(Includes FY 2004 accounts and crosswalks and new FY 2005 accounts and crosswalks)

The June 2003 revisions to OMB Circular A-11 restated the budgetary presentation requirements for reductions. There are now two basic categories to distinguish reductions. These categories are temporary and permanent. Reductions of borrowing authority are considered permanent.

The following scenario displays a permanent reduction to new budget authority derived from borrowing authority. In FY 2004, there are three USSGL accounts available for posting permanent reductions. The FY 2004 account numbers and titles are shown in the scenario in normal text. Each account crosswalks to OMB SF-133 line "6. Permanently not available: B. Enacted reductions."

For FY 2005, USSGL account titles were changed to more closely correspond to the OMB Circular No. A-11 dated June 2003. Account titles and definitions approved for FY 2005 are shown in bold italics. As in FY 2004, each account crosswalks to OMB SF-133 line "6. Permanently not available: B. Enacted reductions."

These USSGL accounts to be used for reductions of borrowing authority are:

- 4392 Rescission New Budget Authority *Permanent Reduction New Budget Authority*
- 4393 Rescission Prior-Year *Permanent Reduction Prior-Year Balances*
- 4396 Authority Permanently Unavailable for Obligation Pursuant to Public Law *Delete in FY2005*

Like all permanent reductions, the gross amount of budget authority provided is reflected on line 1 of the SF-133, while the reduction is reflected separately on line 6B of the SF-133. Permanent reductions are lost as resources of the fund forever.

The following scenario reflects a discretionary program in which new budget authority provided in the form of definite borrowing authority is reduced. USSGL account 4392, attribute Authority Type "B" (borrowing authority) is highlighted in the following scenario.

1. To record the enactment of public law for new borrowing authority.

CR 4450 Unapportioned Authority	1,000

2. To record OMB approved apportionment request on SF 132 for borrowing authority.

4. To record a 10% reduction to the borrowing authority recorded in transaction 1. Use Authority Type attribute B to specify the reduction to borrowing authority. This attribute ensures proper crosswalks to the OMB Schedule P and FMS 2108. (Reductions are often expressed as a percentage of the amount provided in an Appropriations Act).
