

UNITED STATES DEPARTMENT OF ENERGY
NATIONAL ENERGY TECHNOLOGY LABORATORY (NETL)

NONEXCLUSIVE PATENT LICENSE APPLICATION

TO BE COMPLETED BY NETL:
APPLICATION NO.: _____

The _____

(Name and address of Applicant)

does hereby apply to the Director of the NETL for a nonexclusive license to an invention(s) made by a NETL employee(s) while in the performance of official duties, and thus assigned to the U.S. Department of Energy. It is understood that any license granted shall be subject to the conditions set forth in 37 CFR § 404.5.

An application for a nonexclusive license should set forth the following, and, in addition, any other information that applicant deems would be of importance to show that the accord of a non-exclusive license is in the public interest.

Applications should be addressed to:

Lisa A. Jarr
Patent Attorney
U.S. Department of Energy
National Energy Technology Laboratory
P.O. Box 880
3610 Collins Ferry Road
Morgantown, WV 26505

INFORMATION REQUIRED:

1. Information Regarding Applicant

(a) Citizenship and State of Incorporation: _____

(b) Name, title, and telephone number of representative of applicant with whom negotiations are to be conducted:

2. Identification of Invention

(a) Patent Number or Patent Application Serial Number:

(b) Title: _____

3. Nature and type of applicant's business, including identification of products or services which applicant has successfully commercialized, and including approximate number of applicant's employees: _____

4. Applicant's status, if applicable, as a small business, as defined at section 2 of Pub. L. No. 85-536 (15 U.S.C. 632) and implementing regulations of the Small Business Administration: _____

5. Source of information concerning the availability for license of the invention:

6. In support of this application, please submit, as an appendix hereto, a detailed description of applicant's plan for development and/or marketing of the invention, which should include:
- (a) A statement as to applicant's intention to fulfill the plan, including applicant's manufacturing, marketing, financial, and technical capability to fulfill the plan.
 - (b) A statement of the time, nature, and amount of anticipated investment of capital and other resources which applicant believes will be necessary to bring the invention to practical application;
 - (c) A statement of the field or fields of use for which applicant intends to practice the invention; and
 - (d) A statement of the geographic areas in which applicant intends to manufacture, use, or sell any products embodying the invention or produced through the use of the invention.

The facts set forth in this request for license are within the knowledge of the requestor and are submitted with the intention that the Director of the NETL rely on them in reaching the license determination.

Respectfully submitted,

(Signature)
