Clerk of Court Newsletter January 16, 2007

To Attorneys, CM/ECF Users, and the Public:

This communication contains information about news, events, and activities at the Bankruptcy Court. While much of this information is contained on the Court's website, I convey it to you for immediate use.

- **Revised Implementation Order** The Court's Implementation Order has been updated to separate the two appendices (Ch. 13 plan and Ch. 13 mandatory consent order) from the Order itself. The Order now refers to both documents as being available on the Court's website. The Ch. 13 plan has not changed but the mandatory consent order has been changed to clarify the address to which the debtor should send payments, to clarify that the terms of the stipulation will remain in effect as long as the stay is in effect as to the movant, and to provide that an order granting relief following a notice of breach will not be stayed for 10 days. Because these changes were made to the Consent Order and Stipulation Form and not to the Implementation Order itself, the Implementation Order remains dated December 21, 2006. The updated Implementation Order can be found at www.moeb.uscourts.gov/pdfs/impl_order_12-21-06.pdf and the revised Consent Order and Stipulation Form can be found at www.moeb.uscourts.gov/forms/PDF/Ch_13_Consent_Order_Stip.pdf.
- **New Security Feature** Beginning February 1, 2007, CM/ECF will require use of the four-digit security code (found on the front of credit/debit cards) when a financial transaction occurs. This feature is added as a way to increase security and means this code must be added whenever a fee is paid online. This feature is used for many web-based transactions beyond the Judiciary and may already be familiar to most e-filers.
- **Seminar** This Court's judges will once again participate in the Missouri Bar's Annual Bankruptcy Institute. Dates are February 9, 2007 in St. Louis and February 16, 2007 in Cape Girardeau. Additional details can be found on the MO Bar website at <http://www.legalspan.com/mobar/calendar.asp>.
