	C	Check the following Da	ta Items if co	ollected in	the Borehole	(Report wh	en data is acquired)		
Velocity Surveys	Vertical Seisn				Cores/Rotary Sid		Percussion Sidewall Samples		
		If Sa			•	will be perfo	ormed? (Report at completion of borehole)		
PVT Analysis	LACT OF 4005 (DDA) CTATEMENT -		leo Analysis			Geochem Analysis	1.90	

PAPERWORK REDUCTION ACT OF 1995 (PRA) STATEMENT: The PRA (44 U.S.C. 3501 et seq.) requires us to inform you that we collect this information to obtain knowledge of equipment and procedures to be used in drilling operations. MMS uses the information to evaluate and approve or disapprove the adequacy of the equipment and/or procedures to safely perform the proposed drilling operations. Responses are mandatory (43 U.S.C. 1334). Proprietary data are covered under 30 CFR 250.196. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. Public reporting burden for forms MMS-133 is estimated to average between 0.5-3 hours per response, depending on whether it is a paper submittal or electronic submittal. This includes the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Mail Stop 4230, Minerals Management Service, 1849 C Street, NW, Washington, DC 20240.
