Environment and Development Foundation
ningyu@edf.org.tw

14 March, 2005

## ENERGY STAR Office Equipment Program already introduced into Taiwan

> Computers
> Monitors
$>$ MFDs
> Copiers
> Printers
> Fax machines
> Scanners

## Partners and Products Registered

| Category | Partner | Product |
| :---: | :---: | :---: |
| Computers | $6(2)$ | 69 |
| Monitors | $39(16)$ | 393 |
| Scanners | $4(2)$ | 36 |
| Printers | 1 | 1 |
| MFDs | $2(1)$ | 19 |
| Total | $52(21)$ | 518 |

Date of statistics: through Dec. 2004
Source: USEPA \& TEPA, Dec. 2004
( ) : number of partners approved by TEPA

No copier manufacturer exists in Taiwan in 2004
No fax machines and mail machines in Taiwan meet the current ENERGY STAR specifications

## Observations

## Partners approved by TEPA

## Partners approved by USEPA

Indicates that more and more Taiwanese manufacturers apply directly to TEPA, instead of USEPA, for the use of the ENERGYSTAR logo.

## Major Achievements of the Office Equipment Program in 2004

| Participants | Partners | 52 |
| :--- | :--- | :--- |
|  | Products | 518 |
| Energy-saving <br> achievements | Electricity saved | $\sim 2,340$ million kWh/year |
|  | Electricity bill saved | $\sim$ US 151 million dollars |
|  | GHG reduced | $149.5 \mathrm{kt} \mathrm{CO}_{2}$ emissions reduced |

## Surveillance Program

$>$ Objective : Better management of ENERGY STAR Partners
$\rightarrow$ Method : Random sampling from the market place, no pre-set time and place
>Duration : May ~ Nov., 2003~2004
$>$ Target : Computers, Monitors, Scanners, Printers and MFDs

## Surveillance Results

|  | Total samples | Violation | Rate |
| :---: | :---: | :---: | :---: |
| 2003 | 166 products | 3 products | $1.8 \%$ |
| 2004 | 200 products | 2 products | $1 . \%$ |

$>$ Unauthorized use of logo

## Energy Star Website Update

## http://www.energystar.org.tw

$>$ Introduction
$>$ For manufacturers/partners
$\Rightarrow$ For consumers
$>$ Links to related web-sites
$>$ News
$>$ Contact us
>Home (to Chinese Version)

## Energy Star Website Update

## On-line application

>Reduce application/processing time
>Simplify processing procedure
>Better promotion

## Energy Star Promotional Activities

## 2004 Information Month Exhibition organized by the Computer Manufacturers' Association

>Duration : Nov. to Dec. 2004
>Objective : Increase awareness of ENERGY STAR Program
-Exhibitions: ENERGY STAR qualified products provided by partners
$>$ Souvenirs : Produced and distributed various promotional materials
>Contest participants: ~750,000

## Energy Star Promotional Activities

## Advertisements

> Web-site, radio broadcasting programs, journals, magazines.

## Newsletter for ENERGY STAR

>"ENERGY STAR Highlights"

Environment and Development Foundation

## Energy Star Promotional Activities

## Energy Star Promotion Leaflets

Environmental Protection Administration R.O.C.

## Energy Star Promotional Activities

## Home Electronics Product Survey of market share

| Product | market share |
| :---: | :---: |
| TV | $0.13 \%$ |
| Home Audio | $0 \%$ |
| Set-Top Box | $0 \%$ |
| Cordless Phones | $0 \%$ |
| DVD | $0 \%$ |

$>$ Conduct surveys on consumers awareness of ENERGY STAR logo
>Publish quarterly bilingual (Chinese/English) electronic newsletter
>Improve surveillance through increased sampling of ENERGY STAR products

## Increase promotion of ENERGY STAR logo

>Prepare and distribute two versions (consumers and manufacturers) of promotional posters and brochures
>Publish ENERGY STAR information on magazines \& journals
>Hold contest on ENERGY STAR website

## NEW ENERGY STAR Program to be introduced into Taiwan

>Appliances
$>$ Heating \& Cooling
$>$ Home Electronics
>Lighting
>Commercial Food Service
>Other (External Power Adapters, Supplies)

# TEPA plans to hold an international conference on Atmospheric Protection in Sep. 2005 

## Parties interested in protection of atmosphere welcomed

## Thank You
