DEVELOPMENTAL DIAGNOSTIC INFORMATION

DEVELOPMENTAL DISABILITIES

Record in this section specified diagnosis(es) of the client's disability(ies). Pertinent diagnoses include levels and types, and etiologic factors (causes) of the disabilities. Code the diagnoses using ICD-9-CM and Risk Factor codes, as applicable, according to manual instructions for each specific item.

AUTISM (See Manual Revisions Dated 04/08/05)

If the consumer has Autistic Disorder (code "1" in Item 23a), or Asperger Disorder or Pervasive Developmental Disorder, NOS (code "3" or "4" in Item 23b), enter the ICD-9-CM etiology code(s) in Items 24a/24b for the specified condition.

Asperger Disorder and PDD-NOS are for informational recording only; they are not categorically eligible conditions. Individuals with these disorders are eligible only if they meet the Fifth Category requirements for eligibility.

Rett Syndrome and Childhood Disintegrative Disorder are **NOT** recorded in this section. Those disorders are appropriately recorded under the Mental Retardation or Epilepsy Sections.

EPILEPSY/SEIZURE DISORDERS (See Manual Revisions Dated 04/08/05)

If the consumer has only one type of seizure, record it in 27a and also complete 27b and 27c for that type. If the consumer has more than one type of seizure, record the other types in 28a and 29a and complete b and c Items for these other types.
