**THINK GREEN**  
A multi-use school, such as this one, can be the center of a community's daily activities. Other than classroom learning, what can your school provide to the people in your community?

**THINK GREEN**  
Green schoolyards are a resource for the whole community. How can you get your community involved and create one at your school?

**THINK GREEN**  
Sustainable schoolyard is only part of a green community. How might some of these sustainable practices fit into your home and neighborhood?
