

U.S. Court of Appeals for the Sixth Circuit List of Permissible Filings Under ECF

To file a document in ECF you must first select the category of the docketing event that best describes what is being filed. The **Event Categories** include:

- Case Opening Forms
- Briefing
- Record Filing
- Motion/Stipulation
- Response/Reply
- Argument
- Costs
- Rehearing Petition
- Letters/Correspondence
- Miscellaneous
- BAP (Bankruptcy Appellate Panel)

After selecting the proper category, docketing **Events** specific to that category are displayed. For example under the category **Case Opening Forms** the docketing event **appearance form** is listed along with other events that occur at the beginning of a case.

Some docketing events require more specific information or what “relief” is being requested. For these docketing events you will be prompted to select the **Relief Category** that best describes this additional information. For example, in the **Case Opening Forms** event category the **transcript order** event has a relief category of **Transcript Form Filing**. From this category you would be prompted to select one of the following:

- no hearings held
- no transcript needed
- supplemental transcript needed
- transcript on file in district court

The following is a list containing **Event Category**, **Event**, **Relief Category** and **Relief Description** that make up all the possible combinations of filing that can be made in the Sixth Circuit’s ECF system. Use this list as your main reference when preparing to file a document in Sixth Circuit ECF.

EVENT CATEGORY

EVENT

RELIEF CATEGORY

RELIEF DESCRIPTION

- Please Select a Category
(Please Select a Category to the Left)
