QA:NA

Facility SIC Report - Criteria Air Pollutants

Geographic Area: York Co, PA

Pollutant: Nitrogen Oxides, Particulate (size < 2.5 micrometers), Volatile Organic Compounds

Year: 1999

Emissions In Tons Per Year

39 Rows

See [Disclaimer](#)

Row #	Industry Type (SIC)	Number of Facilities	Percent of Total Facilities	Pollutant Emissions			Percent of Total Emissions		
				NOx	PM2.5	VOC	NOx	PM2.5	VOC

Disclaimer: Information for this report comes from an extract of EPA's National Emission Inventory (NEI) database. Data were extracted in August 2005 from the Final 1999 NEI Version 3. NEI is an emissions database developed by EPA. It is based partially on emission data obtained from State and local agencies, but it is not a database of official State emissions data. Please contact the appropriate State agency to obtain information on a State's official emission inventory. Please contact EPA to report errors.

Readers are cautioned not to infer a qualitative ranking order of geographic areas based on AirData reports. Air pollution levels measured in the vicinity of a particular monitoring site may not be representative of the prevailing air quality of a county or urban area. Pollutants emitted from a particular source may have little impact on the immediate geographic area, and the amount of pollutants emitted does not indicate whether the source is complying with applicable regulations.
