

Thank you for considering expansion of the coupon program to include those with only a post office box for a mailing address. Perhaps it would help if I tell you our situation so you can make sure we, and others like us, are covered.

Five years ago we retired, sold our home, and began traveling in an RV to see this beautiful country. Because we no longer have a fixed home we signed up with Alternative Resources in Sioux Falls, SD to handle our mail. We became legal residents of South Dakota, complete with drivers license, vehicle registration, and voting rights.

We are two of many thousands of citizens doing the same thing as us. I tried to get the coupon but was denied because our mail address is a business address (Alternative Resources).

We need one coupon. Our living room TV is digital but the one in the bedroom is analog.

We would very much appreciate our inclusion in the coupon program.

Thank you.
