#### Help:

- ▶ Use the CTRL and/or Shift keys to select multiple areas and years. (In the Local Area Personal Income application multiple areas are not selectable; select one state and proceed from there, or select the "Single Line" option in Step 1.) Press *Display* to display your selection in HTML tables, and *Download* to download a comma-separated-value text file. If you select *Download* a "Save As" dialog box will appear. It is recommended that you specify an output filename with a CSV extension. Some users will have the option to open the downloaded file directly into a spreadsheet application.
- ▶ The greater the number of areas and years selected, the slower the request will be. A submission that requests too much information has the possibility of timing out. If you are displaying information, you will want to consider how large your table will be.
- ▶ To view county-level information first display a State.
- ▶ After displaying a table, you have the option to show one estimate for all counties and MSAs in that State by clicking on the line code next to the estimate.
