The Greening of Seattle

The Seattle Green Factor is a new menu of landscape strategies that recognizes that landscapes are more than just pretty. They bring natural processes back to the city, too. By adopting the Seattle Green Factor into Seattle's land use code, new development is helping to create a more sustainable urban environment for everyone to enjoy.

Rain Gardens

Green Roofs & Walls

Green Factor strategies may be combined in a variety of ways and include:

Layering of Plant Materials

Xeriscaping for Drought Tolerance

Rainwater Harvesting

Landscaping Visible to the Public

Tree Preservation & Use of Larger Trees

 City of Seattle
Department of Planning and Development
Office of Green Growth
