnitude of requirements, specifications, delivery requirements, or competitive market conditions that have occurred since the initial approval of the class set-aside. If there are any changes of such a material nature as to result in probable payment of more than a fair market price by the Government or in a change in the capability of small business concerns to satisfy the requirements, the contracting officer may withdraw or modify (see 19.506(a)) the unilateral or joint set-aside by giving written notice to the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) stating the reasons.

19.504 Inclusion of Federal Prison Industries, Inc.

When using competitive procedures in accordance with 8.602(a)(4), agencies shall include Federal Prison Industries, Inc. (FPI), in the solicitation process and consider a timely offer from FPI.

19.505 Rejecting Small Business Administration recommendations.

(a) If the contracting officer rejects a recommendation of the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) or breakout procurement center representative, written notice shall be furnished to the appropriate SBA representative within 5 working days of the contracting officer's receipt of the recommendation.

(b) The SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) may appeal the contracting officer's rejection to the head of the contracting activity (or designee) within 2 working days after receiving the notice. The head of the contracting activity (or designee) shall render a decision in writing, and provide it to the SBA representative within 7 working days. Pending issuance of a decision to the SBA representative, the contracting officer shall suspend action on the acquisition.

(c) If the head of the contracting activity agrees that the contracting officer's rejection was appropriate—

(1) Within 2 working days, the SBA procurement center representative (or, if a procurement center representative is

not assigned, see 19.402(a)) may request the contracting officer to suspend action on the acquisition until the SBA Administrator appeals to the agency head (see paragraph (f) of this section); and

(2) The SBA must be allowed 15 working days after making such a written request, within which the Administrator of SBA—

(i) May appeal to the Secretary of the Department concerned; and

(ii) Must notify the contracting officer whether the further appeal has, in fact, been taken. If notification is not received by the contracting officer within the 15-day period, it is deemed that the SBA request to suspend the contract action has been withdrawn and that an appeal to the Secretary was not taken.

(d) When the contracting officer has been notified within the 15-day period that the SBA has appealed to the agency head, the head of the contracting activity (or designee) shall forward justification for its decision to the agency head. The contracting officer shall suspend contract action until notification is received that the SBA appeal has been settled.

(e) The agency head shall reply to the SBA within 30 working days after receiving the appeal. The decision of the agency head shall be final.

(f) A request to suspend action on an acquisition need not be honored if the contracting officer determines that proceeding to contract award and performance is in the public interest. The contracting officer shall include in the contract file a statement of the facts justifying the determination, and shall promptly notify the SBA representative of the determination and provide a copy of the justification.

19.506 Withdrawing or modifying small business set-asides.

(a) If, before award of a contract involving a small business set-aside, the contracting officer considers that award would be detrimental to the public interest (*e.g.*, payment of more than a fair market price), the contracting officer may withdraw the small business set-aside determination whether it was unilateral or joint. The contracting officer shall initiate a withdrawal of an individual small business set-aside by giving written notice to the agency small business specialist and the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) stating the reasons. In a similar manner, the contracting officer may modify a unilateral or joint class small business set-aside to withdraw one or more individual acquisitions.

(b) If the agency small business specialist does not agree to a withdrawal or modification, the case shall be promptly referred to the SBA representative (or, if a procurement center representative is not assigned, see 19.402(a)) for review.

(c) The contracting officer shall prepare a written statement supporting any withdrawal or modification of a small business set-aside and include it in the contract file.

19.507 Automatic dissolution of a small business set-aside.

(a) If a small business set-aside acquisition or portion of an acquisition is not awarded, the unilateral or joint determination to set the acquisition aside is automatically dissolved for the unawarded portion of the set-aside. The required supplies and/or services for which no award was made may be acquired by sealed bidding or negotiation, as appropriate.

(b) Before issuing a solicitation for the items called for in a small business set-aside that was dissolved, the contracting officer shall ensure that the delivery schedule is realistic in the light of all relevant factors, including the capabilities of small business concerns.

19.508 Solicitation provisions and contract clauses.

(a) [Reserved]

(b) [Reserved]

(c) The contracting officer shall insert the clause at 52.219-6, Notice of Total Small Business Set-Aside, in solicitations and contracts involving total small business set-asides. The clause at 52.219-6 with its Alternate I will be used when the acquisition is for a product in a class for which the Small Business Administration has waived the nonmanufacturer rule (see 19.102(f)(4) and (5)). Use the clause at 52.219-6 with its Alternate II when including FPI in the competition in accordance with 19.504.

(d) The contracting officer shall insert the clause at 52.219-7, Notice of Partial Small Business Set-Aside, in solicitations and contracts involving partial small business set-asides. The clause at 52.219-7 with its Alternate I will be used when the acquisition is for a product in a class for which the Small Business Administration has waived the nonmanufacturer rule (see 19.102(f)(4) and (5)). Use the clause at 52.219-7 with its Alternate II when including FPI in the competition in accordance with 19.504.

(e) The contracting officer shall insert the clause at 52.219-14, Limitations on Subcontracting, in solicitations and contracts for supplies, services, and construction, if any portion of the requirement is to be set aside for small business and the contract amount is expected to exceed \$100,000.

(iii) Submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, and SF 295, Summary Subcontract Report, following the instructions on the forms or as provided in agency regulations; and

(iv) Ensure that its subcontractors agree to submit SF 294 and SF 295; and

(11) A description of the types of records that will be maintained concerning procedures adopted to comply with the requirements and goals in the plan, including establishing source lists; and a description of the offeror's efforts to locate small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns and to award subcontracts to them.

(b) Contractors may establish, on a plant or division-wide basis, a master plan (see 19.701) that contains all the elements required by the clause at 52.219-9, Small Business Subcontracting Plan, except goals. Master plans shall be effective for a 3-year period after approval by the contracting officer; however, it is incumbent upon contractors to maintain and update master plans. Changes required to update master plans are not effective until approved by the contracting officer. A master plan, when incorporated in an individual plan, shall apply to that contract throughout the life of the contract.

(c) For multiyear contracts or contracts containing options, the cumulative value of the basic contract and all options is considered in determining whether a subcontracting plan is necessary (see 19.705-2(a)). If a plan is necessary and the offeror is submitting an individual contract plan, the plan shall contain all the elements required by paragraph (a) of this section and shall contain separate statements and goals for the basic contract and for each option.

(d) A commercial plan (as defined in 19.701) is the preferred type of subcontracting plan for contractors furnishing commercial items. The contractor shall—

(1) Submit the commercial plan to either the first contracting officer awarding a contract subject to the plan during the contractor's fiscal year, or, if the contractor has ongoing contracts with commercial plans, to the contracting officer responsible for the contract with the latest completion date. The contracting officer shall negotiate the commercial plan for the Government. The approved commercial plan shall remain in effect during the contractor's fiscal year for all Government contracts in effect during that period; and

(2) Submit a new commercial plan, 30 working days before the end of the fiscal year, to the contracting officer responsible for the uncompleted Government contract with the latest completion date. The contractor must provide to each contracting officer responsible for an ongoing contract subject to the plan, the identity of the contracting officer that will be negotiating the new plan. When the new commercial plan is approved, the contractor shall provide a copy of the

approved plan to each contracting officer responsible for an ongoing contract that is subject to the plan.

19.705 Responsibilities of the contracting officer under the subcontracting assistance program.

19.705-1 General support of the program.

The contracting officer may encourage the development of increased subcontracting opportunities in negotiated acquisition by providing monetary incentives such as payments based on actual subcontracting achievement or award-fee contracting (see the clause at 52.219-10, Incentive Subcontracting Program, and 19.708(c)). This subsection does not apply to SDB subcontracting (see 19.1203). When using any contractual incentive provision based upon rewarding the contractor monetarily for exceeding goals in the subcontracting plan, the contracting officer must ensure that (a) the goals are realistic and (b) any rewards for exceeding the goals are commensurate with the efforts the contractor would not have otherwise expended. Incentive provisions should normally be negotiated after reaching final agreement with the contractor on the subcontracting plan.

19.705-2 Determining the need for a subcontracting plan.

The contracting officer must take the following actions to determine whether a proposed contractual action requires a subcontracting plan:

(a) Determine whether the proposed contractual action will meet the dollar threshold in 19.702(a)(1) or (2). If the action includes options or similar provisions, include their value in determining whether the threshold is met.

(b) Determine whether subcontracting possibilities exist by considering relevant factors such as—

(1) Whether firms engaged in the business of furnishing the types of items to be acquired customarily contract for performance of part of the work or maintain sufficient in-house capability to perform the work; and

(2) Whether there are likely to be product prequalification requirements.

(c) If it is determined that there are no subcontracting possibilities, the determination must be approved at a level above the contracting officer and placed in the contract file.

(d) In solicitations for negotiated acquisitions, the contracting officer may require the submission of subcontracting plans with initial offers, or at any other time prior to award. In determining when subcontracting plans should be required, as well as when and with whom plans should be negotiated, the contracting officer must consider the integrity of the competitive process, the goal of affording maximum practicable opportunity for small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and

women-owned small business concerns to participate, and the burden placed on offerors.

19.705-3 Preparing the solicitation.

The contracting officer shall provide the Small Business Administration's (SBA's) procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) a reasonable period of time to review any solicitation requiring submission of a subcontracting plan and to submit advisory findings before the solicitation is issued.

19.705-4 Reviewing the subcontracting plan.

The contracting officer must review the subcontracting plan for adequacy, ensuring that the required information, goals, and assurances are included (see 19.704).

(a) No detailed standards apply to every subcontracting plan. Instead, the contracting officer must consider each plan in terms of the circumstances of the particular acquisition, including—

(1) Previous involvement of small business concerns as prime contractors or subcontractors in similar acquisitions;

(2) Proven methods of involving small business concerns as subcontractors in similar acquisitions; and

(3) The relative success of methods the contractor intends to use to meet the goals and requirements of the plan, as evidenced by records maintained by contractors.

(b) If, under a sealed bid solicitation, a bidder submits a plan that does not cover each of the 11 required elements (see 19.704), the contracting officer shall advise the bidder of the deficiency and request submission of a revised plan by a specific date. If the bidder does not submit a plan that incorporates the required elements within the time allotted, the bidder shall be ineligible for award. If the plan, although responsive, evidences the bidder's intention not to comply with its obligations under the clause at 52.219-8, Utilization of Small Business Concerns, the contracting officer may find the bidder nonresponsible.

(c) In negotiated acquisitions, the contracting officer shall determine whether the plan is acceptable based on the negotiation of each of the 11 elements of the plan (see 19.704). Subcontracting goals should be set at a level that the parties reasonably expect can result from the offeror expending good faith efforts to use small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors to the maximum practicable extent. The contracting officer shall take particular care to ensure that the offeror has not submitted unreasonably low goals to minimize exposure to liquidated damages and to avoid the administrative burden of substantiating good faith efforts. Additionally, particular attention should be paid to the identification of steps that, if taken, would be considered a good faith effort. No goal should be

negotiated upward if it is apparent that a higher goal will significantly increase the Government's cost or seriously impede the attainment of acquisition objectives. An incentive subcontracting clause (see 52.219-10, Incentive Subcontracting Program), may be used when additional and unique contract effort, such as providing technical assistance, could significantly increase subcontract awards to small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, or women-owned small business concerns.

(d) In determining the acceptability of a proposed subcontracting plan, the contracting officer should take the following actions:

(1) Obtain information available from the cognizant contract administration office, as provided for in 19.706(a), and evaluate the offeror's past performance in awarding subcontracts for the same or similar products or services to small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns. If information is not available on a specific type of product or service, evaluate the offeror's overall past performance and consider the performance of other contractors on similar efforts.

(2) In accordance with 15 U.S.C. 637(d)(4)(F)(iii), ensure that the goals offered are attainable in relation to—

(i) The subcontracting opportunities available to the contractor, commensurate with the efficient and economical performance of the contract;

(ii) The pool of eligible subcontractors available to fulfill the subcontracting opportunities; and

(iii) The actual performance of such contractor in fulfilling the subcontracting goals specified in prior plans.

(3) Ensure that the subcontracting goals are consistent with the offeror's cost or pricing data or information other than cost or pricing data.

(4) Evaluate the offeror's make-or-buy policy or program to ensure that it does not conflict with the offeror's proposed subcontracting plan and is in the Government's interest. If the contract involves products or services that are particularly specialized or not generally available in the commercial market, consider the offeror's current capacity to perform the work and the possibility of reduced subcontracting opportunities.

(5) Evaluate subcontracting potential, considering the offeror's make-or-buy policies or programs, the nature of the supplies or services to be subcontracted, the known availability of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in the geographical area where the work will be performed, and the potential contractor's long-standing contractual relationship with its suppliers.

(6) Advise the offeror of available sources of information on potential small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors, as well as any specific concerns known to be potential subcontractors. If the offeror's proposed goals are questionable, the contracting officer must emphasize that the information should be used to develop realistic and acceptable goals.

(7) Obtain advice and recommendations from the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) and the agency small business specialist.

19.705-5 Awards involving subcontracting plans.

(a) In making an award that requires a subcontracting plan, the contracting officer shall be responsible for the following:

(1) Consider the contractor's compliance with the subcontracting plans submitted on previous contracts as a factor in determining contractor responsibility.

(2) Assure that a subcontracting plan was submitted when required.

(3) Notify the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) of the opportunity to review the proposed contract (including the plan and supporting documentation). The notice shall be issued in sufficient time to provide the representative a reasonable time to review the material and submit advisory recommendations to the contracting officer. Failure of the representative to respond in a reasonable period of time shall not delay contract award.

(4) Determine any fee that may be payable if an incentive is used in conjunction with the subcontracting plan.

(5) Ensure that an acceptable plan is incorporated into and made a material part of the contract.

(b) Letter contracts and similar undefinitized instruments, which would otherwise meet the requirements of 19.702(a)(1) and (2), shall contain at least a preliminary basic plan addressing the requirements of 19.704 and in such cases require the negotiation of the final plan within 90 days after award or before definitization, whichever occurs first.

19.705-6 Postaward responsibilities of the contracting officer.

After a contract or contract modification containing a subcontracting plan is awarded, the contracting officer who approved the plan is responsible for the following:

(a) Notifying the SBA of the award by sending a copy of the award document to the Area Director, Office of Government Contracting, in the SBA area office where the contract will be performed.

(b) Forwarding a copy of each commercial plan and any associated approvals to the Area Director, Office of Govern-

ment Contracting, in the SBA area office where the contractor's headquarters is located.

(c) Giving to the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) a copy of—

(1) Any subcontracting plan submitted in response to a sealed bid solicitation; and

(2) The final negotiated subcontracting plan that was incorporated into a negotiated contract or contract modification.

(d) Notifying the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) of the opportunity to review subcontracting plans in connection with contract modifications.

(e) Forwarding a copy of each plan, or a determination that there is no requirement for a subcontracting plan, to the cognizant contract administration office.

(f) Initiating action to assess liquidated damages in accordance with 19.705-7 upon a recommendation by the administrative contracting officer or receipt of other reliable evidence to indicate that such action is warranted.

(g) Taking action to enforce the terms of the contract upon receipt of a notice under 19.706(f).

19.705-7 Liquidated damages.

(a) Maximum practicable utilization of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns as subcontractors in Government contracts is a matter of national interest with both social and economic benefits. When a contractor fails to make a good faith effort to comply with a subcontracting plan, these objectives are not achieved, and 15 U.S.C. 637(d)(4)(F) directs that liquidated damages shall be paid by the contractor.

(b) The amount of damages attributable to the contractor's failure to comply shall be an amount equal to the actual dollar amount by which the contractor failed to achieve each subcontracting goal.

(c) If, at completion of the basic contract or any option, or in the case of a commercial plan, at the close of the fiscal year for which the plan is applicable, a contractor has failed to meet its subcontracting goals, the contracting officer shall review all available information for an indication that the contractor has not made a good faith effort to comply with the plan. If no such indication is found, the contracting officer shall document the file accordingly. If the contracting officer decides in accordance with paragraph (d) of this subsection that the contractor failed to make a good faith effort to comply with its subcontracting plan, the contracting officer shall give the contractor written notice specifying the failure, advising the contractor of the possibility that the contractor may have to pay to the Government liquidated damages, and providing a

period of 15 working days (or longer period as necessary) within which to respond. The notice shall give the contractor an opportunity to demonstrate what good faith efforts have been made before the contracting officer issues the final decision, and shall further state that failure of the contractor to respond may be taken as an admission that no valid explanation exists.

(d) In determining whether a contractor failed to make a good faith effort to comply with its subcontracting plan, a contracting officer must look to the totality of the contractor's actions, consistent with the information and assurances provided in its plan. The fact that the contractor failed to meet its subcontracting goals does not, in and of itself, constitute a failure to make a good faith effort. For example, notwithstanding a contractor's diligent effort to identify and solicit offers from small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, factors such as unavailability of anticipated sources or unreasonable prices may frustrate achievement of the contractor's goals. However, when considered in the context of the contractor's total effort in accordance with its plan, the following, though not all inclusive, may be considered as indicators of a failure to make a good faith effort: a failure to attempt to identify, contact, solicit, or consider for contract award small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, or women-owned small business concerns; a failure to designate and maintain a company official to administer the subcontracting program and monitor and enforce compliance with the plan; a failure to submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, or SF 295, Summary Subcontract Report, in accordance with the instructions on the forms or as provided in agency regulations; a failure to maintain records or otherwise demonstrate procedures adopted to comply with the plan; or the adoption of company policies or procedures that have as their objectives the frustration of the objectives of the plan.

(e) If, after consideration of all the pertinent data, the contracting officer finds that the contractor failed to make a good faith effort to comply with its subcontracting plan, the contracting officer shall issue a final decision to the contractor to that effect and require the payment of liquidated damages in an amount stated. The contracting officer's final decision shall state that the contractor has the right to appeal under the clause in the contract entitled Disputes.

(f) With respect to commercial plans approved under the clause at 52.219-9, Small Business Subcontracting Plan, the contracting officer that approved the plan shall—

(1) Perform the functions of the contracting officer under this subsection on behalf of all agencies with contracts covered by the commercial plan;

(2) Determine whether or not the goals in the commercial plan were achieved and, if they were not achieved, review all available information for an indication that the contractor has not made a good faith effort to comply with the plan, and document the results of the review;

(3) If a determination is made to assess liquidated damages, in order to calculate and assess the amount of damages, the contracting officer shall ask the contractor to provide—

(i) Contract numbers for the Government contracts subject to the plan;

(ii) The total Government sales during the contractor's fiscal year; and

(iii) The amount of payments made under the Government contracts subject to that plan that contributed to the contractor's total sales during the contractor's fiscal year; and

(4) When appropriate, assess liquidated damages on the Government's behalf, based on the pro rata share of subcontracting attributable to the Government contracts. For example: The contractor's total actual sales were \$50 million and its actual subcontracting was \$20 million. The Government's total payments under contracts subject to the plan contributing to the contractor's total sales were \$5 million, which accounted for 10 percent of the contractor's total sales. Therefore, the pro rata share of subcontracting attributable to the Government contracts would be 10 percent of \$20 million, or \$2 million. To continue the example, if the contractor failed to achieve its small business goal by 1 percent, the liquidated damages would be calculated as 1 percent of \$2 million, or \$20,000. The contracting officer shall make similar calculations for each category of small business where the contractor failed to achieve its goal and the sum of the dollars for all of the categories equals the amount of the liquidated damages to be assessed. A copy of the contracting officer's final decision assessing liquidated damages shall be provided to other contracting officers with contracts subject to the commercial plan.

(g) Liquidated damages shall be in addition to any other remedies that Government may have.

(h) Every contracting officer with a contract that is subject to a commercial plan shall include in the contract file a copy of the approved plan and a copy of the final decision assessing liquidating damages, if applicable.

19.706 Responsibilities of the cognizant administrative contracting officer.

The administrative contracting officer is responsible for assisting in evaluating subcontracting plans, and for monitoring, evaluating, and documenting contractor performance under the clause prescribed in 19.708(b) and any subcontracting plan included in the contract. The contract administration office shall provide the necessary information and advice to support the contracting officer, as appropriate, by furnishing—

(a) Documentation on the contractor's performance and compliance with subcontracting plans under previous contracts;

Subpart 19.13—Historically Underutilized Business Zone (HUBZone) Program

19.1301 General.

(a) The Historically Underutilized Business Zone (HUBZone) Act of 1997 (15 U.S.C. 631 note) created the HUBZone Program (sometimes referred to as the “HUBZone Empowerment Contracting Program”).

(b) The purpose of the HUBZone Program is to provide Federal contracting assistance for qualified small business concerns located in historically underutilized business zones, in an effort to increase employment opportunities, investment, and economic development in those areas.

19.1302 Applicability.

The procedures in this subpart apply to all Federal agencies that employ one or more contracting officers.

19.1303 Status as a qualified HUBZone small business concern.

(a) Status as a qualified HUBZone small business concern is determined by the Small Business Administration (SBA) in accordance with 13 CFR Part 126.

(b) If the SBA determines that a concern is a qualified HUBZone small business concern, it will issue a certification to that effect and will add the concern to the List of Qualified HUBZone Small Business Concerns on its Internet website at <http://www.sba.gov/hubzone>. A firm on the list is eligible for HUBZone program preferences without regard to the place of performance. The concern must appear on the list to be a HUBZone small business concern.

(c) A joint venture (see 19.101) may be considered a HUBZone small business if the business entity meets all the criteria in 13 CFR 126.616.

(d) Except for construction or services, any HUBZone small business concern (nonmanufacturer) proposing to furnish a product that it did not itself manufacture must furnish the product of a HUBZone small business concern manufacturer to receive a benefit under this subpart.

19.1304 Exclusions.

This subpart does not apply to—

- (a) Requirements that can be satisfied through award to—
 - (1) Federal Prison Industries, Inc. (see Subpart 8.6); or
 - (2) Javits-Wagner-O’Day Act participating non-profit agencies for the blind or severely disabled (see Subpart 8.7);
- (b) Orders under indefinite delivery contracts (see Subpart 16.5);
- (c) Orders against Federal Supply Schedules (see Subpart 8.4);
- (d) Requirements currently being performed by an 8(a) participant or requirements SBA has accepted for performance under the authority of the 8(a) Program, unless SBA

has consented to release the requirements from the 8(a) Program;

(e) Requirements that do not exceed the micro-purchase threshold; or

(f) Requirements for commissary or exchange resale items.

19.1305 HUBZone set-aside procedures.

(a) A participating agency contracting officer shall set aside acquisitions exceeding the simplified acquisition threshold for competition restricted to HUBZone small business concerns when the requirements of paragraph (b) of this section can be satisfied. The contracting officer shall consider HUBZone set-asides before considering HUBZone sole source awards (see 19.1306) or small business set-asides (see Subpart 19.5).

(b) To set aside an acquisition for competition restricted to HUBZone small business concerns, the contracting officer must have a reasonable expectation that—

(1) Offers will be received from two or more HUBZone small business concerns; and

(2) Award will be made at a fair market price.

(c) A participating agency may set aside acquisitions exceeding the micro-purchase threshold but not exceeding the simplified acquisition threshold for competition restricted to HUBZone small business concerns at the sole discretion of the contracting officer, provided the requirements of paragraph (b) of this section can be satisfied.

(d) If the contracting officer receives only one acceptable offer from a qualified HUBZone small business concern in response to a set aside, the contracting officer should make an award to that concern. If the contracting officer receives no acceptable offers from HUBZone small business concerns, the HUBZone set-aside shall be withdrawn and the requirement, if still valid, set aside for small business concerns, as appropriate (see Subpart 19.5).

(e) The procedures at 19.202-1 and, except for acquisitions not exceeding the simplified acquisition threshold, at 19.402 apply to this section. When the SBA intends to appeal a contracting officer’s decision to reject a recommendation of the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) to set aside an acquisition for competition restricted to HUBZone small business concerns, the SBA procurement center representative shall notify the contracting officer, in writing, of its intent within 5 working days of receiving the contracting officer’s notice of rejection. Upon receipt of notice of SBA’s intent to appeal, the contracting officer shall suspend action on the acquisition unless the head of the contracting activity makes a written determination that urgent and compelling circumstances, which significantly affect the interests of the Government, exist. Within 15 working days of SBA’s notification to the contracting officer, SBA shall file its formal appeal with the head of the contracting activity, or that agency

may consider the appeal withdrawn. The head of the contracting activity shall reply to SBA within 15 working days of receiving the appeal. The decision of the head of the contracting activity shall be final.

19.1306 HUBZone sole source awards.

(a) A participating agency contracting officer may award contracts to HUBZone small business concerns on a sole source basis without considering small business set-asides (see Subpart 19.5), provided—

(1) Only one HUBZone small business concern can satisfy the requirement;

(2) Except as provided in paragraph (c) of this section, the anticipated price of the contract, including options, will not exceed—

(i) \$5,000,000 for a requirement within the North American Industry Classification System (NAICS) codes for manufacturing; or

(ii) \$3,000,000 for a requirement within any other NAICS code;

(3) The requirement is not currently being performed by a non-HUBZone small business concern;

(4) The acquisition is greater than the simplified acquisition threshold (see Part 13);

(5) The HUBZone small business concern has been determined to be a responsible contractor with respect to performance; and

(6) Award can be made at a fair and reasonable price.

(b) The SBA has the right to appeal the contracting officer's decision not to make a HUBZone sole source award.

19.1307 Price evaluation preference for HUBZone small business concerns.

(a) The price evaluation preference for HUBZone small business concerns shall be used in acquisitions conducted using full and open competition. The preference shall not be used—

(1) In acquisitions expected to be less than or equal to the simplified acquisition threshold;

(2) Where price is not a selection factor so that a price evaluation preference would not be considered (e.g., Architect/Engineer acquisitions);

(3) Where all fair and reasonable offers are accepted (e.g., the award of multiple award schedule contracts).

(b) The contracting officer shall give offers from HUBZone small business concerns a price evaluation preference by adding a factor of 10 percent to all offers, except—

(1) Offers from HUBZone small business concerns that have not waived the evaluation preference; or

(2) Otherwise successful offers from small business concerns.

(c) The factor of 10 percent shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors, such as transportation costs or rent-free use of Government facilities, shall be added to the offer to establish the base offer before adding the factor of 10 percent.

(d) A concern that is both a HUBZone small business concern and a small disadvantaged business concern shall receive the benefit of both the HUBZone small business price evaluation preference and the small disadvantaged business price evaluation adjustment (see Subpart 19.11). Each applicable price evaluation preference or adjustment shall be calculated independently against an offeror's base offer. These individual preference and adjustment amounts shall both be added to the base offer to arrive at the total evaluated price for that offer.

19.1308 Contract clauses.

(a) The contracting officer shall insert the clause 52.219-3, Notice of Total HUBZone Set-Aside, in solicitations and contracts for acquisitions that are set aside for HUBZone small business concerns under 19.1305 or 19.1306.

(b) The contracting officer shall insert the clause at FAR 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns, in solicitations and contracts for acquisitions conducted using full and open competition. The clause shall not be used in acquisitions that do not exceed the simplified acquisition threshold.

Subpart 19.14—Service-Disabled Veteran-Owned Small Business Procurement Program

19.1401 General.

(a) The Veterans Benefit Act of 2003 (15 U.S.C. 657f) created the procurement program for small business concerns owned and controlled by service-disabled veterans (commonly referred to as the “Service-Disabled Veteran-owned Small Business (SDVOSB) Procurement Program”).

(b) The purpose of the Service-Disabled Veteran-Owned Small Business Program is to provide Federal contracting assistance to service-disabled veteran-owned small business concerns.

19.1402 Applicability.

The procedures in this subpart apply to all Federal agencies that employ one or more contracting officers.

19.1403 Status as a service-disabled veteran-owned small business concern.

(a) Status as a service-disabled veteran-owned small business concern is determined in accordance with 13 CFR Parts 125.8 through 125.13; also see 19.307.

(b) At the time that a service-disabled veteran-owned small business concern submits its offer, it must represent to the contracting officer that it is a—

(1) Service-disabled veteran-owned small business concern; and

(2) Small business concern under the North American Industry Classification System (NAICS) code assigned to the procurement.

(c) A joint venture may be considered a service-disabled veteran owned small business concern if—

(1) At least one member of the joint venture is a service-disabled veteran-owned small business concern, and makes the representations in paragraph (b) of this section;

(2) Each other concern is small under the size standard corresponding to the NAICS code assigned to the procurement;

(3) The joint venture meets the requirements of paragraph 7 of the explanation of Affiliates in 19.101; and

(4) The joint venture meets the requirements of 13 CFR 125.15(b).

(d) Any service-disabled veteran-owned small business concern (nonmanufacturer) must meet the requirements in 19.102(f) to receive a benefit under this program.

19.1404 Exclusions.

This subpart does not apply to—

(a) Requirements that can be satisfied through award to—

(1) Federal Prison Industries, Inc. (see Subpart 8.6);

(2) Javits-Wagner-O’Day Act participating non-profit agencies for the blind or severely disabled (see Subpart 8.7);

(b) Orders under indefinite delivery contracts (see Subpart 16.5);

(c) Orders against Federal Supply Schedules (see Subpart 8.4); or

(d) Requirements currently being performed by an 8(a) participant or requirements SBA has accepted for performance under the authority of the 8(a) Program, unless SBA has consented to release the requirements from the 8(a) Program.

19.1405 Service-disabled veteran-owned small business set-aside procedures.

(a) The contracting officer may set-aside acquisitions exceeding the micro-purchase threshold for competition restricted to service-disabled veteran-owned small business concerns when the requirements of paragraph (b) of this section can be satisfied. The contracting officer shall consider service-disabled veteran-owned small business set-asides before considering service-disabled veteran-owned small business sole source awards (see 19.1406).

(b) To set aside an acquisition for competition restricted to service-disabled veteran-owned small business concerns, the contracting officer must have a reasonable expectation that—

(1) Offers will be received from two or more service-disabled veteran-owned small business concerns; and

(2) Award will be made at a fair market price.

(c) If the contracting officer receives only one acceptable offer from a service-disabled veteran-owned small business concern in response to a set-aside, the contracting officer should make an award to that concern. If the contracting officer receives no acceptable offers from service-disabled veteran-owned small business concerns, the service-disabled veteran-owned set-aside shall be withdrawn and the requirement, if still valid, set aside for small business concerns, as appropriate (see Subpart 19.5).

(d) The procedures at 19.202-1 and, except for acquisitions not exceeding the simplified acquisition threshold, at 19.402 apply to this section. When the SBA intends to appeal a contracting officer’s decision to reject a recommendation of the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.402(a)) to set aside an acquisition for competition restricted to service-disabled veteran-owned small business concerns, the SBA procurement center representative shall notify the contracting officer, in writing, of its intent within 5 working days of receiving the contracting officer’s notice of rejection. Upon receipt of notice of SBA’s intent to appeal, the contracting officer shall suspend action on the acquisition unless the head of the contracting activity makes a written determination that urgent and compelling circumstances, which significantly affect the interests of the Government, exist. Within

15 working days of SBA's notification to the contracting officer, SBA shall file its formal appeal with the head of the contracting activity, or that agency may consider the appeal withdrawn. The head of the contracting activity shall reply to SBA within 15 working days of receiving the appeal. The decision of the head of the contracting activity shall be final.

19.1406 Sole source awards to service-disabled veteran-owned small business concerns.

(a) A contracting officer may award contracts to service-disabled veteran-owned small business concerns on a sole source basis (see 19.501(d) and 6.302-5), provided—

(1) Only one service-disabled veteran-owned small business concern can satisfy the requirement;

(2) The anticipated award price of the contract (including options) will not exceed—

(i) \$5 million for a requirement within the NAICS codes for manufacturing; or

(ii) \$3 million for a requirement within any other NAICS code;

(3) The service-disabled veteran-owned small business concern has been determined to be a responsible contractor with respect to performance; and

(4) Award can be made at a fair and reasonable price.

(b) The SBA has the right to appeal the contracting officer's decision not to make a service-disabled veteran-owned small business sole source award.

19.1407 Contract clauses.

The contracting officer shall insert the clause 52.219-27, Notice of Total Service-Disabled Veteran-Owned Small Business Set-Aside, in solicitations and contracts for acquisitions under 19.1405 and 19.1406.

31.205-10 Cost of money.

(a) *General.* Cost of money—

(1) Is an imputed cost that is not a form of interest on borrowings (see 31.205-20);

(2) Is an “incurred cost” for cost-reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts; and

(3) Refers to—

(i) Facilities capital cost of money (48 CFR 9904.414); and

(ii) Cost of money as an element of the cost of capital assets under construction (48 CFR 9904.417).

(b) Cost of money is allowable, provided—

(1) It is measured, assigned, and allocated to contracts in accordance with 48 CFR 9904.414 or measured and added to the cost of capital assets under construction in accordance with 48 CFR 9904.417, as applicable;

(2) The requirements of 31.205-52, which limit the allowability of cost of money, are followed; and

(3) The estimated facilities capital cost of money is specifically identified and proposed in cost proposals relating to the contract under which the cost is to be claimed.

(c) Actual interest cost in lieu of the calculated imputed cost of money is unallowable.

31.205-11 Depreciation.

(a) Depreciation on a contractor’s plant, equipment, and other capital facilities is an allowable contract cost, subject to the limitations contained in this cost principle. For tangible personal property, only estimated residual values that exceed 10 percent of the capitalized cost of the asset need be used in establishing depreciable costs. Where either the declining balance method of depreciation or the class life asset depreciation range system is used, the residual value need not be deducted from capitalized cost to determine depreciable costs. Depreciation cost that would significantly reduce the book value of a tangible capital asset below its residual value is unallowable.

(b) Contractors having contracts subject to 48 CFR 9904.409, Depreciation of Tangible Capital Assets, shall adhere to the requirement of that standard for all fully CAS-covered contracts and may elect to adopt the standard for all other contracts. All requirements of 48 CFR 9904.409 are applicable if the election is made, and contractors must continue to follow it until notification of final acceptance of all deliverable items on all open negotiated Government contracts.

(c) For contracts to which 48 CFR 9904.409 is not applied, except as indicated in paragraphs (g) and (h) of this subsection, allowable depreciation shall not exceed the amount used for financial accounting purposes, and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same segment on non-Government business.

(d) Depreciation, rental, or use charges are unallowable on property acquired from the Government at no cost by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(e) The depreciation on any item which meets the criteria for allowance at price under 31.205-26(e) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(f) No depreciation or rental is allowed on property fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control. However, a reasonable charge for using fully depreciated property may be agreed upon and allowed (but, see 31.109(h)(2)). In determining the charge, consideration shall be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(g) Whether or not the contract is otherwise subject to CAS the following apply:

(1) The requirements of 31.205-52 shall be observed.

(2) In the event of a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances, allowable depreciation of the impaired assets is limited to the amounts that would have been allowed had the assets not been written down (see 31.205-16(g)). However, this does not preclude a change in depreciation resulting from other causes such as permissible changes in estimates of service life, consumption of services, or residual value.

(3) (i) In the event the contractor reacquires property involved in a sale and leaseback arrangement, allowable depreciation of reacquired property shall be based on the net book value of the asset as of the date the contractor originally became a lessee of the property in the sale and leaseback arrangement—

(A) Adjusted for any allowable gain or loss determined in accordance with 31.205 16(b); and

(B) Less any amount of depreciation expense included in the calculation of the amount that would have been allowed had the contractor retained title under 31.205-11(h)(1) and 31.205-36(b)(2).

(ii) As used in this paragraph (g)(3), “reacquired property” is property that generated either any depreciation expense or any cost of money considered in the calculation of the limitations under 31.205-11(h)(1) and 31.205-36(b)(2) during the most recent accounting period prior to the date of reacquisition.

(h) A “capital lease,” as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for Leases, is subject to the requirements of this cost principle. (See 31.205-36 for Operating Leases.) FAS-13 requires that

capital leases be treated as purchased assets, *i.e.*, be capitalized, and the capitalized value of such assets be distributed over their useful lives as depreciation charges or over the leased life as amortization charges, as appropriate, except that—

(1) Lease costs under a sale and leaseback arrangement are allowable only up to the amount that would be allowed if the contractor retained title, computed based on the net book value of the asset on the date the contractor becomes a lessee of the property adjusted for any gain or loss recognized in accordance with 31.205-16(b); and

(2) If it is determined that the terms of the capital lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges are not allowable in excess of those that would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

31.205-12 Economic planning costs.

Economic planning costs are the costs of general long-range management planning that is concerned with the future overall development of the contractor's business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business. Economic planning costs are allowable. Economic planning costs do not include organization or reorganization costs covered by 31.205-27. See 31.205-38 for market planning costs other than economic planning costs.

31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and employee performance (less income generated by these activities) are allowable, subject to the limitations contained in this subsection. Some examples of allowable activities are—

- (1) House publications;
- (2) Health clinics;
- (3) Wellness/fitness centers;
- (4) Employee counseling services; and
- (5) Food and dormitory services for the contractor's employees at or near the contractor's facilities. These services include—

(i) Operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations; and

(ii) Similar types of services.

(b) Costs of gifts are unallowable. (Gifts do not include awards for performance made pursuant to 31.205-6(f) or awards made in recognition of employee achievements pursuant to an established contractor plan or policy.)

(c) Costs of recreation are unallowable, except for the costs of employees' participation in company sponsored sports teams or employee organizations designed to improve company loyalty, team work, or physical fitness.

(d)(1) The allowability of food and dormitory losses are determined by the following factors:

(i) Losses from operating food and dormitory services are allowable only if the contractor's objective is to operate such services on a break-even basis.

(ii) Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to the accomplishment of the objective in paragraph (d)(1)(i) of this subsection are not allowable, except as described in paragraph (d)(1)(iii) of this subsection.

(iii) A loss may be allowed to the extent that the contractor can demonstrate that unusual circumstances exist such that even with efficient management, operating the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. The following are examples of unusual circumstances:

(A) The contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available.

(B) The contractor's charged (but unproductive) labor costs would be excessive if the services were not available.

(C) If cessation or reduction of food or dormitory operations will not otherwise yield net cost savings.

(2) Costs of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(e) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor's plant, and retain the profits, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (f) of this subsection).

(f) Contributions by the contractor to an employee organization, including funds from vending machine receipts or similar sources, are allowable only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if directly incurred by the contractor.

31.205-14 Entertainment costs.

Costs of amusement, diversions, social activities, and any directly associated costs such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities are unallowable. Costs made specifically unallowable under this cost principle are not allowable under any other cost prin-

iple. Costs of membership in social, dining, or country clubs or other organizations having the same purposes are also unallowable, regardless of whether the cost is reported as taxable income to the employees.

31.205-15 Fines, penalties, and mischarging costs.

(a) Costs of fines and penalties resulting from violations of, or failure of the contractor to comply with, Federal, State, local, or foreign laws and regulations, are unallowable except when incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer.

(b) Costs incurred in connection with, or related to, the mischarging of costs on Government contracts are unallowable when the costs are caused by, or result from, alteration or destruction of records, or other false or improper charging or recording of costs. Such costs include those incurred to measure or otherwise determine the magnitude of the improper charging, and costs incurred to remedy or correct the mischarging, such as costs to rescreen and reconstruct records.

31.205-16 Gains and losses on disposition or impairment of depreciable property or other capital assets.

(a) Gains and losses from the sale, retirement, or other disposition (but see 31.205-19) of depreciable property shall be included in the year in which they occur as credits or charges to the cost grouping(s) in which the depreciation or amortization applicable to those assets was included (but see paragraph (f) of this subsection). However, no gain or loss shall be recognized as a result of the transfer of assets in a business combination (see 31.205-52).

(b) Notwithstanding the provisions in paragraph (c) of this subsection, when costs of depreciable property are subject to the sale and leaseback limitations in 31.205-11(h)(1) or 31.205-36(b)(2)—

(1) The gain or loss is the difference between the net amount realized and the undepreciated balance of the asset on the date the contractor becomes a lessee; and

(2) When the application of (b)(1) of this subsection results in a loss—

(i) The allowable portion of the loss is zero if the fair market value exceeds the undepreciated balance of the asset on the date the contractor becomes a lessee; and

(ii) The allowable portion of the loss is limited to the difference between the fair market value and the undepreciated balance of the asset on the date the contractor becomes a lessee if the fair market value is less than the undepreciated balance of the asset on the date the contractor becomes a lessee.

(c) Gains and losses on disposition of tangible capital assets, including those acquired under capital leases (see 31.205-11(h)), shall be considered as adjustments of depreciation costs previously recognized. The gain or loss for each

asset disposed of is the difference between the net amount realized, including insurance proceeds from involuntary conversions, and its undepreciated balance. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost (or for assets acquired under a capital lease, the value at which the leased asset is capitalized) of the asset and its undepreciated balance (except see subdivisions (c)(2)(i) or (ii) of this section).

(d) The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost (or for assets acquired under a capital lease, the value at which the leased asset is capitalized) of the asset and its undepreciated balance (except see paragraphs (e)(2)(i) or (ii) of this subsection).

(e) Special considerations apply to an involuntary conversion which occurs when a contractor's property is destroyed by events over which the owner has no control, such as fire, windstorm, flood, accident, theft, etc., and an insurance award is recovered. The following govern involuntary conversions:

(1) When there is a cash award and the converted asset is not replaced, gain or loss shall be recognized in the period of disposition. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost of the asset and its undepreciated balance.

(2) When the converted asset is replaced, the contractor shall either—

(i) Adjust the depreciable basis of the new asset by the amount of the total realized gain or loss; or

(ii) Recognize the gain or loss in the period of disposition, in which case the Government shall participate to the same extent as outlined in paragraph (e)(1) of this subsection.

(f) Gains and losses on the disposition of depreciable property shall not be recognized as a separate charge or credit when—

(1) Gains and losses are processed through the depreciation reserve account and reflected in the depreciation allowable under 31.205-11; or

(2) The property is exchanged as part of the purchase price of a similar item, and the gain or loss is taken into consideration in the depreciation cost basis of the new item.

(g) Gains and losses arising from mass or extraordinary sales, retirements, or other disposition other than through business combinations shall be considered on a case-by-case basis.

(h) Gains and losses of any nature arising from the sale or exchange of capital assets other than depreciable property shall be excluded in computing contract costs.

(i) With respect to long-lived tangible and identifiable intangible assets held for use, no loss shall be allowed for a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances (e.g., environmental damage, idle facilities arising from a declining business base, etc.). If depreciable property or other

capital assets have been written down from carrying value to fair value due to impairments, gains or losses upon disposition shall be the amounts that would have been allowed had the assets not been written down.

31.205-17 Idle facilities and idle capacity costs.

(a) *Definitions.* As used in this subsection—

“Costs of idle facilities or idle capacity” means costs such as maintenance, repair, housing, rent, and other related costs; *e.g.*, property taxes, insurance, and depreciation.

“Facilities” means plant or any portion thereof (including land integral to the operation), equipment, individually or collectively, or any other tangible capital asset, wherever located, and whether owned or leased by the contractor.

“Idle capacity” means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one-shift basis, less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materials, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. A multiple-shift basis may be used in the calculation instead of a one-shift basis if it can be shown that this amount of usage could normally be expected for the type of facility involved.

“Idle facilities” means completely unused facilities that are excess to the contractor’s current needs.

(b) The costs of idle facilities are unallowable unless the facilities—

(1) Are necessary to meet fluctuations in workload; or

(2) Were necessary when acquired and are now idle because of changes in requirements, production economies, reorganization, termination, or other causes which could not have been reasonably foreseen. (Costs of idle facilities are allowable for a reasonable period, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of the idle facilities (but see 31.205-42)).

(c) Costs of idle capacity are costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable provided the capacity is necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

(d) Any costs to be paid directly by the Government for idle facilities or idle capacity reserved for defense mobilization production shall be the subject of a separate agreement.

31.205-18 Independent research and development and bid and proposal costs.

(a) *Definitions.* As used in this subsection—

“Applied research” means that effort which (1) normally follows basic research, but may not be severable from the related basic research, (2) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques, and (3) attempts to advance the state of the art. Applied research does not include efforts whose principal aim is design, development, or test of specific items or services to be considered for sale; these efforts are within the definition of the term “development,” defined in this subsection.

“Basic research” (see 2.101).

“Bid and proposal (B&P) costs” means the costs incurred in preparing, submitting, and supporting bids and proposals (whether or not solicited) on potential Government or non-Government contracts. The term does not include the costs of effort sponsored by a grant or cooperative agreement, or required in the performance of a contract.

“Company” means all divisions, subsidiaries, and affiliates of the contractor under common control.

“Development” means the systematic use, under whatever name, of scientific and technical knowledge in the design, development, test, or evaluation of a potential new product or service (or of an improvement in an existing product or service) for the purpose of meeting specific performance requirements or objectives. Development includes the functions of design engineering, prototyping, and engineering testing. Development excludes—

(1) Subcontracted technical effort which is for the sole purpose of developing an additional source for an existing product, or

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques not intended for sale.

“Independent research and development (IR&D)” means a contractor’s IR&D cost that consists of projects falling within the four following areas: (1) basic research, (2) applied research, (3) development, and (4) systems and other concept formulation studies. The term does not include the costs of effort sponsored by a grant or required in the performance of a contract. IR&D effort shall not include technical effort expended in developing and preparing technical data specifically to support submitting a bid or proposal.

“Systems and other concept formulation studies” means analyses and study efforts either related to specific IR&D efforts or directed toward identifying desirable new systems, equipment or components, or modifications and improvements to existing systems, equipment, or components.

(b) *Composition and allocation of costs.* The requirements of 48 CFR 9904.420, Accounting for independent research and development costs and bid and proposal costs, are incorporated in their entirety and shall apply as follows—

(1) *Fully-CAS-covered contracts.* Contracts that are fully-CAS-covered shall be subject to all requirements of 48 CFR 9904.420.

(2) *Modified CAS-covered and non-CAS-covered contracts.* Contracts that are not CAS-covered or that contain terms or conditions requiring modified CAS coverage shall be subject to all requirements of 48 CFR 9904.420 except 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2), which are not then applicable. However, non-CAS-covered or modified CAS-covered contracts awarded at a time the contractor has CAS-covered contracts requiring compliance with 48 CFR 9904.420, shall be subject to all the requirements of 48 CFR 9904.420. When the requirements of 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2) are not applicable, the following apply:

(i) IR&D and B&P costs shall be allocated to final cost objectives on the same basis of allocation used for the G&A expense grouping of the profit center (see 31.001) in which the costs are incurred. However, when IR&D and B&P costs clearly benefit other profit centers or benefit the entire company, those costs shall be allocated through the G&A of the other profit centers or through the corporate G&A, as appropriate.

(ii) If allocations of IR&D or B&P through the G&A base do not provide equitable cost allocation, the contracting officer may approve use of a different base.

(c) *Allowability.* Except as provided in paragraphs (d) and (e) of this subsection, or as provided in agency regulations, costs for IR&D and B&P are allowable as indirect expenses on contracts to the extent that those costs are allocable and reasonable.

(d) *Deferred IR&D costs.* (1) IR&D costs that were incurred in previous accounting periods are unallowable, except when a contractor has developed a specific product at its own risk in anticipation of recovering the development costs in the sale price of the product provided that—

(i) The total amount of IR&D costs applicable to the product can be identified;

(ii) The proration of such costs to sales of the product is reasonable;

(iii) The contractor had no Government business during the time that the costs were incurred or did not allocate IR&D costs to Government contracts except to prorate the cost of developing a specific product to the sales of that product; and

This page intentionally left blank.

PRINTED OR COPIED DOUBLE-SIDED ON RECYCLED
PAPER (AUG 2000)

(a) *Definitions.* As used in this clause—

“Postconsumer material” means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of “recovered material.” For paper and paper products, postconsumer material means “postconsumer fiber” defined by the U.S. Environmental Protection Agency (EPA) as—

(1) Paper, paperboard, and fibrous materials from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage; or

(2) All paper, paperboard, and fibrous materials that enter and are collected from municipal solid waste; but not

(3) Fiber derived from printers’ over-runs, converters’ scrap, and over-issue publications.

“Printed or copied double-sided” means printing or reproducing a document so that information is on both sides of a sheet of paper.

“Recovered material,” for paper and paper products, is defined by EPA in its Comprehensive Procurement Guideline as “recovered fiber” and means the following materials:

(1) Postconsumer fiber; and

(2) Manufacturing wastes such as—

(i) Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and

(ii) Repulped finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others.

(b) In accordance with Section 101 of Executive Order 13101 of September 14, 1998, Greening the Government through Waste Prevention, Recycling, and Federal Acquisition, the Contractor is encouraged to submit paper documents, such as offers, letters, or reports, that are printed or copied double-sided on recycled paper that meet minimum content standards specified in Section 505 of Executive Order 13101, when not using electronic commerce methods to submit information or data to the Government.

(c) If the Contractor cannot purchase high-speed copier paper, offset paper, forms bond, computer printout paper, car-

bonless paper, file folders, white wove envelopes, writing and office paper, book paper, cotton fiber paper, and cover stock meeting the 30 percent postconsumer material standard for use in submitting paper documents to the Government, it should use paper containing no less than 20 percent postconsumer material. This lesser standard should be used only when paper meeting the 30 percent postconsumer material standard is not obtainable at a reasonable price or does not meet reasonable performance standards.

(End of clause)

CENTRAL CONTRACTOR REGISTRATION (JULY 2006)

(a) Definitions. As used in this clause—

“Central Contractor Registration (CCR) database” means the primary Government repository for Contractor information required for the conduct of business with the Government.

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same parent concern.

“Registered in the CCR database” means that—

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and

(2) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record “Active”. The Contractor will be required to provide consent for TIN validation to the Government as a part of the CCR registration process.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “DUNS” or “DUNS +4” followed by the DUNS or DUNS +4 number that identifies the offeror’s name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number—

(i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://www.dnb.com>; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company Physical Street Address, City, State, and ZIP Code.

(iv) Company Mailing Address, City, State and ZIP Code (if separate from physical).

(v) Company Telephone Number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government’s reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updat-

ing information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g) (1) (i) If a Contractor has legally changed its business name, “doing business as” name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day’s written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12 of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor’s CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the “Suspension of payment” paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov> or by calling 1-888-227-2423, or 269-961-5757.
