

Description: Do you talk more than you listen? Rate yourself on chart #1. Cut out charts #2-4, write your name on each chart, and ask three of your classmates to score your talk/listening ratio. Compile the averages of charts #2-4. Does the final score reflect how you rated yourself? Were there any surprises? If so, what are some reasons?

<p>Chart #1 Name _____</p> <p>Check the line of the ratio that best represents the percentage of the time that you generally:</p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 15%;">Talk</th> <th style="width: 15%;">Listen</th> <th style="width: 70%;"></th> </tr> </thead> <tbody> <tr><td>10</td><td>90</td><td></td></tr> <tr><td>20</td><td>80</td><td></td></tr> <tr><td>30</td><td>70</td><td></td></tr> <tr><td>40</td><td>60</td><td></td></tr> <tr><td>50</td><td>50</td><td></td></tr> <tr><td>60</td><td>40</td><td></td></tr> <tr><td>70</td><td>30</td><td></td></tr> <tr><td>80</td><td>20</td><td></td></tr> <tr><td>90</td><td>10</td><td></td></tr> </tbody> </table>	Talk	Listen		10	90		20	80		30	70		40	60		50	50		60	40		70	30		80	20		90	10		<p>Chart #2 Name _____</p> <p>Check the line of the ratio that best represents the percentage of the time that you generally:</p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 15%;">Talk</th> <th style="width: 15%;">Listen</th> <th style="width: 70%;"></th> </tr> </thead> <tbody> <tr><td>10</td><td>90</td><td></td></tr> <tr><td>20</td><td>80</td><td></td></tr> <tr><td>30</td><td>70</td><td></td></tr> <tr><td>40</td><td>60</td><td></td></tr> <tr><td>50</td><td>50</td><td></td></tr> <tr><td>60</td><td>40</td><td></td></tr> <tr><td>70</td><td>30</td><td></td></tr> <tr><td>80</td><td>20</td><td></td></tr> <tr><td>90</td><td>10</td><td></td></tr> </tbody> </table>	Talk	Listen		10	90		20	80		30	70		40	60		50	50		60	40		70	30		80	20		90	10
