## TREASURY MAY QUARTERLY FINANCING

The Treasury will auction \$13,000 million of 5-year notes and \$9,000 million of 9-3/4-year 5% notes to refund \$21,390 million of publicly held securities maturing May 15, 2001, and to raise about \$610 million of new cash.

In addition to the public holdings, Federal Reserve Banks hold \$5,632 million of the maturing securities for their own accounts, which may be refunded by issuing additional amounts of the new securities.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of each auction. These noncompetitive bids will have a limit of \$200 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

*TreasuryDirect* customers requested that we reinvest their maturing holdings of approximately \$177 million into the 5-year note and \$14 million into the 9-3/4-year note.

All of the auctions being announced today will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders. The allocation percentage applied to bids awarded at the highest yield will be rounded up to the next hundredth of a whole percentage point, e.g., 17.13%.

All of the securities being offered today are eligible for the STRIPS program.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about the notes are given in the attached offering highlights.
