## ENDNOTES

1/ All data are on a fully consolidated basis and cover 110 U. S. banking organizations. Currently, six organizations comprise the group of Money Center Banks, and seven organizations comprise the category of Other Large Banks.

2/ Local country claims are claims, including revaluation gains on foreign exchange and derivative contracts, held by U.S. banks in their foreign offices on residents of the country in which the office is located. Local country liabilities are liabilities, including revaluation losses on foreign exchange and derivative contracts, to third parties held by U.S. banks in their foreign offices. Net local country claims are equal to local country loans and other claims on local residents net of local country liabilities. Local country claims and liabilities may be denominated in the local currency or another currency. In instances where the net local country claim is negative, the value is set to zero. For the September 30, 1997 reporting period, banks reported \$272.4 billion in local country loans and other claims on local residents and \$316.2 billion in local country liabilities.

3/ The data in the table cover only cross-border and non-local country lending. These result from a U.S. bank's office in one country lending to residents of another country.

4/ These columns show the amount owed to U.S. banks by borrowers residing in the given country that is guaranteed by residents of another country.

5/ Amounts owed U.S. banks by a branch in the reported country, where the head office of the borrowing bank is outside the reported country, are treated as being guaranteed and are included in this column.

6/ These columns show the amount owed to U.S. banks by borrowers residing in another country that have been guaranteed by residents of the reported country. The guarantor can be a bank, a government entity, or a private non-bank entity.

7/ Includes amounts borrowed by the foreign branches of banks headquartered in the reported country. Also includes guarantees and similar instruments issued by the reported country's banks that cover repayment of borrowing by non-residents.

The Money Center Banks include data from the following banking organizations: Bank of America, Bankers Trust, Chase Manhattan, Citicorp, First Chicago, and J.P. Morgan.

Other Large Banks include data from: BankBoston Corp, Bank of New York Co., Corestates Financial Corp, First Union Corp, Nationsbank Corp, Republic NY Corp, and State Street Corp.

The total capital of the reporting banks in each group, including equity, subordinated debentures, and reserves for loan losses is: all reporting banks, \$319.7 billion; money center banks, \$110 billion; other large banks, \$64.6 billion; and all other reporting banks, \$145 billion.

The total assets of the reporting banks are: all reporting banks, \$3,064.2 billion; money center banks, \$1,213.3 billion; other large banks, \$626.2 billion; and all other reporting banks, \$1,224.7 billion.

8/ Revaluation gains on foreign exchange and derivative products after netting, adjustments for guarantees, and external borrowings.
