Washington, DC 20436

MEMORANDUM TO THE COMMITTEE ON WAYS AND MEANS OF THE UNITED STATES  
HOUSE OF REPRESENTATIVES ON PROPOSED TARIFF LEGISLATION <sup>1</sup>

[**Date approved:** September 28, 2000 ]<sup>2</sup>

**Bill No.:** H.R. 4394; 106<sup>th</sup> Congress

Introduced by: Mr. BILBRAY

Similar and/or related<sup>3</sup> bills: S. 2461, 106th Congress

Summary of the bill:<sup>4</sup>

The bill would suspend the general rate of duty<sup>5</sup> on--

Ceramic knives and knife blades (provided for in subheading 6911.10.80)

Effective: The 15th day after the date of enactment.

Through: December 31, 2003.

Retroactive effect: None.

*[The remainder of this memorandum is organized in five parts: (1) information about the bill's proponent(s) and the product which is the subject of this bill; (2) information about the bill's revenue effect; (3) contacts by Commission staff during preparation of this memorandum; (4) information about the domestic industry (if any); and (5) technical comments.]*

<sup>3</sup> "Similar bills" are bills in the other House, in the current Congress, which address, at least in part, the substance of this bill. "Related bills" are bills in the **same** House, in the current Congress, but which are either earlier (or later) in time than the bill which is the subject of this memorandum.

<sup>4</sup> The product nomenclature is as set forth in the bill. See technical comments for suggested changes (if any).

<sup>5</sup> See appendix A for definitions of tariff and trade agreement terms.

– THE PROPONENT AND THE IMPORTED PRODUCT –

The proponent firm/organization(s)			
Name of firm	Location contacted (city/state)	Date contacted	Response (Y/N) <sup>6</sup>
Global USA, Inc.	Washington, DC	May 8, 2000	Y
Kyocera America, Inc.	San Diego, CA	May 9, 2000	Y

*Does the proponent plan **any** further processing or handling<sup>7</sup> of the subject product after importation to its facilities in the United States: Yes.* Kyocera America has stated that if demand for its knives continues to be strong, it will look for ways to produce knives at one of its factories in the United States. Global USA, Inc. represents Kyocera and does not have any manufacturing or processing facilities.

*If “Yes,” provide location of this facility if different from above (city/state):* Vancouver, WA.

*If “No,” provide location of proponent’s headquarters or other principal facility if different from above (city/state):* n/a.

<sup>6</sup> Non-confidential written responses received prior to approval of this report by the Commission, if any, will be included in appendix C.

<sup>7</sup> The phrase “further processing or handling” can include repackaging, storage or warehousing for resale, etc.

**The imported product**

Blades for ceramic knives are made of zirconium oxide, an advanced ceramic material that is extremely hard, second only to diamond on the Mohs scale. Zirconium oxide for blades is a white powder, which is milled and mixed; the powder is put in molds in the shape of the desired knife, and the molds are then pressed. The resulting blanks are heated at approximately 1,000 degrees C. The blades are ground and sharpened, then inserted into handles and packaged.

Ceramic knives can only be sharpened with a powered diamond sharpening wheel. Knives with zirconium blades are designed to hold their edge longer than competing steel knives, and are also intended to resist rusting or staining. The ceramic knife manufactured by Kyocera works best as a slicing knife and is not intended for cutting or chopping applications, due to the risk of chipping. Kyocera's ceramic knives are currently sold through gourmet and catalog houses, high-end retail establishments, and on-line stores.

Kyocera produces ceramic knives in Sendai, a small city in southwest Japan on the island of Kyushu. Kyocera supplies Boker, a German manufacturer, with blades for their ceramic knives, also sold in the United States.

Kyocera and Boker are the only known suppliers of kitchenware ceramic knives to the United States.

– EFFECT ON CUSTOMS REVENUE –

*[Note: This section is divided in two parts. The first table addresses the effect on customs revenue based on the duty rate for the HTS number set out in the bill. The second table addresses the effect on customs revenue based on the duty rate for the HTS number recommended by the Commission (if a different number has been recommended). Five-year estimates are given based on Congressional Budget Office “scoring” guidelines. If the indicated duty rate is subject to “staging” during the duty suspension period, the rate for each period is stated separately.]*

– TECHNICAL COMMENTS –

[The Commission notes that references to HTS numbers in temporary duty suspensions (i.e., proposed amendments to subchapter II of chapter 99 of the HTS) should be limited to eight rather than ten digits. Ten-digit numbers are established by the Committee for Statistical Annotation of Tariff Schedules pursuant to 19 U.S.C. 1484(f) and are not generally referenced in statutory enactments.]

*Recommended changes to the nomenclature in the bill:*

For the proposed nomenclature for the new tariff heading, the phrase “Tableware or kitchenware” should be placed before the word “ceramic” to distinguish between the subject articles and industrial ceramic knives which are also currently in the market. In addition, the word “ceramic” should be inserted before the word “knife”; it should be clarified that the proposed tariff provision generally covers articles with ceramic knife blades and not articles that may possibly be made with ceramic handles and non-ceramic blades.

*Recommended changes to any C.A.S. numbers in the bill (if given):*

None.

*Recommended changes to any Color Index names in the bill (if given):*

None.

*Basis for recommended changes to the HTS number used in the bill:*<sup>13</sup>

It is suggested that the correct tariff category for ceramic knives (those of porcelain or china) is 6911.10.80. If blades of porcelain or china are imported separately, the correct classification should be HTS subheading 6914.10.80. However, knives of ceramic material other than porcelain or china fall in subheading 6912.00.48, and blades of ceramic material other than porcelain or china fall in subheading 6914.90.80. The tariff categories to be referenced depends upon the precise goods being imported, so that at least one additional tariff provision (applicable to blades imported separately—probably 6912.10.48, based on information in Kyocera’s submissions) should be added to the new heading. We note that the tariff provisions for finished goods likewise cover those goods in an unassembled or disassembled state at the time of entry.

*Other technical comments (if any):*

None.

---

<sup>13</sup> The Commission may express an opinion concerning the HTS classification of a product to facilitate the Committee’s consideration of the bill, but the Commission also notes that, by law, the U.S. Customs Service is the only agency authorized to issue a binding ruling on this question. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.

## APPENDIX A

### TARIFF AND TRADE AGREEMENT TERMS

In the **Harmonized Tariff Schedule of the United States** (HTS), chapters 1 through 97 cover all goods in trade and incorporate in the tariff nomenclature the internationally adopted Harmonized Commodity Description and Coding System through the 6-digit level of product description. Subordinate 8-digit product subdivisions, either enacted by Congress or proclaimed by the President, allow more narrowly applicable duty rates; 10-digit administrative statistical reporting numbers provide data of national interest. Chapters 98 and 99 contain special U.S. classifications and temporary rate provisions, respectively. The HTS replaced the Tariff Schedules of the United States (TSUS) effective January 1, 1989.

Duty rates in the **general** subcolumn of HTS column 1 are normal trade relations rates, many of which have been eliminated or are being reduced as concessions resulting from the Uruguay Round of Multilateral Trade Negotiations. Column 1-general duty rates apply to all countries except those listed in HTS general note 3(b) (Afghanistan, Cuba, Laos, North Korea, and Vietnam) plus Serbia and Montenegro, which are subject to the statutory rates set forth in **column 2**. Specified goods from designated general-rate countries may be eligible for reduced rates of duty or for duty-free entry under one or more preferential tariff programs. Such tariff treatment is set forth in the **special** subcolumn of HTS rate of duty column 1 or in the general notes. If eligibility for special tariff rates is not claimed or established, goods are dutiable at column 1-general rates. The HTS does not enumerate those countries as to which a total or partial embargo has been declared.

The **Generalized System of Preferences** (GSP) affords nonreciprocal tariff preferences to developing countries to aid their economic development and to diversify and expand their production and exports. The U.S. GSP, enacted in title V of the Trade Act of 1974 for 10 years and extended several times thereafter, applies to merchandise imported on or after January 1, 1976 and before the close of September 30, 2001. Indicated by the symbol "A", "A\*", or "A+" in the special subcolumn, the GSP provides duty-free entry to eligible articles the product of and imported directly from designated beneficiary developing countries, as set forth in general note 4 to the HTS.

The **Caribbean Basin Economic Recovery Act** (CBERA) affords nonreciprocal tariff preferences to developing countries in the Caribbean Basin area to aid their economic development and to diversify and expand their production and exports. The CBERA, enacted in title II of Public Law 98-67, implemented by Presidential Proclamation 5133 of November 30, 1983, and amended by the Customs and Trade Act of 1990, applies to merchandise entered, or withdrawn from warehouse for consumption, on or after January 1, 1984. Indicated by the symbol "E" or "E\*" in the special subcolumn, the CBERA provides duty-free entry to eligible articles, and reduced-duty treatment to certain other articles, which are the product of and imported directly from designated countries, as set forth in general note 7 to the HTS.

Free rates of duty in the special subcolumn followed by the symbol "IL" are applicable to products of Israel under the **United States-Israel Free Trade Area Implementation Act** of 1985 (IFTA), as provided in general note 8 to the HTS.

Preferential nonreciprocal duty-free or reduced-duty treatment in the special subcolumn followed by the symbol "J" or

"J\*" in parentheses is afforded to eligible articles the product of designated beneficiary countries under the **Andean Trade Preference Act** (ATPA), enacted as title II of Public Law 102-182 and implemented by Presidential Proclamation 6455 of July 2, 1992 (effective July 22, 1992), as set forth in general note 11 to the HTS.

Preferential free rates of duty in the special subcolumn followed by the symbol "CA" are applicable to eligible goods of Canada, and rates followed by the symbol "MX" are applicable to eligible goods of Mexico, under the **North American Free Trade Agreement**, as provided in general note 12 to the HTS and implemented effective January 1, 1994 by Presidential Proclamation 6641 of December 15, 1993. Goods must originate in the NAFTA region under rules set forth in general note 12(t) and meet other requirements of the note and applicable regulations.

Other special tariff treatment applies to particular **products of insular possessions** (general note 3(a)(iv)), **products of the West Bank and Gaza Strip** (general note 3(a)(v)), goods covered by the **Automotive Products Trade Act** (APTA) (general note 5) and the **Agreement on Trade in Civil Aircraft** (ATCA) (general note 6), **articles imported from freely associated states** (general note 10), **pharmaceutical products** (general note 13), and **intermediate chemicals for dyes** (general note 14).

The **General Agreement on Tariffs and Trade 1994** (GATT 1994), pursuant to the Agreement Establishing the World Trade Organization, is based upon the earlier GATT 1947 (61 Stat. (pt. 5) A58; 8 UST (pt. 2) 1786) as the primary multilateral system of disciplines and principles governing international trade. Signatories' obligations under both the 1994 and 1947 agreements focus upon most-favored-nation treatment, the maintenance of scheduled concession rates of duty, and national treatment for imported products; the GATT also provides the legal framework for customs valuation standards, "escape clause" (emergency) actions, antidumping and countervailing duties, dispute settlement, and other measures. The results of the Uruguay Round of multilateral tariff negotiations are set forth by way of separate schedules of concessions for each participating contracting party, with the U.S. schedule designated as Schedule XX. Pursuant to the **Agreement on Textiles and Clothing** (ATC) of the GATT 1994, member countries are phasing out restrictions on imports under the prior "Arrangement Regarding International Trade in Textiles" (known as the **Multifiber Arrangement** (MFA)). Under the MFA, which was a departure from GATT 1947 provisions, importing and exporting countries negotiated bilateral agreements limiting textile and apparel shipments, and importing countries could take unilateral action in the absence or violation of an agreement. Quantitative limits had been established on imported textiles and apparel of cotton, other vegetable fibers, wool, man-made fibers or silk blends in an effort to prevent or limit market disruption in the importing countries. The ATC establishes notification and safeguard procedures, along with other rules concerning the customs treatment of textile and apparel shipments, and calls for the eventual complete integration of this sector into the GATT 1994 over a ten-year period, or by Jan. 1, 2005.
