PPPL	PRINCETON PLASMA PHYSICS LABORATORY	POLICY		No. P-003 Rev 0 page 1 of 1
		Subject:	Effective Date:	Initiated by:
Environment, Health, and Safety Policy		March 31, 1993	Head, ES&H/Infrastructure Support	
		Supersedes:	Approved:	
		New	Director	

It is PPPL policy that health and safety of the public, PPPL personnel and on-site subcontractors, the preservation of the environment, and the protection of Laboratory property receive the highest consideration in all our work. It is imperative that we achieve excellence in our Laboratory Environment, Safety, and Health (ES&H) Program.

Reasonable precautions shall be taken in the performance of the Laboratory's tasks to protect its personnel, visitors, neighbors, property, and the environment from injury. The Laboratory shall

- comply with all applicable federal, state, local, and University ES&H regulations;
- actively encourage ES&H awareness on the part of our employees and visitors; and
- assess and minimize the inherent ES&H risks in our program.

ES&H is a line responsibility extending throughout the line organization to all Laboratory management, employees, and subcontractors. The responsibilities are defined in the referenced PPPL documents.

Workers will be informed of their rights and responsibilities under this Policy and 10CFR851, Worker Safety and Health Program by various means, including posting a DOE–designated worker protection poster in the workplace. One or more worker representatives will have the opportunity to participate in briefings and in the walk-around phase of any DOE conducted enforcement inspections. All workers may request and receive the results of inspections and accident investigations. **TCR-P-003, R0-003**
