## Oregon Withholding Tax Tables

## Effective January 1, 2007

## To: Oregon Employers

The Oregon Withholding Tax Tables include:

- Things you need to know.
- The standard tax tables for all payroll periods.
- The computer formula for automated payroll data systems.

If you need more information, call the
Oregon Department of Revenue:

## Things You Need to Know

The updated Oregon Withholding Tax Tables reflect the last phase of increasing the federal tax subtraction to $\$ 5,500$. Employees may notice a small change in the amount of Oregon tax withheld. To adjust for too much or too little tax withheld, please see publication 150-206-643, Oregon Income Tax Withholding. It's available on the internet at www.oregon.gov/DOR/BUS/IC-206-643.shtml.

## You may be personally liable for withholding taxes.

As a corporation officer or employee, you can be held personally responsible for unpaid withholding taxes owed by the corporation. That's because Oregon laws ORS 316.162 and ORS 316.207 make it possible to transfer the liability for taxes from the corporation to the responsible officers and employees when the corporation fails to pay.

## Interested in Electronic Funds Transfer (EFT)?

Payments for combined payroll taxes can be made electronically using the Department of Revenue's Electronic Funds Transfer (EFT) program. A business must register with the department and indicate the Automated Clearing House payment type (ACH Debit or ACH Credit) they plan to use before initiating payments.

Even though many businesses are required to make their payments this way, employers may voluntarily participate in the EFT program. Additional information and registration materials are available from the department's internet site: www.oregon.gov/DOR or you may call the EFT Help line at 503-947-2017 to receive a program guide.

## Things You Need to Know

## Do I use rounding of withholding amounts?

The income tax withholding amounts in the wage bracket tables have been rounded to whole dollar amounts. When employers use the percentage method, the tax for the pay period may be rounded to the nearest dollar.

## When is my withholding due?

Due dates for paying Oregon withholding tax are the same as due dates for depositing your federal tax liability.

## When do I file my withholding?

Employers with household employees, or employers who file federal Form 943 for agricultural employment, may file annual returns. All other employers must file a quarterly tax report.

As long as you are registered as an employer, you must file an Oregon Combined Tax Report even if you have no payroll during the reporting period.

Monthly payroll period (Oregon)

## Amount of tax to be withheld

| Wage | Number of Withholding Allowances |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

| For wages of \$220 and more, use $\mathbf{9}$ percent of amount over \$220 plus... |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| 220 | More | 17 | 16 | 15 | 15 | 15 | 14 | 14 | 13 | 13 | 12 | 12 | 11 | 11 | 10 | 10 | 9 | 9 | 8 |

Note: If more than 14 withholding allowances are claimed, use the daily formula on page 13.

## Use of the Daily or Miscellaneous Table

## Irregular Wage Payments:

The daily or miscellaneous table is used for regular pay periods of less than one week. It is also used in the case of any employee who has no payroll period. This method requires a determination of the number of days (including Sundays and holidays) in the period covered by the wage payment. If the wages are unrelated to a specific length of time (for example, commissions paid on completion of a sale), then the number of days must be counted from the date of payment back to the latest of these three events: (a) the last payment of wages made during the same calendar year, (b) the date employment commenced if during the same calendar year, or (c) January 1 of the same year.

## Example:

Employee claiming five withholding allowances, is employed for 25 days, and his total wage for the 25 days is $\$ 2,000$. The amount of tax to be withheld is computed as follows:

Total wage payment........................................................................................................................... $\$ 2,000.00$
Average daily wage (total divided by 25)............................................................................................. $\$ 80.00$
Tax on average daily wage from table for five allowances ..................................................................... $\$ 1.00$
Total tax to be withheld (tax on average daily wage multiplied by 25) ................................................. $\$ 25.00$

## Alternative Withholding Method for Supplemental Wage Payments

Employers may use a 9 percent flat rate to figure withholding on supplemental wages that are paid at a different time than an employee's regular payday. Some employers may find this a convenient alternative to the standard daily formula outlined above. Supplemental wages include bonuses, overtime pay, commissions, or any other form of payment received in addition to the employee's regular pay.

## Computer Formula

To figure Oregon withholding amounts, you may use the formulas shown below. If you use your own formula, it must be approved by the Oregon Department of Revenue before use.

To use the formulas for each payroll period, you must figure a 'base wage' (BASE) amount. The base wage is the employee's wage minus the federal tax withheld minus standard deduction. The federal tax deduction can't be more than $\$ 5,500$ per year in 2007. That's because Oregon personal income tax law limits the amount of federal income tax that is subtracted from federal adjusted gross income (AGI). For payroll periods of less than a year, the limit on federal tax withheld changes to reflect the shorter payroll period.

For example: The monthly federal withholding maximum is $\$ 458$ ( $\$ 5,500: 12$ ). For a single employee who (1) is earning $\$ 3,850$ per month and (2) is claiming two allowances, federal withholding is $\$ 480$. But only $\$ 458$ may be subtracted. Standard deduction is prorated in the same fashion. On the monthly basis it is \$156 (\$1,870:12). So the base wage (BASE) is \$3,136 (\$3,750-\$458-\$156).

Once you figure the base wage, use the base wage in the formulas below to compute your Oregon withholding (WH).

Example 1: A single employee has an annual wage of $\$ 15,000$ and claims one allowance. If the federal withholding for this employee is $\$ 969$ (from the federal tables or formulas), and standard deduction is $\$ 1,870$, then the BASE is $\$ 12,161(\$ 15,000-\$ 969-\$ 1,870)$. The amount of annual Oregon withholding from the table below would be $\$ 730$.

$$
\begin{aligned}
& \mathrm{WH}=\$ 444+[(\mathrm{BASE}-\$ 7,150) \times 0.09]-(\$ 165 \times \text { Allowances }) . \\
& \mathrm{WH}=\$ 444+[(\$ 12,161-\$ 7,150) \times 0.09]-(\$ 165 \times 1)=\$ 730 .
\end{aligned}
$$

You can figure Oregon withholding for this employee as follows:

| 1. Wage | \$15,000 |
| :---: | :---: |
| 2. Less federal withholding | - \$969 |
| 3. Less standard deduction. | - \$1,870 |
| 4. BASE | \$12,161 |
| 5. Amount of BASE over \$7,150 | \$5,011 |
| 6. Tax on first \$7,150 of BASE | \$444 |
| 7. Tax on excess ( $0.09 \times \$ 5,010$ ).. | \$451 |
| 8. Total tax from rates (lines $6+7$ ) | \$895 |
| 9. Less personal exemption credit (\$165 $\times 1$ )...................... | \$165 |
| 10. Net tax to be withheld | \$730 |

Example 2: A married employee earns $\$ 3,300$ per month and claims two allowances. If the employee's monthly federal withholding is $\$ 246$ and monthly standard deduction is $\$ 312$, then the BASE is $\$ 2,742$ ( $\$ 3,300-\$ 246-\$ 312$ ). The amount of Oregon monthly withholding is $\$ 186$.

$$
\begin{aligned}
& \mathrm{WH}=\$ 74+[(\mathrm{BASE}-\$ 1,192) \times 0.09]-(\$ 14 \times \text { Allowances }) . \\
& \mathrm{WH}=\$ 74+[(\$ 2,742-\$ 1,192) \times 0.09]-(\$ 14 \times 2)=\$ 186 .
\end{aligned}
$$

A list of questions and answers about the withholding formula is on page 14.

## Use the Formula that Matches Your Payroll Period:

Annual formula:
BASE = wages - federal tax withheld (not to exceed \$5,500) - standard deduction (\$1,870[S]/\$3,740[M])
Single with less than 3 allowances-use standard deduction (\$1,870 [S])
If BASE is:

| But |  |  |
| :---: | :---: | :---: |
|  | Not |  |
| Over | Over |  |
| 0 | 2,850 | WH = BASE $\times 0.05-(165 \times$ allowances $)$ |
| 2,850 | 7,150 | $\mathrm{WH}=143+[($ BASE $-2,850) \times 0.07]-(165 \times$ allowances $)$ |
| 7,150 |  | $\mathrm{WH}=444+[($ BASE $-7,150) \times 0.09]-(165 \times$ allowances $)$ |

## Married, or single with $\mathbf{3}$ or more allowances-use standard deduction (\$3,740 [M])

If BASE is:
But
Not
Over Over
$0 \rightarrow 5,700 \quad \mathrm{WH}=$ BASE $\times 0.05-(165 \times$ allowances $)$
$5,700 \rightarrow 14,300 \quad \mathrm{WH}=285+[($ BASE $-5,700) \times 0.07]-(165 \times$ allowances $)$
$14,300 \rightarrow \quad \mathrm{WH}=887+[($ BASE $-14,300) \times 0.09]-(165 \times$ allowances $)$

## Monthly formula:

BASE = wages - federal tax withheld (not to exceed \$458) - standard deduction (\$156[S]/\$312[M])

## Single with less than 3 allowances-use standard deduction (\$156 [S])

If BASE is:
But
Not
Over Over
$0 \rightarrow 238 \quad \mathrm{WH}=\mathrm{BASE} \times 0.05-(14 \times$ allowances $)$
$238 \rightarrow 596 \mathrm{WH}=12+[($ BASE -238$) \times 0.07]-(14 \times$ allowances $)$
$596 \rightarrow \quad \mathrm{WH}=37+[($ BASE -596$) \times 0.09]-(14 \times$ allowances $)$
Married, or single with $\mathbf{3}$ or more allowances-use standard deduction (\$312 [M])
If BASE is:

|  | But <br> Not <br> Over |  |
| :---: | :---: | :--- |
| Over |  |  |
| 0 | $\rightarrow$ | 475 |$\quad$| WH $=$ BASE $\times 0.05-(14 \times$ allowances $)$ |  |
| :--- | :--- |
| 475 | $\rightarrow$ |
| 1,192 | WH $=24+[($ BASE -475$) \times 0.07]-(14 \times$ allowances $)$ |
| 1,192 |  |
|  |  |
| WH $=74+[($ BASE $-1,192) \times 0.09]-(14 \times$ allowances $)$ |  |

## Use the Formula that Matches Your Payroll Period:

Twice-a-month formula:
BASE = wages - federal tax withheld (not to exceed \$229) - standard deduction (\$78[S]/\$156[M])

```
Single with less than 3 allowances-use standard deduction (\$78 [S])
If BASE is:
            But
            Not
Over Over
    \(0 \rightarrow 119 \quad \mathrm{WH}=\mathrm{BASE} \times 0.05-(7 \times\) allowances \()\)
    \(119 \rightarrow 298 \quad \mathrm{WH}=6+[(\mathrm{BASE}-119) \times 0.07]-(7 \times\) allowances \()\)
    \(298 \rightarrow \quad \mathrm{WH}=18+[(\mathrm{BASE}-298) \times 0.09]-(7 \times\) allowances \()\)
```

Married, or single with 3 or more allowances-use standard deduction (\$156 [M])
If BASE is:

|  | But <br> Not |  |
| :---: | :---: | :---: |
| Over | Over |  |
| $0 \rightarrow$ | 238 | WH $=$ BASE $\times 0.05-(7 \times$ allowances $)$ |
| $238 \rightarrow$ | 596 | $\mathrm{WH}=12+[(\mathrm{BASE}-238) \times 0.07]-(7$ |
| $596 \rightarrow$ |  | $\mathrm{WH}=37+[(\mathrm{BASE}-596) \times 0.09]-(7 \times$ |

## Every two-week formula:

BASE = wages - federal tax withheld (not to exceed \$212) - standard deduction (\$72[S]/\$144[M])

## Single with less than 3 allowances-use standard deduction (\$72 [S])

| If BASE is: |  |  |
| :---: | :---: | :---: |
| But |  |  |
|  | Not |  |
| Over | Over |  |
| 0 | $\rightarrow \quad 110$ | WH $=$ BASE $\times 0.05-(6 \times$ allowances $)$ |
| 110 | $\rightarrow 275$ | $\mathrm{WH}=5+[(\mathrm{BASE}-110) \times 0.07]-(6 \times$ allowances $)$ |
| 275 | $\rightarrow$ | $\mathrm{WH}=17+[(\mathrm{BASE}-275) \times 0.09]-(6 \times$ allowances $)$ |

## Married, or single with $\mathbf{3}$ or more allowances-use standard deduction (\$144 [M])

If BASE is:
But
Not
Over Over
$0 \rightarrow 219 \quad \mathrm{WH}=\mathrm{BASE} \times 0.05-(6 \times$ allowances $)$
$219 \rightarrow 550 \quad \mathrm{WH}=11+[(\mathrm{BASE}-219) \times 0.07]-(6 \times$ allowances $)$
$550 \rightarrow \quad \mathrm{WH}=34+[(\mathrm{BASE}-550) \times 0.09]-(6 \times$ allowances $)$

## Use the Formula that Matches Your Payroll Period:

## Weekly formula:

BASE = wages - federal tax withheld (not to exceed \$106) - standard deduction (\$36[S]/\$72[M])
Single with less than $\mathbf{3}$ allowances-use standard deduction (\$36 [S])

If BASE is:
But
Not
Over Over
$0 \rightarrow 55$
$\mathrm{WH}=\mathrm{BASE} \times 0.05-(3 \times$ allowances $)$
$55 \rightarrow 138$
$\mathrm{WH}=3+[(\mathrm{BASE}-55) \times 0.07]-(3 \times$ allowances $)$
$138 \rightarrow \quad \mathrm{WH}=9+[(\mathrm{BASE}-138) \times 0.09]-(3 \times$ allowances $)$

Married, or single with 3 or more allowances-use standard deduction (\$72[M])
If BASE is:

|  | But <br> Not <br> Over |  |
| ---: | :--- | :--- |
| Over |  |  |$\quad$|  |  |
| :--- | :--- |
| 0 | $\rightarrow$ |
| 110 | $\mathrm{WH}=\mathrm{BASE} \times 0.05-(3 \times$ allowances $)$ |
| 110 | $\rightarrow 275$ |
| 275 | $\rightarrow$ |

## Daily formula:

BASE = wages - federal tax withheld (not to exceed \$21) - standard deduction (\$7[S]/\$14[M])

## Single with less than 3 allowances-use standard deduction (\$7 [S])

If BASE is:
But
Not
Over Over

$$
\begin{array}{rll}
0 & \rightarrow 11 & \mathrm{WH}=\mathrm{BASE} \times 0.05-(1 \times \text { allowances }) \\
11 & \rightarrow 28 & \mathrm{WH}=1+[(\mathrm{BASE}-11) \times 0.07]-(1 \times \text { allowances }) \\
28 & \rightarrow & \mathrm{WH}=2+[(\mathrm{BASE}-28) \times 0.09]-(1 \times \text { allowances })
\end{array}
$$

Married, or single with 3 or more allowances-use standard deduction (\$14 [M])
If BASE is:

| But |  |  |
| :---: | :---: | :---: |
|  |  |  |
| Over | Over |  |
| 0 | $\rightarrow 22$ | WH $=$ BASE $\times 0.05-(1 \times$ allowances $)$ |
| 22 | $\rightarrow 55$ | $\mathrm{WH}=1+[(\mathrm{BASE}-22) \times 0.07]-(1 \times$ allowances $)$ |
| 55 | $\rightarrow$ | $\mathrm{WH}=3+[(\mathrm{BASE}-55) \times 0.09]-(1 \times$ allowances $)$ |

## Frequently Asked Questions About the Withholding Computer Formula

1. Does the federal withholding amount subtracted include FICA? No.
2. What standard deduction amount should be entered for the Oregon formula? For employees claiming single status, use $\$ 1,870$ divided by the number of pay periods. For employees claiming married status, use $\$ 3,740$ divided by the number of pay periods. For single employees with three or more allowances, use $\$ 3,740$ divided by the number of pay periods.
3. What do you do if the federal tax withholding exceeds $\boldsymbol{\$} \mathbf{5 , 5 0 0}$ on an annual basis? Use $\$ 5,500$.
4. What is the difference between twice a month and every two weeks? The twice-a-month formula is based upon 24 pay periods a year. The every two weeks or biweekly formula is based upon 26 pay periods a year.
5. Is there a straight percentage method that can be used instead of the formula? No. Even though Oregon's top tax rate is 9 percent, employees usually pay less than 9 percent of their wages due to the federal tax subtraction, the standard deduction, and the personal exemption credit. The actual percentage they pay depends on a number of factors.
6. Why is the formula withholding amount different from that shown on the tables? The difference should be very small and only due to rounding, if there is any difference at all. If there is a substantial difference, check your calculations. Many times the error can be corrected by completing the mathematical operation inside the brackets before subtracting the withholding allowance.
7. If the withholding amount is negative, what do I use? Zero, however, you should check your calculations to make sure your entries are correct.
8. Does my computer program need to allow for subtracting federal withholding from gross wages? Yes, up to $\$ 5,500$ on an annual basis.
9. Is the personal exemption credit subtracted before or after the other calculations? After.
10. Is the format of the Oregon withholding formula similar to that for the federal formula? Yes; however, the tax brackets and rates are different. In addition, the Oregon formula requires subtracting the personal exemption credit after the other calculations.
11. What should $I$ do if $m y$ "canned" computer package cannot use the Oregon withholding formula? Most of the newer packages are flexible enough to use the Oregon formula. Usually you need to answer a menu of questions about items such as subtracting federal withholding and how to subtract the personal allowance. Some of the older packages do not allow for subtracting federal withholding or for subtracting the personal credit allowance after the other calculations. If your package does not accommodate the Oregon formula, you should contact the publisher of the package.
12. Why is withholding lower in the new tables and formulas? There are several reasons. The standard deduction, the federal tax subtraction, and the personal exemption credit have all increased, which mean employees will owe less tax on a given wage amount.
13. Do my employees need to adjust their W-4? Maybe. For a given number of allowances, Oregon withholding has been lowered. Your employees may need to decrease the number of allowances they claim or specify an additional dollar amount to avoid owing tax when they file their return.
14. Can employees use different $\mathbf{W}$ - 4 withholding information (allowances, etc.) for Oregon withholding than they do for federal withholding? Yes, employees can fill out a different W -4 with different information for Oregon. They should indicate the change and write "For Oregon Only" at the top of the W-4
