Note.—A duplicate listing for an individual 8-digit HTS subheading indicates that the 10-digit categories within that 8-digit subheading are in more than one industry/commodity group or subgroup.

The above table shows the range of HTS 8-digit items assigned to industry/commodity groups and subgroups, and should be considered a guideline only because actual industry/commodity group and subgroup assignments are made on a HTS 10-digit basis. Therefore, any data generated on the basis of the information contained in this table may not accurately represent trade for these groups. The USITC's industry/commodity groupings and subgroupings are subject to frequent revision as dictated by modifications to the HTS and other factors.
