Chapters, Review Articles, and Other Publications

Abstracts of Papers Presented at Meetings

July 2001

ABSTRACTS OF PAPERS PRESENTED AT MEETINGS

1980

Dupree EA

Mortality among workers at a uranium refining and processing plant
American Journal of Epidemiology 112:446, 1980

Polednak AP

Studies of workers exposed to internal radiation (uranium and thorium)
American Journal of Epidemiology 112:445, 1980

1981

Cookfair DL, Frome EL, and Patten B

Methodologic problems in occupational studies of female workers
American Journal of Epidemiology 114:438, 1981

Hudson DR, Frome EL, Dupree EA, Hansard MS, Beck WL, and Lushbaugh CC
Exploratory analysis of mortality in a cohort of nuclear material workers
American Journal of Epidemiology 114:446, 1981

Lushbaugh CC, Beck WL, Dupree EA, Frome EL, Fry SA, Hansard MS, Hudson DR, and Polednak AP

Health and mortality of DOE workers
American Nuclear Society Transactions 38:81, 1981

Rudnick S, Shy CM, Fry SA, and Robie DM

Health effects in DOE workers occupationally exposed to five or more rem per year
American Journal of Epidemiology 114:448-449, 1981

1983

Cragle DL, Hollis DR, Shy CM, and Newport TH

A retrospective cohort mortality study of workers occupationally exposed to metallic nickel dust at the Oak Ridge Gaseous Diffusion Plant
Presented at the Symposium on Nickel in the Human Environment, March 8-11, 1983, Lyon, France

Hollis DR, Beck WL, Fry SA, Lushbaugh CC, and Watson JE
Considerations in using exposure data in epidemiologic studies
American Journal of Epidemiology 118:447, 1983

Tankersley WG and Checkoway H

Procedure for assignment of chemical hazards indices for use in epidemiology studies
Presented at the American Industrial Hygiene Conference, May 22-27, 1983, Philadelphia, PA

Worrel M

GRAF: Automated graphics system for data base information
Presented at the Association for Computing Machinery (ACM) Mid-Winter Conference, February 25, 1983, Chattanooga, TN, and ACM Southeastern Conference, April 8, 1983, Durham, NC

1984

Cragle DL, Hollis DR, Qualters JR, Tankersley WG, and Fry SA

A mortality study of men exposed to elemental mercury
Journal of Occupational Medicine 26(9):687, 1984

Abstracts of Papers Presented at Meetings

Page 2

1984 (Continued)

Frome EL and McLain RW

A macro for fitting nonlinear models to Poisson distributed data

Presented at the SUGI 1984 Conference, March 18-21, 1984, Hollywood, FL

Groer PG and Blum S

Bayesian estimation and comparison of mortality rates

Presented at the 6th International Congress of the International Radiation Protection Association, May 7-12, 1984, Berlin, West Germany

Groer PG and Blum S

Dose-response curves and cell killing

Presented at the 32nd Annual Scientific Meeting of the Radiation Research Society, March 25-29, 1984, Orlando, FL

Lushbaugh CC, Brown DG, and Frome EL

Longevity of irradiated burros

Presented at the 32nd Annual Scientific Meeting of the Radiation Research Society, March 25-29, 1984, Orlando, FL

Strom DJ, Crawford-Brown DJ, and Tankersley WG

Preparation of 30 years' personnel monitoring data from a uranium fabrication plant for use in epidemiologic studies

Health Physics 47:123, 1984

1986

Carpenter AV, Flanders WD, Frome EL, Tankersley WG, Crawford-Brown DJ, Sowder CL, Wray ML, Fry SA, and Lushbaugh CC

An epidemiologic investigation of central nervous system cancers among workers at diverse nuclear facilities

American Journal of Epidemiology 124:530-531, 1986

Checkoway H, Pearce N, Crawford-Brown DJ, and Cragle DL

Mortality patterns among a cohort of nuclear fabrication workers

Presented at Epidemiology in Occupational Health, Fifth International Symposium, Los Angeles, CA, September 9-11, 1986

Cragle DL and Tankersley WG

What information do epidemiologists need from industrial hygienists?

Presented at AOMA/AAIH Joint Conference on Occupational Health, Orlando, FL October 21-25, 1986

McLain RW and Frome EL

Analysis of grouped cohort mortality data

In: 1986 Program and Abstracts, Joint Statistical Meetings, American Statistical Association and Biometric Society, Institute of Mathematical Statistics, August 18-21, Chicago, IL

Abstracts of Papers Presented at Meetings

Page 3

1987

Groer PG

Internal dosimetry for epidemiologic studies

In: Proceedings of the Department of Energy Workshop on Radiobioassay and Internal Dosimetry, January 20-22, 1987, Albuquerque, NM, PNL-SA-14043, CONF-860146, UC-41, 1987

1988

Groer PG

Radiation risk analysis

Presented at the American Occupational Medical Association meeting, April 28, 1988, New Orleans, LA

Groer PG and Pereira CA

Lung cancer in Colorado Plateau uranium miners - A reanalysis

Presented at the International Workshop on Radiological Protection in Mining, Darwin, Australia, April 3-9, 1988

Groer PG and Pereira CA

Prediction of lung cancer risk after exposure in Rn-Daughters

Presented at the 7th IRPA Congress, Sydney, Australia, April 9-18, 1988

Tankersley WG, Cragle DL, Ziegler MF, and Watson JE

Comparison of assigned exposure indices and radiation monitoring data

Presented at the American Industrial Hygiene Conference, May 1988, San Francisco, CA

West CM, Tankersley WG, and Payne DD

Lung dose estimates from air sampling and bioassay data - A comparison

Presented at the American Industrial Hygiene Conference, May 1988, San Francisco, CA

1989

Watkins JP and Frome EL

The use of regression methods in occupational cohort studies with external standard rates

Presented at the 1989 Joint Statistical Meetings, Washington, DC, August 6- 10, 1989

1991

Cragle DL, Wells SM, and Tankersley WG

An occupational morbidity study of a population potentially exposed to epoxy resins and solvents

Presented at the AIHA National Meeting, Salt Lake City, UT, May 18-24, 1991

Fry SA

Other, miscellaneous cancers: Uncertainties in current knowledge

Presented at The Future of Human Radiation Research Workshop, sponsored by DOE, CEC, and IARC, Elmau, Germany, March 4-8, 1991

1991 (Continued)

Fry SA, Dupree EA, Sipe AH, Seiler DL, and Wallace PW
A study of mortality and morbidity among persons occupationally exposed to ≥ 5 rem (≥ 50 mSv) in a year. Phase I: Mortality through 1984
Presented at Hanford Symposium on Health and the Environment, Richland, WA, October 29-November 1, 1991

Tankersley WG, Ingle J, West C, Watson J, and Crawford-Brown D
Guidelines for systematic assessment of occupational exposures in absence of monitoring data
Presented at the Workshop on Retrospective Assessment of Occupational Exposure in Epidemiology, Eighth International Symposium - Epidemiology in Occupational Health, Paris, France, September 10-12, 1991

Tankersley WG, West CM, Frome EL, and Pignatelli JL
Dosimetry problem with exposure at or below minimum detectable level in epidemiologic studies
Presented at the Eighth International Symposium - Epidemiology in Occupational Health, Paris, France, September 10-12, 1991

Tankersley WG, West CM, Frome EL, and Pignatelli JL
Evaluating exposures at or below minimum detectable levels
Presented at the Health Physics Society National Meeting, Washington, DC, July 21-26, 1991

Tankersley WG, West CM, Ingle JN, Watson J, and Crawford-Brown D
Guidelines for inferring occupational exposures in absence of monitoring data
Presented at the AIHA National Meeting, Salt Lake City, UT, May 18-24, 1991

Tankersley WG, West CM, Reagan JL, and Watson JE
Assessment of radiation exposures at or below the minimum detectable level in epidemiologic studies
Presented at the Hanford Symposium on Health and the Environment, Richland, WA, October 29-November 1, 1991

Wing S, Shy CM, Wood JL, and Wolf S
Low level occupational radiation exposure and cancer mortality
Presented at the Eighth Annual Symposium - Epidemiology in Occupational Health, Paris, France, September 10-12, 1991

1992

Fry SA, Cragle DL, Crawford-Brown DJ, Dupree EA, Frome EL, Gilbert ES, Petersen GR, Shy CM, Tankersley WG, Voelz GL, Wallace PW, Watkins J, Watson Jr JE, Wiggs LD, and Wing S
Studies of health and mortality among employees of US Department of Energy
Presented at the American Chemical Society Annual Meeting, San Francisco, CA, April 6-8, 1992

Tankersley WG, Cragle DL, Hicks NV, Googin JM, and Bean GL
Exposure assessment for epidemiologic study of nuclear workers potentially exposed to beryllium
Presented at the 1992 American Industrial Hygiene Conference and Exposition, Boston, MA, May 30-June 5, 1992

Abstracts of Papers Presented at Meetings
Page 5

1992 (Continued)

Wing S, Shy C, Wood J, Wolf S, Cragle DL, Tankersley W, and Frome E
Evidence that chemical exposures do not explain the association of radiation and mortality among workers at the Oak Ridge National Laboratory
Presented at the International Conference: "Reassessment of Radiation Risk," Kiel, Germany, February 29-March 1, 1992

1993

Dupree E, Watkins J, Ingle J, Wallace P, West C, and Tankersley W
Risk of lung cancer among uranium processing workers
American Journal of Epidemiology 13(8):640, 1993

Watkins JP and Frome EL
Time-related variables in an occupational cohort setting
Presented at the American Statistical Association 153rd Annual Meeting, Biometric Society Eastern and Western North American Regions and the Institute of Mathematical Statistics 56th Annual Meeting, San Francisco, CA, August 8-12, 1993

Watkins J, Reagan J, Cragle D, West C, and Tankersley W
Using data thoughtfully: Impact of data validation results on an epidemiologic mortality study of nuclear industry workers
Presented at the Occupational Exposure Database Conference, McLean, VA, October 31-November 3, 1993

Special Presentations

Lushbaugh CC
Statement of CC Lushbaugh, Ph.D., M.D., Chairman, Medical and Health Sciences Division; Acting Director and Co-Principal Investigator, DOE Health and Mortality Studies (Oak Ridge Segment), Center for Epidemiologic Studies, Oak Ridge Associated Universities
Presented to the U.S. House of Representatives Committee on Science and Technology, Subcommittee on Investigations and Oversight, Washington, DC, May 19, 1982

Shy CM
Research objectives and university collaboration in the health and mortality study of Department of Energy contract facilities
Presented to the U.S. House of Representatives Committee on Science and Technology, Subcommittee on Investigation and Oversight, Washington, DC, May 19, 1982

CHAPTERS, REVIEW ARTICLES, AND OTHER PUBLICATIONS

1980

Frome EL and Hudson DR
A jackknife procedure for estimation of standardized mortality ratios
In Proceedings of the Statistical Computer Section of the American
Statistical Association, 1979, pp. 323-325, Washington, DC, 1980

Frome EL and Khare M (Letter to the Editor)
Comments on Brodsky's statistical methods for evaluating
epidemiological results
Health Physics 39:695-697, 1980

Polednak AP
Long-range studies of uranium workers and the Oak Ridge radiation
worker population
In: The Medical Basis for Radiation Accident Preparedness,
Proceedings of the REAC/TS International Conference, 1979, Oak Ridge,
TN, edited by KF Hubner and SA Fry, pp. 401-409, New York:
Elsevier North-Holland, 1980

1981

Frome EL and Hudson DR
A general statistical data structure for epidemiologic studies of DOE workers
In: 1980 DOE Statistical Symposium, Berkeley, CA, edited By T Turett, D Margolies, and
DW Mensing, CONF-80145, pp. 206-218, Washington, DC: Department of Energy, 1981

Frome EL and Hudson DR
Interval estimation for X predictions when the dependent variable follows the Poisson
distribution
In: 1980 Proceedings of the Statistical Computing Section of the American Statistical
Association, Houston, TX, pp. 294-297, Washington, DC: American Statistical
Association, 1981

Frome EL
PREG: A computer program for Poisson regression analysis
ORAU-178, Oak Ridge, Tennessee: Oak Ridge Associated Universities, 1981

Keefe DJ, McDowell WP, and Groer PG
The Ewlmii, a measurement and data acquisition system for radon-daughters
In: Proceedings of the International Meeting on Radon-Radon Progeny Measurement, pp. 5-
19, August 27-28, 1981, Montgomery, AL

1982

Brodsky JB, Liddell R, Groer PG, Ishimaru T, and Ichimaru M
Temporal analysis of a dose response relationship leukemia mortality in atomic bomb
survivors
Radiation Effects Research Foundation (RERF) Technical Report TR 5-82

Cookfair DL
A case control study of lung cancer among workers at a uranium processing plant
Ph.D. Dissertation, University of North Carolina, Chapel Hill, 1982

1982 (Continued)

Fry SA, Rudnick SA, Hollis Hudson DR, Robie DM, Lushbaugh CC, and Shy CM
Follow-up study of the health experience of U.S. Department of Energy
(DOE) workers exposed to ≥ 50 mSv (5 rem) per year
In: Proceedings, Society for Radiological Protection, Third International Symposium,
Radiological Protection -- Advances in Theory and Practice, Inverness, Scotland, 1982,
Vol. 1, pp. 346-351, Society for Radiological Protection, 1982

Hudson DH, Frome EL, and Gray JR
Graphics: An important tool for communication in epidemiology
In: Proceedings, Seventh Annual SAS Users Group International Conference,
San Francisco, 1982, pp. 205-210, SAS Institute, Cary, NC, 1982

Parrish B
Analysis of external personnel monitoring devices and data for Oak Ridge National
Laboratory epidemiological study
Report submitted to the faculty of the University of North Carolina, Chapel Hill, in
partial fulfillment of the requirements for the degree of Master of Science in Public
Health in the Department of Environmental Sciences and Engineering, Chapel Hill, 1982

1983

Abd Elghany N
An epidemiological study of cancer mortality among workers exposed to occupational low
levels of ionizing radiation
Ph.D. Dissertation, University of North Carolina, Chapel Hill, 1983

Beck WL, Cookfair DL, Sowder CL, and Gissel K
Radiation dosimetry for epidemiologic lung cancer study
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the
Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp.
436-443, Albuquerque, NM, 1983

Checkoway H, Mathew RM, Wolf SH, Shy CM, Muller SM, Beck J, Watson JE,
Wray M, and Fry SA
Mortality among workers at the Oak Ridge National Laboratory
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the
Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp.
90-104, Albuquerque, NM, 1983

Cookfair DL, Beck WL, Shy CM, Lushbaugh CC, and Sowder CL
Lung cancer among workers at a uranium processing plant
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the
Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp.
398-406, Albuquerque, NM, 1983

Cragle DL
The effects of genetic and environmental interaction in an epidemiologic investigation
of colon cancer and water quality
Ph.D. Dissertation, University of North Carolina, Chapel Hill, 1983

1983 (Continued)

Gissel KC, Hansard MS, and Wray ML
HMS error detection, reporting, and resolution system
Statistical Methods and the Improvement of Data Quality, 321-332, 1983 ISBN 0-12-765480-1

Groer PG
Comments on a paper by Irwin D. J. Bross and Deborah L. Daiscoll: Direct estimates of low-level radiation risks of lung cancer
Yale Journal of Biology and Medicine 56:47, 1983

Hollis Hudson D, Beck WL, Fry SA, Lushbaugh CC, and Watson J
Considerations in using radiation dosimetry data in epidemiologic studies
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp. 199-207, Albuquerque, NM, 1983

Lushbaugh CC, Fry SA, Shy CM, and Frome EL
The DOE health and mortality study at Oak Ridge
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp. 105-114, Albuquerque, NM, 1983

Mani KV
Assessment of Oak Ridge National Laboratory internal dosimetry data for DOE Health and Mortality Study
M.S. Dissertation, University of North Carolina, Chapel Hill, 1983

Robie DM and Fry SA
Computerized micrographics in processing hard-copy records for an epidemiologic study
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp. 240-243, Albuquerque, NM, 1983

Strom DJ
A strategy for assessing occupational radiation monitoring data from many facilities for use in epidemiologic studies
Ph.D. Dissertation, University of North Carolina, Chapel Hill, 1983

Strom DJ, Beck WL, Stansbury PS, Tankersley WG, and Watson JE
Standard procedures for pooling health physics data for epidemiologic studies
In: Health Physics Society: Epidemiology Applied to Health Physics, Proceedings of the Sixteenth Midyear Topical Symposium, U.S. Department of Energy Report CONF-830101, pp. 221-230, Albuquerque, NM, 1983

Wilson J
An epidemiologic investigation of nonmalignant respiratory disease among workers at a uranium mill
Ph.D. Dissertation, University of North Carolina, Chapel Hill, 1983

Worrel M and Hudson DH
An automated data base to SAS/GRAPH system
In: Proceedings of Eighth Annual Statistical Analysis: System Users Group, International Conference, New Orleans, 1983, pp. 221-226, Cary, North Carolina: SAS Institute, 1983

1984

Cragle DL, Hollis DR, Shy CM, and Newport TH
A retrospective cohort mortality study among workers occupationally exposed to metallic nickel powder at the Oak Ridge Gaseous Diffusion Plant
In: Nickel in the Human Environment (IARC Scientific Publication No. 53) (Sunderman FW, et al., eds), pp. 57-63, Lyon, International Agency for Research on Cancers, 1984

Cragle DL, Shy CM, Struba RJ, and Siff EJ
A case-control study of colon cancer and water chlorination in North Carolina
In: Proceedings of the 5th Conference on Water Chlorination: Environmental Impact and Health Effects, 1984, Williamsburg, Virginia
Water Chlorination: Chemistry, Environmental Impact, and Health Effects
5:153-159, 1984

Frome EL
Response to Nelder's reaction on Poisson rate analysis
Biometrics 40:1160-1162, 1984

Frome EL and McLain RW
A macro for fitting nonlinear models to Poisson distributed data
In: Proceedings of the Eighth Annual SAS Users Group International Conference, March 18-21, 1984, Hollywood, FL

Groer PG
Bayesian estimates for the rate of Three Mile Island type releases
In: Low-Probability High-Consequence Risk Analysis, Plenum Publishing Corporation, 127-136, 1984

Hickey JLS, Crawford-Brown DJ, and Tankersley WG
Occupational exposures of workers to chemicals and radiation during uranium processing at the Linde Ceramics Plant, 1943-1949
ORAU Technical Report, ORAU-88/A-16, February 1984

1985

Flanders WD, Cragle DL, and McClanahan JW
Evaluation of nonworker residents as a comparison group in occupational studies of Oak Ridge
ORAU Technical Report ORAU-241, 1985

Fry SA, Lushbaugh CC, Shy CM, Cragle DL, Checkoway H, Blum S, Carpenter AV, Dupree EA, Frome EL, Groer PG, and Wilson J
The U.S. Department of Energy Health and Mortality Study: The Oak Ridge studies
In: Epidemiological Studies of Some Populations Exposed to Ionizing Radiation, (JL Weeks, Compiler), pp. 18-40, Atomic Energy of Canada Limited, Pinawa, Manitoba, AECL-8360, 1985

Groer PG
Probabilistic causality and radiogenic cancers
In: Proceedings of the 4th International Radiopharmaceutical Dosimetry Symposium, November 5-8, 1985, Oak Ridge, Tennessee, Conf-851113-(DE86010102), National Technical Information Service, Springfield, VA 22161

1986

Frome EL

Regression methods for binomial and Poisson distributed data

In: Proceedings of AAPM First Midyear Topical Symposium, Multiple

Regression Analysis: Applications in the Health Sciences, March 12-16, 1984, Mobile, AL, Eds. D Herbert and JR Myers, American Institute of Physics, New York, pp. 84-123, 1986

Fry RJM and Fry SA

Ionizing radiation: Late somatic effects in humans

In: Encyclopedia of Materials Science and Engineering, Ed. MB Bewer, pp. 2422-2423, 1986, Pergamon, Oxford

Lushbaugh CC, Hubner KF, Fry SA, and Beck WL

Ionizing radiation: Acute effects

In: Encyclopedia of Materials Science and Engineering, Ed., MB Bever, pp. 2419-2421, 1986, Pergamon, Oxford

McLain RW and Frome EL

A system for the analysis of cohort mortality data

In SAS Users Group International Conference Proceedings: SUGI 11, Cary, NC: SAS Institute, Inc., pp. 874-876, 1986

1987

Carpenter AV, Flanders WD, Frome EL, Crawford-Brown DJ, and Fry SA

Radiation exposure and central nervous system cancers: A case-control study among workers at two nuclear facilities

ORAU Technical Report ORAU-282, 1987

DuMouchel W and Groer PG

A Bayesian methodology for combining radiation studies

In: The Effects on Populations of Internally Deposited Alpha-Emitting Radionuclides:

1987, Committee on the Biological Effects of Internal Radiations, pp. 348-366, National Academy Press, Washington, DC

Frome EL

Statistical analysis of cytogenetic dose-response curves

In: Statistical Methods in Toxicological Research, Eds. D Krewski and C Franklin, Gordon & Breach Science Publication, Inc., 1987

Groer PG

Internal dosimetry for epidemiologic studies

In: Proceedings of the Department of Energy Workshop on Radiobioassay and Internal

Dosimetry, Albuquerque, New Mexico, January 20-22, 1986, CONF-860146, pp. 99-104, March 1987

Groer PG and Pereira CA

Calibration of a radiation detector: Chromosome dosimetry for neutrons

In: Probability and Bayesian Statistics, (R. Viertl, ed.), Plenum Publishing Corporation, 1987, pp. 225-232

1988

Fry SA, Carpenter AV, Cragle DL, Dupree EA, Groer PG, Lushbaugh CC, Checkoway H, Crawford-Brown DJ, Shy CM, Watson JE, and Frome EL
Studies of mortality among populations of U.S. nuclear industry workers
In: Proceedings of the International Conference, Health Effects of Low Dose Ionizing Radiation--Recent Advances and Their Implications, London, England, May 11-14, 1987, Organized by the British Nuclear Energy Society and co-sponsored by the European Nuclear Society, 1988

1989

Crawford-Brown DJ, Watson JE, Strom DJ, and Tankersley WG
Procedures for assessing occupational radiation monitoring data for use in epidemiologic studies
ORAU Technical Report, ORAU 89/A-127, 1989

Dupree EA
An epidemiologic investigation of mortality among workers occupationally exposed to uranium compounds at a uranium processing plant
Ph.D. Dissertation, University of North Carolina, Chapel Hill, 1989

Groer PG, de B Pereira CA, and Wallace PW
Weight of evidence analysis of lung cancer in Colorado Plateau uranium miners
In: Proceedings of the 14th L. H. Gray Conference on Low Dose Radiation: Biological Bases of Risk Assessment, September 11-16, 1988, Oxford, England, 1989

Ostrouchov G and Frome EL
A model search procedure for hierarchical log-linear models
In: 1989 Proceedings of the Statistical Computing Section of the American Statistical Association, pp. 277-282

1990

Payne D
Managing a four million block Oracle data base
In: Proceedings of the 1990 International Oracle Users Group Conference, September 23-28, 1990, Anaheim, CA

1991

Frome EL
Statistical analysis of Cytogenetic dose-response curves
In: Statistics in Toxicology, D Krewski and C Franklin eds., pp. 281-298, New York: Gordon and Breach Science Publishers, 1991

Payne D, Reagan J, and Wallace P
Data modeling of scientific data
In: Proceedings of the 1991 International Oracle Users Group Conference, September 29-October 3, 1991, Miami, FL

1992

Fry SA

The status of current epidemiological knowledge of radiocarcinogenicity: other, miscellaneous cancers

In: BIR Report 22: The Future of Human Radiation Research, Session 5: Other, miscellaneous cancers, (Gerber GB, Taylor DM, Cardis E, Thiessen JW, and Frazier ME, eds.), pp. 71-75, British Institute of Radiology, London, England, 1992

Galloway Jr GR

Characterization and assessment of Oak Ridge Gaseous Diffusion Plant dosimetry data for Oak Ridge Associated Universities Health and Mortality Study of Department of Energy radiation workers

M.S. Thesis, University of North Carolina, Chapel Hill, 1992

Xiao S

Estimation of low-level net counting rates and exposures

M.S. Thesis, University of Tennessee, Knoxville, 1992

1993

Watkins JP, Reagan JL, Cragle DL, Frome EL, West CM, Crawford-Brown DJ, and Tankersley WG

Data collection, validation, and description for the Oak Ridge Nuclear Facilities Mortality Study

Oak Ridge Institute for Science and Education: Oak Ridge, TN, ORAU Technical Report, ORISE 93/J-42, 1993

1994

Watkins JP, Cragle DL, Frome EL, West CM, Crawford-Brown DJ, and Tankersley WG

Adjusting External Doses from the ORNL and Y-12 Facilities for the Oak Ridge Nuclear Facilities Mortality Study

Oak Ridge Institute for Science and Education: Oak Ridge, TN, ORAU Technical Report, ORISE 94/G-34, 1994

1995

Fry SA, Cragle DL, Crawford-Brown DJ, Dupree EA, Frome EL, Gilbert ES,

Petersen GR, Shy CM, Tankersley WG, Voelz GL, Wallace PW, Watkins JP,

Watson Jr JE, and Wiggs LD

Health and mortality among contractor employees at United States Department of Energy facilities

In: Radiation and Public Perception: Benefits and Risks, (Young JP and Yalow RS eds.), pp. 239-258, Advances in Chemistry Series 243, American Chemical Society, 1995

1996

Brodsky A, Austin MA, Bogard JS, Manninen B, McGuire SA, Wagner ER,

Scott LM, Sun C, and West CM

An American National Standard--Bioassay Programs for Uranium
Health Physics Society: McLean, VA, HPS N13.22-1995, 1996

1997

Frome EL, Cragle DL, Watkins JP, Wing SB, Shy CM, Tankersley WG, and West CM
A mortality study of employees of the nuclear industry in Oak Ridge, Tennessee
Oak Ridge National Laboratory: Oak Ridge, TN, ORNL-6785, July 1997

1998

Watkins JP and Eisele GR
Comparison of two security clearance screening procedures
In: American Statistical Association 1997 Proceedings of the Section on Government
Statistics and Section on Social Statistics, Annual Meeting of the American Statistical
Association, August 10-14, 1997, Anaheim, CA

1999

Watkins J, Borges T, Stafford R, Biggar R, Goedert J
Collection and Verification of Data for Matched Records from U.S. Cancer and HIV/AIDS
Registries
In: Proceedings of the 1999 American Statistical Association Joint Statistics Meeting,
Section for Statistics in Epidemiology, August 7-12, 1999, Baltimore, MD

2004

Watkins JP, Kerr GD, Frome EL, Tankersley WG, and West CM
Historical Evaluation of the Film Badge Dosimetry Program at the Y-12 Facility in Oak
Ridge, Tennessee
Part 1 - Gamma Radiation
ORAU Technical Report #2004-0888, August 2004.

Aldrich, JM, Daugherty, NM, Cragle, DL, Ellis, ED, Falk, RB, Follmer, J, Furman, FJ,
Girardi, DJ, Hilmas, D, Watkins, JP, and Wells, SM
Former Radiation Worker Medical Surveillance Program at Rocky Flats
Final Report, ORISE 04-1547, December 2004.

2005

Kerr, GD, Watkins, JP, Frome, EL, and Tankersley, WG, Technical Information Bulletin:
Historical Evaluation of the Film Badge Dosimetry Program at the Y-12 Facility in Oak
Ridge, Tennessee: Part 1 - Gamma Radiation, ORAUT-OTIB-0042, July 2005.

Kerr, GD, Frome, EL, Tankersley, WG, and Watkins, JP, Technical Information Bulletin:
Historical Evaluation of the Film Badge Dosimetry Program at the Y-12 Facility in Oak
Ridge, Tennessee: Part 2 - Neutron Radiation, ORAUT-OTIB-0044, July 2005.

Kerr, GD, Tankersley, WG, and Watkins, JP, Technical Information Bulletin: External
Radiation Monitoring at the Y-12 Facility during the 1948-1949 Period, ORAUT-OTIB-0047,
September 2005.

FULL-LENGTH JOURNAL ARTICLES

1979

Godbold JH and Tompkins EA
A long-term mortality study of workers occupationally exposed to metallic nickel at the Oak Ridge Gaseous Diffusion Plant
Journal of Occupational Medicine 21:799-806, 1979

1980

Polednak AP
Mortality among men occupationally exposed to phosgene in 1943-1945
Environmental Research 22:357-367, 1980

1981

Frome EL
Poisson regression analysis
American Statistician 35:262-263, 1981

Polednak AP
Mortality among welders, including a group exposed to nickel oxides
Archives of Environmental Health 36:235-242, 1981

Polednak AP and Frome EL
Mortality among men employed between 1943 and 1947 at a uranium-processing plant
Journal of Occupational Medicine 23:169-178, 1981

1982

Frome EL
Fisher's exact variance test for the Poisson distribution
Applied Statistics 31:67-71, 1982

Polednak AP, Keane AT, and Beck WL
Estimation of radiation doses to the lungs of early uranium-processing plant workers
Environmental Research 28:313-328, 1982

1983

Frome EL
The analysis of rates using Poisson regression models
Biometrics 39:665-674, 1983

Polednak AP and Keane AT
Retention of uranium in the chest: Implications of finding in vivo and postmortem
Health Physics 44(Suppl. 1):391-402, 1983

1984

Brodsky JB, Liddell R, Groer PG, Ishimaru T, and Ichimaru M
Temporal analysis of a dose-response relationship: Leukemia mortality in atomic bomb survivors
Radiation Research 99:547-561, 1984

1984 (Continued)

Cragle DL, Hollis DR, Qualters JR, Tankersley WG, and Fry SA
A mortality study of men exposed to elemental mercury
Journal of Occupational Medicine 26(11):817-821, 1984

Crawford-Brown DJ and Wilson J
Observations on very long-term removal of uranium compounds
Health Physics 47(3):443-446, 1984

1985

Checkoway H, Mathew RM, Shy CM, Watson JE, Tankersley WG, Wolf SH, Smith JC, and Fry SA
Radiation, work experience, and cause specific mortality among workers at an energy
research laboratory
British Journal of Industrial Medicine 42:525-533, 1985

Frome EL and Checkoway H
Epidemiologic programs for computers and calculators:
Use of Poisson regression models in estimating incidence rates and ratios
American Journal of Epidemiology 121(2):309-323, 1985

Polednak AP and Hollis DR
Mortality and causes of death among workers exposed to phosgene in 1943-1945
Toxicology and Industrial Health 1(2):137-147, 1985

1986

Checkoway H
Methods of treatment of exposure data in occupational epidemiology
Medicina del Lavoro 77(1):48-73, 1986

Pearce N, Checkoway H, and Shy CM
Time-related factors as potential confounders and effect modifiers in studies based on
an occupational cohort
Scandinavian Journal of Work, Environment and Health
12:97-107, 1986

1987

Carpenter AV, Flanders WD, Frome EL, Cole P, and Fry SA
Brain cancer and nonoccupational risk factors: A case-control study among workers at
two nuclear facilities
American Journal of Public Health
77(9):1180-1182, September 1987

Carpenter AV, Flanders WD, Frome EL, Crawford-Brown DJ, and Fry SA
CNS cancers and radiation exposure: A case-control study among workers at two nuclear
facilities
Journal of Occupational Medicine 29(7):601-604, 1987

Checkoway H and Crawford-Brown D
Metabolic modeling of organ-specific doses to carcinogens as illustrated with alpha-
radiation emitting radionuclides
Journal of Chronic Diseases 40(Suppl. 2):191S-200S, 1987

1987 (Continued)

Dupree EA, Cragle DL, McLain RW, Crawford-Brown DJ, and Teta MJ
Mortality among workers at a uranium processing facility, the Linde Air Products Company Ceramics Plant, 1943-1949
Scandinavian Journal of Work, Environment and Health
13:100-107, 1987

1988

Bender MA, Awa AA, Brooks AL, Evans HJ, Groer PG, Littlefield LG, Pereira CA, Preston RJ, and Wachholz, BW
Current status of cytogenetic procedures to detect and quantify previous exposures to radiation
Mutation Research 196:103-159, 1988

Carpenter AV, Flanders WD, Frome EL, Tankersley WG, and Fry SA
Chemical exposures and central nervous system cancers: A case-control study among workers at two nuclear facilities
American Journal of Industrial Medicine 13(3):351-362, 1988

Checkoway H and Hickey JLS
Estimating the potential disease rate reduction under varying conditions of combined effects
International Journal of Epidemiology 27(3):666-672, 1988

Checkoway H, Pearce NE, Crawford-Brown DJ, and Cragle DL
Radiation doses and cause-specific mortality among workers at a nuclear materials fabrication plant
American Journal of Epidemiology 127(2):255-266, 1988

Cragle DL, McLain RW, Qualters JR, Hickey JLS, Wilkinson GS, Tankersley WG, and Lushbaugh CC
Mortality among workers at a nuclear fuels production facility
American Journal of Industrial Medicine 14(4):379-401, 1988

1989

DuMouchel W and Groer PG
A bayesian methodology for scaling radiation studies from animals to man
Health Physics 57(Suppl. 1):411-418, 1989

Frome EL and Morris MD
Evaluating goodness of fit of Poisson regression models in cohort studies
American Statistician 43:144-147, 1989

Gilbert ES, Fry SA, Wiggs LD, Voelz GL, Cragle DL, and Petersen GR
Analyses of combined mortality data on workers at the Hanford Site, Oak Ridge National Laboratory, and Rocky Flats Nuclear Weapons Plant
Radiation Research 120:19-35, 1989

1990

Doll R, Andersen A, Copper WC, Cosmatos I, Cragle DL, et al.
Report of the International Committee on Nickel Carcinogenesis in Man
Scandinavian Journal of Work, Environment and Health 16(10): Special Issue, 1990

Frome EL, Cragle DL, and McLain RW
Poisson regression analysis of the mortality among a cohort of World War II nuclear
industry workers
Radiation Research 123:138-152, 1990

Gilbert ES, Fry SA, Wiggs LD, Voelz GL, Cragle DL, and Petersen GR
Methods for analyzing combined data from studies of workers exposed to low doses of
radiation
American Journal of Epidemiology 131(5):917-927, 1990

1991

Wing S, Shy CM, Wood JL, Wolf S, Cragle DL, and Frome EL
Mortality among workers at Oak Ridge National Laboratory: Evidence of radiation
effects in follow-up through 1984
Journal of the American Medical Association
265(11):1397-1402, 1991

1992

Cragle DL and Fetcher A
Risk factors associated with the classification of unspecified and/or unexplained
causes of death in an occupational cohort
American Journal of Public Health 82(3):455-457, 1992

Cragle DL, Wells SM, and Tankersley WG
An occupational morbidity study of a population potentially exposed to epoxy resins,
hardeners and solvents
Applied Occupational and Environmental Hygiene 7(12):826-834, 1992

1993

Cragle DL and Butler AF
Classifying unspecified and/or unexplained causes of death [letters to the editor]
American Journal of Public Health 83(10):1492-1493, 1993

Gilbert ES, Cragle DL, and Wiggs LD
Updated analyses of combined mortality data on workers at the Hanford Site, Oak Ridge
National Laboratory, and Rocky Flats Weapons Plant
Radiation Research 136:408-421, 1993

Wing S, Shy CM, Wood JL, Wolf S, Cragle DL, Tankersley W, and Frome EL
Job factors, radiation and cancer mortality at Oak Ridge National
Laboratory: Follow-up through 1984
American Journal of Industrial Medicine 23(2):265-279, 1993

1994

Watson JE, Wood JL, Tankersley WG, and West CM
Estimation of radiation doses for workers without monitoring data for retrospective epidemiologic studies
Health Physics 67(4):402-405, 1994

Wing S, West CM, Wood JL, and Tankersley W
Recording of external radiation exposures at Oak Ridge National Laboratory: Implications for epidemiological studies
Journal of Exposure Analysis and Environmental Epidemiology 4(1):83-93, 1994

1995

West CM, Watkins JP, Tankersley WG, and Payne DD
Lung dose estimates from air sampling and bioassay data--a comparison
Health Physics 69(4):481-486, 1995

Dupree EA, Watkins JP, Ingle JN, Wallace PW, West CM, and Tankersley WG
Uranium dust exposure and lung cancer risk in four uranium processing operations
Epidemiology 6(4):370-375, 1995

1996

Loomis DP and Wolf SH
Mortality of workers at a nuclear materials production plant at Oak Ridge, Tennessee, 1947-1990
American Journal of Industrial Medicine 29:131-141, 1996

Frome EL, Smith MH, Littlefield LG, Neubert RL, and Colyer SL
Statistical methods for the blood beryllium lymphocyte proliferation test
Environmental Health Perspectives 104(Suppl. 5):957-968, 1996

Fry SA, Dupree EA, Sipe AH, Seiler DL, and Wallace PW
A study of mortality and morbidity among persons occupationally exposed to ≥ 50 mSv in a year: Phase I, mortality through 1984
Applied Occupational and Environmental Hygiene 11(4):334-343, 1996

Tankersley WG, West CM, Watson JE, and Reagan JL
Retrospective assessment of radiation exposures at or below the minimum detectable level at a federal nuclear reactor facility
Applied Occupational and Environmental Hygiene 11(4):330-333, 1996

1997

Frome EL, Cragle DL, Watkins JP, Wing S, Shy CM, Tankersley WG, and West CM
A mortality study of employees of the nuclear industry in Oak Ridge, Tennessee
Radiation Research 148:64-80, 1997

Watkins JP, Cragle DL, Frome EL, Reagan JL, West CM, Crawford-Brown D, and Tankersley WG
Collection, validation, and treatment of data for a mortality study of nuclear industry workers
Applied Occupational and Environmental Hygiene 12(3):195-205, 1997

1998

Eisele GR, Watkins JP, and Matthews KO
Workplace violence at government sites
American Journal of Industrial Medicine 33:485-492, 1998

1999

Cragle DL, Watkins JP, and Robertson-DeMers K
Mortality among workers at the Savannah River Nuclear Fuels Production Facility
American Statistical Association 1998 Proceedings of the Section on Statistics in
Epidemiology 83-87, 1999

2000

Letz R, Gerr F, Cragle D, Green RC, Watkins J, and Fidler AT
Residual neurologic deficits 30 years after occupational exposure to elemental
mercury
NeuroToxicology 21(4):459-474, 2000

Watkins JP, Eisele GR, and Matthews KO
Occupational medical program alcohol screening: Utility of the CAGE and BMAST
Journal of Substance Abuse Treatment 19:51-57, 2000

Dupree-Ellis E, Watkins J, Ingle JN, and Phillips J
External radiation exposure and mortality in a cohort of uranium processing workers
American Journal of Epidemiology 152(1):91-95, 2000

2001

Borges HT, Watkins J, Stafford R, and Biggar RJ
Linkage of selected AIDS and cancer registries in the United States
Journal of Registry Management 28(2):89-92, 2001

Stange AW, Hilmas DE, Furman FJ, and Gatcliffe TR
Beryllium sensitization and chronic beryllium disease at a former nuclear weapons
facility
Applied Occupational and Environmental Hygiene 16(3):405-417, 2001

Daugherty, NM, Falk RB, Furman FJ, Aldrich JM, and Hilmas DE
Former radiation worker medical surveillance program at Rocky Flats
Health Physics 80(6):544-551

2003

Frome EL, Newman LS, Cragle DL, Colyer SP, and Wambach PF
Identification of an abnormal beryllium lymphocyte proliferation test
Toxicology 183:39-56

2004

Stange, AW, Furman, FJ, and Hilmas, DE
The beryllium lymphocyte proliferation test: Relevant issues in beryllium health
surveillance
American Journal of Industrial Medicine 46:453-462

2005
