1 . Key: ACBC = Audubon Christmas Bird Count, BBS = Breeding Bird Survey, CAT = Category 1 or 2 "candidate," PIF = Partners in Flight. NOTE: Numerous other combinations of these criteria are potentially possible, but only those that were actually encountered (and which appear in Table 1) are listed here.

2 . Key: U = Delphi score of Undetermined, L = Delphi score of Low, M = Delphi score of Moderate, and H = Delphi score of High. NOTE: Other symbols may be potentially possible with any combination of factors, but only those that were actually encountered (and which appear in Table 1) are listed here.
