Trees and power lines were blown down.

### KENTUCKY, Southwest

#### KYZ021

#### Muhlenberg

01	0000CST			0	0			Flood
03	1500CST							

Minor flooding of the Green River occurred as a result of heavy rains from the remnants of Hurricane Katrina at the end of August. At the Paradise Fossil Plant, the river crested at 384.31 feet on the 2nd. Flood stage there is 380 feet. There was minor flooding of low-lying wooded bottomlands and fields.

### MISSOURI, Southeast

#### Carter County

Van Buren	14	0115CST			0	0	1K		Thunderstorm Wind (EG50)
-----------	----	---------	--	--	---	---	----	--	--------------------------

A couple of trees were blown down, including one on a power line.

#### MOZ087-110>112-114

#### Cape Girardeau - Stoddard - Scott - Mississippi - New Madrid

25	0900CST			0	0	15K		Strong Wind (EG40)
	1100CST							

A couple of hours of strong, gusty winds were associated with the remnants of dissipating Tropical Storm Rita. About 5,400 utility customers lost power for up to 13 hours. About 70 separate outages were reported, mostly due to trees falling on power lines. The peak wind gust at the Cape Girardeau Airport was 41 MPH.

#### Perry County

Perryville	28	1725CST			0	0	1K		Thunderstorm Wind (EG50)
------------	----	---------	--	--	---	---	----	--	--------------------------

Power lines were blown down.
