

Proposed Caribou 138/115-kilovolt Substation and Caribou-Lower Valley 115-kV Transmission Line Project

"I'd like to tell you . . ."

1. Please have your environmental studies look at:

ELK HABIT south of HAUL ROAD & west of Blackfoot
River Road - Best if NOT through that area - But if
necessary schedule const. around elk season, migration
& calving -
The elk travel back & forth across Blackfoot River Road

2. I need more information about:

Routing seems to be up in the Air -
I would object strongly to Transmission Line crossing
my Ranch

3. I have these other comments:

I would prefer A "Southern" Route away from
Ranches on Blackfoot River Road

Please put me on your project mailing list. (You are already on the mailing list, if you have received mailed notices.)
