

Postdoctoral Research Associate in Chemical Sciences

Chemical Sciences Division
Oak Ridge National Laboratory
Oak Ridge, Tennessee

ORNL08-76-CSD

Project Description:

The successful candidate will develop separation procedures and protocols to analyze radioelements and radionuclides using a large array of techniques including ion chromatography and ICP MS. More fundamental separation research will also involve solvent extraction using radiotracers or ICP AES. A strong analytical background is required.

Qualifications Required:

Requires a Ph.D. degree in chemistry or closely related field. Applicants cannot have received the most recent degree more than five years prior to the date of application. Expected duration of these appointments is one year with the possibility of an extension. Interested candidates need to apply as soon as possible. Please reference the position title and number, when corresponding about this position. This appointment is offered through the ORNL Postdoctoral Research Associates Program (<http://www.ornl.gov/orise/edu/ornl/ornl-pd/ornlpdoc.htm>).

How to Apply:

Qualified applicants may apply online at https://www2.ornl.gov/ORNL_POST/. All applicants will need to register before they can begin the online application. For complete instructions, on how to apply, please see the instructions at <http://www.ornl.gov/orise/edu/ornl/ornl-pdpm/application.htm>. When corresponding to ORNL regarding this position, please reference the position title and number.

This appointment is offered through the ORNL Postdoctoral Research Associates Program and is administered by Oak Ridge Associated Universities (ORAU). This appointment is open to all qualified *U.S. citizens* without regard to race, color, age, religion, sex, national origin, physical or mental disability, or status as a Vietnam-era veteran or disabled veteran.

Technical Contact:

Lætitia Delmau (delmaulh@ornl.gov) was named by *Technology Review* magazine as one of the world's top young innovators.
