

# NSTX Center Stack

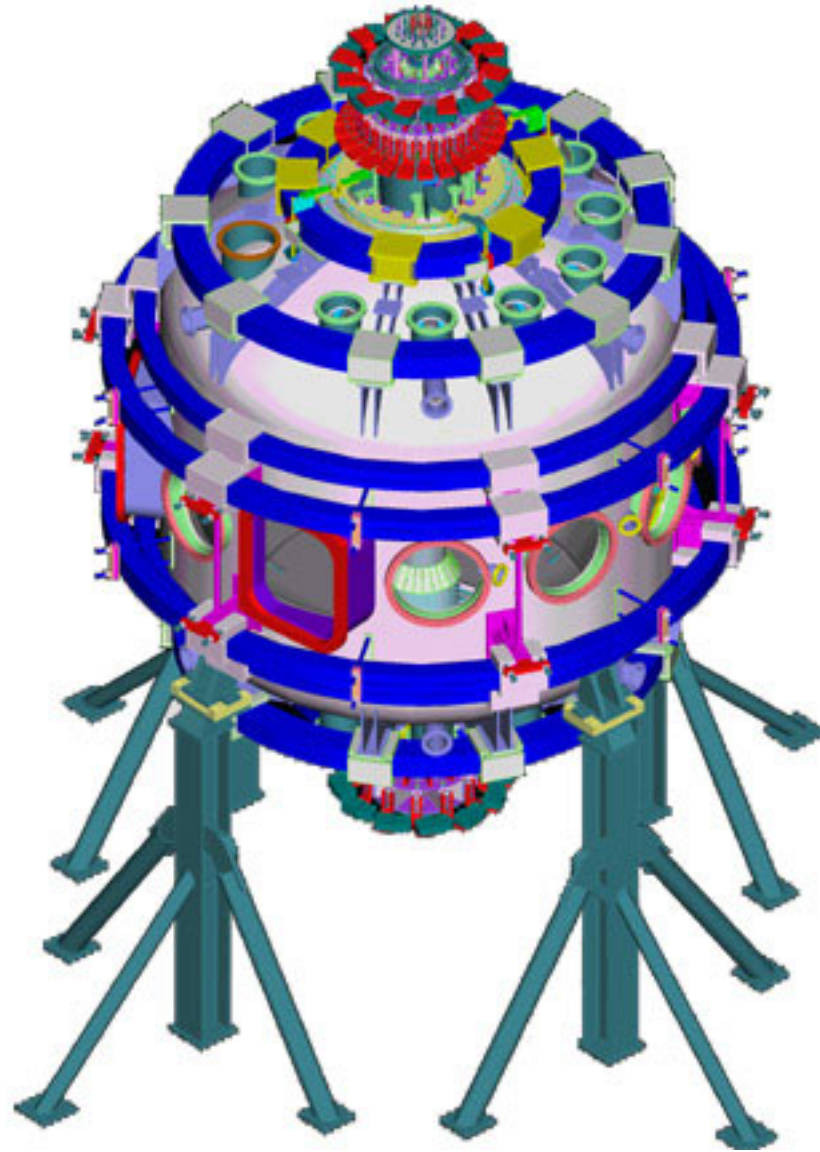

# With RF Antenna

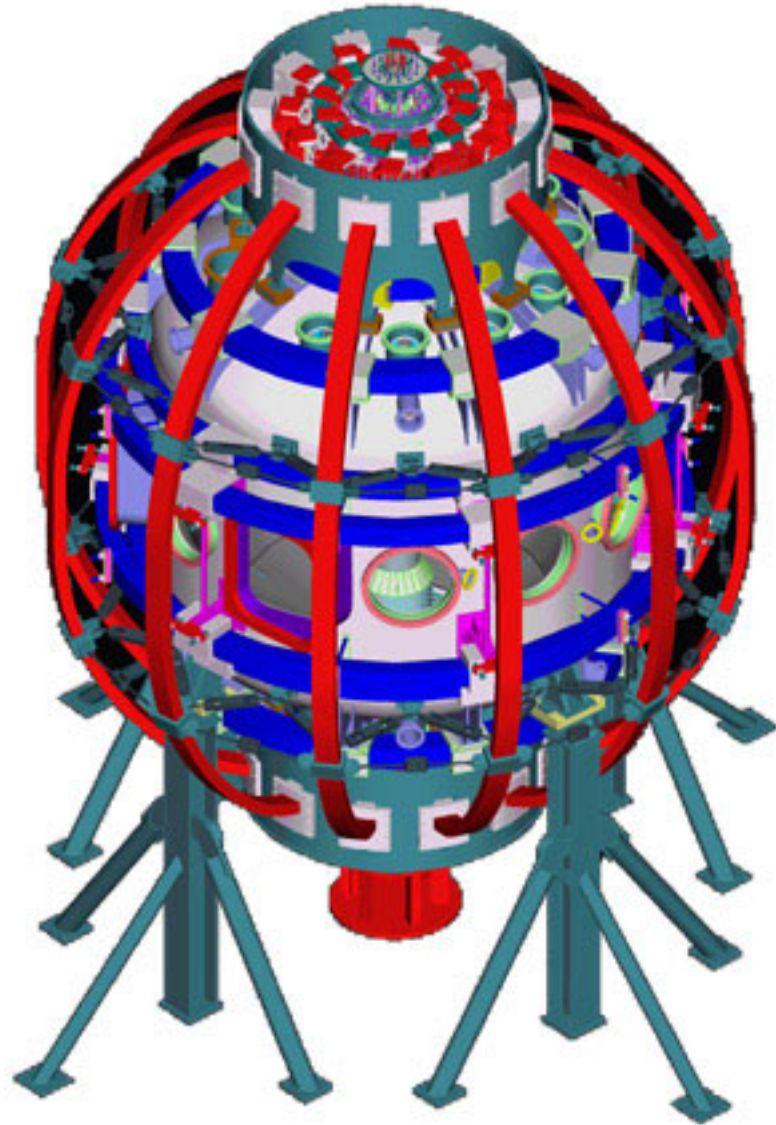

# Vacuum Vessel and Supports

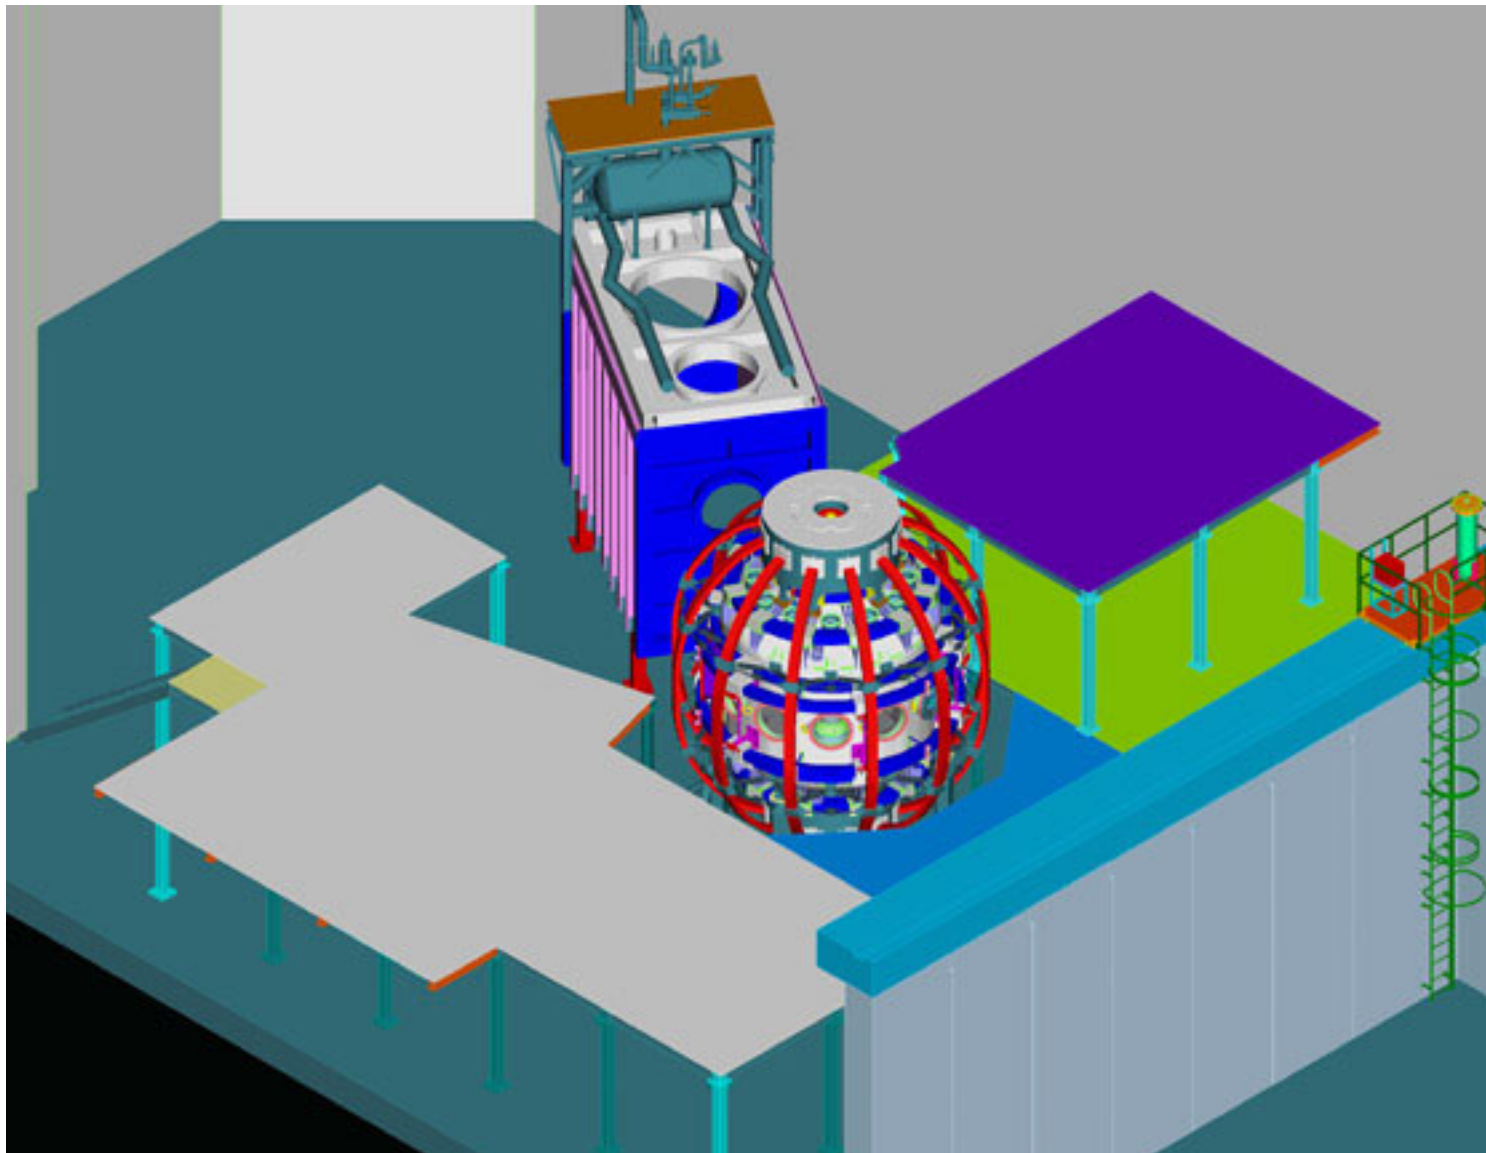

# With Poloidal Field Coils

# With Toroidal Field Coils

# The Room with Neutral Beam

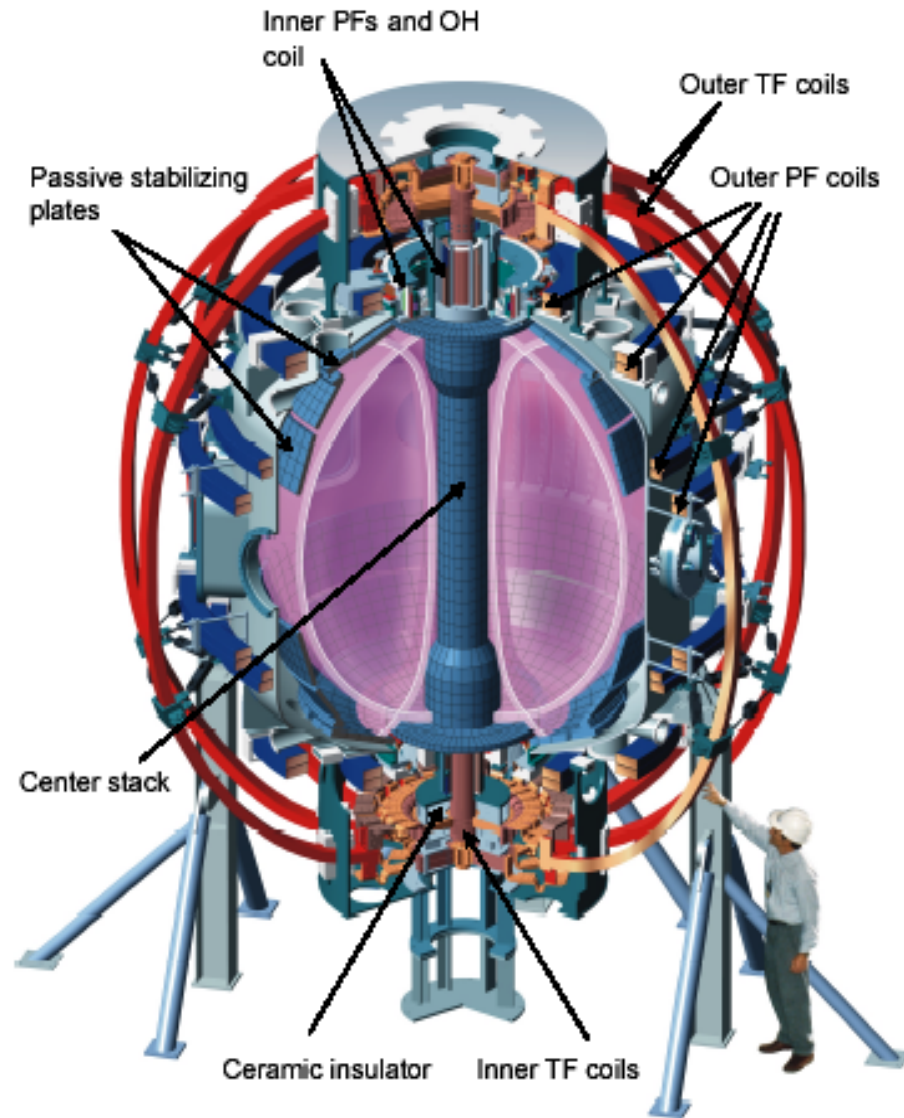

# National Spherical Tokamak Experiment

# Cut Away View

- Spherical tokamak with high  $\beta$  (plasma pressure/magnetic field pressure)
- Began in 1999
- \$35M/yr budget
- 100 FTE's from 40 institutions
