

HARMONIZED SYSTEM  
COMMITTEE

-  
27<sup>th</sup> Session

NC0367E1  
(+ Annexes I to V)  
O. Eng.

Brussels, 3 April 2001.

CLASSIFICATION OF CERTAIN PRODUCTS UNDER THE 2002 VERSION OF THE HS

(Item V.4 on Agenda)

I. BACKGROUND

1. At the 16<sup>th</sup> Session of the Scientific Sub-Committee the Director indicated that it would be useful to also indicate the classification suggestions of the Sub-Committee on the basis of the HS 2002 version. However, since it would be difficult for delegates to examine the classifications under the HS 2002 version during the session, he informed the Sub-Committee that the Secretariat would prepare a separate document, with its classification proposals, for the consideration of the Harmonized System Committee at its 27<sup>th</sup> Session. Administrations could then examine the relevant document during the intersession and submit their comments, if any. The Sub-Committee agreed to this suggestion, but unfortunately, this discussion was not reflected in the Report of the 16<sup>th</sup> Session of the Scientific Sub-Committee.

II. SECRETARIAT COMMENTS

2. The Secretariat has, nevertheless, examined the classifications of the products that were examined by the Scientific Sub-Committee, at its 16<sup>th</sup> Session, to determine their classification under the 2002 version of the HS. The Secretariat has selected those products from the relevant Annexes to Doc. NS0034E2 (SSC/16 - Report) that would have a different classification under the 2002 version and has indicated its proposed classifications in the Annexes hereto.
3. In some cases the Secretariat has placed its suggested classifications in square brackets pending further research. These items will need to be reconsidered by the Scientific Sub-Committee at its next session.

File No. 2151

III. CONCLUSION

4. The Committee is invited to examine the proposed classifications of the products concerned based on the HS 2002 version, as set out in the Annexes to this document.
