## **Public Comment Period Begins**

### **Gaylord Container Corporation Gets Preliminary OK for Title V Permit**

The Bay Area Air Quality Management District has made a preliminary decision to grant a Title V permit to Gaylord Container Corporation (soon to be known as Harbinger Independent Power Fund II, LLC), located at 1779 Wilbur Avenue in Antioch. Gaylord Container Corporation was primarily engaged in the manufacture of unbleached linerboard paper from recycled corrugated containers, although they operated a cogeneration facility that generated electricity. However, it is being purchased by Harbert Power Corporation, which intends to transform the facility into a power plant and shut down papermaking operations.

The public comment period is from September 11, 2003 until October 16, 2003. During the public comment period, any member of the public may comment on any aspect of the proposed permit. A copy of the proposed permit can be found:

- 1) At the Antioch Library, 501 West 18th Street, Antioch.
- 2) On the Air District web site at [www.baaqmd.gov](http://www.baaqmd.gov) (follow the Title V links),
- 3) At the Air District, 939 Ellis Street, San Francisco. For an appointment call May Leung at (415) 749-4729.
- 4) For a hard copy of the permit, call the Public Information Office at (415) 749-4900 or write to: BAAQMD, Attn: Title V Permit Request, 939 Ellis Street, San Francisco, CA 94109.

### **What is Title V?**

Title V is part of the 1990 amendments to the Clean Air Act, and requires all state and local governments to develop and implement operating permits for all major pollution emitting facilities. The EPA oversees these permit programs and the Air District is charged with implementing them in the Bay Area, in accordance with Federal guidelines.

Title V is intended to clarify the complex air quality permitting process by consolidating the multitude of federal, state, and local air pollution control regulations into one summary operating permit that covers all aspects of a facility's year-to-year air pollution activities. The Title V operating permit program is implemented under Air District Regulation 2, Rule 6. Public comment is important to the Title V process. A final decision will incorporate consideration of public comments on the proposal.
