Develops specifications for materials and equipment used in water and sewage facilities.

Qualifications and Evaluation

Qualifications:

Candidates must show successful completion of a full 4 year course of study in an accredited college or university leading to a bachelor's or higher degree in professional engineering. You must attach a copy of your college transcript. To be acceptable, the curriculum must:

1. Be in a school of engineering with at least one curriculum accredited by the Accreditation Board for Engineering and Technology (ABET) as a professional engineering curriculum; or
2. Include differential and integral calculus and courses (more advanced than first year physics and chemistry) in five of the following seven areas of engineering science or physics: (a) statics, dynamics; (b) strength of materials (stress strain relationships); (c) fluid mechanics, hydraulics; (d) thermodynamics; (e) electrical fields and circuits; (f) nature and properties of materials (relating particle and aggregate structure to properties); and (g) any other comparable area of fundamental engineering science or physics, such as optics, heat transfer, soil mechanics, or electronics. OR

Combination of education and experience - college level education, training, and/or technical experience that furnished (1) a thorough knowledge of the physical and mathematical sciences underlying professional engineering, and (2) a good understanding, both theoretical and practical, of the engineering sciences and techniques and their applications to one of the branches of engineering.

The adequacy of such background must be demonstrated by one of the following: (1) Professional Registration; or (2) Written Test (Engineer in Training); or (3) Specified Academic Courses; or (4) Related Curriculum.

In addition to meeting the basic education requirement, applicants must demonstrate specialized experience and/or directly related education in the amounts shown below:

For GS-11: One year of specialized experience equivalent to the GS-9 level in federal service, OR 3 years of progressively higher level Graduate education leading to a Ph.D Degree or equivalent doctoral degree.

SPECIALIZED EXPERIENCE DEFINED: Experience which has equipped the applicant with the particular knowledge, skills, and abilities to perform successfully the duties of the position and which is typically in or related to the work of the position to be filled. This is professional environmental and/or civil engineering experience in the planning, design, and construction of sanitation facilities.

TIME IN GRADE REQUIREMENT: Federal status applicants must have completed at least 52 weeks of service in a position no more than one grade lower than the position to be filled. If selected under the Excepted Service Examining Plan, individuals may be appointed without regard to time-in-grade requirement.

Equivalent combinations of education and experience are qualifying for all grade levels and positions for which both education and experience are acceptable.

You must meet the requirements of the position by the closing date of the job announcement and provide the required supporting documents no later than 12:00 midnight EST on the closing date of the job announcement to be considered for this position.

How You Will Be Evaluated:

The HHS Careers system simplifies the Federal application process by replacing the former KSA job-element statements with on-line self-assessment questions. Your resume and responses to the self-assessment questions are an integral part of the process for determining your basic and specialized qualifications for the position.

If found qualified, your score will range from 70-100 points (not including points that may be assigned for Veterans' Preference) and will be based on your responses to the questions and information stated in your application. Please follow all instructions carefully as errors and omissions may affect your score. Your score is critical for you being referred for the job. You will be deemed well qualified if you score 85 and above.

Therefore, it is important to support your responses to the vacancy questions by providing examples of past and present experience when requested.

Additional details on the application process can be found under the How to Apply tab.
