Janice Obuchowski, Assistant Secretary  
for Communications and Information

July 1991

## PREFACE

Certain commercial equipment, instruments, or materials are identified in this report to adequately describe the experimental procedure. In no case does such identification imply recommendation or endorsement by the National Telecommunications and Information Administration, nor does it imply that the material or equipment identified is necessarily the best available for the purpose.

## CONTENTS

	Page
1. INTRODUCTION .....	1
2. PULSE SHAPES .....	2
3. SPECTRA.....	6
4. SAN FRANCISCO DATA.....	12
5. CONCLUSIONS .....	31
6. ACKNOWLEDGEMENTS .....	31
7. REFERENCES .....	31

## FIGURES

Figure 1.	A closeup of the four suggested pulse shapes.....	3
Figure 2.	The teletext optimum pulse shape.....	4
Figure 3.	A wider view of the four pulse shapes .....	5
Figure 4.	The four pulse shapes as observed on a relatively clean path .....	5
Figure 5.	The four pulse shapes as observed on a path with moderate multipath.....	6
Figure 6.	The uncorrected spectrum of the impulse response observed on the relatively clean path of Figure 4.....	7
Figure 7.	The spectrum of Figure 6 after division by spectra of the known, computable filters .....	7
Figure 8.	The corrected spectrum of the simulated teletext optimum pulse in Figures 2 and 3 .....	8
Figure 9.	The impulse response and spectrum observed on the UHF channel for the same path as used in Figure 7 .....	9
Figure 10.	The impulse response and spectrum on a path with severe multipath.....	11
Figure 11.	The impulse response and spectrum on a path with severe multipath.....	11
Figure 12.	Map of the San Francisco region showing the archetypal measurement areas .....	13
Figure 13.	A mountainous rural area in the Santa Cruz Mountains .....	15
Figure 14.	An open residential area in Palo Alto.....	16
Figure 15.	An open residential area in Fremont.....	17
Figure 16.	An open residential area in Berkeley .....	18
Figure 17.	An open residential area in Piedmont .....	19
Figure 18.	An open residential area in Pinole.....	20
Figure 19.	A wooded residential area in Palo Alto.....	21
Figure 20.	A wooded residential area in Berkeley .....	22
