

Table 19 to Part 679. Seabird Avoidance Gear Codes

VESSEL LOGBOOK	
CODE	SEABIRD AVOIDANCE GEAR OR METHOD
1	<u>Paired Streamer Lines</u> : Used during deployment of hook-and-line gear to prevent birds from taking hooks. Two streamer lines used, one on each side of the main groundline. Each streamer line consists of three components: a length of line, streamers attached along a portion of the length and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(iii).
2	<u>Single Streamer Line</u> : Used during deployment of hook-and-line gear to prevent birds from taking hooks. The streamer line consists of three components: a length of line, streamers attached along a portion of the length and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(ii).
3	<u>Single Streamer Line, used with Snap Gear</u> : Used during the deployment of snap gear to prevent birds from taking hooks. The streamer line consists of three components: a length of line, streamers attached along a portion of the length and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(iv).
4	<u>Buoy Bag Line</u> : Used during the deployment of hook-and-line gear to prevent birds from taking hooks. A buoy bag line consists of two components: a length of line (without streamers attached) and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(i).
Other Device used in conjunction with Single Streamer Line or Buoy Bag Line.	
5	<u>Add weights to groundline</u> : Applying weights to the groundline for the purpose of sinking the hook-and-line gear more quickly and preventing seabirds from accessing the baited hooks.
6	<u>Additional Buoy Bag Line or Single Streamer Line</u> : Using a second buoy bag line or streamer line for the purpose of enhancing the effectiveness of these deterrent devices at preventing seabirds from accessing baited hooks.
7	<u>Strategic Offal Discharge</u> : Discharging fish, fish parts (i.e. offal) or spent bait for the purpose of distracting seabirds away from the main groundline while setting gear.
Additional Device Used.	
8	<u>Night Fishing</u> : Setting hook-and-line gear during dark hours.
	<u>Line Shooter</u> : A hydraulic device designed to deploy hook-and-line gear at a speed slightly faster than the vessel's speed during setting.
	<u>Lining Tube</u> : A device used to deploy hook-and-line gear through an underwater-setting device.
	<u>Other (Describe)</u>
9	<u>No Deterrent Used Due to Weather</u> . [See weather exceptions at § 679.24(e)(5)(i)(B), (e)(5)(ii)(B), (e)(5)(iii)(B), (e)(5)(iv)(B).]
0	No Deterrent Used.
