German students learn about the Nez Perce

Hanna Schluckebier recently completed an awesome project on the Nez Perce Tribe. She made a very nice 30 page report about the Nez Perce . She also made a nice buckskin bag colored with walnuts and pearls. To complete the project Hanna had to give a lecture to parents, teachers and students on the Nez Perce. Some of these people had never heard of the Nez Perce and are now fascinated about their history and culture.

We would like to thank Hanna for her great job and for sharing these photos.
