The Information Systems department of the US District Court for the Southern District of Iowa will be hosting a courtroom technology open house in Des Moines on September 25<sup>th</sup> at 10AM. The open house will consist of an available equipment demonstration, question and answers, and time for hands-on use of the equipment.

Beginning in September we will be scheduling regular open houses on a monthly basis. Our goal is to provide courtroom technology users the opportunity to learn and use the courtroom technology outside of court proceedings.
