12 provide the people of the southern portion of the island of
13 Hawaii with increased access to appropriate emergency and urgent
14 medical care.

15 SECTION 2. (a) The department of health shall establish a
16 pilot program in cooperation with emergency medical services,
17 the fire departments, Hawaii health systems corporation, and
18 community clinics to provide additional urgent care services in

1 the communities of Ocean View and Volcano on the island of
2 Hawaii.

3 (b) The program shall:

4 (1) Assess the efficacy of utilizing mobile medical vans
5 and other alternatives for service delivery;

6 (2) Establish availability of workforce staff;

7 (3) Recommend any appropriate legislation to further
8 effectuate the program;

9 (4) Assess feasibility and the cost/benefit ratio; and

10 (5) Involve appropriate community stakeholders in the
11 study and evaluation.

12 (c) The department of health shall report to the
13 legislature at least twenty days prior to the convening of the
14 2008 and 2009 regular sessions of the legislature regarding the
15 progress of the pilot program.

16 SECTION 3. There is appropriated out of the general
17 revenues of the State of Hawaii the sum of \$, or so
18 much thereof as may be necessary for fiscal year 2007-2008 and
19 the same sum, or so much thereof as may be necessary for fiscal
20 year 2008-2009, for planning and equipment necessary for a pilot
21 program to provide additional urgent care services in the Ocean
22 View and Volcano communities on the island of Hawaii.

1 The sum appropriated shall be expended by the department of
2 health for the purposes of this Act.
