Delta Electronics' recommendation is to have the Tier 2 requirements regarding the power supply efficiency **harmonized** with **step 3 of the Climate Savers Computing Initiative** (CSCI). The Tier 2 ENERGY STAR® Requirements for Computers are scheduled to go into effect in July 2009 which coincides with the start of step 3 of CSCI. To avoid proliferation of similar efficiency specifications, it would be prudent that Tier 2 ENERGY STAR® Requirements Version 4.0 for Computers be harmonized with the Climate Savers Computing Initiative specifications.

Best regards,
