

Guidelines for Dissenting Report(s)

A dissenting report must:

- 1) Be authored by a voting commission member.
- 2) Include the following information about the author(s):
 - a) Name
 - b) Organizational Affiliation
- 3) Provide an explanation for why the voting commissioner(s) voted against a specific recommendation in the report.
- 4) Be no longer than one page in length.

A voting member may submit one single dissenting report representing multiple members if there is more than one dissenting voter for any given recommendation and they prefer to co-author one report; however in no case will it exceed one page regardless of the number of co-authors. Dissenting reports will be attached to the full report as an appendix.
