TREASURY TO AUCTION \$16,000 MILLION OF 2-YEAR NOTES

The Treasury will auction \$16,000 million of 2-year notes to refund \$30,615 million of publicly held securities maturing November 30, 1998, and to pay down about \$14,615 million.

In addition to the public holdings, Federal Reserve Banks hold \$2,032 million of the maturing securities for their own accounts, which may be refunded by issuing an additional amount of the new security.

The maturing securities held by the public include \$5,278 million held by Federal Reserve Banks as agents for foreign and international monetary authorities. Amounts bid for these accounts by Federal Reserve Banks will be added to the offering.

The auction will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders.

The notes being offered today are eligible for the STRIPS program.

Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D. C. This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular (31 CFR Part 356, as amended) for the sale and issue by the Treasury to the public of marketable Treasury bills, notes, and bonds.

Details about the new security are given in the attached offering highlights.
